Yarn Bombing Mandy Moore, Leanne Prain, 2019-11-05 When Yarn Bombing was first published in 2009, the idea that knitted and crocheted objects could be used as a political act of resistance was brand new. Ten years and thousands of pink “pussy” hats later, the art of knit and crochet graffiti has entered the public zeitgeist – a cultural phenomenon that shows no sign of slowing down. Yarn bombing is an international guerrilla movement that started underground and is now embraced by crochet and knitting artists of all ages, nationalities, and genders. Its practitioners create stunning works of art out of yarn, then donate them to public spaces as part of a covert plan for world yarn domination, or fashion them into personal political statements. *Yarn Bombing* the book is a wildly colorful guide to covert textile street art around the world; it also includes over 20 amazing patterns, provides tips on how to be as stealthy as a ninja, demonstrates how to orchestrate a large-scale textile project, and offers revealing information necessary to design your own yarn graffiti tags. This tenth anniversary edition includes a new foreword by the authors and a new chapter that includes many infamous examples of yarn bombing over the past ten years. Subversive and beguiling, this new edition of *Yarn Bombing* demonstrates that the phenomenon of knit and crochet graffiti is more relevant than ever, especially in these troubled times.

Theatricality and Performativity Teemu Paavolainen, 2018-04-06 This book defines theatricality and performativity through metaphors of texture and weaving, drawn mainly from anthropologist Tim Ingold and philosopher Stephen C. Pepper. Tracing the two concepts’ various relations to practices of seeing and doing, but also to conflicting values of novelty and normativity, the study proceeds in a series of intertwining threads, from the theatrical to the performative: Antitheatrical (Plato, the Baroque, Michael Fried); Pro-theatrical (directors Wagner, Fuchs, Meyerhold, Brecht, and Brook); Dramatic (weaving memory in Shaffer’s *Amadeus* and Beckett’s *Footfalls*); Efficient (from modernist “machines for living in” to the “smart home”); Activist (knit graffiti, clown patrols, and the Anthro(po)s(cene)). An approach is developed in which ‘performativity’ names the way we tacitly weave worlds and identities, variously concealed or clarified by the step-aside tactics of ‘theatricality’.

Melodious Accord Alice Parker, Linda Ekstrom, 1991

Unchained Mind Ricardo G. Williams, 2017-03-15 I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinking chains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions, embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Antoine of Oregon : A Story of the Oregon Trail James Otis, 1912 Antoine of Oregon : A Story of the Oregon Trail The author of this series of stories for children has endeavored simply to show why and how the descendants of the early colonists fought their way through the wilderness in search of new homes. The several narratives deal with the struggles of those adventurous people who forced their way westward, ever westward, whether in hope of gain or in answer to the call of the wild, and who, in so doing, wrote their names with their blood across this country of ours from the Ohio to the Columbia. To excite in the hearts of the young people of this land a desire to know more regarding the building up of this great nation, and at the same time to entertain in such a manner as may stimulate to noble deeds, is the real aim of these stories. In them there is nothing of romance, but only a careful, truthful record of the part played by children in the great battles with those

forces, human as well as natural, which, for so long a time, held a vast 4 portion of this broad land against the advance of home seekers. With the knowledge of what has been done by our own people in our own land, surely there is no reason why one should resort to fiction in order to depict scenes of heroism, daring, and sublime disregard of suffering in nearly every form.

Manifest Destinies Laura E. Gómez, 2008-09 Watch the Author Interview on KNME In both the historic record and the popular imagination, the story of nineteenth-century westward expansion in America has been characterized by notions of annexation rather than colonialism, of opening rather than conquering, and of settling unpopulated lands rather than displacing existing populations. Using the territory that is now New Mexico as a case study, *Manifest Destinies* traces the origins of Mexican Americans as a racial group in the United States, paying particular attention to shifting meanings of race and law in the nineteenth century. Laura E. Gómez explores the central paradox of Mexican American racial status as entailing the law's designation of Mexican Americans as —"white" and their simultaneous social position as non-white in American society. She tells a neglected story of conflict, conquest, cooperation, and competition among Mexicans, Indians, and Euro-Americans, the region's three main populations who were the key architects and victims of the laws that dictated what one's race was and how people would be treated by the law according to one's race. Gómez's path breaking work—spanning the disciplines of law, history, and sociology—reveals how the construction of Mexicans as an American racial group proved central to the larger process of restructuring the American racial order from the Mexican War (1846–48) to the early twentieth century. The emphasis on white-over-black relations during this period has obscured the significant role played by the doctrine of Manifest Destiny and the colonization of northern Mexico in the racial subordination of black Americans.

The Last Supper of Chicano Heroes JosŽ Antonio Burciaga, 2008-09 Widely considered one of the most important voices in the Chicano literary canon, JosŽ Antonio Burciaga was a pioneer who exposed inequities and cultural difficulties through humor, art, and deceptively simple prose. In this anthology and tribute, Mimi Gladstein and Daniel Chac—n bring together dozens of remarkable examples of Burciaga's work. His work never demonstrates machismo or sexism, as he believed strongly that all Chicano voices are equally valuable. Best known for his books *Weedee Peepo*, *Drink Cultura*, and *Undocumented Love*, Burciaga was also a poet, cartoonist, founding member of the comedy troupe *Cultura Clash*, and a talented muralist whose well-known work *ÓThe Last Supper of Chicano HeroesÓ* became almost more famous than the man. This first and only collection of Burciaga's work features thirty-eight illustrations and incorporates previously unpublished essays and drawings, including selections from his manuscript *ÓThe Temple Gang,Ó* a memoir he was writing at the time of his death. In addition, Gladstein and Chac—n address Burciaga's importance to Chicano letters. A joy to read, this rich compendium is an important contribution not only to Chicano literature but also to the preservation of the creative, spiritual, and political voice of a talented and passionate man.

Las Niñas Sarah Rafael García, 2008 *Las Nias* is a collection of autobiographical childhood memories of three Mexican-American sisters. It recounts their struggles while being raised as the first generation born in America of their Mexican family. *Las Nias* portrays common situations that immigrant families can relate to through their own process of cultural assimilation. Each chapter is a different childhood memory celebrating culture, life and change through humor and self-reflection. Its creative style and unique display of a child's perception will entice many genres of readers and provide insight on the possible challenges that many recent immigrants face with their family's new generation in America. The childhood memories lightly touch on issues of immigration, learning English as a second language and assimilating into the American culture. *Las Nias* reveals the most humorous, intimate and traumatic events that occurred as Sarita, Chuchen and Nini grew up in their family's new country, ultimately providing the foundation for surviving their father's death at such a young age. The bond among the three sisters allows the reader to feel their family's pride and growth in a dual culture. Nevertheless, the reader's own entertainment and personal relevance will be the greatest contributor to *Las Nias*' popularity and triumph. *Las Nias* represent an honest and heart-felt account of first generation Latinas, American-born girls, who grew up in a Mexican cultural cocoon, to open it and converge in to their outgoing personalities into middleclass ethnic America. The authoress provides a most candid and enlightening perspective of growing up in America in the Latino barrio. Andrea

A Snake in Her Mouth Nila NorthSun,1997 This collection, including poems from her early chapbooks as well as later writing, was first announced in 1994. The title poem, she says, is not only sexually suggestive, but alludes to the idea of a forked tongue liar or a gossip from which many of the other pieces derive.

Tejano Empire Andrés Tijerina,2008 Texans of Mexican descent built a unique and highly developed ranching culture that thrived in South Texas until the 1880's. In *Tejano Empire*, historian Andres Tijerina describes the major elements that gave the Tejano ranch community its identity: shared reaction to Anglo-American in-migration, tightly interconnected families, cultural loyalty, networks of communication, Catholic religion, and a material culture well adapted to the conditions of the region.
