Magic Dance Thinley Norbu,1999-01-19 This is a unique and powerful presentation of the teachings of Tibetan Buddhism on the five elements: earth, water, air, fire, and space. In their gross and subtle forms, these elements combine to make up the infinite illusory display of phenomenal existence. Through teachings, stories, and his distinctive use of language, Thinley Norbu Rinpoche relates how the energies of the elements manifest within our everyday world, in individual behavior and group traditions, relationships and solitude, medicine and art. He explains their links to the five Buddha families and their respective Wisdom Dakinis, and shows how each element relates to our senses, temperament, passions, habits, and karmic potentials. This magic dance of the elements, he concludes, can be transformed through meditation practice and cultivating the calm, vast, and playful state of consciousness that he calls playmind.

My Grandmother's Hands Resmaa Menakem,2017-08-21 A NATIONAL BESTSELLER My Grandmother's Hands will change the direction of the movement for racial justice.— Robin DiAngelo, New York Times bestselling author of *White Fragility* In this groundbreaking book, therapist Resmaa Menakem examines the damage caused by racism in America from the perspective of trauma and body-centered psychology. The body is where our instincts reside and where we fight, flee, or freeze, and it endures the trauma inflicted by the ills that plague society. Menakem argues this destruction will continue until Americans learn to heal the generational anguish of white supremacy, which is deeply embedded in all our bodies. Our collective agony doesn't just affect African Americans. White Americans suffer their own secondary trauma as well. So do blue Americans—our police. My Grandmother's Hands is a call to action for all of us to recognize that racism is not only about the head, but about the body, and introduces an alternative view of what we can do to grow beyond our entrenched

racialized divide. Paves the way for a new, body-centered understanding of white supremacy—how it is literally in our blood and our nervous system. Offers a step-by-step healing process based on the latest neuroscience and somatic healing methods, in addition to incisive social commentary. Resmaa Menakem, MSW, LICSW, is a therapist with decades of experience currently in private practice in Minneapolis, MN, specializing in trauma, body-centered psychotherapy, and violence prevention. He has appeared on the Oprah Winfrey Show and Dr. Phil as an expert on conflict and violence. Menakem has studied with bestselling authors Dr. David Schnarch (Passionate Marriage) and Dr. Bessel van der Kolk (The Body Keeps the Score). He also trained at Peter Levine's Somatic Experiencing Trauma Institute.

Learning and Instruction in the Digital Age J. Michael Spector, Dirk Ifenthaler, Kinshuk, 2010-03-10 Instruction tailored to the individual student, learning and teaching outside the limits of time and space—ideas that were once considered science fiction are now educational reality, with the prospect of an intelligent Web 3.0 not far distant. Alongside these innovations exists an emerging set of critical-thinking challenges, as Internet users create content and learners (and teachers) take increased responsibility in their work. Learning and Instruction in the Digital Age nimbly balances the technological and pedagogical aspects of these rapid changes, gathering papers from noted researchers on a wealth of topics relating to cognitive approaches to learning and teaching, mental models, online learning, communications, and innovative educational technologies, among them: Cognition and student-centered, Web-based learning, The progression of mental models throughout a course of instruction, Experiencing education with 3D virtual worlds, Expanding educational boundaries through multi-school collaboration, Adapting e-learning to different learning styles, The student blog as reflective diary. With its blend of timely ideas and forward thinking, Learning and Instruction in the Digital Age will enrich the work of researchers in educational psychology, educational technology, and cognitive science.

Ilocano Dictionary and Grammar Carl Ralph Galvez Rubino, 2000-12-01 This root-based dictionary of the Ilocano language is the most comprehensive dictionary produced of Ilocano (Iloko), the lingua franca of Northern Luzon, and historically the native language of the majority of Filipino immigrants to the United States. The body of the dictionary includes entries for roots and affixes with illustrative sentences, idioms, common derivations, and scientific names (when applicable). Ilocano synonyms are also furnished when appropriate. Derived words that undergo morphological fusion are listed as separate entries to facilitate lexical searches. There is also an affix cross-reference list to help the beginning student recognize root

words. Unlike most dictionaries of Philippine languages, it has an extensive English to Ilocano section, information on the pre-Hispanic syllabary, and language maps of the Philippines showing where the largest concentration of Ilocano speakers reside. Of related interest: *Let's Speak Ilokano*, by Precy Espiritu

Seeing Israeli and Jewish Dance Judith Brin Ingber, 2011 A comprehensive survey of historical and contemporary Jewish dance. In *Seeing Israeli and Jewish Dance*, choreographer, dancer, and dance scholar Judith Brin Ingber collects wide-ranging essays and many remarkable photographs to explore the evolution of Jewish dance through two thousand years of Diaspora, in communities of amazing variety and amid changing traditions. Ingber and other eminent scholars consider dancers individually and in community, defining Jewish dance broadly to encompass religious ritual, community folk dance, and choreographed performance. Taken together, this wide range of expression illustrates the vitality, necessity, and continuity of dance in Judaism. This volume combines dancers' own views of their art with scholarly examinations of Jewish dance conducted in Europe, Israel, other Middle East areas, Africa, and the Americas. In seven parts, *Seeing Israeli and Jewish Dance* considers Jewish dance artists of the twentieth and twenty-first centuries; the dance of different Jewish communities, including Hasidic, Yemenite, Kurdish, Ethiopian, and European Jews in many epochs; historical and current Israeli folk dance; and the contrast between Israeli and American modern and post-modern theater dance. Along the way, contributors see dance in ancient texts like the Song of Songs, the Talmud, and Renaissance-era illuminated manuscripts, and plumb oral histories, Holocaust sources, and their own unique views of the subject. A selection of 182 illustrations, including photos, paintings, and film stills, round out this lively volume. Many of the illustrations come from private collections and have never before been published, and they represent such varied sources as a program booklet from the 1893 Chicago World's Fair and archival photos from the Israel Government Press Office. *Seeing Israeli and Jewish Dance* threads together unique source material and scholarly examinations by authors from Europe, Israel, and America trained in sociology, anthropology, history, cultural studies, Jewish studies, dance studies, as well as art, theater, and dance criticism. Enthusiasts of dance and performance art and a wide range of university students will enjoy this significant volume.

Poussin and the Dance Pierre Rosenberg, Jonathan Unglaub, 2021-10-15 Poussin's scenes of bacchanalian revelry, tripping maenads and skipping nymphs are often described as 'dancelike' and 'choreographed'. The artist's dancing pictures helped him develop a new approach to painting that would become the model for the French classical tradition. Shedding the sensuous, painterly manner of his early career, Poussin carved out the crisp, relief-like approach that characterized his mature work and set the precedent for three centuries of French art, from Le Brun and David to Cézanne and Picasso. He carried lessons learned from dance into every corner of his production. This book brings together a key group of paintings and drawings by Poussin, exploring the theme of dance and dancers in his production for the first time. Focusing on the dancing pictures created in Rome in the 1620s and 1630s, essays connect Poussin's interest in dance, his study of antiquities,

and his formulation of a new classical style. Richly illustrated and engagingly written, this publication uses the prism of dance to cast Poussin in a new, fresh light.
