The Executive's Compass James O'Toole, 1995-04-20 American society has become increasingly polarized by single- and special-interest groups: the Greens, who demand environmental purity; admirers of Japan who want a national industrial policy; supply-side economists who want government to all but disappear. This collision of values has turned America into a battleground of either/or tradeoffs: the community vs. the individual, the environment vs. jobs, the rights of each ethnic group vs. the needs of the nation for unity. Whose values should prevail? Those of Libertarians? Communitarians? Egalitarians? Corporatists? The nation's leadership role in the post-communist world will be largely determined by how such conflicts in the political economy are resolved. Increasingly, business executives find themselves drawn into these values wars, forced to make decisions in a hothouse climate in which there are countless and conflicting opinions about what is right and wrong. Business leaders find themselves caught in the values thicket when they attempt to formulate corporate policy on such issues as plant closings, executive compensation, corporate governance, and affirmative action. In *The Executive's Compass*, James O'Toole guides business leaders through this minefield of modern dilemmas. In the words of ARCO's CEO, Lod Cook, O'Toole provides business leaders with a practical compass to help them navigate the turbulent waters of social change and political conflict. O'Toole explores the philosophical and historical underpinnings of contemporary business problems, tracing their origins to the ideas of such great thinkers as Aristotle, Adam Smith, J.S. Mill, and Jefferson. By going to the roots of modern issues, he is able to clarify the sources of political disagreement, and to suggest a practical course of action for corporate leaders who find themselves caught in the gridlock of democracy. He provides an innovative values compass--a tool he has honed for over forty years as a moderator of the Aspen Institute Executive Seminar--which has been successfully applied at FORTUNE 500 firms as an introduction to the values-based management for which the Aspen Institute is renowned. The compass helps executives to understand what is wrong (and right) with our democratic system, and what the role of business is in creating The Good Society. For top executives, general managers, or anyone trying to make sense out of our rapidly changing world, *The Executive's Compass* helps managers deal more effectively with today's thorny issues.

The Compass and the Radar Paolo Gallo, 2018-10-18 Paolo Gallo offers a unique pathway toward identifying the right career, finding the ideal job and developing a moral compass – the solid value system that will then anchor the reader in their professional lives. With a creative and engaging mix of coaching practice, management theories, case studies and personal story-telling, this book helps readers to identify both their own compass – which relates to integrity, passion and internal value systems – and radar – which helps them to understand organizational complexity and 'read' workplace dynamics and situations. The Compass and the Radar is founded on a series of searching questions that will enable anyone to find their compass and radar to achieve personal success: · How can I find out what my real strengths and talents are? · Do I love what I do? · How can I find a job with a company that truly reflects my values? · What is the price I am willing to pay for a meaningful and rewarding career? · How should I define a successful career? Key chapters offer practical tools, as well as insights on the trade-offs and difficult choices that everyone will need to make at some point in their career – all of which will underline the importance of having the most robust moral compass. In the midst of a volatile and uncertain world, one in which technology, AI and digital resources are transforming working environments, The Compass and the Radar allows readers to pause, reflect, and consider who they are, what they stand for, and how to remain free.

The Artist's Compass Rachel Moore,2016-05-03 An inspiring, real world guide for artists, in the classic bestselling tradition of *What Color Is Your Parachute?*, that shows how to build a successful, stable career in the performing arts, from the President and CEO of The Music Center in Los Angeles, who has carved her own success through her creative talent and business skill. While performing artists have many educational opportunities to perfect their craft, they are often on their own when it comes to learning the business skills necessary to launch their careers. At the end of the day, show business is, well, a business. In *The Artist's Compass*, Rachel Moore (who rose from a dancer in the American Ballet Theater's corps de ballet to become the CEO of that organization—and is today the head of The Music Center in LA) shares how to make life as a performer more successful, secure, and sustainable by approaching a career in the arts like an entrepreneur. Misty Copeland

calls Moore “a great example of a woman who used the skills that we gain as dancers to become a leader,” and it’s those hard-won lessons she imparts to a new generation of artists in this book—encouraging every performer to develop marketable skills alongside their creative talent. With testimonials from artists like Lang Lang, Sigourney Weaver, and Renee Fleming, plus inspiring anecdotes from Moore’s own journey in the arts, *The Artist’s Compass* teaches aspiring performers how to take charge of their own careers and how to create their own brand and marketing platform to achieve personal and professional success. In an engaging, “realistic, but also passionate” (Publishers Weekly) voice, Moore combines her artistic and corporate experience to address the finer points of building a career in a challenging industry. *The Artist’s Compass* is the essential success guide for aspiring artists, driving home the point that honing professional skills beyond the stage is not forsaking one’s art, but for the sake of one’s art.

The Earth Memory Compass Farina King, 2018-10-01 The Diné, or Navajo, have their own ways of knowing and being in the world, a cultural identity linked to their homelands through ancestral memory. The Earth Memory Compass traces this tradition as it is imparted from generation to generation, and as it has been transformed, and often obscured, by modern modes of education. An autoethnography of sorts, the book follows Farina King's search for her own Diné identity as she investigates the interconnections among Navajo students, their people, and Diné Bikéyah—or Navajo lands—across the twentieth century. In her exploration of how historical changes in education have reshaped Diné identity and community, King draws on the insights of ethnohistory, cultural history, and Navajo language. At the center of her study is the Diné idea of the Four Directions, in which each of the cardinal directions takes its meaning from a sacred mountain and its accompanying element: East, for instance, is Sis Naajini (Blanca Peak) and white shell; West, Dook'o'ooshíid (San Francisco Peaks) and abalone; North, Dibé Nitsaa (Hesperus Peak) and black jet; South, Tsoodzil (Mount Taylor) and turquoise. King elaborates on the meanings and teachings of the mountains and directions throughout her book to illuminate how Navajos have embedded memories in landmarks to serve as a compass for their people—a compass threatened by the dislocation and disconnection of Diné students from their land, communities, and Navajo ways of learning. Critical to this story is how inextricably Indigenous education and experience is intertwined with American dynamics of power and history. As environmental catastrophes and struggles over resources sever the connections among peoplehood, land, and water, King's book holds out hope that the teachings, guidance, and knowledge of an earth memory compass still have the power to bring the people and the earth together.

It outlines a powerful and logical approach for assessing the state-of-play in any organization, and offers ways to estimate the specific opportunities related to implementing a change in strategy and practices. The Pilgrim's Compass Paul H. Lang,2019-02-19 As we make our way into the twenty-first century, many Christians are looking for an expression of discipleship that speaks meaningfully to our time, a faith yearning that is at once personally intimate and relevant and that grows out of and nurtures authentic Christian community. The Pilgrim's Compass shepherds readers through a metaphorical pilgrimage to consider one's life a journey for faith formation. Using this book as a guide to help Christians consider their journey as they walk through the four stages of intentional faithfulness, disciples will encounter God, wrestle with God, be wounded as will God, and be reborn as a new person with a new name. The Pilgrim's Compass encourages individuals to embrace the ancient practice of pilgrimage both as metaphor for the daily walk of discipleship and as an intentional journey of faith, which uses prayerful travel to assist an inner transformation.

Blowing My Cover Lindsay Moran,2005-11-01 Call me naïve, but when I was a girl-watching James Bond and devouring Harriet the Spy-all I wanted was to grow up to be a spy. Unlike most kids, I didn't lose my secret-agent aspirations. So as a bright-eyed, idealistic college grad, I sent my resume to the CIA. Getting in was a story in itself. I peed in more cups than you could imagine, and was nearly condemned as a sexual deviant by the staff psychologist. My roommates were getting freaked out by government investigators lurking around, asking questions about my past. Finally, the CIA was training me to crash cars into barriers at 60 mph. Jump out of airplanes with cargo attached to my body. Survive interrogation, travel in alias, lose a tail. One thing they didn't teach us was how to date a guy while lying to him about what you do for a living. That I had to figure out for myself. Then I was posted overseas. And that's when the real fun began.
