Fraud Analytics Using Descriptive, Predictive, and Social Network Techniques Bart Baesens, Veronique Van Vlasselaer, Wouter Verbeke, 2015-08-17 Detect fraud earlier to mitigate loss and prevent cascading damage Fraud Analytics Using Descriptive, Predictive, and Social Network Techniques is an authoritative guidebook for setting up a comprehensive fraud detection analytics solution. Early detection is a key factor in mitigating fraud damage, but it involves more specialized techniques than detecting fraud at the more advanced stages. This invaluable guide details both the theory and technical aspects of these techniques, and provides expert insight into streamlining implementation. Coverage includes data gathering, preprocessing, model building, and post-implementation, with comprehensive guidance on various learning techniques and the data types utilized by each. These techniques are effective for fraud detection across industry boundaries, including applications in insurance fraud, credit card fraud, anti-money laundering, healthcare fraud, telecommunications fraud, click fraud, tax evasion, and more, giving you a highly practical framework for fraud prevention. It is estimated that a typical organization loses about 5% of its revenue to fraud every year. More effective fraud detection is possible, and this book describes the various analytical techniques your organization must implement to put a stop to the revenue leak. Examine fraud patterns in historical data Utilize labeled, unlabeled, and networked data Detect fraud before the damage cascades Reduce losses, increase recovery, and tighten security The longer fraud is allowed to go on, the more harm it causes. It expands exponentially, sending ripples of damage throughout the organization, and becomes more and more complex to track, stop, and reverse. Fraud prevention relies on early and effective fraud detection, enabled by the techniques discussed here. Fraud Analytics Using Descriptive, Predictive, and Social Network Techniques helps you stop fraud in its tracks, and eliminate the opportunities for future occurrence.

Revolutionary Mothering Alexis Pauline Gumbs, China Martens, Mai'a Williams, 2016-04-01 Inspired by the legacy of radical and queer black feminists of the 1970s and '80s, Revolutionary Mothering places marginalized mothers of color at the center of a world of necessary transformation. The challenges we face as movements working for racial, economic,

reproductive, gender, and food justice, as well as anti-violence, anti-imperialist, and queer liberation are the same challenges that many mothers face every day. Oppressed mothers create a generous space for life in the face of life-threatening limits, activate a powerful vision of the future while navigating tangible concerns in the present, move beyond individual narratives of choice toward collective solutions, live for more than ourselves, and remain accountable to a future that we cannot always see. Revolutionary Mothering is a movement-shifting anthology committed to birthing new worlds, full of faith and hope for what we can raise up together. Contributors include June Jordan, Malkia A. Cyril, Esteli Juarez, Cynthia Dewi Oka, Fabiola Sandoval, Sumayyah Talibah, Victoria Law, Tara Villalba, Lola Mondragón, Christy NaMee Eriksen, Norma Angelica Marrun, Vivian Chin, Rachel Broadwater, Autumn Brown, Layne Russell, Noemi Martinez, Katie Kaput, alba onofrio, Gabriela Sandoval, Cheryl Boyce Taylor, Ariel Gore, Claire Barrera, Lisa Factora-Borchers, Fabielle Georges, H. Truth Triumphant Wilkinson, Benjamin George, 2015-02-23 A much neglected field of study has been opened by the research of the author into the history of the Christian church from its apostolic origins to the close of the eighteenth century. Taking as his thesis the prominence given to the Church in the Wilderness in Bible prophecy, and the fact that “‘the Church in the Wilderness,’ and not the proud hierarchy enthroned in the world’s great capital, was the true church of Christ,” he has spent years developing this subject. In its present form, Truth Triumphant represents much arduous research in the libraries of Europe as well as in America. Excellent ancient sources are most difficult to obtain, but the author has been successful in gaining access to many of them. To crystallize the subject matter and make the historical facts live in modern times, the author also made extensive travels throughout Europe and Asia. The doctrines of the primitive Christian church spread to Ireland, Scotland, and Wales. As grains of a mustard seed they lodged in the hearts of many Godly souls in southern France and northern Italy — people known as the Albigenses and the Waldenses. The faith of Jesus was valiantly upheld by the Church of the East. This term, as used by the author, not only includes the Syrian and Assyrian Churches, but is also the term applied to the development of apostolic Christianity throughout the lands of the East. The spirit of Christ, burning in the hearts of loyal men who would not compromise with paganism, sent them forth as missionaries to lands afar. Patrick, Columbanus, Marcos, and a host of others were missionaries to distant lands. They braved the ignorance of the barbarian, the intolerance of the apostate church leaders, and the persecution of the state in order that they might win souls to God. To unfold the dangers that were ever present in the conflict of the true church against error, to reveal the sinister working of evil and the divine strength by which men of God made truth triumphant, to challenge the Remnant Church today in its final controversy against the powers of evil, and to show the holy, unchanging message of the Bible as it has been preserved for those who will “fear God, and keep His commandments” — these are the sincere aims of the author as he

presents this book to those who know the truth. MERLIN L. NEFF.

Assessment, Testing and Evalution in Teacher Education Suzanne Wegener Soled,1995 With the national reform and research agendas occurring in teacher education, one of the most important areas needing theoretical analysis and empirical research is assessment and evaluation. New initiatives in the education of teachers and new roles in professional practice demand new means to assess both learning and performance. In recognition of this demand, this book is designed to examine how students can best be selected for and evaluated while in teacher education programs. The book reviews and synthesizes the existing knowledge in teacher education assessment, as well as presents new inquiry to extend and deepen this knowledge.

Witnessing for Sociology Pamela J. Jenkins,J.S. Kroll-Smith,1996-06-24 The American court system is making increasing use of sociologists as expert witnesses. This edited volume is a collection of the experiences of sociologists who have appeared as expert witnesses in a variety of court cases. Many of the cases covered in

Dark Green Religion Bron Raymond Taylor, 2010 A love of green may be a human universal. Deepening the palette of green scholarship, Bron Taylor proves remarkably to be both an encyclopedist and a visionary.--Jonathan Benthall, author of *Returning to Religion: Why a Secular Age is Haunted by Faith* This important book provides insight into how a profound sense of relation to nature offers many in the modern world a vehicle for attaining a spiritual wholeness akin to what has been historically associated with established religion. In this sense, *Dark Green Religion* offers both understanding and hope for a world struggling for meaning and purpose beyond the isolation of the material here and now.--Stephen Kellert, Yale University School of Forestry and Environmental Studies In this thought-provoking volume, Bron Taylor explores the seemingly boundless efforts by human beings to understand the nature of life and our place in the universe. Examining in depth the ways in which influential philosophers and naturalists have viewed this relationship, Taylor contributes to the further development of thought in this critically important area, where our depth of understanding will play a critical role in our survival.--Peter H. Raven, President, Missouri Botanical Garden Carefully researched, strongly argued, originally conceived, and very well executed, this book is a vital contribution on a subject of immense religious, political, and environmental importance. It's also a great read.--Roger S. Gottlieb, author of *A Greener Faith: Religious Environmentalism and our Planet's Future* A fascinating analysis of our emotional and spiritual relationship to nature. Whether you call it dark green religion or something else, Bron Taylor takes us through our spiritual relationship with our planet, its ecosystems and evolution, in an enlightened and completely undogmatic manner.--Dr. Claude Martin, Former Director General, World Wildlife Fund An excellent collection of guideposts for perplexed students and scholars about the relationships of nature religions, spirituality, animism, pantheism, deep ecology, Gaia, and land ethics--and for the environmentalist seeking to make the world a better place through green religion as a social force.--Fikret Berkes, author of *Sacred Ecology: Traditional Ecological Knowledge and Resource Management* *Dark Green Religion* shows conclusively how nature has inspired a growing religious movement on the planet, contesting the long reign of many older faiths. Taylor expertly guides us through an astonishing array of thinkers, past and present, who have embraced, in part or whole, the new religion. I was thoroughly convinced that this movement has indeed become a major force on Earth, with great potential consequences for our environmental ethics.--Donald Worster, University of Kansas In this exceptionally interesting and informative book, Bron Taylor has harvested the fruits of years of pioneering research in what amounts to a new field in religious studies: the study of how religious/spiritual themes show up in the work of people concerned about nature in many diverse ways. Taylor persuasively argues that appreciation of nature's sacred or spiritual dimension both informs and motivates the work of individuals ranging from radical environmentalists and surfers, to eco-tourism leaders and museum curators. I highly

recommend this book for everyone interested learning more about the surprising extent to which religious/spiritual influences many of those who work to protect, to exhibit, or to represent the natural world.--Michael E. Zimmerman, Director, Center for Humanities and the Arts, University of Colorado at Boulder

An Answer to the Jews Tertullian,

Handbook of Forensic Sociology and Psychology Stephen J. Morewitz, Mark L. Goldstein, 2013-08-20 The role of behavioral and social sciences in the courtroom setting has expanded exponentially in the past few decades. It is now widely recognized that scientists in these areas provide critical contextual information for legal decision making, and that there is a reliable knowledge base for doing so. While there are many handbooks of forensic psychology, this is the first such volume to incorporate sociological findings, broadening the conceptual basis for examining cases in both the civil and criminal realms, including immigration issues, personal injury, child custody, and sexual harassment. This volume will examine the responsibilities of expert witnesses and consultants, and how they may utilize principles, theories and methods from both sociology and psychology. It will show these disciplines together can improve the identification and apprehension of criminals, as well as enhance the administration of justice by clarifying profiles of criminal behavior, particularly in cases of serial killers, death threat makers, stalkers, and kidnappers. The volume is quite comprehensive, covering a range of medical, school, environmental and business settings. Throughout it links basic ideas to real applications and their impact on the justice system.

The Brainwashing/deprogramming Controversy David G. Bromley, James T. Richardson, 1983 A collection of 21 essays, this volume presents a multidisciplinary examination of the issues and controversies raised by the activities of religious cults.
