Dealing Death and Drugs Beto O'Rourke, Susie Byrd, 2011-11-29 The War on Drugs doesn't work. This became obvious to El Paso City Representatives Susie Byrd and Beto O'Rourke when they started to ask questions about why El Paso's sister city Ciudad Juárez has become the deadliest city in the world—8,000-plus deaths since January 1, 2008. Byrd and O'Rourke soon realized American drug use and United States' failed War on Drugs are at the core of problem. In Dealing Death and Drugs—a book written for the general reader—they explore the costs and consequences of marijuana prohibition. They argue that marijuana prohibition has created a black market so profitable that drug kingpins are billionaires and drug control doesn't stand a chance. Using Juárez as their focus, they describe the business model of drug trafficking and explain why this illicit system has led to the never-ending slaughter of human beings. Their position: the only rational alternative to the War on Drugs is to end to the current prohibition on marijuana. If Washington won't do anything different, if Mexico City won't do anything different, then it is up to us—the citizens of the border who understand the futility and tragedy of this current policy first hand—to lead the way.—from the Afterword A portion of the proceeds from the sale of Dealing Death and Drugs will be donated to Centro Santa Catalina, a faith-based community in Ciudad Juárez, Mexico, founded in 1996 by Dominican Sisters for the spiritual, educational and economic empowerment of economically poor women and for the welfare of their families.

Children Learn by Observing and Contributing to Family and Community Endeavors: A Cultural Paradigm ,2015-12-08 Children Learn by Observing and Contributing to Family and Community Endeavors, the latest in the Advances in Child Development and Behavior Series provides a major step forward in highlighting patterns and variability in the normative development of the everyday lives of children, expanding beyond the usual research populations that have extensive Western

schooling in common. The book documents the organization of children's learning and social lives, especially among children whose families have historical roots in the Americas (North, Central, and South), where children traditionally are included and contribute to the activities of their families and communities, and where Western schooling is a recent foreign influence. The findings and theoretical arguments highlight a coherent picture of the importance of the development of children's participation in ongoing activity as presented by authors with extensive experience living and working in such communities. Contains contributions from leading authorities in the field of child development and behavior Presents a coherent picture of the importance of the development of children's participation in ongoing activity Provides a major step forward in highlighting patterns and variability in the normative development of the everyday lives of children, expanding beyond the usual research populations that have extensive Western schooling in common Informs and updates on all the latest developments in the field

**ClassPassing**, Class-Passing draws on dozens of examples from popular culture, from old movie classics and contemporary films to print ads and cyberspace, to illustrate how flagrant displays of wealth that were once unacceptable under the old rules of behavior are now flaunted by class-passing celebrities. Book jacket.

Digging the Days of the Dead Juanita Garciagodoy,1998 In Digging the Days of the Dead, Juanita Garciagodoy depicts various aspects of the celebration - including Prehispanic and Spanish Catholic traces on its development as well as folk and popular culture versions - and describes its changing place in contemporary Mexico. Garciagodoy examines in detail differences in attitudes toward death in Mexico and the United States. In part because the living do not exclude the dead from their family circle, celebrants of Dias de muertos treat death as an intimate life companion and fear it less than their northern counterparts, who tend to view death as inimical.

Day of the Dead Shawn D. Haley, Curt Fukuda, 2004-12-01 The Day of the Dead is the most important annual celebration in Oaxaca, Mexico. Skillfully combining textual information and photographic imagery, this book begins with a discussion of the people of Oaxaca, their way of life, and their way of looking at the world. It then takes the reader through the celebration from the preparations that can begin months in advance through to the private gatherings in homes and finally to the cemetery where the villagers celebrate together — both the living and the dead. The voices in the book are of those people who have participated in the Day of the Dead for as long as they can remember. There are no ghosts here. Only the souls of loved ones who have gone to the Village of the Dead and who are allowed to return once a year to be with their family. Very readable and beautifully illustrated, this book provides an extensive discussion of the people of Oaxaca, their way of life and their beliefs, which make the Day of the Dead logical and easily comprehensible.

**Passing and the Fictions of Identity** Elaine K. Ginsberg,1996-04-29 Passing refers to the process whereby a person of one race, gender, nationality, or sexual orientation adopts the guise of another. Historically, this has often involved black

slaves passing as white in order to gain their freedom. More generally, it has served as a way for women and people of color to access male or white privilege. In their examination of this practice of crossing boundaries, the contributors to this volume offer a unique perspective for studying the construction and meaning of personal and cultural identities. These essays consider a wide range of texts and moments from colonial times to the present that raise significant questions about the political motivations inherent in the origins and maintenance of identity categories and boundaries. Through discussions of such literary works as Running a Thousand Miles for Freedom, The Autobiography of an Ex-Coloured Man, Uncle Tom's Cabin, The Hidden Hand, Black Like Me, and Giovanni's Room, the authors examine issues of power and privilege and ways in which passing might challenge the often rigid structures of identity politics. Their interrogation of the semiotics of behavior, dress, language, and the body itself contributes significantly to an understanding of national, racial, gender, and sexual identity in American literature and culture. Contextualizing and building on the theoretical work of such scholars as Judith Butler, Diana Fuss, Marjorie Garber, and Henry Louis Gates Jr., Passing and the Fictions of Identity will be of value to students and scholars working in the areas of race, gender, and identity theory, as well as U.S. history and literature. Contributors. Martha Cutter, Katharine Nicholson Ings, Samira Kawash, Adrian Piper, Valerie Rohy, Marion Rust, Julia Stern, Gayle Wald, Ellen M. Weinauer, Elizabeth Young

**Passing** Brooke Kroeger,2004-12-01 Despite the many social changes of the last half-century, many Americans still pass: black for white, gay for straight, and now in many new ways as well. We tend to think of passing in negative terms--as deceitful, cowardly, a betrayal of one's self. But this compassionate book reveals that many passers today are people of good heart and purpose whose decision to pass is an attempt to bypass injustice, and to be more truly themselves. Passing tells the poignant, complicated life stories of a black man who passed as a white Jew; a white woman who passed for black; a working class Puerto Rican who passes for privileged; a gay, Conservative Jewish seminarian and a lesbian naval officer who passed for straight; and a respected poet who radically shifts persona to write about rock'n'roll. The stories, interwoven with others from history, literature, and contemporary life, explore the many forms passing still takes in our culture; the social realities which make it an option; and its logistical, emotional, and moral consequences. We learn that there are still too many institutions, environments, and social situations that force honorable people to twist their lives into painful, deceit-ridden contortions for reasons that do not hold. Passing is an intellectually absorbing exploration of a phenomenon that has long intrigued scholars, inspired novelists, and made hits of movies like The Crying Game and Boys Don't Cry.

**Out in Culture** Corey K. Creekmur, Alexander Doty, 1995 Out in Culture charts some of the ways in which lesbians, gays, and queers have understood and negotiated the pleasures and affirmations, as well as the disappointments, of mass culture. The essays collected here, combining critical and theoretical works from a cross-section of academics, journalists, and artists, demonstrate a rich variety of gay and lesbian approaches to film, television, popular music, and fashion. This wide-ranging

anthology is the first to juxtapose pioneering work in gay and lesbian media criticism with recent essays in contemporary queer cultural studies. Uniquely accessible, Out in Culture presents such popular writers as B. Ruby Rich, Essex Hemphill, and Michael Musto as well as influential critics such as Richard Dyer, Chris Straayer, and Julia Lesage, on topics ranging from the queer careers of Agnes Moorehead and Pee Wee Herman to the cultural politics of gay drag, lesbian style, the visualization of AIDS, and the black snap! queen experience. Of particular interest are two dossiers, the first linking essays on the queer content of Alfred Hitchcock's films, and the second on the production and reception of popular music within gay and lesbian communities. The volume concludes with an extensive bibliography--the most comprehensive currently available-of sources in gay, lesbian, and queer media criticism. Out in Culture explores the distinctive and original ways in which gays, lesbians, and queers have experienced, appropriated, and resisted the images and artifacts of popular culture. This eclectic anthology will be of interest to a broad audience of general readers and scholars interested in gay and lesbian issues; students of film, media, gender, and cultural studies; and those interested in the emerging field of queer theory.

The Skeleton at the Feast Elizabeth Carmichael, Chloë Sayer, 1992-03 In this unique work, the authors explore both the historic origins of the Day of the Dead and its colorful present-day celebrations in Mexico and the United States.

**The Anthropology of Childhood** David F. Lancy,2022-03-10 Enriched with findings from anthropological scholarship, this book provides a guide to childhood in different cultures, past and present.

The Drag King Book Del Lagrace Volcano, Judith Halberstam, 1999 What is a drag king? Why have drag kings not been as numerous or as popular as their drag queen counterparts in popular culture? Are drag kings lesbians? The Drag King Book tells you everything you've wanted to know and more about the lives and performances of contemporary male impersonators. The book profiles many different performers, among them San Francisco's larger-than-life Elvis Herselvis and New York's mackdaddy Dred, and presents interviews with drag kings alongside descriptions and analyses of actual shows. Lavishly illustrated with over 100 pictures by transgender photographer Del LaGrace Volcano, The Drag King Book is a striking testament to the multiple forms of gender variance today.

The Anthropology of Learning in Childhood David F. Lancy, John C. Bock, Suzanne Gaskins, 2010 The Anthropology of Learning in Childhood offers a portrait of childhood across time, culture, species, and environment. Anthropological research on learning in childhood has been scarce, but this book will change that. It demonstrates that anthropologists studying childhood can offer a description and theoretically sophisticated account of children's learning and its role in their

development, socialization, and enculturation. Further, it shows the particular contribution that children's learning makes to the construction of society and culture as well as the role that culture-acquiring children play in human evolution. Book iacket.

Law, Culture and Visual Studies Anne Wagner, Richard K. Sherwin, 2013-07-11 The proposed volumes are aimed at a multidisciplinary audience and seek to fill the gap between law, semiotics and visuality providing a comprehensive theoretical and analytical overview of legal visual semiotics. They seek to promote an interdisciplinary debate from law, semiotics and visuality bringing together the cumulative research traditions of these related areas as a prelude to identifying fertile avenues for research going forward. Advance Praise for Law, Culture and Visual Studies This diverse and exhilarating collection of essays explores the many facets both historical and contemporary of visual culture in the law. It opens a window onto the substantive, jurisdictional, disciplinary and methodological diversity of current research. It is a cornucopia of materials that will enliven legal studies for those new to the field as well as for established scholars. It is a 'must read' that will leave you wondering about the validity of the long held obsession that reduces the law and legal studies to little more than a preoccupation with the word. Leslie J Moran Professor of Law, Birkbeck College, University of London Law, Culture & Visual Studies is a treasure trove of insights on the entwined roles of legality and visuality. From multiple interdisciplinary perspectives by scholars from around the world, these pieces reflect the fullness and complexities of our visual encounters with law and culture. From pictures to places to postage stamps, from forensics to film to folklore, this anthology is an exciting journey through the fertile field of law and visual culture as well as a testament that the field has come of age. Naomi Mezey, Professor of Law, Georgetown University Law Center, Washington, D.C., USA This highly interdisciplinary reference work brings together diverse fields including cultural studies, communication theory, rhetoric, law and film studies, legal and social history, visual and legal theory, in order to document the various historical, cultural, representational and theoretical links that bind together law and the visual. This book offers a breath-taking range of resources from both well-established and newer scholars who together cover the field of law's representation in, interrogation of, and dialogue with forms of visual rhetoric, practice, and discourse. Taken together this scholarship presents state of the art research into an important and developing dimension of contemporary legal and cultural inquiry. Above all, Law Culture and Visual Studies lays the groundwork for rethinking the nature of law in our densely visual culture: How are legal meanings produced, encoded, distributed, and decoded? What critical and hermeneutic skills, new or old, familiar or unfamiliar, will be needed? Topical, diverse, and enlivening, Law Culture and Visual Studies is a vital research tool and an urgent invitation to further critical thinking in the areas so well laid out in this collection. New Federalist Papers Alan Brinkley, Nelson W. Polsby, Kathleen M. Sullivan, 1997 In the aftermath of the Constitutional

Convention of 1787, three of its most gifted participants--Alexander Hamilton, James Madison, and John Jay--wrote a series of 85 essays--the Federalist Papers--which were published in newspapers throughout the nation, defending the proposed new government against its opponents. In the New Federalist Papers, three prominent writers confront the threats posed by current challenges to the American Constitution.

The Days of the Dead John Greenleigh, Rosalind Rosoff Beimler, 1998 The Days of the Dead offers a remarkable journey within Mexico's traditional holiday honoring departed ancestors, friends, and family. Each aspect of the multiday festival is carefully explored, from the journey to the cemeteries to spruce up neglected gravesites to the lively marketplace selling breads and candies in the shapes of skulls and skeletons and finally, the peaceful vigil as friends and families crowd the cemeteries to await the arrival of their loved ones through the long night. San Francisco-based photographer John Greenleigh traveled to small towns in Mexico in four different years to document this extraordinary festival. Accompanied by evocative text by cultural scholar Rosalind Rosoff Beimler, the pictures speak eloquently to a ritual that is at once mocking and respectful of death -- and ultimately affirming of human life.

The Dentofacial Complex Allan G. Brodie, 2004 Text book on the dentofacial complex (face, skull, and jaw anatomy). Legislative and regulatory proposals United States. National Commission on Libraries and Information Science, 2001 Evolution Challenges Karl S. Rosengren, Sarah K. Brem, E. Margaret Evans, Gale M. Sinatra, 2012-04-23 A recent poll revealed that one in four Americans believe in both creationism and evolution, while another 41% believe that creationism is true and evolution is false. A minority (only 13%) believe only in evolution. Given the widespread resistance to the idea that humans and other animals have evolved and given the attention to the ongoing debate of what should be taught in public schools, issues related to the teaching and learning of evolution are guite timely. Evolution Challenges: Integrating Research and Practice in Teaching and Learning about Evolution goes beyond the science versus religion dispute to ask why evolution is so often rejected as a legitimate scientific fact, focusing on a wide range of cognitive, socio-cultural, and motivational factors that make concepts such as evolution difficult to grasp. The volume brings together researchers with diverse backgrounds in cognitive development and education to examine children's and adults' thinking, learning, and motivation, and how aspects of representational and symbolic knowledge influence learning about evolution. The book is organized around three main challenges inherent in teaching and learning evolutionary concepts: folk theories and conceptual biases, motivational and epistemological biases, and educational aspects in both formal and informal settings. Commentaries across the three main themes tie the book together thematically, and contributors provide ideas for future research and methods for improving the manner in which evolutionary concepts are conveyed in the classroom and in informal learning experiences. Evolution Challenges is a unique text that extends far beyond the traditional evolution debate and is an invaluable resource to researchers in cognitive development, science education and the philosophy of science, science teachers, and exhibit and

curriculum developers.
