Claire Takacs

Dreamscapes Claire Takacs, 2018-02-06 Dreamscapes is a stunning collection of over sixty of the world's most beautiful gardens from across the globe, photographed by internationally renowned and awarded photographer Claire Takacs. Dreamscapes includes gardens designed by well-known designers such as Brandon Tyson, Paul Bangay, and Spanish designer Fernando Martos among others, with photographed locations including Australia, New Zealand, UK, USA, Europe and Asia. This book will astound and delight you with the diversity and creativity of the gardens featured, all portrayed at that rare moment when they are at their most stunning. Iconic gardens included are the stunning Welsh garden Dyffryn Fernant; Australia's Cloudehill; Martha Stewart's private garden, Skylands; the beautiful Edwardian idyll of Bryan's Ground in Herefordshire; the former home of Vita Sackville-West, Long Barn in Kent; the naturalistic French garden of Le Jardin Plume in Normandy; Piet Oudolf's Hummelo in the Netherlands; Hermannshof in Germany at the forefront of planting design; and Kenrokuen one of Japan's most beautiful public gardens.

The Garden, 1900

Fearless Color Gardens Keeyla Meadows, 2009-09-01 Renowned garden artist Keeyla Meadows sees the world in strong, saturated shades. Fearless Color Gardens brings this unique vision to life by showing how to use wild, uninhibited color to connect indoor and outdoor spaces and turn a garden into a work of art. Learn how to pick colors that work together; how to coordinate the colors of walls, benches, containers, and garden art; how to organize garden spaces through the use of color; and how to translate personal color preferences into tangible form in the garden. Fearless Color Gardens also features a new way of looking at color with Keeyla's Color Triangle; easy-to-use tips on growing edibles in color-themed gardens; and Keeyla's favorite plants for specific colors. In the end, readers will want to reinvent the staid rules of the color wheel and turn their color preferences into intoxicatingly vibrant garden expressions.

Plants with Style Kelly Norris, 2016-02-08 "A love letter to plants...that oozes enthusiasm." —The English Garden Why settle for lackluster gardens filled with dull, ho-hum plants? In this spirited, provocative book, plant guru Kelly Norris calls for a garden revolution: out with the boring plants and in with the exciting newcomers that will make your jaw drop and your pulse quicken! A passionate horticulturist and lifelong gardener, Kelly is the ideal guide to the botanical riches available to today's gardeners. In chapters on environment, structure, seasonal standouts, and plant combinations he shines a spotlight

on the A-list plants in every category—plants that will thrive, not merely survive. Along the way, he shows you how to forge a personal style in harmony with your garden's setting and local environment. As Kelly puts it, "A garden is the best way to savor life on earth." Let *Plants with Style* guide you to the plants that will provide a richer, more fulfilling connection between you and your own patch of soil.

Garden & Home Builder William Tyler Miller, 1928

The View from Federal Twist James Golden, 2022-03 Federal Twist is set on a ridge above the Delaware River in western New Jersey. It is a naturalistic garden that has loose boundaries and integrates closely with the natural world that surrounds it. It has no utilitarian or leisure uses (no play areas, swimming pools, or outdoor dining) and the site is not an obvious choice for a garden (heavy clay soil, poorly drained: quick death for any plants not ecologically suited to it). The physical garden, its plants and its features, is of course an appealing and pleasant place to be but Federal Twist's real charm and significance lie in its intangible aspects: its changing qualities and views, the moods and emotions it evokes, and its distinctive character and sense of place. This book charts the author's journey in making such a garden. How he made a conscious decision not to improve the land, planted large, competitive plants into rough grass, experimented with seeding to develop sustainable plant communities. And how he worked with light to provoke certain moods and allowed the energy of the place, chance, and randomness to have its say. Part experimental horticulturist and part philosopher, James Golden has written an important book for naturalistic and ecological gardeners and anyone interested in exploring the relationship between gardens, nature, and ourselves.

Lawn Gone! Pam Penick, 2013-02-12 A colorful guide covering the basics of replacing a traditional lawn with a wide variety of easy-care, no-mow, drought-tolerant, money-saving options that will appeal to today's busy, eco-conscious homeowner. Americans pour 300 million gallons of gas and 1 billion hours every year into mowing their lawns, not to mention 70 million pounds of pesticides and \$40 billion for lawn upkeep. No Wonder the anti-lawn movement is thriving, as today's eco-conscious consumers realize that their traditional lawns are water-hogging, chemical-ridden, maintenance-intensive burdens. *Lawn Gone!*, from award-winning gardening blogger Pam Penick, is the first basic introduction to low-water, easy-care lawn alternatives for beginning gardeners, written in a friendly style with an approachable package. It covers all the available time-saving options: alternative grasses, ground cover plants, artificial turf, hardscaping, mulch, and more. In addition, it includes step-by-step lawn-removal methods, strategies for dealing with neighbors and homeowner

associations, and how to minimize your lawn if you're not ready to go all the way.

New Nordic Gardens Annika Zetterman, 2021 Few people have difficulty conjuring images of modern Scandinavian design, whose influence over the past century has reached around the world. More difficult for many is imagining the quiet landscapes of the Nordic countries, which range from the flatlands of Denmark to the dramatic mountains and fjords of Norway. These majestic environments, combined with long summer days and light-poor winters, raking light and dense birch forests, have given rise to exceptionally refined examples of garden and landscape design. This survey presents the best gardens to have been produced in the region over the past ten years. Organized by themes that encapsulate the special ambience and lifestyle of the Scandinavian countries - Simplicity, Silence, Fragility, Nakedness, Attunement, Boldness, Openness and Care - each garden is presented through images and texts explaining its unique aspects and describing its particularly Scandinavian characteristics. The timelessness of Nordic design has proven itself around the world for many decades. Now it is time for the quality of its gardens and landscapes to come into the light. With 291 illustrations in colour

The Education Of A Gardener Russell Page, 2007-07-03 Russell Page, one of the legendary gardeners and landscapers of the twentieth century, designed gardens great and small for clients throughout the world. His memoirs, born of a lifetime of sketching, designing, and working on site, are a mixture of engaging personal reminiscence, keen critical intelligence, and practical know-how. They are not only essential reading for today's gardeners, but a master's compelling reflection on the deep sources and informing principles of his art. The Education of a Gardener offers charming, sometimes pointed anecdotes about patrons, colleagues, and, of course, gardens, together with lucid advice for the gardener. Page discusses how to plan a garden that draws on the energies of the surrounding landscape, determine which plants will do best in which setting, plant for the seasons, handle color, and combine trees, shrubs, and water features to rich and enduring effect. To read The Education of a Gardener is to wander happily through a variety of gardens in the company of a wise, witty, and knowledgeable friend. It will provide pleasure and insight not only to the dedicated gardener, but to anyone with an interest in abiding questions of design and aesthetics, or who simply enjoys an unusually well-written and thoughtful book.

Designing a Garden Michael Van Valkenburgh, 2019-10-15 The intimate Monk's Garden at the Isabella Stewart Gardner

Museum in Boston embodies the design principles that inform the work of noted landscape architect Michael Van Valkenburgh. In *Designing a Garden*, Van Valkenburgh presents the design of the Monk's Garden at the Isabella Stewart Gardner Museum, an intimate, walled garden that Laurie Olin has described as a masterpiece, and not a minor one. The book documents the evolution of the garden's design, which is based on the concept of meandering paths through a dreamlike woodland to create a contemplative space. Sketches and models show how the idea was worked out, and lush photographs reveal the completed garden through the seasons. Van Valkenburgh's text explores the origins of his love of landscape and plants in his family farm in Upstate New York and how this has influenced his intuitions as a designer. He shares the full background story of the Monk's Garden, focusing on the experimental nature of design work as well as the challenges and satisfactions of the small scale and the historic and cultural context. *Designing a Garden* provides a unique first-person account of the design process from the most prominent landscape architects in the country.
