Sarabella's Thinking Cap Judy Schachner, 2017-09-05 From the bestselling creator of Skippyjon Jones, a heartwarming story about the importance of imagination and creativity. Sarabella is always thinking—conjuring, daydreaming, and creating new worlds from her imagination. There is so much going on in her head that it can barely be contained. But there are times when daydreaming is decidedly not a good thing—like when you're supposed to be doing multiplication tables. Luckily, Sarabella has an understanding teacher and with his encouragement She comes up with her own idea to show everyone who she is.

Red Chip Poker Doug Hull, James Sweeney, Christian Soto, 2014-02-02 The first volume in a series, the book reviews a collection of poker hands played from the button, cutoff, and hijack positions which illustrate concepts to help improve the reader's poker game.

Uranium Tom Zoellner, 2009 A history of the powerful mineral element explores its role as a virtually limitless energy source, its controversial applications as a healing tool and weapon, and the ways in which its reputation has been used to promote war agendas in the middle east.

Old In Art School Nell Painter, 2019-08-27 A finalist for the National Book Critics Circle Award, this memoir of one woman's later in life career change is “a smart, funny and compelling case for going after your heart's desires, no matter your age” (Essence). Following her retirement from Princeton University, celebrated historian Dr. Nell Irvin Painter surprised everyone in her life by returning to school—in her sixties—to earn a BFA and MFA in painting. In *Old in Art School*, she travels from her beloved Newark to the prestigious Rhode Island School of Design; finds meaning in the artists she loves, even as she comes to understand how they may be undervalued; and struggles with the unstable balance between the pursuit of art and the inevitable, sometimes painful demands of a life fully lived. How are women and artists seen and judged by their age, looks, and race? What does it mean when someone says, “You will never be an artist”? Who defines what an artist is and all that goes with such an identity, and how are these ideas tied to our shared conceptions of beauty, value, and difference? Bringing to bear incisive insights from two careers, Painter weaves a frank, funny, and often surprising tale of her move from academia to art in this glorious achievement—bighearted and critical, insightful and entertaining. This book is a cup of

courage for everyone who wants to change their lives (Tayari Jones, author of *An American Marriage*).

Biohistory Jim Penman, 2015 Biohistory is a revolutionary new theory that explores the biological and behavioural underpinnings of social change, including the rise and fall of civilisations. Informed by significant research into the physiological basis of behaviour conducted by author Dr Jim Penman and a team of scientists at RMIT University and the Florey Institute in Melbourne, Australia, Biohistory examines how a complex interplay between culture and biology has shaped civilisations from the Roman Empire to the modern West. Penman proposes that historical changes are driven by changes in the prevailing temperament of populations, based on physiological mechanisms that adapt animal behaviour to changing food conditions. It details the history of human society by mapping the effects of these epigenetic changes on cultures, and on historical tipping points including wars and revolutions. It shows how laboratory studies can be used to explain broad social and economic changes, including the fortunes of entire civilizations. The authors shocking conclusion is that the West is in terminal and inevitable decline, and that its only hope may lie with the biological sciences. Drawing on the disciplines of history, biology, anthropology and economics, Biohistory is the first theory of society that can be tested with some rigour in the laboratory. It explains how environment, cultural values and childrearing patterns determine whether societies prosper or collapse, and how social change can be both predicted and potentially modified through biochemistry.

Train Tom Zoellner, 2014-01-30 An epic and revelatory narrative of the most important transportation technology of the modern world In his wide-ranging and entertaining new book, Tom Zoellner—coauthor of the New York Times–bestselling *An Ordinary Man*—travels the globe to tell the story of the sociological and economic impact of the railway technology that transformed the world—and could very well change it again. From the frigid trans-Siberian railroad to the antiquated Indian Railways to the Japanese-style bullet trains, Zoellner offers a stirring story of this most indispensable form of travel. A masterful narrative history, *Train* also explores the sleek elegance of railroads and their hypnotizing rhythms, and explains how locomotives became living symbols of sex, death, power, and romance.

Caffeinated Murray Carpenter, 2015-01-27 “You’ll never think the same way about your morning cup of coffee.”—Mark McClusky, editor in chief of *Wired.com* and author of *Faster, Higher, Stronger* Journalist Murray Carpenter has been under

the influence of a drug for nearly three decades. And he's in good company, because chances are you're hooked, too. Humans have used caffeine for thousands of years. A bitter white powder in its most essential form, a tablespoon of it would kill even the most habituated user. This addictive, largely unregulated substance is everywhere—in places you'd expect (like coffee and chocolate) and places you wouldn't (like chewing gum and fruit juice), and Carpenter reveals its impact on soldiers, athletes, and even children. It can make you stronger, faster, and more alert, but it's not perfect, and its role in health concerns like obesity and anxiety will surprise you. Making stops at the coffee farms of central Guatemala, a synthetic caffeine factory in China, and an energy shot bottler in New Jersey, among numerous other locales around the globe, *Caffeinated* exposes the high-stakes but murky world of caffeine, drawing on cutting-edge science and larger-than-life characters to offer an unprecedented understanding of America's favorite drug.

Colorado Cache Cookbook Junior League of Denver, 1988 This treasure trove of recipes reflects Colorado's casual style of living, rich heritage and natural bounty. Each of the 15 sections features recipes that are upscale, yet uncomplicated, inspiring, yet reliable; and in the tradition of great American cooking. Bridge of Dreams Miyeko Murase, 2000 The Mary Griggs Burke Collection, represented in this volume and in the exhibition it accompanies, is a testimony to the intensity and selectivity of Mrs. Burke's collecting, guided by a discerning eye, a deep affection for Japan, and an appreciation of the country's cultural heritage. Long recognized as one of the finest collections of Japanese art in private hands, the Mary Griggs Burke Collection is the largest and most comprehensive outside Japan. While it provides a historical overview of the development of Japanese art, the collection illustrates as well Japan's capacity to foster divergent artistic traditions both from other cultures and from those that reflect indigenous tastes. It also demonstrates the profound impact of Buddhism on Japanese culture, the tastes and values of the courtly and military elite, and the interests of patrons who range from Sinophile rulers and scholars to pleasure-seeking urbanites.--BOOK JACKET. Hotel Scarface Roben Farzad, 2018-11-06 The wild, true story of the Mutiny, the hotel and club that embodied the decadence of Miami's cocaine cowboys heyday—and an inspiration for the blockbuster film, *Scarface*... In the seventies, coke hit Miami with the full force of a hurricane, and no place attracted dealers and dopers like Coconut Grove's Mutiny at Sailboat Bay. Hollywood royalty, rock stars, and models flocked to the hotel's club to order bottle after bottle of Dom and to snort lines alongside narcos, hit men, and gunrunners, all while marathon orgies burned upstairs in elaborate fantasy suites. Amid the boatloads of powder and cash reigned the new kings of Miami: three waves of Cuban immigrants vying to dominate the trafficking of one of the most lucrative commodities ever known to man. But as the kilos—and bodies—began to pile up,

the Mutiny became target number one for law enforcement. Based on exclusive interviews and never-before-seen documents, *Hotel Scarface* is a portrait of a city high on excess and greed, an extraordinary work of investigative journalism offering an unprecedented view of the rise and fall of cocaine—and the Mutiny—in Miami.

Envisioning Information Edward R. Tufte, 1998

The Bigness of the World Lori Ostlund, 2010-10-01 Set among such divergent places as a small-town in Minnesota, an Albuquerque airport, a Belizean café and a hotel swimming pool in Java, Ostlund's Flannery O'Connor Award (2008) winning debut collection depicts sexually and socially repressed Americans. Men and women who wind up feeling displaced when they fail to escape the influence of their past; ineffectual parents, fathers and lovers who disappear, teachers who struggle to connect with their students, and lifelong obsessions with language.

Richard F. Lack Gary B. Christensen, Stephen Gjertson, 2015-12 RICHARD F. LACK (1928-2009) was one of the most important and distinguished artists of the last half of the twentieth century. Over the span of sixty-three years he completed more than 1,300 paintings, drawings, sketches, studies, etchings, woodcuts, and watercolors. Early in his career he received thirty-four Gold Medals, Best of Show, People's Choice awards, and several scholarships for his atelier (1971-1992); 100 highly trained painters completed Lack's program, many of whom are accomplished artists recognized nationally today.

After the Parade Lori Ostlund, 2015-09-22 The debut novel from award-winning author Lori Ostlund—"smart, resonant, and imbued with beauty" (Publishers Weekly) that "provides considerable pleasure and emotional power" (The New York Times Book Review)—about a man who leaves his longtime partner in New Mexico for a tragicomic road trip deep into the mysteries of his own Midwestern childhood. Sensitive, bighearted, and achingly self-conscious, forty-year-old Aaron Englund long ago escaped the confinements of his Midwestern hometown, but he still feels like an outcast. After twenty years under the Pygmalion-like care of his older partner, Walter, Aaron at last decides it is time to take control of his own fate. But soon after establishing himself in San Francisco, Aaron sees that real freedom will not come until he has made peace with his memories of Mortonville, Minnesota: a cramped town whose four hundred souls form a constellation of Aaron's childhood heartbreaks and hopes. After Aaron's father died in the town parade, it was the larger-than-life misfits of his childhood who helped Aaron find his place in a world hostile to difference. But Aaron's sense of rejection runs deep: when Aaron was seventeen, Dolores—his loving yet selfish and enigmatic mother—vanished one night. And when, all these years later, a new friend in San Francisco offers Aaron a way to locate his mother, his past and present collide, forcing Aaron to rethink his place in the world. "Touching and often hilarious...Ostlund writes with acuity and refreshing honesty about the messy complexity of being a social animal in today's world..." (Booklist, starred review). "Everything here aches, from the lucid prose to the sensitively treated characters to their beautiful and heartbreaking stories...An example of realism in its most potent iteration: not a nearly arranged plot orchestrated by an authorial god but an authentic, empathetic representation of

life as it truly is" (Kirkus Reviews, starred review). After the Parade is a glorious anthem for the outsider.

Miseducation Katie Worth, 2021-11-09 Why are so many American children learning so much misinformation about climate change? Investigative reporter Katie Worth reviewed scores of textbooks, built a 50-state database, and traveled to a dozen communities to talk to children and teachers about what is being taught, and found a red-blue divide in climate education. More than one-third of young adults believe that climate change is not man-made, and science teachers who teach global warming are being contradicted by history teachers who tell children not to worry about it. Who has tried to influence what children learn, and how successful have they been? Worth connects the dots to find out how oil corporations, state legislatures, school boards, and textbook publishers sow uncertainty, confusion, and distrust about climate science. A thoroughly researched, eye-opening look at how some states do not want children to learn the facts about climate change.

The Big Book of Rogues and Villains Otto Penzler, 2017-10-24 Edgar Award-winning editor Otto Penzler's new anthology brings together the most cunning, ruthless, and brilliant criminals in mystery fiction, for the biggest compendium of bad guys (and girls) ever assembled. The best mysteries--whether detective, historical, police procedural, cozy, or comedy--have one thing in common: a memorable perpetrator. For every Sherlock Holmes or Sam Spade in noble pursuit, there's a Count Dracula, a Lester Leith, or a Jimmy Valentine. These are the rogues and villains who haunt our imaginations--and who often have more in common with their heroic counterparts than we might expect. Now, for the first time ever, Otto Penzler gathers the iconic traitors, thieves, con men, sociopaths, and killers who have crept through the mystery canon over the past 150 years, captivating and horrifying readers in equal measure. The 72 handpicked stories in this collection introduce us to the most depraved of psyches, from iconic antiheroes like Maurice Leblanc's Arsène Lupin and Sax Rohmer's Dr. Fu Manchu to contemporary delinquents like Lawrence Sanders' Ehrengraf and Donald Westlake's Dortmunder, and include unforgettable tales by Robert Louis Stevenson, Bram Stoker, Washington Irving, Jack London, H.G. Wells, Sinclair Lewis, O. Henry, Edgar Wallace, Leslie Charteris, Erle Stanley Gardner, Edward D. Hoch, Max Allan Collins, Loren D. Estleman, and many more.
