Images from the Region of the Pueblo Indians of North America Aby M. Warburg, 2016-11-01 Aby M. Warburg (1866–1929) is recognized not only as one of the century's preeminent art and Renaissance historians but also as a founder of twentieth-century methods in iconology and cultural studies in general. Warburg's 1923 lecture, first published in German in 1988 and now available in the first complete English translation, offers at once a window on his career, a formative statement of his cultural history of modernity, and a document in the ethnography of the American Southwest. This edition includes thirty-nine photographs, many of them originally presented as slides with the speech, and a rich interpretive essay by the translator.

Sayles on Sayles John Sayles, Gavin Smith, 1998 Interviews with John Sayles who worked on such widely varied projects as *The return of the Secaucus seven*; *Baby, it's you*; *Brother from another planet*; *Matewan*; *Passion fish*; *Piranha*; *Alligator*; *The howling*; *Apollo 13*; *City of hope*, *Lone star*; *Shannon's deal*.

The Curious Incident of the Dog in the Night-Time Mark Haddon, 2009-02-24 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the

dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

Lake Mathews and Gavilan Hills Kathleen Dever, Judy Whitson, 2007 The sparsely populated Cajalco basin holds a rich and varied history. Native American pictographs, grinding slicks, and mortars dot the landscape, while mine shafts and tailings reflect the arduous labor of tin and gold miners in an earlier time. Except for these seekers of fortune, hermits, and the occasional rancher or shepherd, there were few inhabitants in this region until Lawrence Holmes planted 50,000 carob trees in the 1920s and sold off plots to potential carob barons. Soon the valley boasted carob and citrus groves, homes, a school, and a store. The need for water in Los Angeles brought significant change to the valley when the Metropolitan Water Department constructed a terminus reservoir for the proposed Colorado River Aqueduct during the 1930s. This and many other events in the history of Lake Mathews and Gavilan Hills are illustrated here for the first time through 200 photographs, many never seen before by the public.

Globalistics and Globalization Studies George Modelski., Anton L. Grinin, Valentina M. Bondarenko., Ivan A. Aleshkovski, Alexey I. Andreev, Julia V. Zinkina, Oleg A. Alekseenko, Olga G. Leonova, David Christian, Tatyana L. Shestova, Craig G. Benjamin, Sergey V. Tsirel, William R. Thompson, Kentaro Sakuwa, Mikhail A. Kaverin, Sergey Yu. Malkov, Vladimir Maslov, Stanislav Ye. Bilyuga, Olga I. Davydova, Dmitry S. Malkov., Lowell Gustafson, David Baker, Alexander V. Markov, Joseph Voros, Alexander D. Panov, 2015-01-01 This yearbook is the fourth in the series with the title Globalistics and Globalization Studies. The subtitle of the present volume is Global History & Big History. The point is that today our global world really demands global knowledge. Thus, there are a few actively developing multidisciplinary approaches and integral disciplines among which one can name Global Studies, Global History and Big History. They all provide a connection between the past, present, and future. Big History with its vast and extremely heterogeneous field of research encompasses all the forms of existence and all timescales and brings together constantly updated information from the scientific disciplines and the humanities. Global History is transnational or world history which examines history from a global perspective, making a wide use of comparative history and of the history of multiple cultures and nations. Global Studies express the view of systemic and epistemological unity of global processes. Thus, one may argue that Global Studies and Globalistics can well be combined with Global History and Big History and such a multi-disciplinary approach can open wide horizons for the modern university education as it helps to form a global view of various processes.

All Because You Matter (An All Because You Matter Book) Tami Charles, 2020-10-06 A lyrical, heart-lifting love

letter to black and brown children everywhere: reminding them how much they matter, that they have always mattered, and they always will, from powerhouse rising star author Tami Charles and esteemed, award-winning illustrator Bryan Collier. Discover this poignant, timely, and emotionally stirring picture book, an ode to black and brown children everywhere that is full of hope, assurance, and love. Tami Charles pens a poetic, lyrical text that is part love letter, part anthem, assuring readers that they always have, and always will, matter. This powerful, rhythmic lullaby reassures readers that their matter and their worth is never diminished, no matter the circumstance: through the joy and wonder of their first steps and first laughter, through the hardship of adolescent struggles and the pain and heartbreak of current events, they always have, and always will, matter. Accompanied by illustrations by renowned artist Bryan Collier, a four-time Caldecott Honor recipient and a nine-time Coretta Scott King Award winner or honoree, *All Because You Matter* empowers readers with pride, joy, and comfort, reminding them of their roots and strengthening them for the days to come. Lyrical, personal, and full of love, *All Because You Matter* is for the picture book audience what *The Hate U Give* was for YA and *Ghost Boys* was for middle grade: a conversation starter, a community touchstone, and a deep affirmation of worth for the young readers who need it most.

The New Corner Office Laura Vanderkam, 2020-07-21 Drawing on her 18 years of experience working remotely, plus original interviews with managers, employees, and free agents who've perfected their remote routines, Laura Vanderkam shares strategies for productivity, creativity, and health in the new corner office. How do you do great work while sitting near the same spot where you watch Netflix? How can you be responsive without losing the focus necessary for getting things done? How can you maintain and grow your network when you spend less time face to face? The key is to detach yourself from old ways of working and adopt new habits to match your new environment. Long before public health concerns pushed many of us indoors, some of the most successful people fueled their careers with carefully perfected work-from-home routines. Drawing on those profiles and her own insights, productivity expert and mother of five Laura Vanderkam reveals how to turn being cooped up into the ultimate career advantage. Her hacks include: • Manage by task, not time. Going to an office for 8 hours makes you feel like you've done something, even if you haven't. Remote workers should set 3-5 ambitious goals for each day and consider the work day done when these are crossed off. • Get the rhythm right. A well-planned day features time for focused work, interactive work, and rejuvenating breaks. In place of a commute, a consciously chosen shut down ritual keeps work from continuing all night. • Nurture connections. Wise remote workers can build broader and more effective networks than people sitting in the same cubicle five days a week. Whether you're an introvert or an extrovert, a self-starter or someone who prefers detailed directions, you can do your clearest thinking and deepest work at home--and have more energy left over to achieve personal goals or fuel bigger professional ambitions. In fact, soon you might find it hard to imagine working any other way.

Silver Lake Drive Alex Prager, 2018-06 Alex Prager is one of the truly original image makers of our time. Working fluidly

between photography and film, she creates large-scale projects that combine elaborately built sets, highly staged, complex performances and a 'Hollywood' aesthetic to produce still and moving images that are familiar yet strange, utterly compelling and unerringly memorable. In her career she has won both popular acclaim and the recognition of the art establishment - her work can be found in the collections of MoMA and the Whitney Museum in New York as well as institutions worldwide. This book is the first career retrospective of this rising star. In 120 carefully curated photographs, it summarizes Prager's creative trajectory and offers an ideal introduction for the popular 'breakout' audience who may have only recently encountered her work. Structured around her project-orientated approach, *Silver Lake Drive* presents the very best images from her career to date: from the early Film Stills through her collaborations with the actor Bryce Dallas Howard on *Week-end* and *Despair* to the tour de force of *Face in the Crowd* - shot on a Hollywood sound stage with over 150 performers - and her 2015 commission for the Paris opera *La Grande Sortie*. Supported by an international exhibition schedule, and including an in-depth interview with Alex Prager by Nathalie Herschdorfer and supplementary essays by the curators of renowned museums and galleries, this book will be an essential addition to the collection of anyone who has followed Prager's career and all with an interest in and appreciation of contemporary art.

Columbia Pictures Bernard F. Dick, 2021-10-19 Drawing on previously untapped archival materials including letters, interviews, and more, Bernard F. Dick traces the history of Columbia Pictures, from its beginnings as the CBC Film Sales Company, through the regimes of Harry Cohn and his successors, and ending with a vivid portrait of today's corporate Hollywood. The book offers unique perspectives on the careers of Rita Hayworth and Judy Holliday, a discussion of Columbia's unique brands of screwball comedy and film noir, and analyses of such classics as *The Awful Truth*, *Born Yesterday*, and *From Here to Eternity*. Following the author's highly readable studio chronicle are fourteen original essays by leading film scholars that follow Columbia's emergence from Poverty Row status to world class, and the stars, films, genres, writers, producers, and directors responsible for its transformation. A new essay on Quentin Tarantino's *Once Upon a Time...in Hollywood* rounds out the collection and brings this seminal studio history into the 21st century. Amply illustrated with film stills and photos of stars and studio heads, *Columbia Pictures* is the first book to integrate history with criticism of a single studio, and is ideal for film lovers and scholars alike.

A compendium of charts, time lines, lists and illustrations to accompany study of the Bible. This visually appealing resource provides a wide array of illustrative and textually concise references, beginning with three sets of charts covering the Bible as a whole, the Old Testament and the New Testament. These charts cover such topics as biblical weights and measures, feasts and holidays and the 12 disciples. Most of the charts use a variety of illustrative techniques to convey lessons and provide visual interest. A worthwhile example is 'How We Got the Bible, ' which provides a time line of translation history, comparisons of canons among faiths and portraits of important figures in biblical translation, such as Jerome and John Wycliffe. The book then presents a section of maps, followed by diagrams to conceptualize such structures as Noah's Ark and Solomon's Temple. Finally, a section on Christianity, cults and other religions describes key aspects of history and doctrine for certain Christian sects and other faith traditions. Overall, the authors take a traditionalist, conservative approach. For instance, they list Moses as the author of the Pentateuch (the first five books of the Hebrew Bible) without making mention of claims to the contrary. When comparing various Christian sects and world religions, the

emphasis is on doctrine and orthodox theology. Some chapters, however, may not completely align with the needs of Catholic and Orthodox churches. But the author's leanings are muted enough and do not detract from the work's usefulness. As a resource, it's well organized, inviting and visually stimulating. Even the most seasoned reader will learn something while browsing. Worthwhile reference stuffed with facts and illustrations. --Kirkus Reviews
