Sneaker Century Amber J. Keyser, 2017-01-01 Whether you call them kicks or sneakers, runners or gutties, you probably have a pair of athletic shoes in your closet. The earliest sneakers debuted in the 1800s and weren't much more than a canvas upper and a flexible sole made of a crazy new material rubber. The stuff might have been new to Americans then, but for thousands of years, the indigenous peoples of the Amazon Basin of South America had been using latex made from the milky sap of hevea trees to protect their feet from rocks, sticks, and biting insects. Once Charles Goodyear figured out how to make the stuff more durable, sneakers were here to stay. Early sneakers were initially designed for elite athletes, but kids and teens quickly adopted them. Some of the first brands included Converse, Brooks, and Saucony. German companies Adidas and Puma started up during World War II. The Nike shoe debuted in the 1970s (with a bit of inspiration from a waffle iron). As fitness crazes took off in the 1980s, people all over the world started buying the shoes for workouts and everyday wear. At about the same time, companies began hiring high-profile athletes and pop stars for big-dollar endorsements, and shoe sales soared into the stratosphere to the tune of billions of dollars each year. In *Sneaker Century*, follow sneaker fashions and the larger-than-life personalities behind the best known athletic shoe brands in history. Learn how teen sneakerheads became important style makers and drove the success of NIKE, Inc., and other shoe companies. Look behind the scenes at the labor-intensive process of manufacturing sneakers. Explore the sneaker frontier of the future recycled shoes, earth-friendly initiatives, and high-fashion statements. Get ready to speed through the Sneaker Century!

Kicks Nicholas Smith,2018-05-01 A cultural history of sneakers, tracing the footprint of one of our most iconic fashions across sports, business, pop culture, and American identity When the athletic shoe graduated from the beaches and croquet courts of the wealthy elite to streetwear ubiquity, its journey through the heart of American life was just getting started. In this rollicking narrative, Nicholas K. Smith carries us through the long twentieth century as sneakers became the totem of subcultures from California skateboarders to New York rappers, the cause of gang violence and riots, the heart of a global economic controversy, the lynchpin in a quest to turn big sports into big business, and the muse of high fashion. Studded with larger-than-life mavericks and unexpected visionaries—from genius rubber inventor, Charles Goodyear, to road-warrior huckster Chuck Taylor, to the feuding brothers who founded Adidas and Puma, to the track coach who changed the sport by pouring rubber in his wife's waffle iron—Kicks introduces us to the sneaker's surprisingly influential, enduring, and evolving legacy.

Trainers Neal Heard,2005 Trainers, sneakers or plimsolls, whatever you decide to call them and however you wear them, have become an essential fashion statement. Sports shoes are no longer designed simply for running or working out. It's no longer enough for a sports shoe to fit the wearer and be bouncy: it must have style, offer protection against injury and give the wearer enhanced performance potential, Adidas, Nike, New Balance or Puma, shoes that perform well, sell well, especially if they are endorsed by a cool sporting-world figure. In the late 1990s people who would never go running selected trainers as their casual shoe. True enthusiasts purchased two pairs at once - one to wear, the other to keep shrink-wrapped as a future collector's item. The Nike Air Rift, with its split toe, for example, is a design classic. Trainers pays tribute and charts the rise and rise of the sports shoe. With everything from this year's streetwise trainers to the legendary Converse All Star, all photographed in colour, with close-ups of key features in addition to a portrait of each shoe, this is the complete compendium of trainer style.

Those Shoes Maribeth Boelts,2016-10-11 But all the kids are wearing them! Any child who has ever craved something out of reach will relate to this warm, refreshingly realistic story. Features an audio read-along. I have dreams about those shoes. Black high-tops. Two white stripes. All Jeremy wants is a pair of those shoes, the ones everyone at school seems to be wearing. But Jeremy's grandma tells him they don't have room for want, just need, and what Jeremy needs are new boots for winter. When Jeremy's shoes fall apart at school, and the guidance counselor gives him a hand-me-down pair, the boy is more determined than ever to have those shoes, even a thrift-shop pair that are much too small. But sore feet aren't much fun, and Jeremy comes to realize that the things he has -- warm boots, a loving grandma, and the chance to help a friend -- are worth more than the things he wants.
