South Carolina East Coast Greenway Transportation Safety, Route Location & Facility Needs Study William J. Davis, 2004
Connections ,2000-03

Paddle for a Purpose Barb Geiger, You want to what? Barb regards her husband with incredulity at the prospect of paddling down the entire length of the mighty Mississippi River in their recently completed tandem kayak. Paddle for a Purpose sweeps the reader into a journey of faith and personal discovery, as Barb and Gene feel called to volunteer with charity organizations in quaint river towns along one of the most scenic and powerful river systems in America. Against a backdrop of picturesque settings and the river's changing moods, exciting and often humorous accounts of adventure and mishap intermingle with inspiring stories of healing, renewal, beauty, compassion and trust in God.

Cycling for Sustainable Cities Ralph Buehler, John Pucher, 2021-02-02 How to make city cycling--the most sustainable form of urban transportation--safe, practical, and convenient for all cyclists. Cycling is the most sustainable mode of urban transportation, practical for most short- and medium-distance trips--commuting to and from work or school, shopping, visiting friends, going to the doctor's office. It's good for your health, spares the environment a trip's worth of auto emissions, and is economical for both public and personal budgets. Cycling, with all its benefits, should not be reserved for the fit, the spandex-clad, and the daring. Cycling for Sustainable Cities shows how to make city cycling safe, practical, and convenient for all cyclists.

The Greenway Imperative Charles A. Flink, 2020-03-03 Trailblazing greenway projects from vision to reality In this eye-opening journey through some of America's most innovative landscape architecture projects, Charles Flink shows why we urgently need greenways. A leading authority in greenway planning, design, and development, Flink presents inspiring examples of communities that have come together to build permanent spaces for the life-sustaining power of nature. The Greenway Imperative reveals the stories behind a variety of multiuse natural corridors, taking readers to Grand Canyon National Park, suburban North Carolina, the banks of the Miami River, and many other settings. Flink, who was closely involved with each of the projects in this book during his 35-year career, introduces the people who jumpstarted these initiatives and the challenges they overcame in achieving them. Flink explains why open green spaces are increasingly critical today. Much more than a path through the woods, he says, greenways conserve irreplaceable real estate for the

environment, serve as essential green infrastructure, shape the way people travel within their communities, reduce impact from flooding and other natural disasters, and boost the economies of cities and towns. Greenways can and should dramatically reshape the landscape of America in the coming years, Flink argues. He provides valuable reflections and guidance on how we can create resilient communities and satisfy the human need for connection with the natural world.

A Father and Daughter World Cycling Journey Michael Allen Rice,Jocelyn Marie Rice,2017-12-09 Follow this father and daughter team of Mike and Jocelyn as they return to their bicycles for an awe-inspiring world adventure after their journey across the U.S. and New Zealand as written in their first adventure book published in 2013. In pursuit of this, they begin their most challenging ride yet from Marrakesh, Morocco to Bangkok, Thailand. North Africa, Europe, Central Asia, China, and Southeast Asia are traversed as they continue to explore this amazing world along with its diversity of people and cultures. After this enlightening ride, they continue from Washington State at the Canadian border and work their way south down the West Coast of the U.S., Mexico, Central America, and South America. Upon reaching Puerto Montt, Chile, they concede that the Southern Chile winter weather will prevent their progress further south. Next on their list is heading east across Canada to Nova Scotia, then south along the East Coast of the U.S., and then home to Cape Canaveral, Florida. They arrive home in December of 2016 from a world trip consisting of 37 countries, five continents, and over 28,000 miles. Mike and Jocelyn envisioned this travel by bicycle not so much as a cycling exercise but rather as a means to get to out-of-the-way places, to dig deeply into a country's cultures, and to meet locals in a way that normal tourists rarely do.

The Audacity of Hops Tom Acitelli,2013 Charting the birth and growth of craft beer across the United States, Acitelli offers an epic, story-driven account of one of the most inspiring and surprising American grassroots movements.

Greenways Charles A. Flink,Robert M. Searns,1993 Greenways--linear open spaces that preserve and restore nature in cities, suburbs, and rural areas--are proving to be the most innovative land protection concept of the decade. This book provides professionals and citizen activists with the tools they need for developing a greenway plan. An invaluable source of information for professional and volunteer planners, with important recommendations, guidelines, warnings, and support. Photos, figures, tables, index.

God, Dr. Buzzard, and the Bolito Man Cornelia Bailey,Christena Bledsoe,2000 In this memoir, Sapelo Island native Cornelia Walker Bailey tells the history of her threatened Georgia homeland. Off the coast of Georgia, a small close-knit community of African Americans traces their lineage to enslaved West Africans. Living on a barrier island in almost total isolation the people of Sapelo have been able to do what most others could not: They have preserved many of the folkways of their forebears in West Africa, believing in signs and spirits and all kinds of magic. Cornelia Walker Bailey, a direct

descendant of Bilali, the most famous and powerful enslaved African to inhabit the island, is the keeper of cultural secrets and the sage of Sapelo. In words that are poetic and straight to the point, she tells the story of Sapelo - including the Geechee belief in the equal power of God, Dr. Buzzard (voodoo), and the Bolito Man (luck). But her tale is not without peril, for the old folkways are quickly slipping away. The elders are dying, the young must leave the island to go to school and to find work, and the community's ability to live on the land is in jeopardy. The State of Georgia owns nine-tenths of the land and the pressure on the inhabitants is ever-increasing. Cornelia Walker Bailey is determined to save the community, but time will tell whether the people of Sapelo will be able to retain the land, and the treasured culture which their forebears bestowed upon them more than two hundred years ago.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Bears of Brooks Falls: Wildlife and Survival on Alaska's Brooks River Michael Fitz,2021-03-09 A natural history and celebration of the famous bears and salmon of Brooks River. On the Alaska Peninsula, where exceptional landscapes are commonplace, a small river attracts attention far beyond its scale. Each year, from summer to early fall, brown bears and salmon gather at Brooks River to create one of North America's greatest wildlife spectacles. As the salmon leap from the cascade, dozens of bears are there to catch them (with as many as forty-three bears sighted in a single day), and thousands of people come to watch in person or on the National Park Service's popular Brooks Falls Bearcam. The Bears of Brooks Falls tells the story of this region and the bears that made it famous in three parts. The first forms an ecological history of the region, from its dormancy 30,000 years ago to the volcanic events that transformed it into the Valley of Ten Thousand Smokes. The central and longest section is a deep dive into the lives of the wildlife along the Brooks River, especially the bears and salmon. Readers will learn about the bears' winter hibernation, mating season, hunting rituals, migration patterns, and their relationship with Alaska's changing environment. Finally, the book explores the human impact, both positive and negative, on this special region and its wild population.

Bike Snob BikeSnobNYC,2011-04-29 "Equal parts critical manifesto and tender mini-memoir about a boy and his bikes" from Eben Weiss, blogger and author of The Enlightened Cyclist (GQ). Cycling is exploding in a good way. Urbanites everywhere, from ironic hipsters to earth-conscious commuters, are taking to the bike like aquatic mammals to water. BikeSnobNYC—cycling's most prolific, well-known, hilarious, and anonymous blogger—brings a fresh and humorous perspective to the most important vehicle to hit personal transportation since the horse. Bike Snob treats readers to a laugh-out-loud rant and rave about the world of bikes and their riders and offers a unique look at the ins and outs of cycling, from its history and hallmarks to its wide range of bizarre practitioners. Throughout, the author lampoons the missteps, pretensions, and absurdities of bike culture while maintaining a contagious enthusiasm for cycling itself. Bike Snob is an essential volume for anyone who knows, is, or wants to become a cyclist. "This is a social manual that should be bundled with

every bike shipped in America.” —Christian Lander, author of *Stuff White People Like* “I like to think I know a thing or two (or three) about being ruthless and relentless—either trying to win the Tour or fighting cancer. The Snob knows it too. Keeping us dorks in line is tough work. I take pleasure in getting picked on by the Snob, slightly more pleasure in reading his writing, but take the most pleasure punishing his ass (my payback) on the bike either in Central Park or on 9W/River Road. Long live the Snob.” —Lance Armstrong
