Melanie Falick

Terrarium Craft Amy Bryant Aiello, Kate Bryant, 2011-04-25 A terrarium is nothing less than a miniature world—one that you can create yourself. It might be a tiny rainforest, with lush foliage and bright tropical flowers. Or a desert, with strange succulents planted among colorful stones. Or a Victorian fernery. Or a minimalist composition with a single, perfect plant. Or it might not contain any plants at all. It might be made with crystals, feathers, bones, seashells, bits of wood, porcelain trinkets—anything that catches your fancy and helps create a mood or look. Whatever they contain, terrariums are the ultimate in modern, affordable, easy-care décor. **Terrarium Craft** features fifty original designs that you can re-create or use as inspiration for your own design. Each entry comes with clear step-by-step directions on how to assemble and care for your terrarium. You'll also find helpful information about selecting a container, using appropriate materials, choosing the right plants, and maintaining your terrarium. (Hint: It's easy! In fact, many terrariums are self-sustaining, requiring no maintenance whatsoever!)

Design-Your-Garden Toolkit Michelle Gervais, 2018-03-06 Before picking up the trowel, pick up the stickers! With 150 reusable illustrated stickers — representing dozens of plant cultivars that are versatile, readily available, and suitable for most temperate growing zones — plus a fold-out design board and a book teaching five easy steps of garden design, you'll have everything you need to create your vision of the perfect garden. The durable cling stickers, with beautiful botanically accurate illustrations, can be layered, arranged, and rearranged to try out every variation before making any plant purchases. This book-and-kit combination makes it possible to create your dream border, bed, or backyard oasis without leaving your kitchen table!

The Water-Saving Garden Pam Penick, 2016-02-23 A guide to growing beautiful gardens in drought-prone areas utilizing minimal water for maximum results. With climate change, water rationing, and drought on the rise, water conservation is more important than ever—but that doesn't mean your gardening options are limited to cacti and rocks. *The Water-Saving Garden* provides gardeners and homeowners with a diverse array of techniques and plentiful inspiration for creating sustainable gardens that are so beautiful and inviting, it's hard to believe they are water-thrifty. Including a directory of 100 plants appropriate for a variety of drought-prone regions of the country, this accessible and contemporary xeriscaping guide is full of must-know information on popular gardening topics like native and drought-tolerant plants (including succulents),

rainwater harvesting, greywater systems, permeable paving, and more.

The American Meadow Garden John Greenlee, 2009-09-01 If there's one lesson every homeowner must learn, it's this: The traditional lawn is a huge, time consuming, synthetic-chemical sucking mistake. The time has come to look for new ways to create friendly, livable spaces around our homes. In *The American Meadow Garden*, ornamental grass expert John Greenlee creates a new model for homeowners and gardeners. For Greenlee, a meadow isn't a random assortment of messy, anonymous grasses. Rather, it is a shimmering mini-ecosystem, in which regionally appropriate grasses combine with colorful perennials to form a rich tapestry that is friendly to all life — with minimal input of water, time, and other scarce resources. Kids and pets can play in complete safety, and birds and butterflies flock there. A prairie style planting is a place you want to be. With decades of experience as a nurseryman and designer, John Greenlee is the perfect guide. He details all the practicalities of site preparation, plant selection, and maintenance; particularly valuable are his explanations of how ornamental grasses perform in different climates and areas. Gorgeous photography by Saxon Holt visually illustrates the message with stunning examples of meadow gardens from across the country. We've reached a stage where we can no longer follow past practices unthinkingly, particularly when those practices are wasteful and harmful to the environment. It's time to get rid of the old-fashioned lawn and embrace a sane and healthy future: the American meadow garden.

Chanticleer Adrian Higgins, 2012-02-24 Chanticleer, a forty-eight-acre garden on Philadelphia's historic Main Line, is many things simultaneously: a lush display of verdant intensity and variety, an irreverent and informal setting for inventive plant combinations, a homage to the native trees and horticultural heritage of the mid-Atlantic, a testament to one man's devotion to his family's estate and legacy, and a good spot for a stroll and picnic amid the blooms. In *Chanticleer: A Pleasure Garden*, Adrian Higgins and photographer Rob Cardillo chronicle the garden's many charms over the course of two growing cycles. Built on the grounds of the Rosengarten estate in Wayne, Pennsylvania, Chanticleer retains a domestic scale, resulting in an intimate, welcoming atmosphere. The structure of the estate has been thoughtfully incorporated into the garden's overall design, such that small gardens created in the footprint of the old tennis court and on the foundation of one of the family homes share space with more traditional landscapes woven around streams and an orchard. Through conversations and rambles with Chanticleer's team of gardeners and artisans, Higgins follows the garden's development and reinvention as it changes from season to season, rejoicing in the hundred thousand daffodils blooming on the Orchard Lawn in spring and marveling at the Serpentine's late summer crop of cotton, planted as a reminder of Pennsylvania's agrarian past. Cardillo's photographs reveal further nuances in Chanticleer's landscape: a rare and venerable black walnut tree near the entrance, pairs of gaily painted chairs along the paths, a backlit arbor draped in mounds of fragrant wisteria. Chanticleer fuses a strenuous devotion to the beauty and health of its plantings with a constant dedication to the mutability and natural energy of a living space. And within the garden, Higgins notes, there is a thread of perfection entwined with whimsy and

continuous renewal.

Free-Range Chicken Gardens Jessi Bloom,2012-03-21 “If your garden fantasies involve chickens, Jessi Bloom is here to make those dreams come true.” —The New York Times Many gardeners fear chickens will peck away at their landscape. But you can keep chickens and have a beautiful garden, too! In this essential handbook, award-winning garden designer Jessi Bloom offers step-by-step instructions for creating a beautiful and functional space while maintaining a happy, healthy flock. *Free-Range Chicken Gardens* covers everything a gardener needs to know, from the basics of chicken keeping and creating the perfect chicken-friendly garden design to building innovative coops.

Private Gardens of Santa Barbara Margie Grace,2020-06-16 An exclusive look at the exquisite residential gardens of the American Riviera. *Private Gardens of Santa Barbara* is an invitation into eighteen distinctive private, and beautiful gardens; large estates, modest homes, and surf retreats run the gamut from sublime and naturalistic to bold and urban. What they have in common, however, is what makes them truly inspiring. Showcased through 190 stunning images in more than 250 pages in this elegant coffee table book format, each beautiful landscape represents a widely varied garden style developed in response to the unique character of each site, the architecture, and the larger environment; and adapted to the lifestyle, personality, and practical needs of the individuals and families who live there. In a career that spans over 30 years, Margie Grace, principal of Grace Design Associates, has established herself as an expert in sustainable landscape design and advocate for environmentally sensitive gardens. These gardens offer endless inspiration for sustainable home garden design, created with water-smart, maintenance-smart, and fire-smart priorities in mind, with high habitat value and plants well adapted to the Southern California climate of Santa Barbara.

So You Want to Be a Garden Designer Love Albrecht Howard,2010-03-25 Every day talented and passionate gardeners think to themselves, “There must be a way to turn this into a career.” *So You Want to Be a Garden Designer* helps them turn that dream into reality by providing the practical, step-by-step information every budding designer needs to develop and nurture a thriving garden design business. A successful, self-made garden designer herself, Love Albrecht Howard conveys not only the basic skills required for the profession, but also the crucial details that can mean the difference between success and failure. Among the many questions she explores with warmth, humor, and a big dose of reality are: • What do I need to learn? • How do I tackle fences, stairs, decks, and other construction projects? • How can I avoid using chemicals? • What’s the best way to deal with challenging personalities? With extensive photographs, practical drawings, and clearheaded advice, *So You Want to Be a Garden Designer* is the comprehensive manual that all garden designers will wish they’d had from the start.

Private Gardens of the Pacific Northwest Brian Coleman,2021-09-07 An exclusive retreat into the verdant, lush residential gardens of the Pacific Northwest. *Private Gardens of the Pacific Northwest* is a stunning exploration of 20 lush

private gardens. These sprawling estates, small sanctuaries, and artful retreats capture the natural beauty of the verdant Pacific Northwest, each one splashed with hints of boldness, modernity, artistry, and exquisiteness. Capturing the personality of those who cultivate them, these gardens have their stories told through the words of renowned author Brian Coleman, who takes readers through the flourishing natural beauty that the northwestern coast has to offer.

Succulent Container Gardens Debra Lee Baldwin, 2010-01-20 Define your individual style. With their colorful leaves, sculptural shapes, and simple care, succulents are beautiful yet forgiving plants for pots. If grown in containers, these dry-climate jewels—which include but are not limited to cacti—can be brought indoors in winter and so can thrive anywhere in the world. In this inspiring compendium, the popular author of *Designing with Succulents* provides everything beginners and experienced gardeners need to know to create stunning container displays of exceptionally waterwise plants. The extensive palette includes delicate sedums, frilly echeverias, cascading senecios, edgy agaves, and fat-trunked beaucarneas, to name just a few. Easy-to-follow, expert tips explain soil mixes, overwintering, propagation, and more.

The Heirloom Gardener John Forti, 2021-06-22 “Empowers readers with a toolkit of traditional and sustainable practices for an emerging artisanal crafts movement, and a brighter future.” —Alice Waters, chef and owner, Chez Panisse; founder, The Edible Schoolyard Project Modern life is a cornucopia of technological wonders. But is something precious being lost? A tangible bond with our natural world—the deep satisfaction of connecting to the earth that was enjoyed by previous generations? In *The Heirloom Gardener*, John Forti celebrates gardening as a craft and shares the lore and traditional practices that link us with our environment and with each other. Charmingly illustrated and brimming with wisdom, this guide will inspire you to slow down, recharge, and reconnect.

The Art of Gardening R. William Thomas, 2015-10-15 “Delightful!” —The New York Times Book Review Discover a world of beauty and creativity! Chanticleer has been called the most romantic, imaginative, and exciting public garden in America. It is a place of pleasure and learning, relaxing yet filled with ideas to take home. And now those lessons are available for everyone in this stunning book! You’ll learn techniques specific to different conditions and plant palettes; how to use hardscape materials in a fresh way; and how to achieve the perfect union between plant and site. And Rob Cardillo’s exquisite photographs of exciting combinations will be sure to stimulate your own creativity. Whether you’re already under Chanticleer’s spell or have yet to visit, *The Art of Gardening* will enable you to bring the special magic that pervades this most artful of gardens into your own home landscape.

City Bountiful Laura J. Lawson, 2005-05-30 The social history of American cities would not be complete without a full account of the rise of community open spaces. Lawson does exactly this by providing a compelling and poetic account of the history and making of urban gardens. Combining solid scholarship with engaging images of the gardens and stories of their makers, this book sheds new light on the value of urban open space. More important, it explains why community gardens

need to stand alongside city parks as permanent open spaces. Essential reading for community developers and landscape architects as well as anyone who ventures outside, enthusiasm and shovel in hand, to improve their local environment.—Mark Francis, author of *Urban Open Space and Village Homes* The definitive history of the past hundred years of America's experience with community gardens. A labor of love by a garden activist, the book appears at a most appropriate time—today our city dwellers and suburbanites are retreating onto carpets of passive open space tended by homeowner associations and lawn care outfits. Lawson thoughtfully analyzes the weaknesses of community gardens when used as a response to social crises and, by contrast, investigates community gardens as an alternative to today's managed care of open space. Her history clearly presents a way of community living that we can elect if we choose her wisdom.—Sam Bass Warner, Jr, author of *To Dwell Is to Garden* An important book about how the urban gardening movement is transforming our landscape and reconnecting us to the land.—Alice Waters, Owner, Chez Panisse

The Monster in the Backpack Lisa Moser, 2006 Annie's new backpack comes with pink and blue flower decorations, a zipper, and a mischievous monster who manages to get her into all sorts of trouble at school. By the illustrator of *Not Norman: A Goldfish Story*.

Making a Life Melanie Falick, 2019-10-29 A Publishers Weekly Best Book of 2019 Why do we make things by hand? And why do we make them beautiful? Led by the question of why working with our hands remains vital and valuable in the modern world, author and maker Melanie Falick went on a transformative, inspiring journey. Traveling across continents, she met quilters and potters, weavers and painters, metalsmiths, printmakers, woodworkers, and more, and uncovered truths that have been speaking to us for millennia yet feel urgently relevant today: We make in order to slow down. To connect with others. To express ideas and emotions, feel competent, create something tangible and long-lasting. And to feed the soul. In revealing stories and gorgeous original photographs, *Making a Life* captures all the joy of making and the power it has to give our lives authenticity and meaning.

Lawn Gone! Pam Penick, 2013-02-12 A colorful guide covering the basics of replacing a traditional lawn with a wide variety of easy-care, no-mow, drought-tolerant, money-saving options that will appeal to today's busy, eco-conscious homeowner. Americans pour 300 million gallons of gas and 1 billion hours every year into mowing their lawns, not to mention 70 million pounds of pesticides and \$40 billion for lawn upkeep. No Wonder the anti-lawn movement is thriving, as today's eco-conscious consumers realize that their traditional lawns are water-hogging, chemical-ridden, maintenance-intensive burdens. *Lawn Gone!*, from award-winning gardening blogger Pam Penick, is the first basic introduction to low-water, easy-care lawn alternatives for beginning gardeners, written in a friendly style with an approachable package. It covers all the available time-saving options: alternative grasses, ground cover plants, artificial turf, hardscaping, mulch, and more. In addition, it includes step-by-step lawn-removal methods, strategies for dealing with neighbors and homeowner

associations, and how to minimize your lawn if you're not ready to go all the way.

Veg in One Bed Huw Richards, 2019-10-29 Gardening YouTube sensation Huw Richards shows how to inexpensively grow year-round vegetables from just one raised bed. Keyed to a temperate coastal climate but adaptable to variations in temperature and rainfall, Huw's clear, practical advice will help you produce a bountiful harvest with minimal space and effort. In just one raised bed, green thumb wunderkind Huw Richards shows you how to grow vegetables easily, organically, abundantly, and inexpensively so you have something to harvest every month of the year. Month by month, discover what you need to do and how to do it. Try it in your yard, a small garden, or even on a roof terrace. Everything is explained in clear, photographed steps: building your bed, growing from seed, planting, feeding, and harvesting. Huw shows how to guarantee early success by starting off young plants on a windowsill. He suggests what to grow in each part of the bed and provides alternative vegetables to swap in or out depending on what you like eating. No-dig gardening methods remove most of the back-breaking work, too. *Veg in One Bed* goes beyond the inspiring demonstrations on his YouTube channel Huw's Nursery. In this book, he organizes all of his ideas and suggestions into a blueprint for growing your own vegetables month by month. Very little growing experience? Only a small space? No matter--with *Veg in One Bed*, you can still eat food you have grown throughout the year.

Harvest Stefani Bittner, Alethea Harampolis, 2017-02-07 A beautifully photographed, gift-worthy guide to growing, harvesting, and utilizing 47 unexpected garden plants to make organic pantry staples, fragrances, floral arrangements, beverages, cocktails, beauty products, bridal gifts, and more. Every garden--not just vegetable plots--can produce a bountiful harvest! This practical, inspirational, and seasonal guide will help make any garden more productive and enjoyable with a variety of projects using unexpected and often common garden plants, some of which may already be growing in your backyard. Discover the surprising usefulness of petals and leaves, roots, seeds, and fruit: turn tumeric root into a natural dye and calamintha into lip balm. Make anise hyssop into a refreshing iced tea and turn apricots into a facial mask. Crabapple branches can be used to create stunning floral arrangements, oregano flowers to infuse vinegar, and edible chrysanthemum to liven up a salad. With the remarkable, multi-purpose plants in *Harvest*, there is always something for gardeners to harvest from one growing season to the next.

Dry Gardens Daniel Nolan, 2018-09-25 Acclaimed landscape designer Daniel Nolan showcases the best of desert gardenscapes that have become synonymous with luxury minimalism, and presents techniques that will inspire readers to transform available space into their own modern dry garden. Hot days, cool nights, dry air, a blazing sun—California's Mediterranean climate is not what you think of when you hear "lush garden," but leading garden designers Nolan and his peers have revolutionized this genre with their artful designs. Nolan, the authority on dry gardens, has carefully selected 25 unique public and private garden masterpieces, diverse examples of interior and exterior gardening techniques. Readers will

be treated to a complete look at crafting elevated and rustic gardens through a variety of environments, from pools and pocket gardens, front lawns, balconies, and living walls to retail spaces, museums, and vineyards. Each detailed project offers a different approach to incorporating the desert's wild array of flora and becomes a practical tool, addressing various materials and horticultural and compositional solutions. Rich with bold architecture of spiny cacti, brilliant and muted sage, rosy succulents, bright, dusty sands, and red rocks, Dry Gardens proves that inspiration has no geographic boundaries. It will be appreciated by lovers of gardens and interior design from around the world.
