Grassroots Youth Work De St Croix, Tania, 2016-07-05 Some of the most energetic, effective, and passionate activists involved in grassroots politics are young people--but their voices are rarely heard in policy, research, or public debate. This book remedies that, giving young activists their due and showing the effects of passionate social service practitioners who build relationships with marginalized young people in the face of spending cuts and shifting governmental priorities. Written by an experienced youth worker, Grassroots Youth Work uses interviews, dialogue, and excerpts from research diaries to bring youth work to life in both theory and practice.

Youth Power in Precarious Times Melissa Brough, 2020-07-27 Does youth participation hold the potential to change entrenched systems of power and to reshape civic life? In Youth Power in Precarious Times Melissa Brough examines how the city of Medellín, Colombia, offers a model of civic transformation forged in the wake of violence and repression. She responds to a pressing contradiction in the world at large, where youth political participation has become a means of commodifying digital culture amid the ongoing disenfranchisement of youth globally. Brough focuses on how young people's civic participation online and in the streets in Medellín was central to the city's transformation from having the world's highest homicide rates in the early 1990s to being known for its urban renaissance by the 2010s. Seeking to distinguish commercialized digital interactions from genuine political participation, Brough uses Medellín's experiences with youth participation—ranging from digital citizenship initiatives to the voices of community media to the beats of hip-hop culture—to show how young people can be at the forefront of fostering ecologies of artistic and grassroots engagement in order to reshape civic life.

Subversive Jesus Craig Warren Greenfield, 2016-04-26 When Jesus left the most exclusive gated community in the universe to come live with the people he loved and gave his life for, he turned everything we know and believe about life on its head. Jesus said that he came to bring good news to the poor, but most Western Christians remain disconnected and isolated from the poor and their contexts of injustice. Even our churches echo society's pressure to isolate ourselves from the margins (e.g. by moving to a better suburb) and instead teach us how to be "nice people" who worship a "nice Jesus" and don't disrupt the status quo. Convinced that Jesus places love for the poor and the pursuit of justice central, Craig Greenfield has sought to follow in Christ's footsteps by living among people at the edges of society for the last fourteen years. His quest

to follow this Subversive Jesus has taken Craig and his young family from the slums of Asia to inner city Canada and back again. This is the story of how Jesus led them to the margins: initiating the Pirates of Justice flash mobs, sharing their home with detoxing crackheads, welcoming homeless panhandlers and prostitutes to the dinner table, and ultimately sparking a movement to reach the world's most vulnerable children. This book is a strong and potentially controversial critique of the status quo too often found in our churches, but it offers an inspirational and hopeful vision of another way. While readers may not relocate to a slum, they will certainly come to view their lives and ministry through a fresh lens—reconsidering how they are uniquely called by Jesus to subversively love the poor and break down systems of injustice in their sphere of influence.

Community Programs to Promote Youth Development Institute of Medicine, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Community-Level Programs for Youth, 2002-02-12 After-school programs, scout groups, community service activities, religious youth groups, and other community-based activities have long been thought to play a key role in the lives of adolescents. But what do we know about the role of such programs for today's adolescents? How can we ensure that programs are designed to successfully meet young people's developmental needs and help them become healthy, happy, and productive adults? Community Programs to Promote Youth Development explores these questions, focusing on essential elements of adolescent well-being and healthy development. It offers recommendations for policy, practice, and research to ensure that programs are well designed to meet young people's developmental needs. The book also discusses the features of programs that can contribute to a successful transition from adolescence to adulthood. It examines what we know about the current landscape of youth development programs for America's youth, as well as how these programs are meeting their diverse needs. Recognizing the importance of adolescence as a period of transition to adulthood, Community Programs to Promote Youth Development offers authoritative guidance to policy makers, practitioners, researchers, and other key stakeholders on the role of youth development programs to promote the healthy development and well-being of the nation's youth.

Doing Youth Participatory Action Research Nicole Mirra, Antero Garcia, Ernest Morrell, 2015-10-23 Doing Youth Participatory Action Research offers an unprecedented, in-depth exploration of the pragmatics and possibilities of youth-driven research. Drawing upon multiple years of experience engaging youth in rigorous, critical inquiry about the conditions impacting their lives, the authors examine how YPAR encourages the educational community to re-imagine the capabilities of young people and the purposes of teaching, learning, and research itself. Much more than a how-to guide for those interested in creating their own YPAR projects, this book draws upon the voices of students and educators, as well as the multiple historical traditions of critical research, to describe how youth inquiry transforms each step of the traditional research process. From identifying research questions to collecting data and disseminating findings, each chapter details how YPAR

revolutionizes traditional conceptions of who produces knowledge, how it is produced, and for what purposes. The book weaves together research, policy, and practice to offer YPAR as a practice with the power to challenge entrenched social and educational inequalities, empower critically aware youth, and revolutionize pedagogy in classrooms and communities. For researchers, educators, community members, and youth who want to connect, question, and transform the world collectively, *Doing Youth Participatory Action Research* is a rich source of both pragmatic methodological guidance and inspiration.

For Youth Workers and Youth Work Nicholls, Doug, 2012-09-22 In this unique and passionate book, Doug Nicholls proposes a cultural revolution within youth work. He draws on the best of youth work's past to redesign the youth work map for today. He speaks with wit, wisdom and warmth to youth workers about their craft. Yet he takes no intellectual prisoners in proposing a new role for youth work in the struggle for social justice. No student or practitioner should miss it.

Resilience for All Barbara Brown Wilson, 2018-05-24 In the United States, people of color are disproportionately more likely to live in environments with poor air quality, in close proximity to toxic waste, and in locations more vulnerable to climate change and extreme weather events. In many vulnerable neighborhoods, structural racism and classism prevent residents from having a seat at the table when decisions are made about their community. In an effort to overcome power imbalances and ensure local knowledge informs decision-making, a new approach to community engagement is essential. In *Resilience for All*, Barbara Brown Wilson looks at less conventional, but often more effective methods to make communities more resilient. She takes an in-depth look at what equitable, positive change through community-driven design looks like in four communities—East Biloxi, Mississippi; the Lower East Side of Manhattan; the Denby neighborhood in Detroit, Michigan; and the Cully neighborhood in Portland, Oregon. These vulnerable communities have prevailed in spite of serious urban stressors such as climate change, gentrification, and disinvestment. Wilson looks at how the lessons in the case studies and other examples might more broadly inform future practice. She shows how community-driven design projects in underserved neighborhoods can not only change the built world, but also provide opportunities for residents to build their own capacities.

Light It Up Kekla Magoon, 2019-10-22 Told in a series of vignettes from multiple viewpoints, Kekla Magoon's *Light It Up* is a powerful, layered story about injustice and strength—as well as an incredible follow-up to the highly acclaimed novel *How It Went Down*. A girl walks home from school. She's tall for her age. She's wearing her winter coat. Her headphones are in. She's hurrying. She never makes it home. In the aftermath, while law enforcement tries to justify the response, one fact remains: a police officer has shot and killed an unarmed thirteen-year-old girl. The community is thrown into upheaval, leading to unrest, a growing movement to protest the senseless taking of black lives, and the arrival of white supremacist counter demonstrators.

How It Went Down Kekla Magoon, 2014-10-21 When sixteen-year-old Tariq Johnson is shot to death, his community is thrown into an uproar because Tariq was black and the shooter, Jack Franklin, is white, and in the aftermath everyone has

something to say, but no two accounts of the events agree.

Searching for Community Jeremy Brent, 2009-05-13 This book examines ways to understand and engage with the troublesome concept of 'community', presenting a variety of perspectives to challenge the ways in which areas of poverty and disrepute are represented.

Best Practice for Youth Sport Robin S. Vealey, Melissa A. Chase, 2016-01-08 Although the physical and psychological benefits of youth participating in sport are evident, the increasing professionalization and specialization of youth sport, primarily by coaches and parents, are changing the culture of youth sport and causing it to erode the ideal mantra: "It's all about the kids." In *Best Practice for Youth Sport*, readers will gain an appreciation of an array of issues regarding youth sport. This research-based text is presented in a practical manner, with examples from current events that foster readers' interest and class discussion. The content is based on the principle of developmentally appropriate practice (DAP), which can be defined as engaging in decisions, behaviors, and policies that meet the physical, psychological, and social needs of children and youth based on their ages and maturational levels. This groundbreaking resource covers a breadth of topics, including bone development, burnout, gender and racial stereotypes, injuries, motor behavior, and parental pressures. Written by Robin S. Vealey and Melissa A. Chase, the 16 chapters of *Best Practice for Youth Sport* are divided into four parts. Part I, *Youth Sport Basics*, provides readers with the fundamental knowledge and background related to the history, evolution, and organization of youth sport. Part II, *Maturation and Readiness for Youth Sport Participants*, is the core of understanding how and why youth sport is different from adult sport. This part details why it is important to know when youth are ready to learn and compete. Part III, *Intensity of Participation in Youth Sport*, examines the appropriateness of physical and psychological intensity at various developmental stages and the potential ramifications of overtraining, overspecialization, overstress, and overuse. The text concludes with part IV, *Social Considerations in Youth Sport*, which examines how youth sport coaches and parents can help create a supportive social environment so that children can maximize the enjoyment and benefits from youth sport. In addition to 14 appendixes, activities, glossaries, study questions, and other resources that appear in *Best Practice for Youth Sport*, the textbook is enhanced with instructor ancillaries: a test package, image bank, and instructor guide that features a syllabus, additional study questions and learning activities, tips on teaching difficult concepts, and additional readings and resources. These specialized resources ensure that instructors will be ready for each class session with engaging materials. Ancillaries are free to course adopters and available at www.HumanKinetics.com/BestPracticeForYouthSport. *Best Practice for Youth Sport* provides readers with knowledge of

sport science concerning youth sport and engages them through the use of anecdotes, activities, case studies, and practical strategies. Armed with the knowledge from this text, students, coaches, parents, administrators, and others will be able to become active agents of social change in structuring and enhancing youth sport programs to meet the unique developmental needs of children, making the programs athlete centered rather than adult centered so that they truly are all about the kids.

Bamboo Goalposts Rowan Simons,2010-11-30 Rowan Simons has lived (and played football) in China for over twenty years and Bamboo Goalposts is his amusing and insightful account of what it's like to live, work and play there. He presents and works with Beijing TV and runs his own media company, but his real passion is getting China to embrace the social and health benefits of amateur football. Which isn't easy in a country where for decades it was illegal for more than ten people to congregate for the purposes of a recreational sporting activity. Rowan built a football pitch and clubhouse and now heads Club Football - <http://www.clubfootball.com.cn> - whose growing membership has given him genuine hope that by the time the Beijing Olympics begin in 2008 he might be getting somewhere. No other book communicates more clearly, more humourously and more affectionately what contemporary China is like when viewed through Western eyes. Rowan speaks fluent Chinese and his love of the country and its people shines off every page. He has lived there for so long that he understands what it takes to get ahead, but at the same time he is still very much a down-to-earth English football fan who just wants to share his passion for the beautiful game. Bamboo Goalposts is a personal odyssey inspired by the selfless pioneers of amateur football who took the game around the world in centuries past, but somehow missed China.

Food Justice Now! Joshua Sbicca, 2018-07-31 A rallying cry to link the food justice movement to broader social justice debates The United States is a nation of foodies and food activists, many of them progressives, and yet their overwhelming concern for what they consume often hinders their engagement with social justice more broadly. Food Justice Now! charts a path from food activism to social justice activism that integrates the two. It calls on the food-focused to broaden and deepen their commitment to the struggle against structural inequalities both within and beyond the food system. In an engrossing, historically grounded, and ethnographically rich narrative, Joshua Sbicca argues that food justice is more than just a myopic focus on food, allowing scholars and activists alike to investigate the causes behind inequities and evaluate and implement political strategies to overcome them. Focusing on carceral, labor, and immigration crises, Sbicca tells the stories of three California-based food movement organizations, showing that when activists use food to confront neoliberal capitalism and institutional racism, they can creatively expand how to practice and achieve food justice. Sbicca sets his central argument in

opposition to apolitical and individual solutions, discussing national food movement campaigns and the need for economically and racially just food policies—a matter of vital public concern with deep implications for building collective power across a diversity of interests.
