Kenneth Weisbrode

The Spirit of Freedom Charles Villa-Vicencio, 2023-09-01 This collection of interviews explores the role of religion in the lives of eminent South Africans who led the struggle against apartheid. Nelson Mandela, Chris Hani, Desmond Tutu, Nadine Gordimer, and seventeen other political, religious, and cultural leaders share the beliefs and values that informed the moral positions they adopted, often at great cost. From all ethnic, religious, and political backgrounds, these men and women have shaped one of the greatest political transformations of the century. What emerges from the interviews are reflections on all aspects of life in an embattled country. There are stories of the homelands and townships, and tales of imprisonment and exile. Dedicated communists relate their intense youthful devotion to Christianity; Muslim activists discuss the complexity of their relationships with their communities. As the respondents grapple with difficult questions about faith, politics, and authority, they expose a more personal picture: of their daily lives, of their pasts, and of the enormous conflicts that arise in a society that continually strains the moral fiber of its citizens. Taken together, these interviews reveal the many-faceted vision that has fueled South Africa's struggle for democracy.

On Ambivalence Kenneth Weisbrode, 2012-02-24 A concise guide to ambivalence, from Adam and Eve (to eat the apple or not?) to Hamlet (to be or not?) to globalization (e pluribus unum or not?). Why is it so hard to make up our minds? Adam and Eve set the template: Do we or don't we eat the apple? They chose, half-heartedly, and nothing was ever the same again. With this book, Kenneth Weisbrode offers a crisp, literate, and provocative introduction to the age-old struggle with ambivalence. Ambivalence results from a basic desire to have it both ways. This is only natural—although insisting upon it against all reason often results not in both but in the disappointing neither. Ambivalence has insinuated itself into our culture as a kind of obligatory reflex, or default position, before practically every choice we make. It affects not only individuals; organizations, societies, and cultures can also be ambivalent. How often have we asked the scornful question, Are we the Hamlet of nations? How often have we demanded that our leaders appear decisive, judicious, and stalwart? And how eager have we been to censure them when they hesitate or waver? Weisbrode traces the concept of ambivalence, from the Garden

of Eden to Freud and beyond. The Obama era, he says, may be America's own era of ambivalence: neither red nor blue but a multicolored kaleidoscope. Ambivalence, he argues, need not be destructive. We must learn to distinguish it from its symptoms—selfishness, ambiguity, and indecision—and accept that frustration, guilt, and paralysis felt by individuals need not lead automatically to a collective pathology. Drawing upon examples from philosophy, history, literature, and the social sciences, *On Ambivalence* is a pocket-sized portrait of a complex human condition. It should be read by anyone who has ever grappled with making the right choice.

The Street Professor Ebi Achigbe Okeng Ebi, 2014 It is commonly quoted in Nigeria that if a farmer plants cassava, at harvest time he can only reap cassava. And so it goes that when Don Chilly Senior begrudgingly denied his wife the right to participate in Don Chilly Junior's upbringing, the stage for destruction was set and the repercussions were to be felt as far away as South Africa. Don Junior's parents, especially his father, a former law professor and himself immersed in shady dealings with the wrong people, make many important and significant decisions for their son. Soon both Dons are caught up in their own web of lies, deceit and secrets. Desperate to control his family and business partners, he gains a rather tainted reputation. Between it all, a lot goes wrong. Don Junior, a.k.a. the Street Professor, becomes a 419 and the unlikely victim is Van der Rogue, the president of the South African Allied Farmers' Union. This product of teenage parents, who fell from favour following a steamy affair with the young wife of a benevolent wine merchant, has Fortune smile on him for but a moment. Beguiled by a beauty, he falls for Don's junior's trap. 419 is not a crime, but a penal code created by the subsequent Nigerian government to prosecute those accused of committing the crime called Obtaining By Trick (OBT). The code was amended by different military dictators and sanctified by some others, who baptized the decree that was used to prosecute fraudulent activities that happened to fall under decree number 419. The crime committed against the sucker or mugu as OBT called the victims, dressed in whatever uniform, is simply called fraud. The almighty 419, the kings and queens of fraud, a.k.a. Obtaining By Trick, are indeed the masters of this work of art. The victims and most of the players of this lucrative business are in total darkness. Only a handful of them seem to know what is really happening. But the conspiracy is over. Now let the truth be told to prevent OBT practitioners from injecting the world with the poison of 419 any further.

Claes Oldenburg Claes Oldenburg, Ann Temkin, 2013 In the early 1960s, Claes Oldenburg redefined the concept of sculpture. Published in conjunction with a comprehensive exhibition of the artist's early work, *Claes Oldenburg: Selected Writings 1956-1969* gathers together in a single volume the artist's key writings from the 1960s and several years from either side of the decade. Much of the publication comprises of previously unpublished material, including sections of an extensive diary the artist kept during the formative years of the 1960s, and selection from an autobiographical manuscript that Oldenburg wrote in 1971. The book also reprints seminal texts related to Oldenburg's early exhibitions, a selection of scripts

for the accompanying Happenings and related interviews. Claes Oldenburg: Selected Writings 1956-1969 provides insight into the artists working process through a transformative period of his long career.

Physiology for Everyone Boris Sergeev, Oleg Meshkov, 2000-04-01 Our planet, the Earth, is the home of hundreds of thousands of living creatures. Life has permeated everywhere. It has ascended to the tops of the highest mountains, where there is hardly any air, and has hidden beneath the expanses of the oceans, reconciling itself to the tremendous pressures exerted by the waters. Life has come to the hot, arid deserts and to the eternal ice of the Arctic. Living creatures have adapted themselves to an absence of oxygen, to everlasting gloom, and to silence. But, wherever living organisms have settled, they need food which has to be distributed throughout their bodies, and they have to carry out the processes of metabolism. They also need to feel at home in their environment and start families to ensure the survival of the species. This book will tell you about Nature's amazing inventions which have made it possible for animals to populate our Earth, dealing as it does with live lanterns, radars, animal power stations, the mysteries of digestion, the automatism of the circulation of the blood, which is the body's most perfect transportation system, the structure of photo- and audio-receptors, the mysterious third eye, the secret workings of the brain, and the peculiarities of reproduction. Man has barely started to become familiar with Nature's ingenious fantasy, but he is already getting to grips with the process of evolution and making use of all Nature's treasures and inventions. The aim of this book is to call the reader's attention to the endless horizons of the science of living beings.

Four Black Revolutionary Plays Amiri Baraka, 2009 These four one-act plays deal with the African-American experience of today. Their central elements are love and hatred echoed in violently explosive words, actions, thoughts and metaphor. The sum total of three hundred years of contained fury, they are powerful statements about the real meaning of white oppression of black people. In their militancy and anger, they perfectly express the mood and frustrations of black America and are as relevant today as when they were first publicly performed. This edition contains a foreword by playwright, novelist, journalist and lecturer Lindsay Barrett, who has also made widely acclaimed radio and TV programs on jazz, the arts and African cultural matters.--Publisher description.
