Jesus and the Missional Movement in Galilee Sun Wook Kim, 2019-07-10 In New Testament scholarship, the study of space has been underrepresented in comparison with the study of time. While Jesus' life and ministry have been intensively explored in terms of eschatology--i.e., with time significance--space has tended to be treated as simply a given room or inactive backdrop where events took place. Interest in the space where Jesus ministered has, however, gradually increased, and space has received greater attention from sociological and literary perspectives. In particular, spatial investigations into the social circumstances of Galilee, the place of origin of Jesus' missional movement, have begun to attract serious scholarly attention. The important functions of space in literature are also becoming better recognized: spatial settings serve not only to generate atmosphere but also to disclose the purposes and themes of narratives. This book explores Jesus' Galilean ministry in Mark 4:35--8:21 through the use of spatial analysis, dividing space into three categories: social, geographical, and allusive. The study of each space discovers social, literary, and theological implications of Jesus' missional movement in Galilee.

Rocky Point Park David Bettencourt, 2015 In 1938, a tremendous hurricane devastated southern New England, including Rocky Point Park. The shore dining hall was washed away, and the roller coaster lay in ruins. Owners began to look into other options for this beautiful 80 acres of land along the coastline of Narragansett Bay. The park's future was in jeopardy until 1948, when Providence businessman Vincent Ferla bought it and brought it back to life. He revitalized the midway and brought in new and exciting rides, and on the park's first day back, more than 35,000 people visited. The park thrived for nearly 50 years until its eventual closure in 1995. Today, this scenic spot along the Atlantic Ocean has been returned to the people of Rhode Island as a nature preserve and is flourishing once again.

With Her Fist Raised Laura L. Lovett, 2021-01-19 The first biography of Dorothy Pitman Hughes, a trailblazing Black feminist activist whose work made children, race, and welfare rights central to the women's movement. Dorothy Pitman Hughes was a transformative community organizer in New York City in the 1970s who shared the stage with Gloria Steinem for 5 years, captivating audiences around the country. After leaving rural Georgia in the 1950s, she moved to New York, determined to fight for civil rights and equality. Historian Laura L. Lovett traces Hughes's journey as she became a powerhouse activist, responding to the needs of her community and building a platform for its empowerment. She created

lasting change by revitalizing her West Side neighborhood, which was subjected to racial discrimination, with nonexistent childcare and substandard housing, where poverty, drug use, a lack of job training, and the effects of the Vietnam War were evident. Hughes created a high-quality childcare center that also offered job training, adult education classes, a Youth Action corps, housing assistance, and food resources. Hughes's realization that her neighborhood could be revitalized by actively engaging and including the community was prescient and is startlingly relevant. As her stature grew to a national level, Hughes spent several years traversing the country with Steinem and educating people about feminism, childcare, and race. She moved to Harlem in the 1970s to counter gentrification and bought the franchise to the Miss Greater New York City pageant to demonstrate that Black was beautiful. She also opened an office supply store and became a powerful voice for Black women entrepreneurs and Black-owned businesses. Throughout every phase of her life, Hughes understood the transformative power of activism for Black communities. With expert research, which includes Hughes's own accounts of her life, *With Her Fist Raised* is the necessary biography of a pivotal figure in women's history and Black feminism whose story will finally be told.

Getting Out of the Rough John Marinus Vander Meulen, 1926

On the Judgment of History Joan Wallach Scott, 2020-09-22 In the face of conflict and despair, we often console ourselves by saying that history will be the judge. Today's oppressors may escape being held responsible for their crimes, but the future will condemn them. Those who stand up for progressive values are on the right side of history. As ideas once condemned to the dustbin of history—white supremacy, hypernationalism, even fascism—return to the world, threatening democratic institutions and values, can we still hold out hope that history will render its verdict? Joan Wallach Scott critically examines the belief that history will redeem us, revealing the implicit politics of appeals to the judgment of history. She argues that the notion of a linear, ever-improving direction of history hides the persistence of power structures and hinders the pursuit of alternative futures. This vision of necessary progress perpetuates the assumption that the nation-state is the culmination of history and the ultimate source for rectifying injustice. Scott considers the Nuremberg Tribunal and South Africa's Truth and Reconciliation Commission, which claimed to carry out history's judgment on Nazism and apartheid, and contrasts them with the movement for reparations for slavery in the United States. Advocates for reparations call into question a national history that has long ignored enslavement and its racist legacies. Only by this kind of critical questioning of the place of the nation-state as the final source of history's judgment, this book shows, can we open up room for radically different conceptions of justice.

The Slave Metaphor and Gendered Enslavement in Early Christian Discourse Marianne Bjelland Kartzow, 2020-08-14 *The Slave Metaphor and Gendered Enslavement in Early Christian Discourse* adds new knowledge to the ongoing discussion of slavery in early Christian discourse. Kartzow argues that the complex tension between metaphor and social reality in early

Christian discourse is undertheorized. A metaphor can be so much more than an innocent thought figure; it involves bodies, relationships, life stories, and memory in complex ways. The slavery metaphor is troubling since it makes theology of a social institution that is profoundly troubling. This study rethinks the potential meaning of the slavery metaphor in early Christian discourse by use of a variety of texts, read with a whole set of theoretical tools taken from metaphor theory and intersectional gender studies, in particular. It also takes seriously the contemporary context of modern slavery, where slavery has re-appeared as a term to name trafficking, gendered violence, and inhuman power systems.

General Rufus Putnam Robert Ernest Hubbard, 2020-07-30 During the Revolutionary War, Rufus Putnam served as the Continental Army's chief military engineer. As designer and supervisor of the construction of major fortifications, his contribution helped American forces drive the British Army from Boston and protect the Hudson River. Several years after the War, Putnam personally founded the first permanent American settlement in the Northwest Territory at Marietta, Ohio. Putnam's influence and vote prevented the introduction of slavery in Ohio, leading the way for Illinois, Indiana, Michigan and Wisconsin to enter the U.S. as free states. This first full-length biography in more than 130 years covers his wartime service and long public career.

A Scriptural Rosary, 2004 The Rosary is a way of contemplation, which simply means to look on the face of Christ. With Mary, we remember the mysteries of Christ's life, and with her, we learn Christ. Praying the Scriptural Rosary brings us into contact with the Word of God: it

The Less Dead Denise Mina, 2020-08-18 In this thought-provoking thriller from the author of the Reese Witherspoon book club pick and national bestseller *Conviction*, a woman in crisis finds herself on the hunt for her own mother's murderer (People). Dr. Margo Dunlop is at a crossroads. Her adoptive mom just passed away, and Margo misses her so much she can't begin to empty the house-or, it seems, get her brother on the phone. Not to mention she's newly single, secretly pregnant, and worried about her best friend's dangerous relationship. In an effort to cheer herself up she goes in search of her birth mother. Instead she finds Nikki, her mother's sister. Aunt Nikki isn't what Margo expects, and she brings upsetting news: Margo's mother is dead. Worse, she was murdered years ago, and her killer is still at large—and sending Nikki threatening letters. Margo is torn. Should she stay out of this mess, or try to find justice? But then Margo receives a letter, too. Someone out there has been waiting and watching, and in Margo sees the spitting image of her mother . . . Darkly funny and deeply affecting, *The Less Dead* is a sharply modern new thriller from the bestselling author of *Conviction*, and a surprisingly moving story of daughters and mothers, secrets and choices, and how the search for the truth—and a long-hidden killer—will lead one woman to find herself.

A Life in Three Acts Bette Bourne, Mark Ravenhill, 2010-04-16 With honesty, humour and occasional anger, performer Bette Bourne tells the playwright Mark Ravenhill about his brave and flamboyant life. Crafted from transcripts of a series of

long, private conversations, actor Bette Bourne reminisces and replays scenes from his life from a postwar childhood, a stint as a classical actor in the late 60s, to living in a drag commune in Notting Hill and being an active member of the Gay Liberation Front. Bette then talks about his touring with the New York based Hot Peaches cabaret group and founding his own cabaret troop, Bloodlips, which redefined the term gay theatre by creating their very own unique celebration of dramatic and colourful homosexuality. The piece, in three parts, marks a different series of events in Bette's life to reveal both a portrait of a pioneering, radical individual and a historical document of the struggles and achievements of gay liberation.

Arrows of Rain Okey Ndibe, 2023-12-01 Okey Ndibe's critically-acclaimed debut novel, *Arrows of Rain* is a vital exploration into the importance of speaking truth to power even when no one is listening. In the country of Madia, the General has declared himself Life-President of the Republic. According to him, ninety-nine percent of Madians voted for it. On the day of his ascendancy, however, a young sex worker is found dead on a beach. The last man who spoke to her, the 'madman' Bukuru, is adamant he saw her being attacked by Madian soldiers. His claim quickly lands him in prison, forced to defend himself against the charge of the woman's murder. Armed only with the truth, he must set upon the perilous scheme of releasing his story to the world. A brave and powerful work of fiction, *Arrows of Rain* continues to resonate as a cautionary tale against corruption and oppression. 'Highly evocative.' Wole Soyinka 'The greatest villain in Okey Ndibe's *Arrows of Rain* is silence.' Vanity Fair 'A Kafkaesque, imaginative novel of great necessity and power.' Kirkus Reviews

Talking Nets James A. Anderson, Edward Rosenfeld, 2000-02-28 Surprising tales from the scientists who first learned how to use computers to understand the workings of the human brain. Since World War II, a group of scientists has been attempting to understand the human nervous system and to build computer systems that emulate the brain's abilities. Many of the early workers in this field of neural networks came from cybernetics; others came from neuroscience, physics, electrical engineering, mathematics, psychology, even economics. In this collection of interviews, those who helped to shape the field share their childhood memories, their influences, how they became interested in neural networks, and what they see as its future. The subjects tell stories that have been told, referred to, whispered about, and imagined throughout the history of the field. Together, the interviews form a Rashomon-like web of reality. Some of the mythic people responsible for the foundations of modern brain theory and cybernetics, such as Norbert Wiener, Warren McCulloch, and Frank Rosenblatt, appear prominently in the recollections. The interviewees agree about some things and disagree about more. Together, they tell the story of how science is actually done, including the false starts, and the Darwinian struggle for jobs, resources, and reputation. Although some of the interviews contain technical material, there is no actual mathematics in the book. Contributors James A. Anderson, Michael Arbib, Gail Carpenter, Leon Cooper, Jack Cowan, Walter Freeman, Stephen Grossberg, Robert Hecht-Neilsen, Geoffrey Hinton, Teuvo Kohonen, Bart Kosko, Jerome Lettvin, Carver Mead, David Rumelhart, Terry Sejnowski, Paul Werbos, Bernard Widrow
