**GreenFaith** Rev. Fletcher Harper, 2015-03-17 God is calling us to live differently. The challenges we face are imminent. GreenFaith provides vision, inspiration, and practical tools to help you build your faith while inhabiting a creation that is at risk. With honesty and candor, Fletcher Harper shows that it takes belief and practice, science and faith to sustain us and our planet. The book gives concrete examples and tips that will help people of faith and worshiping communities engage in Earth care—in bold, life-giving ways. Each chapter has questions to guide personal study and group conversation. All bets are off if we go over the climate change cliff—a disaster greater than many Hurricane Sandys. There is no doubt that climate change is happening. While debated for years and despite some media reports to the contrary, the majority of people are ready to take action to avoid calamity. But what action is advisable or even possible? What can ordinary people do in the face of such staggering problems? Can or should faith communities play a part? Fletcher Harper shows how we can make a difference and make Earth a better world for all of us.

**Sharing Eden** Natan Levy, Harfiyah Haleem, David Shreeve, 2013-05-27 Finding common ground between Christianity, Islam, and Judaism is a critical priority for the whole world—and nowhere is that common ground more evident or inspiring than on environmental issues.—Jonathon Porritt, co-founder, Forum for the Future [A] very encouraging and helpful project, and I hope it inspires those in each of the three traditions to collaborate more in environmental thought.—Sustainability in Crisis, United Kingdom This introductory handbook combines beautiful and enlightening texts from each faith's religious teachings to address some of the most prominent environmental issues faced today, such as waste, climate change, and biodiversity. Each author brings a contemporary focus to the eternal challenge of caring for the environment and provides practical advice on how we can all do our share to protect it. Sharing Eden sets out to show how respect for the environment is at the heart of Judaism, Christianity, and Islam. Natan Levy is the environmental liaison for the Chief Rabbi's Office and the rabbinical expert for the London School of Jewish Studies' Responsibility Unit, both based in the United Kingdom.

Ecology and Religion John Grim, Mary Evelyn Tucker, 2014-01-02 From the Psalms in the Bible to the sacred rivers in Hinduism, the natural world has been integral to the world's religions. John Grim and Mary Evelyn Tucker contend that today's growing environmental challenges make the relationship ever more vital. This primer explores the history of religious traditions and the environment, illustrating how religious teachings and practices both promoted and at times subverted

sustainability. Subsequent chapters examine the emergence of religious ecology, as views of nature changed in religious traditions and the ecological sciences. Yet the authors argue that religion and ecology are not the province of institutions or disciplines alone. They describe four fundamental aspects of religious life: orienting, grounding, nurturing, and transforming. Readers then see how these phenomena are experienced in a Native American religion, Orthodox Christianity, Confucianism, and Hinduism. Ultimately, Grim and Tucker argue that the engagement of religious communities is necessary if humanity is to sustain itself and the planet. Students of environmental ethics, theology and ecology, world religions, and environmental studies will receive a solid grounding in the burgeoning field of religious ecology.

Refugia Faith Debra Rienstra, 2022-02-22 In *Refugia Faith*, Debra Rienstra explores nature's refugia--places where life endures in a crisis--and applies this model to faith. Drawing from theology, nature writing, and science, she examines how Christian spirituality and practice must adapt for a climate-altered planet.

**Seized by Truth** Prof. Joel B. Green, 2010-09-01 We read the Bible and interpret Scripture in order to live in grace-filled relation to God's divine purpose. When we approach the Bible as Scripture author, Joel Green, takes seriously the faith statement that the Bible is our Book; these scriptures are our Scripture. We are not reading someone else's mail--as though reading the Bible had to do foremost with recovering an ancient meaning intended for someone else and then translating its principles for use in our own lives. When we recall that we are the people of God to whom the Bible is addressed as Scripture, we realize that the fundamental transformation is not the transformation of an ancient message into a contemporary meaning, but rather the transformation of our lives by means of God's Word. This means that reading the Bible as Scripture has less to do with what tools we bring to the task, however important these may be, and more to do with our own dispositions as we come to our engagement with Scripture. We come not so much to retrieve facts or to gain information, but to be formed and ultimately, transformed. Scripture does not present us with texts to be mastered but with a Word, God's Word, intent on mastering us, on shaping our lives.

*Tying the Knot* Rob Green, 2016-01-13 *Tying the Knot* by Rob Green offers soon-to-be-married couples a practical vision of Christ-centered marriage that is realistic, hopeful, and actionable. With homework to help any counselor or couple put crucial lessons into practice, *Tying the Knot* is a highly relevant premarital counseling book. This eight-session study guides couples through issues like conflict, expectations, communication, finances, and intimacy, showing how each can be successfully resolved with Christ at the center of the marriage. Knowing the stresses and needs of a couple in their season of engagement, Green has helpfully designed the study to require a manageable (and healthy) 60 minutes of at-home work per session, with questions and exercises to build communication and intimacy at the end of each chapter. *Tying the Knot* also includes an appendix for mentors, making it easy for a married couple, lay leader, or counselor to lead an engaged couple through the book. Field-tested and recommended by multiple counselors in a thriving counseling practice, *Tying the Knot* has

already guided many couples into a stronger and more joyful union. Let this eight-week premarital study reorient your life and marriage around Christ, so you both will experience all the blessings of marriage as God designed it.

*Living in an Icon* Robert Gottfried, Frederick W. Krueger, 2019-08-17 • Helps bridge the gap between love of God and love of nature • A separate Facilitator's Guide accompanies the book for small group usage Many people experience God most strongly in nature but do not know how to incorporate this experience into their spiritual life. Others question whether Christianity has room for nature at all and seek alternatives elsewhere, often leaving Christianity entirely. This book addresses this crucial issue by providing a resource for fostering a closer relationship with God and creation. With a step-by-step approach, this book provides a framework integrating asceticism with the contemplation of nature. Each chapter contains a "take it home" section for applying the lessons learned outdoors to everyday life, connecting God and nature as seamless components of spirituality. Topics include gratitude, delight, appreciation, wonder, discernment, reverence, mortality, love, beauty, humility, silence, and hope.

*Inhabiting Eden* Patricia K. Tull, 2013 In this thoughtful study, respected Old Testament scholar Patricia K. Tull explores the Scriptures for guidance on today's ecological crisis. Tull looks to the Bible for what it can tell us about our relationships, not just to the earth itself, but also to plant and animal life, to each other, to descendants who will inherit the planet from us, and to our Creator. She offers candid discussions on many current ecological problems that humans contribute to, such as the overuse of energy resources like gas and electricity, consumerism, food production systems--including land use and factory farming--and toxic waste. Each chapter concludes with discussion questions and a practical exercise, making it ideal for both group and individual study. This important book provides a biblical basis for thinking about our world differently and prompts us to consider changing our own actions. Visit [inhabitingeden.org](http://inhabitingeden.org) for links to additional resources and information.

*The Green Zone* Barry Sanders, 2009 Environmentalism is the issue of the moment. Reusable shopping bags, hybrid cars and green energy solutions are all espoused as ways to reduce carbon footprints, but these are only the tip of the quickly melting iceberg. Sanders and Davis present a sobering revelation - until US military attacks are held accountable for the war they have waged on the environment, domestic changes made in good faith won't do a thing. Frighteningly, their argument is based primarily on research leaked by the military itself.

*Watershed Discipleship* Ched Myers, 2016-10-21 This collection introduces and explores watershed discipleship as a critical, contextual, and constructive approach to ecological theology and practice, and features emerging voices from a generation that has grown up under the shadow of climate catastrophe. Watershed Discipleship is a triple entendre that recognizes we are in a watershed historical moment of crisis, focuses on our intrinsically bioregional locus as followers of Jesus, and urges us to become disciples of our watersheds. Bibliographic framing essays by Myers trace his journey into a bioregionalist Christian faith and practice and offer reflections on incarnational theology, hermeneutics, and ecclesiology.

The essays feature more than a dozen activists, educators, and practitioners under the age of forty, whose work and witness attest to a growing movement of resistance and reimagination across North America. This anthology overviews the bioregional paradigm and its theological and political significance for local sustainability, restorative justice, and spiritual renewal. Contributors reread both biblical texts and churchly practices (such as mission, baptism, and liturgy) through the lens of re-place-ment. Herein is a comprehensive and engaged call for a Transition church that can help turn our history around toward environmental resiliency and social justice, by passionate advocates on the front lines of watershed discipleship. Environmental Wisdom for Planet Earth Osman Bakar, 2007

**Y on Earth** Aaron William Perry, 2017-03-02 Y on Earth is a vast journey through hope, faith, knowledge and wisdom. Hope in our ability to learn and grow. Faith in our humanity and the resilience of our living planet. Knowledge that change and deliberate evolution are possible. And Wisdom that our power to choose -- our paths and our future -- is among the most potent forces in the world.

Lighthouse Faith Lauren Green, 2017-03-14 Is God Just a Distant Concept? An Award-Winning Religion Correspondent is Convinced the Answer is No and Explores the Possible Relationship with Our Creator Fox News Religion Correspondent Lauren Green uses her wealth of stories, vast network of contacts, and her own extensive study of theology to take the reader on a unique journey of spiritual discovery. With few female authors writing in the field of theology, Green provides an important perspective to all who wish to move closer to not only a deeper relationship with God but an understanding of what makes that possible. Green gathers insight from some amazing guides along the way, through personal conversations with some of the leading minds in the world on the topic of Christianity. These include: Timothy Keller John Piper Alister McGrath William Lane Craig John Lennox Sir John Polkinghorne Amy Beckman Elizabeth Lev ... and many more Is God simply an accessory that we carry with us? Something similar to what we might download from a music site to suit our personal tastes—a personal assistant in a way? Or is He His law, His structure, and His authoritative Word contained in the Holy Scripture, an objective reality to which you daily shape your life? If we believe or know we should believe that it's the latter, how do we make this happen? How do we live joyfully under God's will in a world so drenched in the will of human desire? Lighthouse Faith explores the heart of the Christian doctrine and a pathway of perceiving God as an interactive hands-on presence; a caring and loving being. The first commandment is a life-giving force loaded with information about the world in which we live. This law stands atop the other nine commandments as a beacon of light, illuminating the created order, just as a lighthouse lamp shines in a darkened space, heralding a way to safety.

**Dharma and Ecology of Hindu Communities** Pankaj Jain, 2016-04-22 In Indic religious traditions, a number of rituals and myths exist in which the environment is revered. Despite this nature worship in India, its natural resources are under heavy pressure with its growing economy and exploding population. This has led several scholars to raise questions about the role religious communities can play in environmentalism. Does nature worship inspire Hindus to act in an environmentally conscious way? This book explores the above questions with three communities, the Swadhyaya movement, the Bishnoi, and the Bhil communities. Presenting the texts of Bishnois, their environmental history, and their contemporary activism; investigating the Swadhyaya movement from an ecological perspective; and exploring the Bhil communities and their Sacred Groves, this book applies a non-Western hermeneutical model to interpret the religious traditions of Indic communities. With a foreword by Roger S Gottlieb.

**Hospitable Planet** Stephen A. Jurovics, 2016-03-01 United Methodist Women’s Reading Group Selection “What can I do about the environment? What has God said about the environment?” Most books about climate change only address one of these questions. Those from a religious perspective do not address what individuals can do to help society transition from fossil fuels, other than changing personal behavior. Readers know instinctively that will not suffice, and so are left feeling the situation is hopeless. In contrast, books that primarily address environmental issues fail to reach people motivated more by faith than science, leaving out many who could constitute the tipping point for full American engagement on the issue. Borrowing an approach from Dr. Martin Luther King, Jr.’s leadership, which brought together both secular and religious arguments for ending segregation, this book addresses physical evidence of climate change while demonstrating through biblical teachings the religious imperative for preserving our inherited world. The compelling biblical case for creation care is grounded in environmental teachings Jesus knew, primarily in the Hebrew Scriptures. Topics addressed include air

pollution, treatment of the land, preserving biological diversity, and treatment of animals, and each is connected to contemporary issues such as greenhouse gas emissions, care of the needy, the extinction of species, and factory farming.

Rooted and Rising Leah D. Schade, Margaret Bullitt-Jonas, 2019-11-01 Rooted and Rising is for everyone who worries about the climate crisis and seeks spiritual practices and perspectives to renew their capacity for compassionate, purposeful, and joyful action. Leah Schade and Margaret Bullitt-Jonas gather twenty-one faith leaders, scientists, community organizers, theologians, and grassroots climate activists to offer wisdom for fellow pilgrims grappling with the weight of climate change. Acknowledging the unprecedented nature of our predicament—the fact that climate disruption is unraveling the web of life and threatening the end of human civilization—the authors share their stories of grief and hope, fear and faith. Together, the essays, introductory sections, and discussion questions reveal that our present crisis can elicit a depth of wisdom, insight, and motivation with power to guide us toward a more peaceful, just, and Earth-honoring future. With a foreword by Mary Evelyn Tucker and a special introduction by Bill McKibben, the book presents an interfaith perspective that welcomes and challenges readers of all backgrounds.

**God Is Green** IAN C. BRADLEY, 2020-08-27 God is Green examines what the Bible has to say about humanity's relationship with and responsibility for the environment, and how Church traditions over the centuries have interpreted this. He argues that Christianity at its essence is a 'green faith' which has been distorted over the years. First published in 1990, this new edition of the book is revised for the contemporary state of our climate, and includes a chapter-by-chapter study guide for individuals and small groups.

Red Famine Anne Applebaum, 2017-10-10 NEW YORK TIMES BESTSELLER • A revelatory history of one of Stalin's greatest crimes, the consequences of which still resonate today, as Russia has placed Ukrainian independence in its sights once more—from the author of the Pulitzer Prize-winning Gulag and the National Book Award finalist Iron Curtain. With searing clarity, Red Famine demonstrates the horrific consequences of a campaign to eradicate 'backwardness' when undertaken by a regime in a state of war with its own people. —The Economist In 1929 Stalin launched his policy of agricultural collectivization—in effect a second Russian revolution—which forced millions of peasants off their land and onto collective farms. The result was a catastrophic famine, the most lethal in European history. At least five million people died between 1931 and 1933 in the USSR. But instead of sending relief the Soviet state made use of the catastrophe to rid itself of a political problem. In Red Famine, Anne Applebaum argues that more than three million of those dead were Ukrainians who perished not because they were accidental victims of a bad policy but because the state deliberately set out to kill them. Devastating and definitive, Red Famine captures the horror of ordinary people struggling to survive extraordinary evil. Applebaum's compulsively readable narrative recalls one of the worst crimes of the twentieth century, and shows how it may foreshadow a new threat to the political order in the twenty-first.
