15-Minute Focus - Behavioral Threat Assessment and Management for K-12 Schools Melissa A. Louvar Reeves,2021-04-22 In 15-Minute Focus: Behavioral Threat Assessment and Management for K-12 Schools, Dr. Melissa A. Louvar Reeves explains the interrelated factors that play a role in a person's decision to plan and carry out an act of violence.

Every year, stories about violence in schools make headlines around the world. And every year, questions surface: How could this have been prevented? What were the warning signs? What changes do we need to make in our schools and communities to prevent this from happening yet again? This book will help answer those questions, as you learn about the factors that affect decision-making, and the role of Behavioral Threat Assessment and Management (BTAM) in managing students' troubling behaviors, mitigating risk for the school and community, and directing students onto more positive pathways. In this book, you'll discover: Why schools should establish BTAM teams and protocols? How to establish a BTAM team? Identifying and reporting concerns? Establishing protocols for evaluating threats? How teachers, administrators, counselors and the community can work together to mitigate troubling behavior and ensure student success? Ways to assist struggling students as they transition to adult life after high school. Educators, administrators, and school counselors have been trained on how to respond to a student who is suicidal or despondent. This book helps translate those skills to assist someone who is thinking about harming others.

The Madness of Mary Lincoln Jason Emerson, 2007-09-25 In 2005, historian Jason Emerson discovered a steamer trunk formerly owned by Robert Todd Lincoln's lawyer and stowed in an attic for forty years. The trunk contained a rare find: twenty-five letters pertaining to Mary Todd Lincoln's life and insanity case, letters assumed long destroyed by the Lincoln family. Mary wrote twenty of the letters herself, more than half from the insane asylum to which her son Robert had her committed, and many in the months and years after. *The Madness of Mary Lincoln* is the first examination of Mary Lincoln's mental illness based on the lost letters, and the first new interpretation of the insanity case in twenty years. This compelling story of the purported insanity of one of America's most tragic first ladies provides new and previously unpublished materials, including the psychiatric diagnosis of Mary's mental illness and her lost will. Emerson charts Mary Lincoln's mental illness throughout her life and describes how a predisposition to psychiatric illness and a life of mental and emotional trauma led to her commitment to the asylum. The first to state unequivocally that Mary Lincoln suffered from bipolar disorder, Emerson offers a psychiatric perspective on the insanity case based on consultations with psychiatrist experts. This book reveals Abraham Lincoln's understanding of his wife's mental illness and the degree to which he helped keep her stable. It also traces Mary's life after her husband's assassination, including her severe depression and physical ailments, the harsh public criticism she endured, the Old Clothes Scandal, and the death of her son Tad. *The Madness of Mary Lincoln* is the story not only of Mary, but also of Robert. It details how he dealt with his mother's increasing irrationality and why it embarrassed his Victorian sensibilities; it explains the reasons he had his mother committed, his response to her suicide attempt, and her plot to murder him. It also shows why and how he ultimately agreed to her release from the asylum eight months early, and what their relationship was like until Mary's death. This historical page-turner provides readers for the first time with the lost letters that historians had been in search of for eighty years. Univeristy Press Books for Public and
