The View from Federal Twist James Golden,2022-03 Federal Twist is set on a ridge above the Delaware River in western New Jersey. It is a naturalistic garden that has loose boundaries and integrates closely with the natural world that surrounds it. It has no utilitarian or leisure uses (no play areas, swimming pools, or outdoor dining) and the site is not an obvious choice for a garden (heavy clay soil, poorly drained: quick death for any plants not ecologically suited to it). The physical garden, its plants and its features, is of course an appealing and pleasant place to be but Federal Twist's real charm and significance lie in its intangible aspects: its changing qualities and views, the moods and emotions it evokes, and its distinctive character and sense of place. This book charts the author's journey in making such a garden. How he made a conscious decision not to improve the land, planted large, competitive plants into rough grass, experimented with seeding to develop sustainable plant

communities. And how he worked with light to provoke certain moods and allowed the energy of the place, chance, and randomness to have its say. Part experimental horticulturist and part philosopher, James Golden has written an important book for naturalistic and ecological gardeners and anyone interested in exploring the relationship between gardens, nature, and ourselves.

The Lightmaker's Manifesto Karen Walrond, 2021-11-02 Karen Walrond shines her light so we can find our own. —Brené Brown Many of us have strong convictions. We want to advocate for causes we care about--but which ones? We want to work for change--but will the emotional toll lead to burn out? Leadership coach, lawyer, photographer, and activist Karen Walrond knows that when you care deeply about the world, light can seem hard to find. But when your activism grows out of your joy--and vice versa--you begin to see light everywhere. In *The Lightmaker's Manifesto*, Walrond helps us name the skills, values, and actions that bring us joy; identify the causes that spark our empathy and concern; and then put it all together to change the world. Creative and practical exercises, including journaling, daily intention-setting, and mindful self-compassion, are complemented by lively conversations with activists and thought leaders such as Valarie Kaur, Brené Brown, Tarana Burke, and Zuri Adele. With stories from around the world and wisdom from those leading movements for change, Walrond beckons readers toward lives of integrity, advocacy, conviction, and joy. By unearthing our passions and gifts, we learn how to joyfully advocate for justice, peace, and liberation. We learn how to become makers of light.

The Zero-Waste Chef Anne-Marie Bonneau, 2021-04-13 *SHORTLISTED for the 2021 Gourmand World Cookbook Award* *SHORTLISTED for the 2022 Taste Canada Award for Single-Subject Cookbooks* A sustainable lifestyle starts in the kitchen with these use-what-you-have, spend-less-money recipes and tips, from the friendly voice behind @ZeroWasteChef. In her decade of living with as little plastic, food waste, and stuff as possible, Anne-Marie Bonneau, who blogs under the moniker Zero-Waste Chef, has preached that zero-waste is above all an intention, not a hard-and-fast rule. Because, sure, one person eliminating all their waste is great, but thousands of people doing 20 percent better will have a much bigger impact. And you likely already have all the tools you need to begin. In her debut book, Bonneau gives readers the facts to motivate them to do better, the simple (and usually free) fixes to ease them into wasting less, and finally, the recipes and strategies to turn them into self-reliant, money-saving cooks and makers. Rescue a hunk of bread from being sent to the landfill by making Mexican Hot Chocolate Bread Pudding, or revive some sad greens to make a pesto. Save 10 dollars (and the plastic tub) at the supermarket with Yes Whey, You Can Make Ricotta Cheese, then use the cheese in a galette and the leftover whey to make sourdough tortillas. With 75 vegan and vegetarian recipes for cooking with scraps, creating fermented staples, and using up all your groceries before they go bad--including end-of-recipe notes on what to do with your ingredients next--Bonneau lays out an attainable vision for a zero-waste kitchen.

The Botany of Desire Michael Pollan, 2002-05-28 “Pollan shines a light on our own nature as well as on our implication in the natural world.” —The New York Times “A wry, informed pastoral.” —The New Yorker The book that helped make Michael Pollan, the New York Times bestselling author of *How to Change Your Mind*, *Cooked* and *The Omnivore’s Dilemma*, one of the most trusted food experts in America Every schoolchild learns about the mutually beneficial dance of honeybees and flowers: The bee collects nectar and pollen to make honey and, in the process, spreads the flowers’ genes far and wide. In *The Botany of Desire*, Michael Pollan ingeniously demonstrates how people and domesticated plants have formed a similarly reciprocal relationship. He masterfully links four fundamental human desires—sweetness, beauty, intoxication, and control—with the plants that satisfy them: the apple, the tulip, marijuana, and the potato. In telling the stories of four familiar species, Pollan illustrates how the plants have evolved to satisfy humankind’s most basic yearnings. And just as we’ve benefited from these plants, we have also done well by them. So who is really domesticating whom?

Blitzed Norman Ohler, 2017-03-07 A New York Times bestseller, Norman Ohler's Blitzed is a fascinating, engrossing, often dark history of drug use in the Third Reich" (Washington Post). The Nazi regime preached an ideology of physical, mental, and moral purity. Yet as Norman Ohler reveals in this gripping history, the Third Reich was saturated with drugs: cocaine, opiates, and, most of all, methamphetamines, which were consumed by everyone from factory workers to

housewives to German soldiers. In fact, troops were encouraged, and in some cases ordered, to take rations of a form of crystal meth—the elevated energy and feelings of invincibility associated with the high even help to account for the breakneck invasion that sealed the fall of France in 1940, as well as other German military victories. Hitler himself became increasingly dependent on injections of a cocktail of drugs—ultimately including Eukodal, a cousin of heroin—administered by his personal doctor. Thoroughly researched and rivetingly readable, *Blitzed* throws light on a history that, until now, has remained in the shadows. “Delightfully nuts.”—The New Yorker
