Mohammad Reza Shajarian's Avaz in Iran and Beyond, 1979-2010 Rob Simms, Amir Koushkani, 2012-03-22

Mohammad Reza Shajarian's *Avaz in Iran and Beyond, 1979-2010* is a comprehensive study of the legacy of Mohammad Reza Shajarian, the greatest living exponent of avaz, the traditional art of singing classical Persian poetry. Focusing on Shajarian's career after the Islamic Revolution of 1979, the study includes a detailed examination of the landmark recordings that established him as a national and then global icon of refined Persian culture, artistic excellence, and courageous political resistance.

Will Sustainability Fly? Walter J. Palmer, 2016-02-11 While international negotiations to reduce greenhouse gas (GHG) emissions have been less than satisfactory, there is a presumption that a significant level of multi-lateral commitment will be realized at some point. International air and marine travel have been left to one side in past talks because the pursuit of agreement proceeds on the basis of commitment by sovereign nations and the effects of these specific commercial activities are, by their nature, difficult to corral and assign to specific national jurisdictions. However, air travel is increasing and, unless something is done, emissions from this segment of our world economy will form a progressively larger percentage of the total, especially as emissions fall in other activities. This book focuses on fuel. The aim is to provide background in technical and policy terms, from the broadest reliable sources of information available, for the necessary discourse on society's reaction to the evolving aviation emissions profile. It considers what policy has been, why and how commercial air travel is committed to its current liquid fuel, how that fuel can be made without using fossil-source materials, and the barriers to change. It also advances some elements of policy remedies that make sense in providing an environmentally and economically sound way forward in a context that comprehends a more complete vision of sustainability than 'renewable fuels' traditionally have. The goal of *Will Sustainability Fly?* is to broaden and contextualize the knowledge resource available to academics, policy makers, air industry leaders and stakeholders, and interested members of the public.

What in the World is Music? Alison E. Arnold, Jonathan C. Kramer, 2023-09-13 *What in the World is Music?* Second Edition is an undergraduate, interactive e-textbook that explores the shared ways people engage with music and how humans organize and experience sound. It adopts a global approach, featuring more than 300 streaming videos and 50 streaming audio tracks of music from around the world. Drawing from both musicological and ethnomusicological modes of inquiry, the

authors explain the nature and meaning of music as a universal human practice, making no distinction between Western and non-Western repertoires while providing students with strong points of connection to the ways it affects their own lives. The *What in the World is Music?* curriculum is divided into five parts, with a fully integrated multimedia program linked directly to the chapters: *The Foundations of Music I* proposes a working definition of music and considers inquiry-guided approaches to its study: Why do humans have innate musical perception? How does this ability manifest itself in the human voice? A catalog of musical instruments showcases global diversity and human ingenuity. *The Foundations of Music II* continues the inquiry-guided approach, recognizing the principles by which musical sound is organized while discussing elements such as rhythm, melody, harmony, texture, form, genre, and style. Where did music come from? What is it for? *Music and Identity* examines how music operates in shaping, negotiating, and expressing human identity and is organized around three broad conceptual frames: the group, hybridity, and conflict. *Music and the Sacred* addresses how music is used in religious practices throughout the world: chanting sacred texts and singing devotional verses, inspiring religious experience such as ecstasy and trance, and marking and shaping ritual space and time. *Music and Social Life* analyzes the uses of music in storytelling, theater, and film. It delves into the contributions of sound technologies, while looking at the many ways music enhances nightlife, public ceremonies, and festivals.

Focusing on Shajarian's early career up to 1979, this in-depth study includes a panoramic view of the social and historical context of the twentieth-century tradition of avaz, along with a detailed presentation of Shajarian's musical toolkit for weaving together poetry and Iranian musical modes.

Disoriental Négar Djavadi, 2018-05-01 National Book Award Finalist: "A multigenerational epic of the Sadr family's life in Iran and their eventual exile . . . Full of surprises" (The Globe and Mail). Winner of the 2019 Albertine Prize and Lambda Literary Award Kimiâ Sadr fled Iran at the age of ten in the company of her mother and sisters to join her father in France. Now twenty-five and facing the future she has built for herself, as well as the prospect of a new generation, Kimiâ is inundated by her own memories and the stories of her ancestors, which come to her in unstoppable, uncontainable waves. In the waiting room of a Parisian fertility clinic, generations of flamboyant Sadrs return to her, including her formidable great-

grandfather Montazemolmolk, with his harem of fifty-two wives, and her parents, Darius and Sara, stalwart opponents of each regime that befalls them. It is Kimiâ herself—punk-rock aficionado, storyteller extraordinaire, a Scheherazade of our time, and above all a modern woman divided between family traditions and her own “disorientalization”—who forms the heart of this bestselling and beloved novel, recipient of numerous literary honors. “Where initially Disoriental seems focused on Kimiâ’s father and his pro-democracy activism—first against the Shah, then the Ayatollah Khomeini—this is truly Kimiâ’s story of disorientation—national, familial and sexual—and finding herself again.” —The Globe and Mail “A tour de force of storytelling . . . Djavadi deftly weaves together the history of 20th-century Iran [and] the spellbinding chronicle of her own ancestors. . . . Perfectly blends historical fact with contemporary themes.” —Library Journal “Riveting . . . Djavadi is an immensely gifted storyteller, and Kimiâ’s tale is especially compelling.” —Booklist (starred review) “A wonder and a pleasure to read.” —Rivka Galchen, author of Atmospheric Disturbances WINNER 2019 ALBERTINE PRIZE WINNER 2019 LAMBDA LITERARY AWARD FINALIST 2018 NATIONAL BOOK AWARD FINALIST 2019 CLMP FIRECRACKER AWARD FINALIST 2019 BEST TRANSLATED BOOK AWARD WINNER LE PRIX DU ROMAN NEWS WINNER STYLE PRIZE WINNER 2016 LIRE BEST DEBUT NOVEL WINNER LA PORTE DORÉE PRIZE ONE OF THE GLOBE & MAIL’S BEST BOOKS OF 2018

At the Dawn of the Cold War Jamil Hasanli, 2006-06-29 For half a century, the United States and the Soviet Union were in conflict. But how and where did the Cold War begin? Jamil Hasanli answers these intriguing questions in *At the Dawn of the Cold War*. He argues that the intergenerational crisis over Iranian Azerbaijan (1945-1946) was the first event that brought the Soviet Union to a confrontation with the United States and Britain after the period of cooperation between them during World War II. Based on top-secret archive materials from Soviet and Azerbaijani archives as well as documents from American, British, and Iranian sources, the book details Iranian Azerbaijan's independence movement, which was backed by the USSR, the Soviet struggle for oil in Iran, and the American and British reactions to these events. These events were the starting point of the longer historical period of unarmed conflict between the Soviets and the West that is now known as the Cold War. This book is a major contribution to our understanding of the Cold War and international politics following WWII.

The Repertoire of Iraqi Maqam Rob Simms, 2003-12-23 The classical music of Iraq, known as Iraqi Maqam, features classical and vernacular poetry sung by a virtuoso soloist and accompanied by a small instrumental ensemble. It is a remarkably cosmopolitan art, sharing many features with neighboring classical traditions, particularly Iranian. Its repertoire consists of orally transmitted, multi-sectioned compositions, performed with some flexibility regarding ornamentation, arrangement and development. Focusing on the period between 1930-1980. This is a reference source that offers the first comprehensive view of the musical contents of the repertoire—scalar structure, melodic materials and overall form—through various tables and musical transcriptions. This reference consolidates information from prominent Iraqi sources and draws

upon a selection of recordings by master musicians, including Rashid Qundarchi and Yusuf Omar. An introductory section provides a brief overview of pan-Middle Eastern modal theory along with an outline of the terminology, theory and practices specific to Iraqi Maqam. The main section of the work is a catalog of 40 maqams that constitute the central core of the contemporary repertoire.

The Rubáiyát of Omar Khayyam Omar Khayyam, 2020-04-30 A repository of subversive, melancholic and existentialist themes and ideas, the rubaiyat (quatrains) that make up the collected poems attributed to the 12th century Persian astronomer Omar Khayyam have enchanted readers for centuries. In this modern translation, complete with critical introduction and epilogue, Juan Cole elegantly renders the verse for contemporary readers. Exploring such universal questions as the meaning of life, fate and how to live a good life in the face of human mortality, this translation reveals anew why this singular collection of poems has struck a chord with such a temporally and culturally diverse audience, from the wine houses of medieval Iran to the poets of Western twentieth century modernism.

Historical Dictionary of Mesopotamia Gwendolyn Leick, 2009-11-16 The Greek name Mesopotamia means 'land between the rivers.' The Romans used this term for an area that they controlled only briefly (between 115 and 117 A.D.): the land between the Euphrates and Tigris rivers, from the south Anatolian mountains ranges to the Persian Gulf. It comprises the civilizations of Sumer and Akkad (third millennium B.C.) as well as the later Babylonian and Assyrian empires of the second and first millennium. Although the 'history' of Mesopotamia in the strict sense of the term only begins with the inscriptions of Sumerian rulers around the 27th century B.C., the foundations for Mesopotamian civilization, especially the beginnings of irrigation and the emergence of large permanent settlements, were laid much earlier, in the fifth and fourth millennium. The second edition of the *Historical Dictionary of Mesopotamia* defines concepts, customs, and notions peculiar to the civilization of ancient Mesopotamia, from adult adoption to ziggurats. This is accomplished through a chronology, an introductory essay, a bibliography, appendixes, and hundreds of cross-reference dictionary entries on religion, economy, society, geography, and important kings and rulers.

Yasmina Reza: Plays 1 Yasmina Reza, 2005-07-30 Now in one volume, the works of the most successful international playwright of her generation (Vogue). Yasmina Reza's plays reflect the razor sharp wit, social commentary, and impeccable comedic timing that have earned the praise of critics throughout the world, none more so than the Tony Award-winning *Art*, an eccentric and clever play of ideas that took the American theater community by storm. In this sly critique of contemporary relationships, Reza skillfully picks apart the friendship of three men via a bowl of olives and a white-on-white painting. Now translated into more than 30 languages, *Art* continues to be performed worldwide, even as Reza's other plays have garnered similar acclaim. *Life x 3*, Reza's most recent offering, again highlights her satirical wit as two couples face off in three different versions of the dinner from hell. Praised as compact, cool and clever by Christopher Isherwood of *Variety*, Reza uses

the acidic exchanges of her characters to illuminate their inner desire for love and acceptance. Also included in this edition are two earlier plays, *The Unexpected Man* and *Conversations After a Burial*. Each elucidates the startling difference between public and private life, be it in the confines of a train compartment or a country estate in the aftermath of a loved one's passing.

Rivers of Fire Arnon Soffer, Murray Rosovsky, Nina Copaken, 1999-02-24 In a never-ending battle to match population growth with food and energy production, the countries of the Middle East have been frenziedly developing water resources, including international rivers and groundwater, without considering their neighbors' needs. The inevitable result has been more frequent and increasingly bitter conflicts. At the same time, a halting Arab-Israeli peace process spurred by the collapse of the Soviet Union continues. Are we indeed entering a new era in a new Middle East? Do the region's leaders understand that reality has changed and that a transition is inevitable? Focusing on international rivers and ground water in the region, this timely study provides thoughtful if pessimistic answers to these questions. Encompassing all water sources in the Middle East, Arnon Soffer thoroughly explores the Nile, Tigris, Euphrates, Jordan, Orontes, and Litani Rivers, as well as international groundwater. He also weighs the implications of going to war over water and such unconventional solutions to the water shortage as desalination and importation.

Global 1968 A. James McAdams, Anthony P. Monta, 2021-06-01 *Global 1968* is a unique study of the similarities and differences in the 1968 cultural revolutions in Europe and Latin America. The late 1960s was a time of revolutionary ferment throughout the world. Yet so much was in flux during these years that it is often difficult to make sense of the period. In this volume, distinguished historians, filmmakers, musicologists, literary scholars, and novelists address this challenge by exploring a specific issue—the extent to which the period that we associate with the year 1968 constituted a cultural revolution. They approach this topic by comparing the different manifestations of this transformational era in Europe and Latin America. The contributors show in vivid detail how new social mores, innovative forms of artistic expression, and cultural, religious, and political resistance were debated and tested on both sides of the Atlantic. In some cases, the desire to confront traditional beliefs and conventions had been percolating under the surface for years. Yet they also find that the impulse to overturn the status quo was fueled by the interplay of a host of factors that converged at the end of the 1960s and accelerated the transition from one generation to the next. These factors included new thinking about education and work, dramatic changes in the self-presentation of the Roman Catholic Church, government repression in both the Soviet Bloc and Latin America, and universal disillusionment with the United States. The contributors demonstrate that the short- and long-term effects of the cultural revolution of 1968 varied from country to country, but the period's defining legacy was a lasting shift in values, beliefs, lifestyles, and artistic sensibilities. Contributors: A. James McAdams, Volker Schlöndorff, Massimo De Giuseppe, Eric Drott, Eric Zolov, William Collins Donahue, Valeria Manzano, Timothy W. Ryback, Vania Markarian, Belinda

Davis, J. Patrice McSherry, Michael Seidman, Willem Melching, Jaime M. Pensado, Patrick Barr-Melej, Carmen-Helena Téllez, Alonso Cueto, and Ignacio Walker.

From Dust to Digital Maja Kominko, 2015-02-16 Much of world's documentary heritage rests in vulnerable, little-known and often inaccessible archives. Many of these archives preserve information that may cast new light on historical phenomena and lead to their reinterpretation. But such rich collections are often at risk of being lost before the history they capture is recorded. This volume celebrates the tenth anniversary of the Endangered Archives Programme at the British Library, established to document and publish online formerly inaccessible and neglected archives from across the globe. From Dust to Digital showcases the historical significance of the collections identified, catalogued and digitised through the Programme, bringing together articles on 19 of the 244 projects supported since its inception. These contributions demonstrate the range of materials documented — including rock inscriptions, manuscripts, archival records, newspapers, photographs and sound archives — and the wide geographical scope of the Programme. Many of the documents are published here for the first time, illustrating the potential these collections have to further our understanding of history.
