Farm Team Will Weaver, 1999 Life is hard on a dairy farm in the heartland of Minnesota. Milking, haying, planting and harvesting leave little time for the thing Billy Baggs loves most--baseball. When Billy's father is sent to jail, the burden of providing for the family falls to Billy, and the long-awaited season of summer baseball becomes an impossibility. The sequel to the ALA Best Book Striking Out.

Grocery Story Jon Steinman, 2019-05-07 Hungry for change? Put the power of food co-ops on your plate and grow your local food economy. Food has become ground-zero in our efforts to increase awareness of how our choices impact the world. Yet while we have begun to transform our communities and dinner plates, the most authoritative strand of the food web has received surprisingly little attention: the grocery store—the epicenter of our food-gathering ritual. Through penetrating analysis and inspiring stories and examples of American and Canadian food co-ops, Grocery Story makes a compelling case for the transformation of the grocery store aisles as the emerging frontier in the local and good food movements. Author Jon Steinman: Deconstructs the food retail sector and the shadows cast by corporate giants Makes the case for food co-ops as an alternative Shows how co-ops spur the creation of local food-based economies and enhance low-income food access. Grocery Story is for everyone who eats. Whether you strive to eat more local and sustainable food, or are in support of community economic development, Grocery Story will leave you hungry to join the food co-op movement in your own community.

Japanese Farm Food Nancy Singleton Hachisu, 2012-09-04 Presents a collection of Japanese recipes; discusses the ingredients, techniques, and equipment required for home cooking; and relates the author's experiences living on a farm in Japan for the past twenty-three years.

5 Spices, 50 Dishes Ruta Kahate, 2013-09-17 “One of those Indian cookbooks that I see myself actually going to again and again for simple, satisfying weeknight meals, and easy Indian cooking.” —Fearless Fresh The premise is simple: with five common spices and a few basic ingredients, home cooks can create fifty mouthwatering Indian dishes, as diverse as they are delicious. Cooking teacher Ruta Kahate has chosen easy-to-find spices—coriander, cumin, mustard, cayenne pepper, and turmeric—to create authentic, accessible Indian dishes everyone will love. Roasted Lamb with Burnt Onions uses just two spices and three steps resulting in a meltingly tender roast. Steamed Cauliflower with a Spicy Tomato Sauce and Curried Mushrooms and Peas share the same three spices, but each tastes completely different. Suggested menus offer inspiration

for entire Indian dinners. For quick and easy Indian meals, keep it simple with 5 Spices, 50 Dishes. "I really can't say enough good things about this book. The recipes are simple but not simplistic, and the flavors you can achieve by following her recipes are mind blowing." —Biscuits of Today

Bad Dog Harlan Weaver, 2021-03-26 Fifty-plus years of media fearmongering coupled with targeted breed bans have produced what could be called "America's Most Wanted" dog: the pit bull. However, at the turn of the twenty-first century, competing narratives began to change the meaning of "pit bull." Increasingly represented as loving members of mostly white, middle-class, heteronormative families, pit bulls and pit bull-type dogs are now frequently seen as victims rather than perpetrators, beings deserving not fear or scorn but rather care and compassion. Drawing from the increasingly contentious world of human/dog politics and featuring rich ethnographic research among dogs and their advocates, *Bad Dog* explores how relationships between humans and animals not only reflect but actively shape experiences of race, gender, ethnicity, sexuality, nation, breed, and species. Harlan Weaver proposes a critical and queer reading of pit bull politics and animal advocacy, challenging the zero-sum logic through which care for animals is seen as detracting from care for humans. Introducing understandings rooted in examinations of what it means for humans to touch, feel, sense, and think with and through relationships with nonhuman animals, Weaver suggests powerful ways to seek justice for marginalized humans and animals together.

Striking Out Will Weaver, 1998-12-16 Up until now, Billy Baggs's life has been loaded with nevers. Never been to a movie. Never played baseball with a real team. Never got over feeling guilty for the loss of his brother. But change is in the air. Billy discovers he has a natural talent for baseball, especially as a pitcher. Maybe, just maybe, there's more in store for him than life on the farm. But can Billy convince his father of that? Or is he destined to spend the rest of his life pitching nothing but hay? Teenager Billy Baggs is desperately needed on his family's struggling dairy farm, but he's also an extraordinarily gifted natural baseball player. How he struggles to reconcile his father's desire to keep him on the farm with his coach's interest in getting him on the field is at the heart of this 'meaty story.... The complex characters grow and change in profoundly real ways." K. [With] flashes of humor, a wealth of lovingly recounted details evokes the difficult daily life on a small dairy farm." Gathering of Sisters Darla Weaver, 2018-09-25 Once a week Darla Weaver bundles her children into the buggy, hitches up her spirited mare, and drives six miles to the farm where she grew up. There she gathers with her four sisters and their children for a day with their mother. In *Gathering of Sisters*, Weaver writes about her horse-and-buggy Mennonite family and the weekly women's gatherings that keep them connected. On warm days, the children play and fish and build houses of hay in the barn. In the winter, everyone stays close to the woodstove, with puzzles and games and crocheting. No matter the

weather, the Tuesday get-togethers of this Old Order Mennonite family keep them grounded and centered in their love for God and for each other. The rest of the week is full of laundry, and errands, and work that never ends. But Tuesdays are about being sisters, daughters, and mothers. Hear straight from Amish and Mennonite people themselves as they write about their daily lives and deeply rooted faith in the Plainspoken series from Herald Press. Each book includes "A Day in the Life of the Author" and the author's answers to FAQs about the Amish and Mennonites.

Madhur Jaffrey's World Vegetarian Madhur Jaffrey, 2014-07-16 In this James Beard Award-winning cookbook, Madhur Jaffrey draws on more than four decades of culinary adventures, travels, and experimentation to create a diverse collection of more than 650 vegetarian recipes featuring dishes from five continents. Madhur Jaffrey's World Vegetarian exemplifies Madhur's unsurpassed ability to create simple, flavorful homecooking that is well within the reach of every cook. Extensive sections on beans, vegetables, grains, and dairy explore the myriad ways these staples are enjoyed worldwide. Madhur balances appealing, uncomplicated dishes such as sumptuous omelets and rich polentas with less familiar ingredients such as green mangoes, pigeon peas, and spelt. She demystifies the latter with clear-cut explanations so that incorporating new combinations and interesting flavors into everyday cooking becomes second nature. She also offers substantial sections on soups, salads, and drinks, as well as sauces and other flavorings, to help round out a meatless meal and add exciting new flavors to even the most easily prepared dishes. Each section opens with a detailed introduction, where Madhur describes methods for preparation and storage, as well as different cooking techniques and their cultural origins. And a complete glossary of ingredients and techniques clarifies some of the little-known elements of the world's cuisines so that even the uninitiated can bring the flavors of Asia, the Middle East, the Caribbean, and more to their tables. Throughout this extensive collection, Madhur includes personal anecdotes and historical contexts that bring her recipes to life, whether she's remembering field of leeks she saw in the mountains of northern Greece or describing how corn-based dishes arrived in Indonesia through colonial trade. Committed vegetarians will rejoice at the wide variety of meatless fare Madhur offers, and nonvegetarians will enjoy experimenting with her global flavorings. This highly readable resource promises to be a valuable addition to any cook's library, helping everyone make healthful ethnic foods a part of everyday cooking.

Sepp Holzer's Permaculture Sepp Holzer, 2011-04-11 Sepp Holzer farms steep mountainsides in Austria 1,500 meters above sea level. His farm is an intricate network of terraces, raised beds, ponds, waterways and tracks, well covered with productive fruit trees and other vegetation, with the farmhouse neatly nestling amongst them. This is in dramatic contrast to his neighbors' spruce monocultures. In this book, Holzer shares the skill and knowledge acquired over his lifetime. He covers every aspect of his farming methods, not just how to create a holistic system on the farm itself, but how to make a living from it. Holzer writes about everything from the overall concepts, down to the practical details. In Sepp Holzer's Permaculture readers will learn: How he sets up a permaculture system The fruit varieties he has found best for permaculture growing

How to construct terraces, ponds, and waterways How to build shelters for animals and how to work with them on the land How to cultivate edible mushrooms in the garden and on the farm and much more! Holzer offers a wealth of information for the gardener, smallholder or alternative farmer yet the book's greatest value is the attitudes it teaches. He reveals the thinking processes based on principles found in nature that create his productive systems. These can be applied anywhere.

Full Service Will Weaver, 2008-09-02 The times they are a-changin' . . . The summer that Paul turns sixteen his mother pushes him to take a job in town instead of just working on the family farm. You need to meet the public, she says, which is saying a lot for a woman deeply committed to the tightly knit religious community to which they belong. And meet the public Paul does: He meets Kirk, the angry gas station manager; Harry, a reclusive and kindly gangster; and a family of hippies passing in a yellow peace van to San Francisco. He also meets beautiful Peggy, a high school sensation, and dark-haired Dale, her on-the-side boyfriend who is headed to Vietnam. All of them come to the station – as well as girls on summer vacation, tanned and smelling of coconut oil, and ministers from Paul's fundamentalist church, who are worried about his soul. As the summer progresses, Paul learns the secrets of his small Minnesota town and discovers that he's ready to have a few secrets of his own. With richly developed characters and a flair for arresting imagery, Will Weaver tells the story of the end of one boy's innocence, unfolding at a time when the country as a whole is undergoing a difficult, deeply disturbing coming-of-age.

Goats Sue Weaver, 2011-05-17 Hobby Farms GOATS: Small-Scale Herding, written by hobby farmer and prolific author and columnist Sue Weaver, is an essential guide to the wonderful world of goats, the fastest growing new area of the US agricultural meat market. This colorful guide discusses goats of all types, including dairy goats, used for milk and cheese; meat goats; fiber goats, prized for their mohair and cashmere; recreational goats, beloved by children for their great personalities and silliness; and brush goats, the lawnmowers of creative hobby farmers and suburbanites. Weaver offers excellent advice on how to purchase a goat: sensible and direct, she advises newcomers that while goats can be profitable, they should not rush in. Before the reader fills his backyard with a herd of goats, the author warns him or her to consider that while goats are cute, personable, charming, and imminently entertaining; [they] are also destructive; mischievous, sometimes ornery, and often exasperating. The book lists the various breeds of goats commonly available as meat and dairy producers, carefully spelling out their advantages and drawbacks. In the chapter on selecting a goat, the author instructs the reader to be aware of the overall health and soundness, and to consider such the animals' horns and teeth. The book also covers general care for a small herd of goats, including outdoor housing and feeding, general health care, and maintenance. For hobby farmers ready to dive into the world of reproducing their goats, there are chapters on breeding, mating, and Bringing Kids into the World. All goat keepers will be enlightened by the information in the chapter on behavior and solving everyday problems with their often capricious caprines. Since the focus of the book is for hobby farmers, Goats also

addresses how to make money from the small-scale herd, offering advice on managing, selling, and marketing goat-derived products. The book concludes with an extensive glossary of over 150 terms, an appendix of common goat diseases, and a resource section of useful goat-relevant books, websites, and associations. Fully indexed.
