Ancient Aliens on Mars Mike Bara, 2013-10-02 New York Times best-selling author and Secret Space Program researcher Mike Bara brings us this lavishly illustrated volume on alien structures on Mars. Was there once a vast, technologically advanced civilization on Mars, and did it leave evidence of its existence behind for humans to find eons later? Did these advanced extraterrestrials vanish in a solar system-wide cataclysm of their own making, only to make their way to Earth and start anew? Was Mars once as lush and green as the Earth, and teeming with life? Did Mars once orbit a missing member of the solar system, a "Super Earth" that vanished in a disaster that devastated life on Earth and Venus and left us only the asteroid belt as evidence of its once grand existence? Did the survivors of this catastrophe leave monuments and temples behind, arranged in a mathematical precision designed to teach us the Secret of a new physics that could lift us back to the stars? Does the planet have an automated defense shield that swallows up robotic probes if they wander into the wrong areas? And are the lights still on down there, deep below the sands of Mars, just waiting for us to uncover them? Mike Bara examines all these questions and more in this astounding book, full of fascinating information on the following topics: Mars as the Abode of Life What Happened to Mars? The True Colors of Mars The Message of Cydonia The Politics of Mars The Pathfinder Sphinx Mars Global Surveyor Discoveries Face it, It's a Face Tons More!
