The Power of One Trudy Ludwig, 2020-08-25 One small act of kindness can change the world. From esteemed bullying expert and author of *The Invisible Boy*, Trudy Ludwig and Little Elliot illustrator Mike Curato comes a tale as simple--and simply inspiring--as the golden rule. When one child reaches out in friendship to a classmate who seems lonely, she begins a chain reaction of kindness that ripples throughout her school and her community. One kind act begets another, small good deeds make way for bigger ones, and eventually the whole neighborhood comes together to build something much greater than the sum of its parts. From acclaimed bullying expert Trudy Ludwig, *The Power of One* not only conveys a message of kindness, it offers concrete steps that kids can take to make a difference in their own communities. As Trudy says in the final line of the book: Acts and words of kindness DO count, and it all starts with ONE.

Around the Table That Grandad Built Melanie Heuiser Hill, 2019-09-10 A beautifully illustrated celebration of bounty and gratitude, family and friendship, perfect for the holidays and every day. This is the table that Grandad built. These are the sunflowers picked by my cousins, set on the table that Grandad built. In a unique take on the cumulative classic "This Is the House That Jack Built," a family gathers with friends and neighbors to share a meal around a table that brims with associations: napkins sewn by Mom, glasses from Mom and Dad's wedding, silverware gifted to Dad by his grandma long ago. Not to mention the squash from the garden, the bread baked by Gran, and the pies made by the young narrator (with a little help). Serving up a diverse array of dishes and faces, this warm and welcoming story is poised to become a savored part

of Thanksgiving traditions to come.

Hands Up! Breanna J. McDaniel, 2019-01-22 This triumphant picture book recasts a charged phrase as part of a black girl's everyday life--hands up for a hug, hands up in class, hands up for a high five--before culminating in a moment of resistance at a protest march. A young black girl lifts her baby hands up to greet the sun, reaches her hands up for a book on a high shelf, and raises her hands up in praise at a church service. She stretches her hands up high like a plane's wings and whizzes down a hill so fast on her bike with her hands way up. As she grows, she lives through everyday moments of joy, love, and sadness. And when she gets a little older, she joins together with her family and her community in a protest march, where they lift their hands up together in resistance and strength.

The Politics Industry Katherine M. Gehl, Michael E. Porter, 2020-06-23 Leading political innovation activist Katherine Gehl and world-renowned business strategist Michael Porter bring fresh perspective, deep scholarship, and a real and actionable solution, Final Five Voting, to the grand challenge of our broken political and democratic system. Final Five Voting has already been adopted in Alaska and is being advanced in states across the country. The truth is, the American political system is working exactly how it is designed to work, and it isn't designed or optimized today to work for us—for ordinary citizens. Most people believe that our political system is a public institution with high-minded principles and impartial rules derived from the Constitution. In reality, it has become a private industry dominated by a textbook duopoly—the Democrats and the Republicans—and plagued and perverted by unhealthy competition between the players. Tragically, it has therefore become incapable of delivering solutions to America's key economic and social challenges. In fact, there's virtually no connection between our political leaders solving problems and getting reelected. In *The Politics Industry*, business leader and path-breaking political innovator Katherine Gehl and world-renowned business strategist Michael Porter take a radical new approach. They ingeniously apply the tools of business analysis—and Porter's distinctive Five Forces framework—to show how the political system functions just as every other competitive industry does, and how the duopoly has led to the devastating outcomes we see today. Using this competition lens, Gehl and Porter identify the most powerful lever for change—a strategy comprised of a clear set of choices in two key areas: how our elections work and how we make our laws. Their bracing assessment and practical recommendations cut through the endless debate about various proposed fixes, such as term limits and campaign finance reform. The result: true political innovation. *The Politics Industry* is an original and completely nonpartisan guide that will open your eyes to the true dynamics and profound challenges of the American political system and provide real solutions for reshaping the system for the benefit of all. THE INSTITUTE FOR POLITICAL INNOVATION The authors will donate all royalties from the sale of this book to the Institute for Political Innovation.

Ages of Discord Peter Turchin, 2016-10-02 WE ARE ON THE WRONG TRACK Seventy percent of Americans (and counting) think so. The real wage of a US worker today is less than it was 40 years ago-but there are four times as many multimillionaires. As inequality grows, the politics become more poisonous. Every year, more and more Americans go on shooting sprees, killing strangers and passers-by-and now, increasingly, representatives of the state. Troubling trends of this kind are endlessly discussed by public intellectuals and social scientists. But mostly, they talk about only a small slice of the overall problem. After all, how on earth can yet another murderous rampage have anything to do with polarization in Congress? And is there really a connection between too many multimillionaires and government gridlock? Historical analysis shows that long spells of equitable prosperity and internal peace are succeeded by protracted periods of inequity, increasing misery, and political instability. These crisis periods-Ages of Discord-have recurred in societies throughout history. Modern

Americans may be disconcerted to learn that the US right now has much in common with the Antebellum 1850s and, more surprisingly, with ancien regime France on the eve of the French Revolution. Can it really be true that there is nothing new about our troubled time, and that similar ages arise periodically for similar underlying reasons? Ages of Discord marshals Structural-Demographic Theory and detailed historical data to show that this is, indeed, the case. The book takes the reader on a roller-coaster ride through American history, from the Era of Good Feelings of the 1820s to our first Age of Discord, which culminated in the American Civil War, to post-WW2 prosperity and, finally, to our present, second Age of Discord.

A Small Farm Future Chris Smaje, 2020-10-21 A modern classic of the new agrarianism Chris Smaje...shows that the choice is clear. Either we have a small farm future, or we face collapse and extinction.—Vandana Shiva Every young person should read this book.—Richard Heinberg In a groundbreaking debut, farmer and social scientist Chris Smaje argues that organizing society around small-scale farming offers the soundest, sanest and most reasonable response to climate change and other crises of civilisation—and will yield humanity's best chance at survival. Drawing on a vast range of sources from across a multitude of disciplines, A Small Farm Future analyses the complex forces that make societal change inevitable; explains how low-carbon, locally self-reliant agrarian communities can empower us to successfully confront these changes head on; and explores the pathways for delivering this vision politically. Challenging both conventional wisdom and utopian blueprints, A Small Farm Future offers rigorous original analysis of wicked problems and hidden opportunities in a way that illuminates the path toward functional local economies, effective self-provisioning, agricultural diversity and a shared earth. Perfect for readers of both Wendell Berry and Thomas Piketty, A Small Farm Future is a refreshing, new outlook on a way forward for society—and a vital resource for activists, students, policy makers, and anyone looking to enact change.

Pure Colour Sheila Heti, 2022-02-15 Winner of the 2022 Governor General's Literary Award in Fiction Shortlisted for the 2023 Rathbones Folio Prize in Fiction Named a Best Book of the Year by The New York Times, The New Yorker, Vulture, The Times Literary Supplement, and more Pure Colour is a galaxy of a novel: explosive, celestially bright, huge, and streaked with beauty. It is a contemporary bible, an atlas of feeling, and an absurdly funny guide to the great (and terrible) things about being alive. Sheila Heti is a philosopher of modern experience, and she has reimagined what a book can hold. Here we are, just living in the first draft of Creation, which was made by some great artist, who is now getting ready to tear it apart. In this first draft of the world, a woman named Mira leaves home to study. There, she meets Annie, whose tremendous power opens Mira's chest like a portal—to what, she doesn't know. When Mira is older, her beloved father dies, and his spirit passes into her. Together, they become a leaf on a tree. But photosynthesis gets boring, and being alive is a problem that cannot be solved, even by a leaf. Eventually, Mira must remember the human world she's left behind, including Annie, and choose whether or not to return.

Communities of the Palmer Divide, 2011 Native American tribes once traversed the east-west anomaly of the Rocky Mountains known as the Palmer Divide as a passage between the high ranges and the Great Plains. Lying between Denver and Colorado Springs, and named for William Jackson Palmer, founder of Colorado Springs, the offshoot range divides the great Platte and Arkansas River systems. Settlers homesteaded, farmed, and ranched the area. Railroad construction in the 1870s led to towns supporting commerce and tourism, particularly in the western section of the Palmer Divide, in what eventually became known as the Tri-Lakes Area. The area drew tourists who enjoyed hiking, wildflowers, and the outdoors, and facilitated such local industries as ice harvesting, lumber milling, ranching, and potato farming. A vast area north of

Colorado Springs, the Palmer Divide retains a picturesque rural nature and cohesive small-town feeling--creating such social events as the Rocky Mountain Chautauqua and the Yule Log Festival, as well as the enduring Palmer Lake Star on Sundance Mountain.

Silver, Sword, and Stone Marie Arana,2020-08-18 Winner, American Library Association Booklist's Top of the List, 2019 Adult Nonfiction Acclaimed writer Marie Arana delivers a cultural history of Latin America and the three driving forces that have shaped the character of the region: exploitation (silver), violence (sword), and religion (stone). "Meticulously researched, [this] book's greatest strengths are the power of its epic narrative, the beauty of its prose, and its rich portrayals of character...Marvelous" (The Washington Post). Leonor Gonzales lives in a tiny community perched 18,000 feet above sea level in the Andean cordillera of Peru, the highest human habitation on earth. Like her late husband, she works the gold mines much as the Indians were forced to do at the time of the Spanish Conquest. Illiteracy, malnutrition, and disease reign as they did five hundred years ago. And now, just as then, a miner's survival depends on a vast global market whose fluctuations are controlled in faraway places. Carlos Buergos is a Cuban who fought in the civil war in Angola and now lives in a quiet community outside New Orleans. He was among hundreds of criminals Cuba expelled to the US in 1980. His story echoes the violence that has coursed through the Americas since before Columbus to the crushing savagery of the Spanish Conquest, and from 19th- and 20th-century wars and revolutions to the military crackdowns that convulse Latin America to this day. Xavier Albó is a Jesuit priest from Barcelona who emigrated to Bolivia, where he works among the indigenous people. He considers himself an Indian in head and heart and, for this, is well known in his adopted country. Although his aim is to learn rather than proselytize, he is an inheritor of a checkered past, where priests marched alongside conquistadors, converting the natives to Christianity, often forcibly, in the effort to win the New World. Ever since, the Catholic Church has played a central role in the political life of Latin America—sometimes for good, sometimes not. In this "timely and excellent volume" (NPR) Marie Arana seamlessly weaves these stories with the history of the past millennium to explain three enduring themes that have defined Latin America since pre-Columbian times: the foreign greed for its mineral riches, an

ingrained propensity to violence, and the abiding power of religion. Silver, Sword, and Stone combines “learned historical analysis with in-depth reporting and political commentary...[and] an informed and authoritative voice, one that deserves a wide audience” (The New York Times Book Review).
