Web Search: Public Searching of the Web Amanda Spink, Bernard J. Jansen, 2004-07-21 Web Search: Public Searching of the Web, co-authored by Drs. Amanda Spink and Bernard J. Jansen, is one of the first manuscripts that address the human - system interaction of Web searching in a thorough and complete manner. The authors provide an examination of Web searching from multiple levels of analysis, from theoretical overview to detailed study of term usage, and integrate these different levels of analysis into a coherent picture of how people locate information on the Web using search engines. Drawing primarily on their own research and work in the field, the authors present the temporal changes in, the growth of, and the stability of how people interact with Web search engines. Drs. Spink and Jansen present results from an analysis of multiple search engine data sets over a six year period, giving a firsthand account of the emergence of Web searching. They also compare and contrast their findings to the results of other researchers in the field, providing a valuable bibliographic resource. This research is directly relevant to those interested in providing information or services on the Web, along with those who research and study the Web as an information resource. Graduate students, academic and corporate researchers, search engine designers, information architects, and search engine optimizers will find the book of particular benefit.

When We Were Black Blakk Jack Samm, 2016-06-25 The book is called When We Were Black. I came up with the book, or the book came up to me several years ago. It was during one Christmas holiday spent time with children and grandchildren, while I was relating to my familys diverse tree, when one of my daughters informed me that her children did not consider themselves a color, speaking of black. Initially, I was insulted because black was never a color but was a very serious movement during the 1960s and 1970s. Well, I had to consider whether I had impressed this point to my own children and spoke to others who were having similar conversations with the younger generation. I felt serious enough about it to write a book diagramming my road to being black because back then you were a Negro or Colored on your birth certificate. Being

that this was on your birth certificate, the parents continued calling themselves that. It was a big thing, radical, to tell your parents that you were black because, for many, it was revolutionary. A revolution is nothing but change, and we were attempting to change the world. I would guess that I am embarking on changing the world now because many do not see the significance between African American and black. There is a significant difference, which the book explains.
