The White Deer, 1973 A Latvian tale of two brothers in search of an enchanted White Deer.

Milton's Socratic Rationalism David Oliver Davies, 2017-08-17 Milton's Socratic Rationalism focuses on the influence of Milton's years of private study of classical authors, chiefly Plato, Xenophon and Aristotle, on *Paradise Lost*. It examines the conversations of Adam and Eve as a mode of discourse closely aligned to practices of Socrates in the dialogues of Plato and eponymous discourses of Xenophon.

Death of an Assassin Ann Marie Ackermann, 2017 From the depths of German and American archives comes a story one soldier never wanted told. The first volunteer killed defending Robert E. Lee's position in battle was really a German assassin. After fleeing to the United States to escape prosecution for murder, the assassin enlisted in a German company of the Pennsylvania Volunteers in the Mexican-American War and died defending Lee's battery at the Siege of Veracruz in 1847. Lee wrote a letter home, praising this unnamed fallen volunteer defender. Military records identify him, but none of the Americans knew about his past life of crime. Before fighting with the Americans, Lee's defender had assassinated Johann Heinrich Rieber, mayor of Bönningheim, Germany, in 1835. Rieber's assassination became 19th-century Germany's coldest case ever solved by a non-law enforcement professional and the only 19th-century German murder ever solved in the United States. Thirty-seven years later, another suspect in the assassination who had also fled to America found evidence in Washington, D.C., that would clear his own name, and he forwarded it to Germany. The German prosecutor Ernst von Hochstetter corroborated the story and closed the case file in 1872, naming Lee's defender as Rieber's murderer. Relying primarily on German sources, *Death of an Assassin* tracks the never-before-told story of this German company of Pennsylvania volunteers. It follows both Lee's and the assassin's lives until their dramatic encounter in Veracruz and picks up again with the surprising case resolution decades later. This case also reveals that forensic ballistics--firearm identification through comparison of the striations on a projectile with the rifling in the barrel--is much older than previously thought. History credits Alexandre Laccasagne for inventing forensic ballistics in 1888. But more than 50 years earlier, Eduard Hammer, the magistrate who investigated the Rieber assassination in 1835, used the same technique to eliminate a forester's rifle as the murder weapon. A firearms technician with state police of Baden-Württemberg tested Hammer's technique in

2015 and confirmed its efficacy, cementing the argument that Hammer, not Laccasagne, should be considered the father of forensic ballistics. The roles the volunteer soldier/assassin and Robert E. Lee played at the Siege of Veracruz are part of American history, and the record-breaking, 19th-century cold case is part of German history. For the first time, Death of an Assassin brings the two stories together.

Love and its Critics Michael Bryson, Arpi Movsesian, 2017-07-10 This book is a history of love and the challenge love offers to the laws and customs of its times and places, as told through poetry from the Song of Songs to John Milton's Paradise Lost. It is also an account of the critical reception afforded to such literature, and the ways in which criticism has attempted to stifle this challenge. Bryson and Movsesian argue that the poetry they explore celebrates and reinvents the love the troubadour poets of the eleventh and twelfth centuries called fin'amor: love as an end in itself, mutual and freely chosen even in the face of social, religious, or political retribution. Neither eros nor agape, neither exclusively of the body, nor solely of the spirit, this love is a middle path. Alongside this tradition has grown a critical movement that employs a 'hermeneutics of suspicion', in Paul Ricoeur's phrase, to claim that passionate love poetry is not what it seems, and should be properly understood as worship of God, subordination to Empire, or an entanglement with the structures of language itself - in short, the very things it resists. The book engages with some of the seminal literature of the Western canon, including the Bible, the poetry of Ovid, and works by English authors such as William Shakespeare and John Donne, and with criticism that stretches from the earliest readings of the Song of Songs to contemporary academic literature. Lively and enjoyable in its style, it attempts to restore a sense of pleasure to the reading of poetry, and to puncture critical insistence that literature must be outwitted. It will be of value to professional, graduate, and advanced undergraduate scholars of literature, and to the educated general reader interested in treatments of love in poetry throughout history.

The Convivial Homeschool Mystie Winckler, 2021-11-26 Thirty daily readings to build up your confidence and cheerfulness as you homeschool. Homeschool days can be long and hard. It's easy to lose sight of what's actually happening in the midst of the day to day. Even when we lose our vision, God does not lose His. While we attempt to teach and disciple our children, we find that it is ourselves needing the instruction and discipleship. We also find that God provides both, using our decision to homeschool to draw us closer to Himself. To continue with love and perseverance, we need confidence not in our work but in God's. These thirty readings will lift up your eyes and spirit so you can focus on what truly matters while doing the daily work of educating your kids. This volume is a wonderful resource of wisdom for moms everywhere who struggle and wonder if they are doing enough. --Cindy Rollins, author of *Mere Motherhood*

Bleak Houses Timothy J. Brittain-Catlin, 2016-02-12 Why some architects fail to realize their ideal buildings, and what architecture critics can learn from novelists. The usual history of architecture is a grand narrative of soaring monuments and heroic makers. But it is also a false narrative in many ways, rarely acknowledging the personal failures and disappointments of architects. In *Bleak Houses*, Timothy Brittain-Catlin investigates the underside of architecture, the stories of losers and unfulfillment often ignored by an architectural criticism that values novelty, fame, and virility over fallibility and rejection. As architectural criticism promotes increasingly narrow values, dismissing certain styles wholesale and subjecting buildings to a Victorian litmus test of "real" versus "fake," Brittain-Catlin explains the effect this superficial criticality has had not only on architectural discourse but on the quality of buildings. The fact that most buildings receive no critical scrutiny at all has resulted in vast stretches of ugly modern housing and a pervasive public illiteracy about architecture.

Conversations of Socrates Xenophon,2004-02-05 After the execution of Socrates in 399 BC, a number of his followers wrote dialogues featuring him as the protagonist and, in so doing, transformed the great philosopher into a legendary figure. Xenophon's portrait is the only one other than Plato's to survive, and while it offers a very personal interpretation of Socratic thought, it also reveals much about the man and his philosophical views. In 'Socrates' Defence' Xenophon defends his mentor against charges of arrogance made at his trial, while the 'Memoirs of Socrates' also starts with an impassioned plea for the rehabilitation of a wronged reputation. Along with 'The Estate-Manager', a practical economic treatise, and 'The Dinner-Party', a sparkling exploration of love, Xenophon's dialogues offer fascinating insights into the Socratic world and into the intellectual atmosphere and daily life of ancient Greece.

Studies in Platonic Political Philosophy Leo Strauss,1983 One of the outstanding thinkers of our time offers in this book his final words to posterity. Studies in Platonic Political Philosophy was well underway at the time of Leo Strauss's death in 1973. Having chosen the title for the book, he selected the most important writings of his later years and arranged them to clarify the issues in political philosophy that occupied his attention throughout his life. As his choice of title indicates, the heart of Strauss's work is Platonism—a Platonism that is altogether unorthodox and highly controversial. These essays consider, among others, Heidegger, Husserl, Nietzsche, Marx, Moses Maimonides, Machiavelli, and of course Plato himself to test the Platonic understanding of the conflict between philosophy and political society. Strauss argues that an awesome spiritual impoverishment has engulfed modernity because of our dimming awareness of that conflict. Thomas Pangle's Introduction places the work within the context of the entire Straussian corpus and focuses especially on Strauss's late Socratic writings as a key to his mature thought. For those already familiar with Strauss, Pangle's essay will provoke thought and debate; for beginning readers of Strauss, it provides a fine introduction. A complete bibliography of Strauss's writings is included.

The Swan King Christopher McIntosh, 2019-11-06 The Swan King is the biography of one of the most enigmatic figures of the 19th century, described by Verlaine as 'the only true king of his century'. A man of wildly eccentric temperament and touched by a rare, imaginative genius, Ludwig II of Bavaria is remembered both for his patronage of Richard Wagner and for the fabulous palaces which he created as part of a dream-world to escape the responsibilities of state. In realization of his fantasies, he created a ferment of creativity among artists and craftsmen, while his neglect of Bavaria's political interests made powerful enemies among those critical of his self-indulgence and excesses. At the age of 40, declared insane in a plot to depose him, Ludwig died in mysterious circumstances.
