The Executive's Compass James O'Toole, 1995-04-20 American society has become increasingly polarized by single- and special-interest groups: the Greens, who demand environmental purity; admirers of Japan who want a national industrial policy; supply-side economists who want government to all but disappear. This collision of values has turned America into a battleground of either/or tradeoffs: the community vs. the individual, the environment vs. jobs, the rights of each ethnic group vs. the needs of the nation for unity. Whose values should prevail? Those of Libertarians? Communitarians? Egalitarians? Corporatists? The nation's leadership role in the post-communist world will be largely determined by how such conflicts in the political economy are resolved. Increasingly, business executives find themselves drawn into these values wars, forced to make decisions in a hothouse climate in which there are countless and conflicting opinions about what is right and wrong. Business leaders find themselves caught in the values thicket when they attempt to formulate corporate policy on such issues as plant closings, executive compensation, corporate governance, and affirmative action. In *The Executive's Compass*, James O'Toole guides business leaders through this minefield of modern dilemmas. In the words of ARCO's CEO, Lod Cook, O'Toole provides business leaders with a practical compass to help them navigate the turbulent waters of social change and political conflict. O'Toole explores the philosophical and historical underpinnings of contemporary business problems, tracing their origins to the ideas of such great thinkers as Aristotle, Adam Smith, J.S. Mill, and Jefferson. By going to the roots of modern issues, he is able to clarify the sources of political disagreement, and to suggest a practical course of action for corporate leaders who find themselves caught in the gridlock of democracy. He provides an innovative values compass--a tool he has honed for over forty years as a moderator of the Aspen Institute Executive Seminar--which has been successfully applied at FORTUNE 500 firms as an introduction to the values-based management for which the Aspen Institute

is renowned. The compass helps executives to understand what is wrong (and right) with our democratic system, and what the role of business is in creating The Good Society. For top executives, general managers, or anyone trying to make sense out of our rapidly changing world, The Executive's Compass helps managers deal more effectively with today's thorny issues.

The Three-Box Solution Vijay Govindarajan, 2016-04-26 How to Innovate and Execute Leaders already know that innovation calls for a different set of activities, skills, methods, metrics, mind-sets, and leadership approaches. And it is well understood that creating a new business and optimizing an already existing one are two fundamentally different management challenges. The real problem for leaders is doing both, simultaneously. How do you meet the performance requirements of the existing business—one that is still thriving—while dramatically reinventing it? How do you envision a change in your current business model before a crisis forces you to abandon it? Innovation guru Vijay Govindarajan expands the leader's innovation tool kit with a simple and proven method for allocating the organization's energy, time, and resources—in balanced measure—across what he calls “the three boxes”:

- Box 1: The present—Manage the core business at peak profitability
- Box 2: The past—Abandon ideas, practices, and attitudes that could inhibit innovation
- Box 3: The future—Convert breakthrough ideas into new products and businesses

The three-box framework makes leading innovation easier because it gives leaders a simple vocabulary and set of tools for managing and measuring these different sets of behaviors and activities across all levels of the organization. Supported with rich company examples—GE, Mahindra & Mahindra, Hasbro, IBM, United Rentals, and Tata Consultancy Services—and testimonies of leaders who have successfully used this framework, this book solves once and for all the practical dilemma of how to align an organization on the critical but competing demands of innovation.

Switch Chip Heath, Dan Heath, 2010-02-16 Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results:

- The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients
- The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping
- The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service

In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on

how we can effect transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

My Greatest Save Briana Scurry, Wayne Coffey, 2022-06-21 A deeply moving and painfully honest memoir from the trailblazing, World Cup-winning, Olympic gold medalist, and US Women's soccer goalie Briana Scurry. Briana Scurry was a pioneer on the US Women's National Team. She won gold in Atlanta in 1996, the first time women's soccer was ever played in the Olympics. She was a key part of the fabled "99ers," making an epic save in the decisive penalty-kick shootout in the final. Scurry captured her second Olympic gold in 2004, cementing her status as one of the premier players in the world. She was the only Black player on the team, and she was also the first player to be openly gay. It was a singularly amazing ride, one that Scurry handled with her trademark generosity and class—qualities that made her one of the most popular players ever to wear a US jersey. But Scurry's storybook career ended in 2010 when a knee to the head left her with severe head trauma. She was labeled "temporarily totally disabled," and the reality was even worse. She spiraled into depression, debt, and endured such pain that she closed out her closest friends and soccer soulmates. She pawned her gold medals. She walked to the edge of a waterfall and contemplated suicide. It seemed like the only way out until Scurry made her greatest save of all. A memoir of startling candor, *My Greatest Save* is a story of triumph, tragedy, and redemption from a woman who has broken through barriers her entire life.

Every Good Endeavour Timothy Keller, 2012-11 In today's increasingly competitive and insecure economic environment, we often question the reason for work: why am I doing this? Why is it so hard? And what can I do about it? Work may seem just a means to an end: we do it to earn the money to enjoy life outside the workplace. Here, Timothy Keller argues that God's plan is radically more ambitious: he actually created us to work. We are to work together to make the world a better place, to help each other, and so to find purpose for our lives. Our faith should enhance our work, and our work should develop our faith. With deep insight, Timothy Keller draws on essential and relevant biblical wisdom to address our questions about work. There is grace available if we have taken the wrong attitude, idolising money and using our careers to glorify ourselves rather than God. Keller shows how through excellence, integrity, discipline, creativity and passion in the workplace we can impact society for good. Developing a better attitude to work releases us to serve others humbly, to worship God everyday, and leaves us deeply fulfilled.

The Earth Memory Compass Farina King, 2018-10-01 The Diné, or Navajo, have their own ways of knowing and being in the world, a cultural identity linked to their homelands through ancestral memory. The Earth Memory Compass traces this tradition as it is imparted from generation to generation, and as it has been transformed, and often obscured, by modern modes of education. An autoethnography of sorts, the book follows Farina King's search for her own Diné identity as she investigates the interconnections among Navajo students, their people, and Diné Bikéyah—or Navajo lands—across the twentieth century. In her exploration of how historical changes in education have reshaped Diné identity and community, King draws on the insights of ethnohistory, cultural history, and Navajo language. At the center of her study is the Diné idea of the Four Directions, in which each of the cardinal directions takes its meaning from a sacred mountain and its accompanying element: East, for instance, is Sis Naajini (Blanca Peak) and white shell; West, Dook'o'oshíid (San Francisco Peaks) and abalone; North, Dibé Nitsaa (Hesperus Peak) and black jet; South, Tsoodzil (Mount Taylor) and turquoise. King elaborates on the meanings and teachings of the mountains and directions throughout her book to illuminate how Navajos have embedded memories in landmarks to serve as a compass for their people—a compass threatened by the dislocation and disconnection of Diné students from their land, communities, and Navajo ways of learning. Critical to this story is how inextricably Indigenous education and experience is intertwined with American dynamics of power and history. As environmental catastrophes and struggles over resources sever the connections among peoplehood, land, and water, King's book holds out hope that the teachings, guidance, and knowledge of an earth memory compass still have the power to bring the people and the earth together.

People Stuff - Beyond Personality Problems Zoë Routh, 2020-08-01 Do people drive you nuts? Are silos and turf wars challenging the culture? Wondering if it ever gets any easier? The toughest - and best - part of leadership is the people. But let's face it, people dynamics can be tricky. Solutions are within. People Stuff is your map to the complex territory of human behaviour and leadership strategies. People Stuff goes well beyond frustrating 'personality clashes' to uncover the dynamics of human interactions at work. You'll clarify how you see yourself, your people and your organisation to avoid ineffective superficial solutions to complex problems. Perspective is power. In order to create positive and lasting change, we need to dive below the surface and see the patterns and systems that are creating the issues in the first place. People Stuff offers intuitive maps and frameworks to develop your practice of perspective. You'll be able to see more and lead better. When we change the way we look at things, the things we look at don't change, WE do. How we see ourselves affects how effective we

are as leaders. By using a combination of the five key leadership archetypes - the Elder, Pioneer, Guardian, Warrior, and Diplomat - you'll be able to meet the current business challenges with the right approach for maximum influence. Personalities aren't the problem, systems are. When the Four Devils appear in the workplace, it's tempting to give up on them as character flaws. With the Four Devils map, you'll be able to pinpoint the symptoms and causes of the toughest people challenges, and implement effective long-term solutions. If you're a leader who's called to make an impact, then People Stuff will give you the perspective tools to see issues before they escalate. You'll also be able to anticipate positive ripples so you can truly lead with compassion and wisdom.

The Compass and the Radar Paolo Gallo, 2018-10-18 Paolo Gallo offers a unique pathway toward identifying the right career, finding the ideal job and developing a moral compass - the solid value system that will then anchor the reader in their professional lives. With a creative and engaging mix of coaching practice, management theories, case studies and personal story-telling, this book helps readers to identify both their own compass - which relates to integrity, passion and internal value systems - and radar - which helps them to understand organizational complexity and 'read' workplace dynamics and situations. The Compass and the Radar is founded on a series of searching questions that will enable anyone to find their compass and radar to achieve personal success: · How can I find out what my real strengths and talents are? · Do I love what I do? · How can I find a job with a company that truly reflects my values? · What is the price I am willing to pay for a meaningful and rewarding career? · How should I define a successful career? Key chapters offer practical tools, as well as

insights on the trade-offs and difficult choices that everyone will need to make at some point in their career – all of which will underline the importance of having the most robust moral compass. In the midst of a volatile and uncertain world, one in which technology, AI and digital resources are transforming working environments, *The Compass and the Radar* allows readers to pause, reflect, and consider who they are, what they stand for, and how to remain free.

Transparency Warren Bennis, Daniel Goleman, James O'Toole, 2010-12-21 In *Transparency*, the authors—a powerhouse trio in the field of leadership—look at what conspires against a culture of candor in organizations to create disastrous results, and suggest ways that leaders can achieve healthy and honest openness. They explore the lightning-rod concept of transparency—which has fast become the buzzword not only in business and corporate settings but in government and the social sector as well. Together Bennis, Goleman, and O'Toole explore why the containment of truth is the dearest held value of far too many organizations and suggest practical ways that organizations, their leaders, their members, and their boards can achieve openness. After years of dedicating themselves to research and theory, at first separately, and now jointly, these three leadership giants reveal the multifaceted importance of candor and show what promotes transparency and what hinders it. They describe how leaders often stymie the flow of information and the structural impediments that keep information from getting where it needs to go. This vital resource is written for any organization—business, government, and nonprofit—that must achieve a culture of candor, truth, and transparency.

The End of Absence Michael John Harris, 2014-08-07 Soon enough, nobody will remember life before the Internet. What does this unavoidable fact mean? Those of us who have lived both with and without the crowded connectivity of online life have a rare opportunity. We can still recognize the difference between Before and After. We catch ourselves idly reaching for our phones at the bus stop. Or we notice how, midconversation, a fumbling friend dives into the perfect recall of Google. In this eloquent and thought-provoking book, Michael Harris argues that amid all the changes we're experiencing, the most interesting is the end of absence—the loss of lack. The daydreaming silences in our lives are filled; the burning solitudes are extinguished. There's no true free time when you carry a smartphone. Today's rarest commodity is the chance to be alone with your thoughts. Michael Harris is an award-winning journalist and a contributing editor at *Western Living* and *Vancouvermagazines*. He lives in Toronto, Canada.

Blowing My Cover Lindsay Moran, 2005-11-01 Call me naïve, but when I was a girl—watching James Bond and devouring *Harriet the Spy*—all I wanted was to grow up to be a spy. Unlike most kids, I didn't lose my secret-agent aspirations. So as a bright-eyed, idealistic college grad, I sent my resume to the CIA. Getting in was a story in itself. I peed in more cups than you could imagine, and was nearly condemned as a sexual deviant by the staff psychologist. My roommates were getting freaked out by government investigators lurking around, asking questions about my past. Finally, the CIA was training me to crash cars into barriers at 60 mph. Jump out of airplanes with cargo attached to my body. Survive interrogation, travel in alias, lose

a tail. One thing they didn't teach us was how to date a guy while lying to him about what you do for a living. That I had to figure out for myself. Then I was posted overseas. And that's when the real fun began.
