Dynamic Dames Sloan De Forest, 2019-07-02 Celebrate 50 of the most empowering and unforgettable female characters ever to grace the screen, as well as the artists who brought them to vibrant life! From Scarlett O'Hara to Thelma and Louise to Wonder Woman, strong women have not only lit up the screen, they've inspired and fired our imaginations. Some dynamic women are naughty and some are nice, but all of them buck the narrow confines of their expected gender role -- whether by taking small steps or revolutionary strides. Through engaging profiles and more than 100 photographs, Dynamic Dames looks at fifty of the most inspiring female roles in film from the 1920s to today. The characters are discussed along with the exciting off-screen personalities and achievements of the actresses and, on occasion, female writers and directors, who brought them to life. Among the stars profiled in their most revolutionary roles are Bette Davis, Mae West, Barbara Stanwyck, Josephine Baker, Greta Garbo, Audrey Hepburn, Natalie Wood, Barbra Streisand, Julia Roberts, Meryl Streep, Joan Crawford, Vivien Leigh, Elizabeth Taylor, Dorothy Dandridge, Katharine Hepburn, Pam Grier, Jane Fonda, Gal Gadot, Emma Watson, Zhang Ziyi, Uma Thurman, Jennifer Lawrence, and many more.

Must-See Sci-fi Sloan De Forest, 2018-05-01 Spanning nine decades and branded by the most trusted authority on film, Turner Classic Movies: Must-See Sci-Fi showcases 50 of the most shocking, weird, wonderful, and mind-bending movies ever made. From A Trip to the Moon (1902) to Arrival (2016), science fiction cinema has produced a body of classics with a broader range of styles, stories, and subject matter than perhaps any other film genre. They are movies that embed themselves in the depths of the mind, coloring our view of day-to-day reality and probably fueling a few dreams (and nightmares) along the way. In Turner Classic Movies: Must-See Sci-Fi, fifty unforgettable films are profiled, including beloved favorites like The Day the Earth Stood Still (1951) and Fantastic Voyage (1966), groundbreaking shockers like Planet of the Apes (1968) and Alien (1979), and lesser-known landmarks like Things to Come (1936) and Solaris (1972). Illustrated by astounding color and black-and-white images, the book presents the best of this mind-bending genre, detailing through insightful commentary and behind-the-scenes stories why each film remains essential viewing. A perfect gift for any film buff or sci-fi fanatic!

Here I Stand Paul Robeson, 1998-01-01 Robeson's international achievements as a singer and actor in starring roles on stage and screen made him the most celebrated black American of his day, but his outspoken criticism of racism in the

United States, his strong support of African independence, and his fascination with the Soviet Union placed him under the debilitating scrutiny of McCarthyism. Blacklisted, his famed voice silenced, *Here I Stand* offered a bold answer to his accusers. It remains today a defiant challenge to the prevailing fear and racism that continues to characterize American society.

The Smart Classroom Management Way Michael Linsin, 2019-05-03 The Smart Classroom Management Way is a collection of the very best writing from ten years of Smart Classroom Management (SCM). It isn't, however, simply a random mix of popular articles. It's a comprehensive work that encompasses every principle, theme, and methodology of the SCM approach. The book is laid out across six major areas of classroom management and includes the most pressing issues, problems, and concerns shared by all teachers. The underlying SCM themes of accountability, maturity, independence, personal responsibility, and intrinsic motivation are all there and weave their way throughout the entirety of the book. Together, they form a simple, unique, and sometimes contrarian approach to classroom management that anyone can do. Whether you're an elementary, middle, or high school teacher, The Smart Classroom Management Way will give you the strategies, skills, and know-how to turn any group of students into the motivated, well-behaved class you love teaching.

Dark City Eddie Muller, 2021-07-20 This revised and expanded edition of Eddie Muller's *Dark City* is a film noir lover's bible, taking readers on a tour of the urban landscape of the grim and gritty genre in a definitive, highly illustrated volume. *Dark City* expands with new chapters and a fresh collection of restored photos that illustrate the mythic landscape of the imagination. It's a place where the men and women who created film noir often find themselves dangling from the same sinister heights as the silver-screen avatars to whom they gave life. Eddie Muller, host of Turner Classic Movies' *Noir Alley*, takes readers on a spellbinding trip through treacherous terrain: Hollywood in the post-World War II years, where art, politics, scandal, style -- and brilliant craftsmanship -- produced a new approach to moviemaking, and a new type of cultural mythology.

The Hidden Brain Shankar Vedantam, 2010-08-31 The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

Leonardo and the Last Supper Ross King, 2012-01-01 Milan, 1496 and forty-four-year-old Leonardo da Vinci has a reputation for taking on commissions and failing to complete them. He is in a state of professional uncertainty and financial difficulty. For eighteen months he has been painting murals in both the Sforza Castle in Milan and the refectory of the convent of Santa Maria delle Grazie. The latter project will become the Last Supper, a complex mural that took a full three years to complete on a surface fifteen feet high by twenty feet wide. Not only had he never attempted a painting of such size, but he had no experience whatsoever in painting in the physically demanding medium of fresco. For more than five centuries the Last Supper has been an artistic, religious and cultural icon. The art historian Kenneth Clark has called it 'the keystone of European art', and for a century after its creation it was regarded as nothing less than a miraculous image. Even today, according to Clark, we regard the painting as 'more a work of nature than a work of man'. And yet there is a very human story behind this artistic 'miracle', which was created against the backdrop of momentous events both in Milan and in the life of Leonardo himself. In *Leonardo and the Last Supper*, Ross King tells the complete story of this creation of this mural: the adversities suffered by the artist during its execution; the experimental techniques he employed; the models for Christ and the Apostles that he used; and the numerous personalities involved - everyone from the Leonardo's young assistants to Ludovico Sforza, the Duke of Milan who commissioned the work. Ross King's new book is both a record of Leonardo da Vinci's last five years in Milan and a 'biography' of one of the most famous works of art ever painted.

Young People on the Margins Loic Menzies, Sam Baars, 2021-03-30 Our society leaves too many young people behind. More often than not, these are the most vulnerable young people, and it is through no fault of their own. Building a fair society and an equitable education system rests on bringing in and supporting them. By drawing together more than a decade of studies by the UK's Centre for Education and Youth, this book provides a new way of understanding the many ways young people in England are pushed to the margins of the education system, and in turn, society. Each contributor shares the personal stories of the young people they have encountered over the course of their fieldwork and practice, combining this with accessible syntheses of previous studies, alongside extensive analysis of national datasets and key publications. By unpicking the many overlapping factors that contribute to different groups' vulnerability, the book demonstrates the need to understand each young person's life story and to respond quickly and collaboratively to the challenges they face. The chapters conclude with action points highlighting the steps individuals, institutions and policy makers can take to bring young people in from the margins. *Young People on the Margins* showcases first-hand examples of where these young people's needs are being addressed and trends bucked, drawing out what can and must be learned, for teachers, leaders, youth workers and policy makers.

Secrets of Self-Healing Maoshing Ni,2008 East meets West in this extraordinary guide to natural healing by a prominent doctor of Chinese medicine and the author of Secrets of Longevity. Dr. Mao's philosophy is simple: We all have a built-in healing ability, so why not try to activate it with natural means before we resort to drugs and invasive procedures? For the common cold, why not exploit the power of garlic, ginger, and the herb astragalus instead of taking cold medicine that simply replaces symptoms with side effects? For insomnia, why not try to find a long-term solution through acupuncture or feng shui instead of popping sleeping pills, which don't treat the source of the problem? Chinese medicine sees well-being as a result of a balanced life, not just a healthy body. In Part One of Secrets of Self-Healing, Dr. Mao explains that healing food and herbs, exercise, a positive emotional life, a suitable living environment, and spiritual growth are all essential to vitality and lasting health. Using examples of his own patients' experiences, he demonstrates: - How negative emotions can make us ill - How clutter in our homes can create imbalances in our bodies - How Eastern and Western medicine can work together to fight cancer Then, in Part Two, he reveals detailed home remedies for seventy common ailments, such as sore throat, allergies, high blood pressure, sunburn, insomnia, memory loss, and jet lag. Inspirational yet practical, Secrets of Self-Healing will put readers on the path to a balanced and healthy life.
