*Harlem Grown* Tony Hillery, 2020-08-18 “An inspiring picture book for youngsters with meaningful ties to the environment, sustainability, and community engagement.” —Booklist “Hartland’s gouache illustrations wobble endearingly, colorfully capturing the children’s triumph, and the kinetic energy and colorful vibrancy of the city neighborhood.” —Publishers Weekly Discover the incredible true story of Harlem Grown, a lush garden in New York City that grew out of an abandoned lot and now feeds a neighborhood. Once In a big city called New York In a bustling neighborhood There was an empty lot. Nevaeh called it the haunted garden. Harlem Grown tells the inspiring true story of how one man made a big difference in a neighborhood. After seeing how restless they were and their lack of healthy food options, Tony Hillery invited students from an underfunded school to turn a vacant lot into a beautiful and functional farm. By getting their hands dirty, these kids turned an abandoned space into something beautiful and useful while learning about healthy, sustainable eating and collaboration. Five years later, the kids and their parents, with the support of the Harlem Grown staff, grow thousands of pounds of fruits and vegetables a year. All of it is given to the kids and their families. The incredible story is vividly brought to life with Jessie Hartland’s “charmingly busy art” (Booklist) that readers will pore over in search of new details as they revisit this poignant and uplifting tale over and over again. Harlem Grown is an independent, not-for-profit organization. The author’s share of the proceeds from the sale of this book go directly to Harlem Grown.

**The Power of a Plant** Stephen Ritz, Suzie Boss, 2017-05-02 In *The Power of a Plant*, globally acclaimed teacher and self-proclaimed CEO (Chief Eternal Optimist) Stephen Ritz shows you how, in one of the nation’s poorest communities, his students thrive in school and in life by growing, cooking, eating, and sharing the bounty of their green classroom. What if we taught students that they have as much potential as a seed? That in the right conditions, they can grow into something great? These are the questions that Stephen Ritz—who became a teacher more than 30 years ago—sought to answer in 2004 in a South Bronx high school plagued by rampant crime and a dismal graduation rate. After what can only be defined as a cosmic experience when a flower broke up a fight in his classroom, he saw a way to start tackling his school’s problems: plants. He flipped his curriculum to integrate gardening as an entry point for all learning and inadvertently created an international phenomenon. As Ritz likes to say, “Fifty thousand pounds of vegetables later, my favorite crop is organically grown citizens who are growing and eating themselves into good health and amazing opportunities.” *The Power of a Plant* tells the story of a

green teacher from the Bronx who let one idea germinate into a movement and changed his students' lives by learning alongside them. Since greening his curriculum, Ritz has seen near-perfect attendance and graduation rates, dramatically increased passing rates on state exams, and behavioral incidents slashed in half. In the poorest congressional district in America, he has helped create 2,200 local jobs and built farms and gardens while changing landscapes and mindsets for residents, students, and colleagues. Along the way, Ritz lost more than 100 pounds by eating the food that he and his students grow in school. *The Power of a Plant* is his story of hope, resilience, regeneration, and optimism.

**The Complete Book of Ferns** Mobee Weinstein, 2020-01-14 *The Complete Book of Ferns* is filled with botanical information, indoor and outdoor growing and care information, details on propagation, display ideas, and even craft projects. This gorgeous book is authored by Mobee Weinstein, the Foreman of Gardeners at the New York Botanical Garden in the Bronx and a veteran guest on the Martha Stewart Living TV show and other media outlets. Houseplants in general are in ascendance, but no category is hotter than ferns. From the otherworldly Stag horns—mounted like antler trophies in homes throughout the world—to the classic Boston Ferns and newer varieties like Crispy Wave, ferns are definitely back in fashion. And to no one's surprise. After all, ferns are among the very oldest plants on the planet, with a long and storied history. There are tens of thousands of known varieties of ferns. In the Victorian Era, ferns created an absolute craze for more than 50 years. They re-emerged as integral home décor accessories in the '50s and '60s, and who didn't spend time in a Fern Bar back in the '80s? And they are back again. This comprehensive reference starts its examination of ferns 400 million years ago, when the first species of this group of spore-reproducing plants appeared on Earth, exploring their evolution and eventual incorporation into human culture, including the powers associated with them and their practical and ornamental uses. Then, after an exploration of fern botany—its parts, how it grows, its variability in size and form, habitats, propagation, etc.—you'll learn how to green your indoor and outdoor environments with ferns. Every aspect of fern care is covered: potting/planting, watering, fertilizing, pest and disease control, and more. With this knowledge absorbed, explore creative planting projects, like terrariums, vertical gardens (living walls), mixed tabletop gardens, and moss baskets. To make your survey of ferns complete, create pressed fern art, fabric wall hangings with chlorophyll-stained designs, cyanotypes, and hand-made fern-decorated paper. In the end, you will understand why this ancient plant class continues to be all the rage.

**Morristown** Bonnie-Lynn Nadzeika, 2012 The seat of Morris County, Morristown began as a small rural settlement centered around a common green. The small village soon earned its place in American history when George Washington chose to make Morristown the site of his headquarters twice during the Revolutionary War. Just a few decades later, history was made again when Samuel Morse made Alfred Vail his partner in developing the telegraph at Speedwell Iron Works in Morristown. The town continued to grow as successive immigrant groups created ethnic enclaves. The Gilded Age came to Morristown, and by 1900, dozens of millionaires called the community home and brought the trappings of wealth, from lavish homes to social clubs. Today, while Morristown continues to evolve, numerous historic sites and museums document its rich past.

*Doing Justice* Preet Bharara, 2019-03-19 \*A New York Times Bestseller\* An important overview of the way our justice system works, and why the rule of law is essential to our survival as a society—from the one-time federal prosecutor for the Southern District of New York, and host of the *Doing Justice* podcast. Preet Bharara has spent much of his life examining our legal system, pushing to make it better, and prosecuting those looking to subvert it. Bharara believes in our system and knows it must be protected, but to do so, he argues, we must also acknowledge and allow for flaws both in our justice system and in human nature. Bharara uses the many illustrative anecdotes and case histories from his storied, formidable career—the successes as well as the failures—to shed light on the realities of the legal system and the consequences of taking action. Inspiring and inspiringly written, *Doing Justice* gives us hope that rational and objective fact-based thinking, combined with compassion, can help us achieve truth and justice in our daily lives. Sometimes poignant and sometimes controversial, Bharara's expose is a thought-provoking, entertaining book about the need to find the humanity in our legal system as well as in our society.

**All the Presidents' Gardens** Marta McDowell, 2024-01-16 This New York Times bestseller shares the rich history of the

White House grounds, revealing how the story of the garden is also the story of America. The 18-acres surrounding the White House have been an unwitting witness to history—kings and queens have dined there, bills and treaties have been signed, and presidents have landed and retreated. Throughout it all, the grounds have remained not only beautiful, but also a powerful reflection of American trends. In *All the Presidents' Gardens* bestselling author Marta McDowell tells the untold history of the White House grounds with historical and contemporary photographs, vintage seeds catalogs, and rare glimpses into Presidential pastimes. History buffs will revel in the fascinating tidbits about Lincoln's goats, Ike's putting green, Jackie's iconic roses, Amy Carter's tree house, and Trump's controversial renovations. Gardeners will enjoy the information on the plants whose favor has come and gone over the years and the gardeners who have been responsible for it all. As one head gardener put it, "What's great about the job is that our trees, our plants, our shrubs, know nothing about politics."

**Stickwork** Patrick Dougherty, 2013-07-02 Using minimal tools and a simple technique of bending, interweaving, and fastening together sticks, artist Patrick Dougherty creates works of art inseparable with nature and the landscape. With a dazzling variety of forms seamlessly intertwined with their context, his sculptures evoke fantastical images of nests, cocoons, cones, castles, and beehives. Over the last twenty-five years, Dougherty has built more than two hundred works throughout the United States, Europe, and Asia that range from stand-alone structures to a kind of modern primitive architecture--every piece mesmerizing in its ability to fly through trees, overtake buildings, and virtually defy gravity. *Stickwork*, Dougherty's first monograph, features thirty-eight of his organic, dynamic works that twist the line between architecture, landscape, and art. Constructed on-site using locally sourced materials and local volunteer labor, Dougherty's sculptures are tangles of twigs and branches that have been transformed into something unexpected and wild, elegant and artful, and often humorous. Sometimes freestanding, and other times wrapping around trees, buildings, railings, and rooms, they are constructed indoors and in nature. As organic matter, the stick sculptures eventually disintegrate and fade back into the landscape. Featuring a wealth of photographs and drawings documenting the construction process of each remarkable structure, *Stickwork* preserves the legend of the man who weaves the simplest of materials into a singular artistic triumph.

*Beer School* Steve Hindy, Tom Potter, 2011-01-31 BEER SCHOOL Beer School Bottling Success at the Brooklyn Brewery What do you get when you cross a journalist and a banker? A brewery, of course. “A great city should have great beer. New York finally has, thanks to Brooklyn. Steve Hindy and Tom Potter provided it. Beer School explains how they did it: their mistakes as well as their triumphs. Steve writes with a journalist’s skepticism—as though he has forgotten that he is reporting on himself. Tom is even less forgiving—he’s a banker, after all. The inside story reads at times like a cautionary tale, but it is an account of a great and welcome achievement.” —Michael Jackson, *The Beer Hunter* “An accessible and insightful case study with terrific insight for aspiring entrepreneurs. And if that’s not enough, it is all about beer!” —Professor Murray Low, Executive Director, Lang Center for Entrepreneurship, Columbia Business School “Great lessons on what every first-time entrepreneur will experience. Being down the block from the Brooklyn Brewery, I had firsthand witness to their positive impact on our community. I give Steve and Tom’s book an A++!” —Norm Brodsky, Senior Contributing Editor, Inc. magazine “Beer School is a useful and entertaining book. In essence, this is the story of starting a beer business from scratch in New York City. The product is one readers can relate to, and the market is as tough as they get. What a fun challenge! The book can help not only those entrepreneurs who are starting a business but also those trying to grow one once it is established. Steve and Tom write with enthusiasm and insight about building their business. It is clear that they learned a lot along the way. Readers can learn from these lessons too.” —Michael Preston, Adjunct Professor, Lang Center for Entrepreneurship, Columbia Business School, and coauthor, *The Road to Success: How to Manage Growth* “Although we (thankfully!) never had to deal with the Mob, being held up at gunpoint, or having our beer and equipment ripped off, we definitely identified with the challenges faced in those early days of cobbling a brewery together. The revealing story Steve and Tom tell about two partners entering a business out of passion, in an industry they knew little about, being seriously undercapitalized, with an overly naive business plan, and their ultimate success, is an inspiring tale.” —Ken Grossman, founder, Sierra Nevada Brewing Co.

can be intimidating. Knowing when and what to plant, how to care for the plants once they're in the ground, and how to keep pests and diseases away is a lot to take on. Luckily, Daryl Beyers—an expert from the New York Botanical Garden—has written what will be a go-to resource for decades to come. The New Gardener's Handbook is a comprehensive overview of the fundamentals of gardening, based on the introductory gardening class that Beyers teaches at NYBG. *Terminal Bar* Stefan Nadelman, 2014-10-14 In 1972 Shelly Nadelman began a ten-year run bartending at one of New York City's most notorious dives: the Terminal Bar, located across the street from the Port Authority Bus Terminal near Times Square. For ten years, right up until the bar closed for good in 1982, he shot thousands of black-and-white photographs, mostly portraits of his customers— neighborhood regulars, drag queens, thrill-seeking tourists, pimps and prostitutes, midtown office workers dropping by before catching a bus home to the suburbs—all of whom found welcome and respite at the Terminal Bar. This extraordinary archive remained unseen for twenty years until his son Stefan rescued the collection, using parts of it in a documentary short. Featuring nine hundred photographs accompanied by reminiscences in Shelly Nadelman's inimitable voice, *Terminal Bar* brings back to life the 1970s presanitized Times Square, a raucous chapter of the city that never sleeps.
