*Marking Time* Nicole R. Fleetwood, 2020-04-28 A powerful document of the inner lives and creative visions of men and women rendered invisible by America's prison system. More than two million people are currently behind bars in the United States. Incarceration not only separates the imprisoned from their families and communities; it also exposes them to shocking levels of deprivation and abuse and subjects them to the arbitrary cruelties of the criminal justice system. Yet, as Nicole Fleetwood reveals, America's prisons are filled with art. Despite the isolation and degradation they experience, the incarcerated are driven to assert their humanity in the face of a system that dehumanizes them. Based on interviews with currently and formerly incarcerated artists, prison visits, and the author's own family experiences with the penal system, *Marking Time* shows how the imprisoned turn ordinary objects into elaborate works of art. Working with meager supplies and in the harshest conditions—including solitary confinement—these artists find ways to resist the brutality and depravity

that prisons engender. The impact of their art, Fleetwood observes, can be felt far beyond prison walls. Their bold works, many of which are being published for the first time in this volume, have opened new possibilities in American art. As the movement to transform the country's criminal justice system grows, art provides the imprisoned with a political voice. Their works testify to the economic and racial injustices that underpin American punishment and offer a new vision of freedom for the twenty-first century.

**Tell Me a Mitzi** Lore Segal, 2024-06-25 Three hilarious, quirky tales about a young city girl's adventures big and small, from taking a taxi to meeting the president. Lore Segal's classic children's book tells three stories about Mitzi and her family, whose lives unfold within a gritty and yet dreamy cityscape of stoops and row houses that seem to have emerged from a time out of time. In the first story, Mitzi dresses up her baby brother and sets out with him to visit their grandparents, a venturesome undertaking that takes a curious turn when a key piece of information proves missing. In the second, Mitzi's whole family falls sick, but a fool-proof remedy rides in to the rescue. In the last, the president comes to town and Mitzi's day is made. Lore Segal's droll dialogue and off-kilter storytelling are beautifully complemented by Harriet Pincus's unnervingly earnest and goofy underground comic-book style illustrations, which won the praise of Maurice Sendak. These are stories about childhood independence and family closeness that capture childhood in all its puzzlement, resourcefulness, unsentimental wonder.

**Corcoran Gallery of Art** Corcoran Gallery of Art, Sarah Cash, Emily Dana Shapiro, Jennifer Carson, 2011 This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

**How to Read Paintings** Liz Rideal, 2018-10-18 How to Read Paintings is a valuable visual guide to Western European painting. Through a gallery of artworks accompanied by informative commentary, it enables readers to swiftly develop their understanding of the grammar and vocabulary of painting, and to discover how to look at diverse paintings in detail, closely reading their meanings and methods. In the first part of the book, the Grammar of Paintings, the author reveals how to read paintings by considering five key areas: shape and support, medium and materials, composition, style and technique, and signs and symbols, as well as the role of the artist. In the second part, we explore fifty paintings through extracted details, accompanied by insightful commentary, training the reader and viewer to understand context and discover meaning within art. As a collection, the pictures featured in How to Read Paintings have a strong relationship with one another, and underpin the story of painting. This book will be a valuable tool whether you are viewing the real thing on a gallery wall, or simply reading around the subject to learn more about Western art.

**Scientific Examination of Art**, 2005-01-01 Examines the application of scientific methods to the study and conservation

of art and cultural properties. This work addresses scientific topics of broad interest, cutting across the boundaries of traditional disciplines and attracting up to 250 leading researchers in the field.

**Walls Turned Sideways** Nicole R Fleetwood, 2019-02-19 Walls Turned Sideways: Artists Confront the Justice System features work by artists from across the nation that addresses the criminal justice system, mass incarceration, and the prison-industrial complex. Representing the full range of contemporary art production made in the studio and the social realm, the exhibition includes artworks that take social justice issues as a subject matter; and position the prison and court systems as structures for dismantling through institutional critique. The artworks in the exhibition are extraordinary for the scale and ambition by which they mobilize in order to bring visibility to offenses within the justice system.

**Maryland Voices of the Civil War** Charles W. Mitchell, 2007-07 The most contentious event in our nation's history, the Civil War deeply divided families, friends, and communities. Both sides fought to define the conflict on their own terms -- Lincoln and his supporters struggled to preserve the Union and end slavery, while the Confederacy waged a battle for the primacy of local liberty or states' rights. But the war had its own peculiar effects on the four border slave states that remained loyal to the Union. Internal disputes and shifting allegiances injected uncertainty, apprehension, and violence into the everyday lives of their citizens. No state better exemplified the vital role of a border state than Maryland -- where the passage of time has not dampened debates over issues such as the alleged right of secession and executive power versus civil liberties in wartime. In Maryland Voices of the Civil War, Charles W. Mitchell draws upon hundreds of letters, diaries, and period newspapers to portray the passions of a wide variety of people -- merchants, slaves, soldiers, politicians, freedmen, women, clergy, civic leaders, and children -- caught in the emotional vise of war. Mitchell reinforces the provocative notion that Maryland's Southern sympathies -- while genuine -- never seriously threatened to bring about a Confederate Maryland. Maryland Voices of the Civil War illuminates the human complexities of the Civil War era and the political realignment that enabled Marylanders to abolish slavery in their state before the end of the war.

*Panorama: A World History* Laura J. Mitchell, Ross E. Dunn, 2014-01-03 Just as a panoramic image provides a broad view, Panorama provides a ground-breaking, broad view of the world's history by reaching across regional boundaries and highlighting large-scale, global patterns. Panorama's easily understood chronology, coupled with its innovative, proven digital tools, ensures that learners are always moving forward as they study change and continuity across time, assess knowledge gaps, and mold critical thinking skills. The result is improved course performance through greater understanding of our world's past, its large-scale global trends, and its impact on and relevance to 21st-century students.

Writing Programs Worldwide Chris Thaiss, Gerd Bräuer, 2012-07-30 WRITING PROGRAMS WORLDWIDE offers an important global perspective to the growing research literature in the shaping of writing programs. The authors of its program profiles show how innovators at a diverse range of universities on six continents have dealt creatively over many

years with day-to-day and long-range issues affecting how students across disciplines and languages grow as communicators and learners.

**Girls Are Not Chicks Coloring Book** Jacinta Bunnell, Julie Novak, 2009-09-01 Twenty-seven pages of feminist fun! This is a coloring book you will never outgrow. Girls Are Not Chicks is a subversive and playful way to examine how pervasive gender stereotypes are in every aspect of our lives. This book helps to deconstruct the homogeneity of gender expression in children's media by showing diverse pictures that reinforce positive gender roles for girls. Color the Rapunzel for a new society. She now has power tools, a roll of duct tape, a Tina Turner album, and a bus pass! Paint outside the lines with Miss Muffet as she tells that spider off and considers a career as an arachnologist Girls are not chicks. Girls are thinkers, creators, fighters, healers, and superheroes.

Big Gay Alphabet Coloring Book Jacinta Bunnell, 2015-06-01 Grab your crayons and your backpack for a fantastical journey through The Big Gay Alphabet Coloring Book, sixty-four pages illustrating twenty-six words that highlight memorable victories and collective moments in LGBTQP (Lesbian, Gay, Bisexual, Transgender, Queer, Questioning, and Pansexual) culture. The Big Gay Alphabet Coloring Book is Jacinta Bunnell's fourth book in the Queerbook Committee series of coloring books (including Girls Are Not Chicks and Sometimes the Spoon Runs Away with Another Spoon) and the first with acclaimed illustrator Leela Corman (Unterzakhn). As you add your own extraordinary colors to these pages, we hope you are left asking, "Isn't everything fabulous in this world just a little bit gay?" This notion is celebrated on every unique page, made up of inked and framed line drawings with beautiful typography, reminiscent of a handsomely designed vintage children's alphabet book. Each day, we take another step toward a greater understanding of gender fluidity, gender diversity, and sexual orientation. Change does not come easily or unfold overnight. But together we are an unflappable squad of comrades staring down oppression while stopping to make art and find joy along the way.

all.

**Pressing Matters 10** Winka Dubbeldam, 2022-06-10 Already number TEN, Pressing Matters X is a special issue reflecting a year of reflection and change, after several waves of the pandemic, Black Lives Matter protests and newly developed hybrid teaching methods. It follows last year's Pressing Matters 9 that was completely rethought with the aim to present an Open Source publication that shares the Department of Architecture's concept of design-research, an integral approach of critical thinking, rigorous research, and design, representing a deep understanding of the complex layers of architecture. Together with Jonathan Jackson & team of WSDIA, a more integral design was developed, allowing input from research [ARI labs], students, faculty and Penn's special events. This anniversary of Pressing Matters is celebrated by adding the decade color of silver to the usual recycled cardboard cover of Weitzman's architecture publication. It also represents a year of new opportunities brought by a complete rethinking of education through the introduction of remote learning, zoom lectures and meetings. A much larger international group of diverse jurors, experts, and critics could be invited as travel was of no hindrance for attendance. In conjunction with the 17th International Architecture Exhibition - La Biennale di Venezia, CityX Venice, a virtual exhibition of new and recent work by leading architects and designers from around the world, opened online in May. Winka Dubbeldam, who is Miller Professor and Chair of the Department of Architecture and Director of the Advanced Research and Innovation (ARI) Lab, served as one of the creative directors, inviting six faculty members to present examples of the design-research under way at Weitzman. We are also very excited that the Department of Architecture at the Weitzman was selected for the next Acadia 2022 Conference called Hybrids & Haecceities, which asks how technology enables, reflects, and challenges established disciplinary boundaries and design practices. Hybrids & Haecceities aligns with a fundamental shift away from abstract generalized models of design and production towards custom or bespoke design now possible at an unprecedented scale due to Industry 4.0. After a summer of protests the department immediately created a DEI committee, restructured its curriculum and student and faculty body to be more inclusive. The department also instigated a free summer school for the students as internships and jobs were hard to come by. The generous support of the great group of external experts really helped the students in their design for a temporary Covid testing station, issues such as prefabrication, social equity, and race and gender were discussed and became the source of inspiration for the exquisite designs published by Surface Media.

*The Snail with the Right Heart* Maria Popova, 2020-11-03 Based on a real scientific event and inspired by a beloved real human in the author's life, this is a story about science and the poetry of existence; about time and chance, genetics and gender, love and death, evolution and infinity -- concepts often too abstract for the human mind to fathom, often more accessible to the young imagination; concepts made fathomable in the concrete, finite life of one tiny, unusual creature dwelling in a pile of compost amid an English garden. Emerging from this singular life is a lyrical universal invitation not to

mistake difference for defect and to welcome, across the accordion scales of time and space, diversity as the wellspring of the universe's beauty and resilience.

**They Knew** James Gustave Speth, 2021-08-24 A devastating, play-by-play account of the federal government's leading role in bringing about today's climate crisis. In 2015, a group of twenty-one young people sued the federal government for violating their constitutional rights by promoting the climate catastrophe, depriving them of life, liberty, and property without due process of law. *They Knew* offers evidence for their claims, presenting a devastating, play-by-play account of the federal government's role in bringing about today's climate crisis. James Speth, tapped by the plaintiffs as an expert on climate, documents how administrations from Carter to Trump--despite having information about climate change and the connection to fossil fuels--continued aggressive support of a fossil fuel based energy system. What did the federal government know and when did it know it? Speth asks, echoing another famous cover up. What did the federal government do and what did it not do? *They Knew* (an updated version of the Expert Report Speth prepared for the lawsuit) presents the most compelling indictment yet of the government's role in the climate crisis, showing a forty-year failure to take action. Since *Juliana v. United States* was filed, the federal government has repeatedly delayed the case. Yet even in legal limbo, it has helped inspire a generation of youthful climate activists. *An Our Children's Trust Book*
