**The Glow of Paris** Gary Zuercher,2015-01-15 Already we're expecting something special. And that's exactly what Gary Zuercher gives us in this gorgeous collection of photographs. Over a period of five years, he took his cameras out into the Parisian night to capture stunningly evocative images of the bridges that span the Seine. Using his artistic eye and sophisticated photographic technique, he created these glorious black-and-white photographs, rich with detail and possessing a clear, luminous, quality. This collection is unique, and remarkable. No one else has ever photographed all the bridges that cross the Seine in Paris in this way. We don't see crowds of people, or heavy traffic. Nothing obscures the beauty and strength of the structures, the romance and symbolism of the bridges. Shooting in black and white allows the details to shine: the architectural elements, artwork, nearby buildings, trees on the riverbanks, and starry lamps casting paths of light across the water.

**Ancient Egypt Transformed** Adela Oppenheim,Dorothea Arnold,Dieter Arnold,Kei Yamamoto,2015-10-12 The Middle Kingdom (ca. 2030–1650 B.C.) was a transformational period in ancient Egypt, during which older artistic conventions, cultural principles, religious beliefs, and political systems were revived and reimagined. Ancient Egypt Transformed presents a comprehensive picture of the art of the Middle Kingdom, arguably the least known of Egypt's three kingdoms and yet one that saw the creation of powerful, compelling works rendered with great subtlety and sensitivity. The book brings together nearly 300 diverse works— including sculpture, relief decoration, stelae, jewelry, coffins, funerary objects, and personal possessions from the world's leading collections of Egyptian art. Essays on architecture, statuary, tomb and temple relief decoration, and stele explore how Middle Kingdom artists adapted forms and iconography of the Old Kingdom, using existing conventions to create strikingly original works. Twelve lavishly illustrated chapters, each with a scholarly essay and entries on related objects, begin with discussions of the distinctive art that arose in the south during the early Middle Kingdom, the artistic developments that followed the return to Egypt's traditional capital in the north, and the renewed construction of pyramid complexes. Thematic chapters devoted to the pharaoh, royal women, the court, and the vital role of family explore art created for different strata of Egyptian society, while others provide insight into Egypt's expanding relations with foreign lands and the themes of Middle Kingdom literature. The era's religious beliefs and practices, such as the pilgrimage to Abydos, are revealed through magnificent objects created for tombs, chapels, and temples. Finally, the book discusses Middle

Kingdom archaeological sites, including excavations undertaken by the Metropolitan Museum over a number of decades. Written by an international team of respected Egyptologists and Middle Kingdom specialists, the text provides recent scholarship and fresh insights, making the book an authoritative resource.

Esprit Montmartre Ingrid Pfeiffer,Max Hollein,2014 Removed from the glamour of Paris during the French Belle Époque, the village-like district of Montmartre offered a bohemian refuge for many poets and artists. *Esprit Montmartre* explores this rich period of artistic production, its sociopolitical contexts and how they continue to influence the image of the artist and his subjects today. 0Exhibition: Schirn Kunsthalle, Frankfurt, Germany (07.02.-01.06.2014).

Mendelssohn in Performance Siegwart Reichwald,2008-09-25 Exploring many aspects of Felix Mendelssohn's multifaceted career as musician and how it intersects with his work as composer, contributors discuss practical issues of music making such as performance space, instruments, tempo markings, dynamics, phrasings, articulations, fingerings, and instrument techniques. They present the conceptual and ideological underpinnings of Mendelssohn's approach to performance, interpretation, and composing through the contextualization of specific performance events and through the theoretic actualization of performances of specific works. Contributors rely on manuscripts, marked or edited scores, and performance parts to convey a deeper understanding of musical expression in 19th-century Germany. This study of Mendelssohn's work as conductor, pianist, organist, violist, accompanist, music director, and editor of old and new music offers valuable perspectives on 19th-century performance practice issues.

**Bridge of Dreams** Miyeko Murase,□□□□□,2000 The Mary Griggs Burke Collection, represented in this volume and in the exhibition it accompanies, is a testimony to the intensity and selectivity of Mrs. Burke's collecting, guided by a discerning eye, a deep affection for Japan, and an appreciation of the country's cultural heritage. Long recognized as one of the finest collections of Japanese art in private hands, the Mary Griggs Burke Collection is the largest and most comprehensive outside Japan. While it provides a historical overview of the development of Japanese art, the collection illustrates as well Japan's capacity to foster divergent artistic traditions both from other cultures and from those that reflect indigenous tastes. It also demonstrates the profound impact of Buddhism on Japanese culture, the tastes and values of the courtly and military elite, and the interests of patrons who range from Sinophile rulers and scholars to pleasure-seeking urbanites.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Caesar Antichrist Alfred Jarry,1992 Translated from the French by Antony Melville, with an introduction by Alastair Brotchie The second book by the creator of UBU, the anti-hero of what is acknowledged as the first 'absurd' drama. Partly based on the apocalyptic events of the 'Book of Revelation', this is a unique work which embodies all of Jarry's themes.

*Scarlet and Black* Beatrice J. Adams,2016-12-20 The 250th anniversary of the founding of Rutgers University is a perfect

moment for the Rutgers community to reconcile its past, and acknowledge its role in the enslavement and debasement of African Americans and the disfranchisement and elimination of Native American people and culture. *Scarlet and Black* documents the history of Rutgers's connection to slavery, which was neither casual nor accidental—nor unusual. Like most early American colleges, Rutgers depended on slaves to build its campuses and serve its students and faculty; it depended on the sale of black people to fund its very existence. Men like John Henry Livingston, (Rutgers president from 1810–1824), the Reverend Philip Milledoler, (president of Rutgers from 1824–1840), Henry Rutgers, (trustee after whom the college is named), and Theodore Frelinghuysen, (Rutgers's seventh president), were among the most ardent anti-abolitionists in the mid-Atlantic. Scarlet and black are the colors Rutgers University uses to represent itself to the nation and world. They are the colors the athletes compete in, the graduates and administrators wear on celebratory occasions, and the colors that distinguish Rutgers from every other university in the United States. This book, however, uses these colors to signify something else: the blood that was spilled on the banks of the Raritan River by those dispossessed of their land and the bodies that labored unpaid and in bondage so that Rutgers could be built and sustained. The contributors to this volume offer this history as a usable one—not to tear down or weaken this very renowned, robust, and growing institution—but to strengthen it and help direct its course for the future. *Writing a Chrysanthemum* Rachel Federman, 2022 Rick Barton should have been a San Francisco legend, wrote author and artist Etel Adnan in a 1998 essay. Barton (American, 1928–1992) was born and raised in New York and settled in the Bay Area in the 1950s. Working primarily in pen or brush and ink, in a kaleidoscopic linear style, Barton ceaselessly recorded the world around him. His intricate sheets capture the intimate interiors and social spaces, lovers and friends, and architectural and botanical subjects that fascinated him. Bringing together more than sixty drawings, two accordion-folded sketchbooks, and printed books and portfolios, this catalogue presents the work of a significant and, until now, unheralded figure of the Beat era. Complementing the images are a deeply researched essay by Rachel Federman, curator of the accompanying exhibition at the Morgan Library & Museum, and an excerpt of Adnan's essay, the first and previously the only published account of Barton--

On July 20, 1969, half a billion viewers around the world watched as the first television footage of American astronauts on the moon was beamed back to earth—a thrilling turning point in the history of images, satisfying an age-old curiosity about our planet's only natural satellite. To celebrate the fiftieth anniversary of the Apollo 11 moon landing, this captivating volume surveys the role photography has played in the scientific study and artistic interpretation of the moon from the dawn of the medium to the present, highlighting not only stunning photographic works but also related prints, drawings, paintings, and astronomical instruments. *Apollo's Muse* traces the history of lunar photography, from newly discovered daguerreotypes of the 1840s to contemporary film and video works. Along the way, it explores nineteenth century efforts to map the lunar surface, whimsical fantasies of life on the moon, the visual language of the Cold War space race, and work created in response to the moon landing by artists such as Robert Rauschenberg, Nancy Graves, and Aleksandra Mir. A delightful introduction by Tom Hanks, star of the award winning 1995 film *Apollo 13*, delves into the universal fascination with representations of the cosmos and the ways in which space travel has radically expanded the limits of human vision.

*Art for the Future* Erina Duganne, 2022-01-11 A collective history of the 1980s anti-imperialist campaign In the early 1980s, a group of artists, writers and activists came together in New York City to form Artists Call Against US Intervention in Central America, a creative campaign that mobilized nationwide in an effort to bring attention to the US government's violent involvement in Latin American nations such as Nicaragua and El Salvador. Together the group staged over 200 exhibitions, concerts and other public events in a single year, raising awareness and funds for those disenfranchised by such political crises. *Art for the Future* illuminates the history of Artists Call with archival pieces and newly commissioned work in the spirit of the group's message. In Spanish and English, a wide selection of artists and organizers examine the group's history as well as the issues that were as urgent to Artists Call in 1984 as they are now: decolonization, Indigeneity, collectivity, human rights and self-determination. Artists include: Antena Aire, Benvenuto Chavajay, Leon Golub, Hans Haacke, Fredman Barahona & Christian Dietkus Lord, Sandra Monterroso, Carlos Motta, Claes Oldenburg, Gregory Sholette and Coosje van Bruggen, Maria Thereza Alves, Sabra Moore, Jerri Allyn, Dona Ann McAdams, Rudolf Baranik, Susan Meiselas, Alfredo Jaar, Martha Rosler, Jesús Romeo Galdámez and Jimmie Durham.

*The Bikeriders* Danny Lyon, 1997 In 1968, a small and unassuming book of photographs featuring America's bikers was published. Little note was taken of its release, and it rather quietly disappeared. Today *The Bikeriders* is recognized as a seminal work of documentary photography by one of a new generation of photographers. This is a reissue of Lyon's long-out-of-print and much-sought-after first book, treasured both as a cult classic and a standard of photojournalism.
