Building a Better Teacher: How Teaching Works (and How to Teach It to Everyone) Elizabeth Green, 2014-08-04 A New York Times Notable Book A must-read book for every American teacher and taxpayer. —Amanda Ripley, author of *The Smartest Kids in the World* Launched with a hugely popular New York Times Magazine cover story, *Building a Better Teacher* sparked a national conversation about teacher quality and established Elizabeth Green as a leading voice in education. Green's fascinating and accessible narrative dispels the common myth of the natural-born teacher and introduces maverick educators exploring the science behind their art. Her dramatic account reveals that great teaching is not magic, but a skill—a skill that can be taught. Now with a new afterword that offers a guide on how to identify—and support—great teachers, this provocative and hopeful book should be part of every new teacher's education (Washington Post).

**Teaching Tech Together** Greg Wilson, 2019-10-08 Hundreds of grassroots groups have sprung up around the world to teach programming, web design, robotics, and other skills outside traditional classrooms. These groups exist so that people don't have to learn these things on their own, but ironically, their founders and instructors are often teaching themselves how to teach. There's a better way. This book presents evidence-based practices that will help you create and deliver lessons that work and build a teaching community around them. Topics include the differences between different kinds of learners, diagnosing and correcting misunderstandings, teaching as a performance art, what motivates and demotivates adult learners, how to be a good ally, fostering a healthy community, getting the word out, and building alliances with like-minded groups. The book includes over a hundred exercises that can be done individually or in groups, over 350 references, and a glossary to help you navigate educational jargon.

**Low-performing Students** Oecd, 2016 There is no country or economy participating in PISA 2012 that can claim that all of its 15-year-old students have achieved a baseline level of proficiency in mathematics, reading and science. Poor performance at school has long-term consequences, both for the individual and for society as a whole. Reducing the number of low-performing students is not only a goal in its own right but also an effective way to improve an education system's overall performance - and equity, since low performers are disproportionately from socio-economically disadvantaged families. *Low-performing Students: Why they Fall Behind and How to Help them Succeed* examines low performance at school by looking at low performers' family background, education career and attitudes towards school. The report also

analyses the school practices and educational policies that are more strongly associated with poor student performance. Most important, the evidence provided in the report reveals what policy makers, educators, parents and students themselves can do to tackle low performance and succeed in school.

*Outside Insight* Jorn Lyseggen, 2017-10-12 Is your business looking out? The world today is drowning in data. There is a treasure trove of valuable and underutilized insights that can be gleaned from information companies and people leave behind on the internet - our 'digital breadcrumbs' - from job postings, to online news, social media, online ad spend, patent applications and more. As a result, we're at the cusp of a major shift in the way businesses are managed and governed - moving from a focus solely on lagging, internal data, toward analyses that also encompass industry-wide, external data to paint a more complete picture of a brand's opportunities and threats and uncover forward-looking insights, in real time. Tomorrow's most successful brands are already embracing Outside Insight, benefitting from an information advantage while their competition is left behind. Drawing on practical examples of transformative, data-led decisions made by brands like Apple, Facebook, Barack Obama and many more, in Outside Insight, Meltwater CEO Jorn Lyseggen illustrates the future of corporate decision-making and offers a detailed plan for business leaders to implement Outside Insight thinking into their company mindset and processes.

**Windhall** Ava Barry, 2021-03-02 A stunning literary thriller in which an investigative journalist in modern Los Angeles attempts to solve the Golden Age murder of a Hollywood starlet. 1940s Hollywood was an era of decadence and director Theodore Langley was its king. Paired with Eleanor Hayes as his lead actress, Theo ruled the Golden Age of Hollywood. That ended when Eleanor's mangled body was discovered in Theo's rose garden and he was charged with her murder. The case was thrown out before it went to trial and Theo fled L.A., leaving his crawling estate, Windhall, to fall into ruin. He hasn't been seen since. Decades later, investigative journalist Max Hailey, raised by his gran on stories of old Hollywood, is sure that if he could meet Theo, he could prove once and for all that the famed director killed his leading lady. When a copycat murder takes place near Windhall, the long reclusive Theo returns to L.A., and it seems Hailey finally has his chance. When Hailey gets his hands on Theo's long-missing journals, he reads about Eleanor's stalkers and her role in Theo's final film, *The Last Train to Avalon*, a film so controversial it was never released to the public. In the months leading up to her death, something had left her so terrified she stopped coming to work. The more Hailey learns about Avalon, the more convinced he becomes that the film could tell him who killed Eleanor and why she had to die. But the implications of Avalon reach far beyond Eleanor's murder, and Hailey must race to piece together the murders of the past and present before it's too late.

*Journal 1935-1944* Mihail Sebastian, 2012-11-30 Hailed as one of the most important portrayals of the dark years of Nazism, this powerful chronicle by the Romanian Jewish writer Mihail Sebastian offers a lucid and finely shaded analysis of erotic and social life, a Jew's diary, a reader's notebook, a music-lover's journal. Despite the pressure of hatred and horror in the "huge anti-Semitic factory" that was Romania in the years of World War II, his writing maintains the grace of its perceptive and luminous intelligence. The legacy of a journalist, novelist, and playwright, Sebastian's *Journal* stands as one of the most important human and literary documents of the climate that preceded the Holocaust in Eastern Europe.

*Creature* John Saul, 2010-11-03 A powerful high-tech company. A postcard-pretty company town. Families. Children. Sunshine. Happiness. A high school football team that never-ever loses. And something else. Something horrible ... Now, there is a new family in town. A shy, nature-loving teenager. A new hometown. A new set of bullies. Maybe the team's sports clinic can help him. Rebuild him. They won't hurt him again. They won't dare.

Work Hard. Be Nice. Jay Mathews, 2009-01-20 When Mike Feinberg and Dave Levin signed up for Teach for America right after college and found themselves utter failures in the classroom, they vowed to remake themselves into superior educators. They did that—and more. In their early twenties, by sheer force of talent and determination never to take no for an answer, they created a wildly successful fifth-grade experience that would grow into the Knowledge Is Power Program (KIPP), which today includes sixty-six schools in nineteen states and the District of Columbia. KIPP schools incorporate what Feinberg and Levin learned from America's best, most charismatic teachers: lessons need to be lively; school days need to be longer (the KIPP day is nine and a half hours); the completion of homework has to be sacrosanct (KIPP teachers are available by telephone day and night). Chants, songs, and slogans such as Work hard, be nice energize the program. Illuminating the ups and downs of the KIPP founders and their students, Mathews gives us something quite rare: a hopeful book about education.

Whatever your status—the sole AP in your school, one of two or more APs in your school, a career AP, an AP aspiring to the principalship—yours is one of the most misunderstood and underutilized positions in education. Positioned between teachers and the principal, you are an instructional leader. However, you are not the leader of the school. Therefore, you must carefully navigate your way to ensure that you thrive in your role without stepping on the toes of your principal. In *The Assistant Principal 50*, award-winning, four-time principal Baruti Kafele presents reflective questions that encompass the breadth and depth of the assistant principalship—from finding your leadership lane to thriving and being an asset to your principal. Kafele infuses the book (which also includes guidance and insights for principals and aspiring assistant principals) from beginning to end with personal anecdotes and accounts of both failures and successes from his years as an assistant principal. He arms you with tools and insights that will drive you to view the assistant principalship as critical to the climate and culture of your school as well as to student achievement. **The Visual MBA** Jason Barron, 2019-05-02 Learn an entire MBA course without spending thousands and waving goodbye to two years of your life. If you want to succeed in business then an MBA programme is the best way to build expertise, knowledge and experience. But an MBA programme at any top school is an enormous investment in time, effort and money. In *The Visual MBA*, Jason Barron offers a radical solution, explaining all key business school concepts through illustrations. When Barron started his MBA course, he decided to draw all his notes so that other people could benefit from them. And it's a good thing he did, because research shows that more than 65% of us are visual learners and that our brains process illustrations 60,000 times faster than text. From Marketing, Ethics and Accounting to Organisational Behaviour, Finance, Operations and Strategy, *The Visual MBA* distils the most important principles of an MBA into an accessible, informative and easily-digestible guide. Jason Barron is a product manager and illustrator who helps people realise their creative ideas through visual learning. He spent 516 hours in class and countless hours studying at home completing his MBA. Along the way, rather than taking notes that he would never read again, Jason created sketchnotes for each class and has turned them into an interesting and engaging resource so that you don't have to sit through another class again!

*And the Weak Suffer What They Must?* Yanis Varoufakis, 2016-04-12 A #1 Sunday Times bestseller [UK] A titanic battle is being waged for Europe's integrity and soul, with the forces of reason and humanism losing out to growing irrationality, authoritarianism, and malice, promoting inequality and austerity. The whole world has a stake in a victory for rationality, liberty, democracy, and humanism. In January 2015, Yanis Varoufakis, an economics professor teaching in Austin, Texas, was elected to the Greek parliament with more votes than any other member of parliament. He was appointed finance minister and, in the whirlwind five months that followed, everything he had warned about—the perils of the euro's faulty design, the European Union's shortsighted austerity policies, financialized crony capitalism, American complicity and rising authoritarianism—was confirmed as the troika (the European Central Bank, International Monetary Fund, and European Commission) stonewalled his efforts to resolve Greece's economic crisis. Here, Varoufakis delivers a fresh look at the history of Europe's crisis and America's central role in it. He presents the ultimate case against austerity, proposing concrete policies for Europe that are necessary to address its crisis and avert contagion to America, China, and the rest of the world. With passionate, informative, and at times humorous prose, he warns that the implosion of an admittedly crisis-ridden and deeply irrational European monetary union should, and can, be avoided at all cost.

**Puck Drills & Quick Thrills** Saxon James,Eden Finley,2021-09-25 WESTLY The fall from NHL superstar to domestic disaster was swift and painful. When I became the legal guardian of my five younger siblings, I had no idea what I was doing. One year later, I'm still lost. Coaching CU's hockey team might be the only thing I'm excelling at. But when our star forward is failing math, I have to do what it takes to keep him on the team. Even if it's going head-to-head with Jasper Eckstein. One minute I'm confronting the notorious hockey-hating professor, and the next I'm agreeing to be his date to his twenty-year high school reunion. I don't know how that happened. JASPER My rules are simple. I don't give extra credit. Ever. No matter how entitled jocks think they are, I refuse to give them special treatment. It's not because I hate them. It's not because a hockey player broke my nose in high school. It's fair. But when Westly Dalton bursts into my office like a hurricane, all my principles fly out the window. Suddenly I'm giving extra credit. And I have a date to my reunion. After one explosive night together, I want more, but his home life is a mess, and I don't want to get in the way. If all we can have is quick thrills, I'm okay with that. It's not like I could ever fall for a jock.
