Choosing a Good Life Ali Berman, 2014-09-23 Ever wonder why some people seem to be at peace despite the ups and downs daily life can bring, while others are restless even in seemingly ideal circumstances? In *Choosing a Good Life*, Alyson Berman explores what it means to be at peace with ourselves, our choices, and the world around us in all its glorious chaos. She takes us into the lives of people who, despite their vastly different talents, challenges, and interests, have achieved a deep sense of balance in and satisfaction with their lives. Stories include those of Holocaust survivor Emery Jacoby, who rose above anger and bitterness to reaffirm the good in himself and others, along with Sungrai Sohn, a violin prodigy and gifted teacher who lives in the shadow of a potentially fatal illness and many other inspiring life stories. Berman then pinpoints their common approaches and qualities to reveal how they have found contentment—and how we can too. With *Choosing a Good Life* you will have the tools and guidance to: identify what you truly value, make use of the pain and trials of life to make you stronger, and set priorities to find more time and energy for the things that bring you satisfaction. Learn how to achieve something that eludes so many of us—the sense of purpose that comes with deep self-acceptance.

The Comeback Daniel de Visé, 2018-06-05 “Greg LeMond was Lance Armstrong before Lance Armstrong . . . the story of a true hero . . . This is a must read if you believe in miracles.”—John Feinstein, New York Times bestselling author In July 1986, Greg LeMond stunned the sporting world by becoming the first American to win the Tour de France, the world’s pre-eminent bicycle race, defeating French cycling legend Bernard Hinault. Nine months later, LeMond lay in a hospital bed, his life in peril after a hunting accident, his career as a bicycle racer seemingly over. And yet, barely two years after this crisis, LeMond mounted a comeback almost without parallel in professional sports. In summer 1989, he again won the Tour—arguably the world’s most grueling athletic contest—by the almost impossibly narrow margin of 8 seconds over another French legend, Laurent Fignon. It remains the closest Tour de France in history. “[A] blend of chaos, kindness and cruelty typifies the scenes that journalist de Visé brings to life in this sympathetic-verging-on-reverential retelling of LeMond’s trailblazing career (first American to enter the tour, first to win it) . . . As an author in quest of his protagonist’s motivation, [de Visé] subjects it to extreme torque.”—The Washington Post “A great book . . . Well written and thoroughly researched . . . Engrossing and hard to put down. If you’re a Greg LeMond fan, *The Comeback* is a must read because it’s a

detailed accounting of his career and—more importantly—his life and person off the bike. It's also an important reminder that American cycling did not begin and end with Lance Armstrong.”—PEZ

Reconomics Storm Cunningham, 2020-01-09 RECONOMICS is the first book that shows how to boost economic growth and community resilience simultaneously. It also reveals the surprising factor that sabotages most revitalization / resilience efforts. RECONOMICS is THE guide to healing economies, societies and nature together! RECONOMICS is a must-read for every mayor, resilience activist, planning commissioner and urban redevelopment professional who has been frustrated in their attempts to revitalize a place. It succinctly describes why most revitalization plans fail, analyzes what's missing, and provides a simple, easy-to-follow strategic process for success. - Kevin L. Maevers, D.Mgmt., AICP; President, Arivitas Strategies, LLC, La Quinta, CA; Vice Director of Policy, IES, California Chapter, American Planning Association. Storm Cunningham is so far ahead of the community revitalization game, I'm in awe. - Sarah Sieloff, Executive Director, Center for Creative Land Recycling (September 2019) RECONOMICS hits the nail on the head! - Nalin Seneviratne, Director of City Centre Development, Sheffield City Council, Sheffield, England Storm Cunningham's RECONOMICS Process raises the bar for community and regional revitalization. It's a powerful package, succinctly capturing the process that we have doggedly tried to identify over time, not always knowing the next step. The RECONOMICS Process brings a holistic dimension to redevelopment, inextricably linking vision and task. - Eric Bonham, P.Eng, Board of Partnership for Water Sustainability in British Columbia, Former Director, BC Ministry of Environment & BC Ministry of Municipal Affairs Storm Cunningham is the world's thought leader on community revitalization and natural resource restoration. - George Ochs, Managing Director of Real Assets, JP Morgan. RECONOMICS should be mandatory reading for all Mayors, Chief Executives and Directors of Planning in cities and regions. - Rick Finc, Principal, RFA Development Planning, Edinburgh, Scotland RECONOMICS is very concentrated, highly sophisticated and stunningly accurate. - Merrit Drucker, Anacostia Waterfront Trust, Washington, DC Storm Cunningham's RECONOMICS transformed our latest project, which uses his 3Re strategy. - Dumas F. Lafontant, Director, Lower Roxbury Coalition, Boston, Massachusetts Does your city or region have an actual process for reliably creating resilient, inclusive economic growth...or just the usual vision, plan and projects? The reliable production of ANYTHING requires a process. Everyone knows this...except most leaders of local renewal initiatives. Over 95% of community revitalization and resilience projects fail to achieve their goals, and a shocking percentage of them fail outright. The reason is the same in almost all cases: lack of a complete renewal process. There's always at least one crucial element of the process missing. Since most leaders don't know what the minimum viable process is, they can't fill the gap. In RECONOMICS, that complete strategic renewal process is revealed for the first time. It can be applied at the community, regional or national levels. If you have ANY role in improving your local future, you need to read this book. What it reveals can easily double the ROI (revitalization on investment) of your redevelopment, renewal and climate adaptation efforts.

Exemplary Science for Resolving Societal Challenges Robert Eugene Yager,2010 Amid a flurry of national standards and high-stakes assessments, it's easy to overlook the curiosity and invention that is inherent to science and that should be central to any science lesson plan. Similarly, the connections between what students learn in the classroom and the issues facing our society are often lost in the race to cover the content. This title focuses on how to successfully draw on these problems to illustrate the use and understanding of science for all learners.

A Delicious Country Scott Huler,2019-02-05 In 1700, a young man named John Lawson left London and landed in Charleston, South Carolina, hoping to make a name for himself. For reasons unknown, he soon undertook a two-month journey through the still-mysterious Carolina backcountry. His travels yielded *A New Voyage to Carolina* in 1709, one of the most significant early American travel narratives, rich with observations about the region's environment and Indigenous people. Lawson later helped found North Carolina's first two cities, Bath and New Bern; became the colonial surveyor general; contributed specimens to what is now the British Museum; and was killed as the first casualty of the Tuscarora War. Yet despite his great contributions and remarkable history, Lawson is little remembered, even in the Carolinas he documented. In 2014, Scott Huler made a surprising decision: to leave home and family for his own journey by foot and canoe, faithfully retracing Lawson's route through the Carolinas. This is the chronicle of that unlikely voyage, revealing what it's like to rediscover your own home. Combining a traveler's curiosity, a naturalist's keen observation, and a writer's wit, Huler draws our attention to people and places we might pass regularly but never really see. What he finds are surprising parallels between Lawson's time and our own, with the locals and their world poised along a knife-edge of change between a past they can't forget and a future they can't quite envision.

Andy and Don Daniel de Visé,2015-11-03 Written by Don Knotts's brother-in-law and featuring extensive unpublished interviews with those closest to both men, [this book explores] the legacy of The Andy Griffith Show and ... two of America's most enduring stars--Amazon.com.

River of the Carolinas Henry Savage Jr.,2018-08-25 The story of the Santee is, in fact, the story of a major part of the Carolinas east of the Appalachians, for the river drains an immense area of both states from the mountains to the ocean. Savage also describes fully the change-over from the agricultural Old South to the industrial New South, a change sparked largely by the hydroelectric power of the Santee. The Lost Cyclist David V. Herlihy, 2010-06-18 This “fascinating” story of a nineteenth-century mystery “should appeal to most lovers of history, as well as to bicycling enthusiasts. Strongly recommended” (Library Journal). In the late 1880s, Frank Lenz of Pittsburgh, a renowned high-wheel racer and long-distance tourist, dreamed of cycling around the world. He finally got his chance by recasting himself as a champion of the downsized “safety-bicycle” with inflatable tires, the forerunner of the modern road bike that was about to become wildly popular. In the spring of 1892 he quit his accounting job and gamely set out west to cover twenty thousand miles over three continents as a correspondent for Outing magazine. Two years later, after having survived countless near disasters and unimaginable hardships, he approached Europe for the final leg. Lenz never made it. His mysterious disappearance in eastern Turkey sparked an international outcry and compelled Outing to send William Sachtleben, another larger-than-life cyclist, on Lenz’s trail. Bringing to light a wealth of information, David Herlihy’s gripping narrative captures the soaring joys and constant dangers accompanying the bicycle adventurer in the days before paved roads and automobiles. This untold story culminates with Sachtleben’s heroic effort to bring Lenz’s accused murderers to justice, even as troubled Turkey teetered on the edge of collapse.

Gotham Edwin G. Burrows, Mike Wallace, 1998-11-19 To European explorers, it was Eden, a paradise of waist-high grasses, towering stands of walnut, maple, chestnut, and oak, and forests that teemed with bears, wolves, raccoons, beavers, otters, and foxes. Today, it is the site of Broadway and Wall Street, the Empire State Building and the Statue of Liberty, and the home of millions of people, who have come from every corner of the nation and the globe. In Gotham, Edwin G. Burrows and Mike Wallace have produced a monumental work of history, one that ranges from the Indian tribes that settled in and around the island of Manna-hata, to the consolidation of the five boroughs into Greater New York in 1898. It is an epic narrative, a story as vast and as varied as the city it chronicles, and it underscores that the history of New York is the story of our nation. Readers will relive the tumultuous early years of New Amsterdam under the Dutch West India Company, Peter Stuyvesant's despotic regime, Indian wars, slave resistance and revolt, the Revolutionary War and the defeat of Washington's army on Brooklyn Heights, the destructive seven years of British occupation, New York as the nation's first capital, the duel between Aaron Burr and Alexander Hamilton, the Erie Canal and the coming of the railroads, the growth of the city as a port and financial center, the infamous draft riots of the Civil War, the great flood of immigrants, the rise of mass entertainment such as vaudeville and Coney Island, the building of the Brooklyn Bridge and the birth of the skyscraper. Here too is a cast of thousands--the rebel Jacob Leisler and the reformer Joanna Bethune; Clement Moore, who saved Greenwich Village from the city's street-grid plan; Herman Melville, who painted disillusioned portraits of city life; and Walt Whitman, who happily celebrated that same life. We meet the rebel Jacob Leisler and the reformer Joanna Bethune; Boss Tweed and his nemesis, cartoonist Thomas Nast; Emma Goldman and Nellie Bly; Jacob Riis and Horace Greeley; police commissioner Theodore

Roosevelt; Colonel Waring and his white angels (who revolutionized the sanitation department); millionaires John Jacob Astor, Cornelius Vanderbilt, August Belmont, and William Randolph Hearst; and hundreds more who left their mark on this great city. The events and people who crowd these pages guarantee that this is no mere local history. It is in fact a portrait of the heart and soul of America, and a book that will mesmerize everyone interested in the peaks and valleys of American life as found in the greatest city on earth. Gotham is a dazzling read, a fast-paced, brilliant narrative that carries the reader along as it threads hundreds of stories into one great blockbuster of a book.

On the Landscape Architecture of the Great Painters of Italy Gilbert Laing Meason, 1828

No-Man's Lands Scott Huler, 2010-01-05 When NPR contributor Scott Huler made one more attempt to get through James Joyce's *Ulysses*, he had no idea it would launch an obsession with the book's inspiration: the ancient Greek epic *The Odyssey* and the lonely homebound journey of its Everyman hero, Odysseus. *No-Man's Lands* is Huler's funny and touching exploration of the life lessons embedded within *The Odyssey*, a legendary tale of wandering and longing that could be read as a veritable guidebook for middle-aged men everywhere. At age forty-four, with his first child on the way, Huler felt an instant bond with Odysseus, who fought for some twenty years against formidable difficulties to return home to his beloved wife and son. In reading *The Odyssey*, Huler saw the chance to experience a great vicarious adventure as well as the opportunity to assess the man he had become and embrace the imminent arrival of both middle age and parenthood. But Huler realized that it wasn't enough to simply read the words on the page—he needed to live Odysseus's odyssey, to visit the exotic destinations that make Homer's story so timeless. And so an ambitious pilgrimage was born . . . traveling the entire length of Odysseus's two-decade journey. In six months, Huler doggedly retraced Odysseus's every step, from the ancient ruins of Troy to his ultimate destination in Ithaca. On the way, he discovers the Cyclops's Sicilian cave, visits the land of the dead in Italy, ponders the lotus from a Tunisian resort, and paddles a rented kayak between Scylla and Charybdis and lives to tell the tale. He writes of how and why the lessons of *The Odyssey*—the perils of ambition, the emptiness of glory, the value of love and family—continue to resonate so deeply with readers thousands of years later. And as he finally closes in on Odysseus's final destination, he learns to fully appreciate what Homer has been saying all along: the greatest adventures of all are the ones that bring us home to those we love. Part travelogue, part memoir, and part critical reading of the greatest adventure epic ever written, *No-Man's Lands* is an extraordinary description of two journeys—one ancient, one contemporary—and reveals what *The Odyssey* can teach us about being better bosses, better teachers, better parents, and better people.

Road rides, rail trails, bike paths, and single-track mountain bike rides all get included. Most rides are in the 5 to 30 mile range, allowing for great afternoon outings and family adventures.

River of Lost Souls Jonathan P. Thompson, 2018-03-06 A vivid historical account...Thompson shines in giving a sense of

what it means to love a place that's been designated a 'sacrifice zone.' —PUBLISHERS WEEKLY Award-winning investigative environmental journalist Jonathan P. Thompson digs into the science, politics, and greed behind the 2015 Gold King Mine disaster, and unearths a litany of impacts wrought by a century and a half of mining, energy development, and fracking in southwestern Colorado. Amid these harsh realities, Thompson explores how a new generation is setting out to make amends. JONATHAN THOMPSON is a native Westerner with deep roots in southwestern Colorado. He has been an environmental journalist focusing on the American West since he signed on as reporter and photographer at the Silverton Standard & the Miner newspaper in 1996. He has worked and written for High Country News for over a decade, serving as editor-in-chief from 2007 to 2010. He was a Ted Scripps fellow in environmental journalism at the University of Colorado in Boulder, and in 2016 he was awarded the Society of Environmental Journalists' Outstanding Beat Reporting, Small Market. He currently lives in Bulgaria with his wife Wendy and daughters Lydia and Elena.

I Forgot to Remember Su Meck, Daniel de Visé, 2015-02-17 Just twenty-two years old, Su Meck was already married and the mother of two children in 1988 when a ceiling fan in the kitchen of her home fell from its mounting and struck her in the head. She survived the life-threatening swelling in her brain that resulted from the accident, but when she regained consciousness in the hospital the next day, she didn't know her own name. She didn't recognize a single family member or friend, she couldn't read or write or brush her teeth or use a fork--and she didn't have even a scrap of memory from her life up to that point. The fiercely independent and outspoken young woman she had been vanished completely. Most patients who suffer amnesia as a result of a head injury eventually regain their memories, but Su never did. After three weeks in the hospital she was sent back out into a world about which she knew nothing: What did it mean to be someone's wife? To be a mother? How did everyone around her seem to know what they were supposed to do or say at any given moment? Adrift in the chaos of mental data that most of us think of as everyday life, Su became an adept mimic, fashioning a self and a life out of careful observation and ironclad routine. She had no dreams for herself, no plans outside the ever-burgeoning daily to-do list of a stay-at-home mom. The Meck family left Texas to start over in Maryland, and told almost no one in their new life about Su's accident. Nearly twenty years would pass before Su understood the full extent of the losses she and her family suffered as a result of her injury. As a series of personally devastating events shattered the normal life she had worked so hard to build, Su realized that she would have to grow up all over again, and finally take control of the strange second life she had awoken into--

Zen Questions Taigen Dan Leighton, 2011-11-07 Whether speaking of student or master, Zen hinges on the question. Zen practice does not necessarily focus on the answers, but on finding a space in which we may sustain uncertainty and remain present and upright in the middle of investigations. Zen Questions begins by exploring The World of Zazen--the foundational practice of the Zen school--presenting it as an attitude of sustained inquiry that offers us an entryway into true

repose and joy. From there, Leighton draws deeply on his own experience as a Zen scholar and teacher to invite us into the creativity of Zen awareness and practice. He explores the poetic mind of Dogen with the poetry of Rumi, Mary Oliver, Gary Snyder, and even the American Dharma Bard Bob Dylan. What's more, Leighton uncovers surprising resonances between the writings of America's Founding Fathers--including Thomas Jefferson and Ben Franklin--and the liberating ideals at the heart of Zen.
