These include transitioning from teaching to training, planning training, giving spoken and written feedback after observations, and running workshops and input sessions--Back cover.

ELT Playbook 1 Sandy Millin, 2018-09-18 ELT Playbook 1 contains a selection of 30 tasks to help teachers to reflect on what they do, centred particularly on the areas that seem to cause most problems for those new to our profession. It is based on my work as a CELTA trainer and as a manager of newly qualified teachers. There is also an associated online community where participants can choose to share their reflections and learn from others using the book, taking the first steps to building up an online support network. Who is this series for?

Teach First Certificate Nicola Prentis, 2017-01-12 This book is for you if you've never taught Cambridge First Certificate before, you want to know the most efficient techniques for getting your students through the exam, even if you've taught it before or you want to be able to advertise your services as an expert in First Certificate. The best way to learn to teach Cambridge First Certificate, is to take students through an entire course. Most schools I've worked at don't offer much in the way of additional training. You're just expected to get on with it. When I taught First, Advanced and PET, I was bumbling along with the books just trying to stay one answer further ahead than the students. Even if you're experienced at teaching general English, you can end up feeling like you've just stepped off the TEFL course. Learning along the way means you won't always be able to see around every little corner. With this book, you'll have everything you need to teach the exam the way your students deserve.

The Lost Family Libby Copeland, 2020-03-03 "A fascinating exploration of the mysteries ignited by DNA genealogy testing—from the intensely personal and concrete to the existential and unsolvable." —Tana French, New York Times—bestselling author You swab your cheek or spit in a vial, then send it away to a lab somewhere. Weeks later you get a

report that might tell you where your ancestors came from or if you carry certain genetic risks. Or, the report could reveal a long-buried family secret that upends your entire sense of identity. Soon a lark becomes an obsession, a relentless drive to find answers to questions at the core of your being, like “Who am I?” and “Where did I come from?” Welcome to the age of home genetic testing. In *The Lost Family*, journalist Libby Copeland investigates what happens when we embark on a vast social experiment with little understanding of the ramifications. She explores the culture of genealogy buffs, the science of DNA, and the business of companies like Ancestry and 23andMe, all while tracing the story of one woman, her unusual results, and a relentless methodical drive for answers that becomes a thoroughly modern genetic detective story. Gripping and masterfully told, *The Lost Family* is a spectacular book on a big, timely subject. “An urgently necessary, powerful book that addresses one of the most complex social and bioethical issues of our time.” —Dani Shapiro, *New York Times*-bestselling author “Before you spit in that vial, read this book.” —The *New York Times* Book Review “Impeccably researched . . . up-to-the-minute science meets the philosophy of identity in a poignant, engaging debut.” —Kirkus Reviews (starred review)

NPE* A story guide for unexpected DNA discoveries LeeAnne R. Hay, 2021-10-15 Genealogy is a fun hobby until the results of a consumer DNA test reveal a devastating secret. NPE* A STORY GUIDE FOR UNEXPECTED DNA DISCOVERIES is an authentic resource for people uncovering a new identity, their loved ones, and genealogists who encounter NPEs in a family tree. There is no more fundamental human need than to belong – first to a family, and then to others. My story and research over three years provide information and support to guide readers. Relatable insights and true stories are presented that address the initial shock of discovery, suggestions about communications, new ethnicities, family recognitions and rejections, and the history of illegitimacy. NPEs are found in all races, religions, and socio-economic groups in every country where consumer DNA tests are sold. By 2022, 142 million people worldwide will take DNA tests for genealogy and medical information. Ten to fifteen percent will discover they are NPE, like me. (*Non-paternity event is a genetic genealogy term for a break in the family line/name, when your 'Dad' is not your biological father.)

From "the Ukraine" to Ukraine Matthew Kasianov, Georgiy Minakov, Mykhailo Rojansky, 2021-05-11 The contributors to this collection explore the multidimensional transformation of independent Ukraine and deal with her politics, society, private sector, identity, arts, religions, media, and democracy. Each chapter reflects the up-to-date research in its sub-discipline, is styled for use in seminars, and includes a bibliography as well as a recommended reading list. These studies illustrate the deep changes, yet, at the same time, staggering continuity in Ukraine's post-Soviet development as well as various counter-reactions to it. All nine chapters are jointly written by two co-authors, one Ukrainian and one Western, who respond here to recent needs in international higher education. The volume's contributors include, apart from the editors: Margarita M. Balmaceda (Seton Hall University), Oksana Barshynova (Ukrainian National Arts Museum), Tymofii Brik (Kyiv School of Economics), José Casanova (Georgetown University), Diana Dutsyk (Kyiv-Mohyla Academy), Marta Dyczok (University of Western Ontario), Hennadii Korzhov (Kyiv Polytechnic Institute), Serhiy Kudelia (Baylor University), Pavlo Kutuev (Kyiv Polytechnic Institute), Olena Martynyuk (Columbia University), Oksana Mikheieva (Ukrainian Catholic University), Tymofii Mylovanov (University of Pittsburgh), Andrian Prokip (Ukrainian Institute for the Future), Oxana Shevel (Tufts University), Ilona Sologoub (Kyiv School of Economics), Maksym Yenin (Kyiv Polytechnic Institute), and Yuliya Yurchenko (University of Greenwich).

Farrell, 2005-04-04 This much-needed text provides a coherent and strategic approach to teacher development. *Teacher Development for Language Teachers* examines ten different approaches for facilitating professional development in language teaching: self-monitoring, support groups, journal writing, classroom observation, teaching portfolios, analysis of critical incidents, case analysis, peer coaching, team teaching, and action research. Composing a Life Mary Catherine Bateson, 2007-12-01 Profiles of five women that aim "to shed light on personal and career obstacles women face in achieving success" by a cultural anthropologist (Publishers Weekly). Mary Catherine Bateson has been called "one of the most original and important thinkers of our time" (Deborah Tannen). Grove Press is pleased to reissue Bateson's deeply satisfying treatise on the improvisational lives of five extraordinary women. Using their personal stories as her framework, Dr. Bateson delves into the creative potential of the complex lives we live today, where ambitions are constantly refocused on new goals and possibilities. With balanced sympathy and a candid approach to what makes these women inspiring, examples of the newly fluid movement of adaptation—their relationships with spouses, children, and friends, their ever-evolving work, and their gender—Bateson shows us that life itself is a creative process. "A masterwork of rare breadth and particularity, encompassing all the rhythms of five lives and friendships, and interweaving their stories in ways that reveal grand social truths and peculiar personal graces."—The Boston Globe "Well-formulated and passionate . . . Offers nothing less than a radical rethinking of the concept of achievement."—San Francisco Chronicle "As stimulating as it is hopeful . . . shakes up well-meaning truisms . . . adds new dimensions to our views of the world."—Elizabeth Janeway, author of *Man's World, Woman's Place* "Bateson has an extremely interesting mind and the ability to express herself with extraordinary literary felicity . . . Too much truth steams behind the quiet elegance of these passages."—The New York Times Book Review
