Draplin Design Co. Aaron James Draplin, 2016-05-17 A funny, colorful, fascinating tour through the work and life of one of today's most influential graphic designers. Esquire. Ford Motors. Burton Snowboards. The Obama Administration. While all of these brands are vastly different, they share at least one thing in common: a teeny little bit of Aaron James Draplin. Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. Pretty Much Everything is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like Field Notes and the “Things We Love” State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin's humor and pointed observations on the contemporary design scene, Pretty Much Everything is the complete package.

Private Gardens of the Bay Area Susan Lowry, Nancy Berner, 2017-10-17 Seasoned garden writers Susan Lowry and

Nancy Berner, along with leading landscape photographer Marion Brenner, tour more than thirty-five private gardens in the San Francisco Bay Area, illuminating the unrivalled beauty of Northern California—the breadth of the sky, the quality of the light, the sparkle of the Bay, the shapes of the hills—that has beckoned landscape designers and gardeners for generations. Organized geographically—starting with the San Francisco Peninsula, moving north into San Francisco itself, crossing the Bay into Berkeley and Oakland, and finishing in Napa, Sonoma, and Marin—Private Gardens of the Bay Area encompasses an extraordinary range of micro-climates that foster the cultivation of an equally extraordinary range of plants. The kaleidoscope of vigorous plants from five continents bursting out of an Oakland front yard is one kind of garden, the clean-lined contemporary composition of drought-tolerant natives and gravel is another, and the garden tucked into the mountain landscape of oaks, manzanitas, and ceanothus is yet another. This fascinating tour includes gardens such as Green Gables, where the 1911 terraced design by Greene & Greene is meticulously preserved; Big Swing, with a world-renowned collection of salvias; a vertical garden on a vertiginous site in San Francisco by Surfacedesign; and a romantic landscape of lawns, perennial beds, and stately oaks owned by noted collectors and gallerists Gretchen and John Berggruen. Lowry and Berner describe the goals of each garden owner and the principles behind the designs.

A Visual Inventory John Pawson, 2012-03-05 John Pawson's career as an architect and designer spans a variety of sizes and programs: from bowls to bridges, and monasteries to Calvin Klein stores. In addition to his acclaimed design work, he is the author of Phaidon's successful Minimum, a book that paired images and captions to illustrate the notion of simplicity in a beautiful and inspirational manner. Visual Inventory presents some of the images from Pawson's personal collection of over 200,000 digital snapshots. The book opens with an essay explaining the importance of photography as a tool for Pawson's work, and the images are set one per page with illuminating captions. Covering a huge range of subjects, the photographs form a remarkable body of reference material. Some of the images illustrate a particular idea out of form, material or space; others reflect the author's interest in returning repeatedly to certain subjects, capturing the changes brought by different weather, light conditions, seasons and patterns of use. Each image has been chosen for the book because it is useful, offering a lesson in visual thinking. None of the photographs in the book have been cropped or altered; it is the selection, arrangement and captioning of the images that make this book unique, valuable and attractive to any architect, designer, artist or student who wants to see the world around them with a stronger eye.

Big Cats Holiday Reinhorn, 2007-11-01 Big Cats opens with Charlotte, in which a young girl with a broken pelvis spies on her voluptuous neighbor during a long, hot summer night, setting the tone of irrepressible curiosity and yearning that is evident throughout the collection. In Get Away from Me, David, a bank manager tries to overcome his haunted past as he deals with the aftermath of a minor earthquake and the body of a customer who died in the lobby. Annie Leibovitz, with Dustjacket David Byrne Et Al. Martin, Steve Martin, 2014-03-01 Annie's Big Book Famed photographer Annie Leibovitz weighs in with her own SUMO When Benedikt Taschen asked the most important portrait photographer working today to collect her pictures in a SUMO-sized book, she was intrigued and challenged. The project took several years to develop and proved to be revelatory. Leibovitz drew from over 40 years of work, starting with the viscerally intimate reportage she created for Rolling Stone magazine in the 1970s and extending through the more stylized portraiture of her work for Vanity Fair and Vogue. Celebrated images such as John and Yoko entwined in a last embrace are printed alongside portraits that have rarely, and sometimes never before, been seen. Leibovitz was able to present some of her famous group portraits in a format that proves that she is the master of the genre. Her pictures are at once intimate and iconic, wide-ranging stylistically and also uniquely hers. Leibovitz is often imitated, particularly by younger photographers, but her work is somehow immediately recognizable. The bookends of the Leibovitz collection are the black-and-white photograph of Richard Nixon's helicopter lifting off from the White House lawn after he resigned as president in 1974 and the formal color portrait of Queen Elizabeth II taken in a drawing room of Buckingham Palace in 2007. In between are portraits that make up a family album of our time: actors, dancers, comedians, musicians, artists, writers, performance artists, journalists, athletes, businesspeople. Performance and power are recurring themes. A supplementary book contains essays by Annie Leibovitz, Graydon Carter, Paul Roth, and Hans Ulrich Obrist and short texts describing the subjects of each of the over 250 photographs. The Collector's Edition is available in four different dustjackets: Whoopi Goldberg, Berkeley, California, 1984 Keith Haring, New York City, 1986 David Byrne, Los Angeles, 1986 Patti Smith, New Orleans, Louisiana, 1978

Desert Gardens of Steve Martino Caren Yglesias, 2018-04-03 This survey of twenty-one gardens by Steve Martino, whose work blends colorful, man-made elements with native plants to reflect the sun-drenched beauty of the desert, is sure to inspire gardeners, landscapers, and admirers of California and the Southwest. For more than thirty years, Steve Martino has been committed to the development and advancement of landscape architecture in the Southwest. His pioneering work with native plant material and the development of a desert-derived design aesthetic is widely recognized. A recurring theme of his work is the dramatic juxtaposition of man-made elements with ecological processes of the region. His love for the desert--the interplay of light and shadow, the colors, plants, and wildlife--inspires his work. As Martino explains, Gardens consist of two worlds, the man-made and the natural one. I've described my design style as 'Weeds and Walls'--nature and man. I use native plants to make the transition from a building to the adjacent natural desert. Though Martino's work is deeply connected to the natural world, he also has a flair for the dramatic, which is apparent from his lively color selections, sculptural use of plants, and keen attention to lighting, shadows, and reflections. Boldly colored stucco walls frame compelling views of the desert and sky, expanding the outdoor living area while solving common site problems such as lack of privacy or shade. Interspersed are custom structures molded in translucent fiberglass in vivid hues--colorful arbors, outdoor showers, and internally lit benches.

Love, Lucas Chantele Sedgwick, 2015-05-05 A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Homo Deus Yuval Noah Harari, 2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.
