Saltbox Seafood Joint Cookbook Ricky Moore, 2019-08-19 Ricky Moore was born and reared in the North Carolina coastal town of New Bern, where catching and eating fresh fish and shellfish is what people do. Today, Moore is one of the most widely admired chefs to come out of the region. In this cookbook, he tells the story of how he started his wildly popular Saltbox Seafood Joint® restaurants and food truck in Durham, North Carolina. Moore, a formally trained chef, was led by a culinary epiphany in the famous wet markets of Singapore to start a restaurant focused purely on the food inspired by the Carolina coast and its traditional roadside fish shacks and camps. Saltbox Seafood Joint's success is a testament to Moore's devotion to selecting the freshest seasonal ingredients every day and preparing them perfectly. In sixty recipes that celebrate his coastal culinary heritage, Moore instructs cooks how to prepare Saltbox Seafood Joint dishes. This cookbook, written with K. C. Hysmith, explains how to pan-fry and deep-fry, grill and smoke, and cook up soups, chowders, stews, and grits and seafood. Moore has taken pity on us and even included the recipe for his famous Hush-Honeys®, an especially addictive hushpuppy. Charts and illustrations in the book explain the featured types, availability, and cuts of fish and shellfish used in the recipes.

The Age of Sustainable Development Jeffrey D. Sachs, 2015-03-03 Jeffrey D. Sachs is one of the world's most perceptive and original analysts of global development. In this major new work he presents a compelling and practical framework for how global citizens can use a holistic way forward to address the seemingly intractable worldwide problems of persistent extreme poverty, environmental degradation, and political-economic injustice: sustainable development. Sachs offers readers, students, activists, environmentalists, and policy makers the tools, metrics, and practical pathways they need to achieve Sustainable Development Goals. Far more than a rhetorical exercise, this book is designed to inform, inspire, and spur action. Based on Sachs's twelve years as director of the Earth Institute at Columbia University, his thirteen years advising the United Nations secretary-general on the Millennium Development Goals, and his recent presentation of these ideas in a popular online course, *The Age of Sustainable Development* is a landmark publication and clarion call for all who care about our planet and global justice.

Harlem Grown Tony Hillery, 2020-08-18 “An inspiring picture book for youngsters with meaningful ties to the environment, sustainability, and community engagement.” —Booklist “Hartland’s gouache illustrations wobble endearingly, colorfully capturing the children’s triumph, and the kinetic energy and colorful vibrancy of the city neighborhood.” —Publishers Weekly Discover the incredible true story of Harlem Grown, a lush garden in New York City that grew out of an abandoned lot and now feeds a neighborhood. Once In a big city called New York In a bustling neighborhood There was an empty lot. Nevaeh called it the haunted garden. Five years later, the kids and their parents, with the support of the Harlem Grown staff, grow thousands of pounds of fruits and vegetables a year. All of it is given to the kids and their families. Chinese Global Exploration In The Pre-columbian Era: Evidence From An Ancient World Map Sheng-wei

Wang,2023-10-16 How early did the Chinese explore the world? Did the Treasure Fleets, led by Admiral Zheng He, discover many parts of the world before Christopher Columbus? While it is known that Christopher Columbus discovered America and Europe ushered in the Age of Discovery, there is an ongoing debate on the 'unknown' areas depicted in Western maps from the period and earlier. There is agreement among scholars that certain areas seem to have been mapped out prior to the arrival of Western explorers.Chinese Global Exploration in the Pre-Columbian Era: Evidence from an Ancient World Map analyses the world's first modern map — known as Kunyu Wanguo Quantu (KWQ) 坤輿萬國全圖 in Chinese, translated as the 'Complete Geographical Map of All Kingdoms of the World' to demonstrate evidence of Chinese global exploration in the Pre-Columbian era. The map of concern was first printed by Italian missionary, Matteo Ricci in 1602, and has been purported to be of entirely European origin, based on Ricci's former maps which he had brought to China in 1582.This book, thus, seeks to be transformational in presenting essential new insights on Pre-Columbian world history and Chinese global exploration, moving away from the norm of the studies of geography and cartography by:

Homeschooling Martine Millman,Gregory Millman,2008-08-14 This intimate, eminently practical memoir of a successful homeschooled family of six children illuminates today's most exciting choice in education, and shows how it works from cradle to college. What is it that homeschoolers do that the public schools can't or won't? There are at least as many answers as there are studies. But nothing can capture the homeschooling experience in all its richness like the story of a real family that homeschools its children in middleclass America. Homeschooling: A Family's Journey is the perfect book for those

millions of Americans who may know someone who homeschools, who may have read about it, thought about it, and wondered whether homeschooling is right for them. Sharing the concerns of committed parents everywhere, authors Gregory and Martine Millman are consistently practical, informed, caring, and no-nonsense in their approach. They pay special attention to homeschooling and college, the economics of home-learning, and how a parent can really handle a child's full education. Homeschooling opens a window on an exciting, important way of education—and, even more, a way of life—that can make all the difference in your family's world.

Comprised of 31 chapters authored by some of the world's leading experts in their respective fields, the book's contributors synthesize existing literature, introduce the historical and conceptual dimensions of the field, illustrate innovative methodologies and techniques, survey traditional and new technologies, reflect on ethics and moral imperatives, outline ways to work with people, objects, and tools, and shape the future agenda of the field. Yong Zhao, 2014-09-15 The secrets behind China's extraordinary educational system - good, bad, and ugly Chinese students' consistently stunning performance on the international PISA exams—where they outscore students of all other nations in math, reading, and science—have positioned China as a world education leader. American educators and pundits have declared this a Sputnik Moment, saying that we must learn from China's education system in order to maintain our status as an education leader and global superpower. Indeed, many of the reforms taking

hold in United States schools, such as a greater emphasis on standardized testing and the increasing importance of core subjects like reading and math, echo the Chinese system. Born and raised in China's Sichuan province and a teacher in China for many years, Zhao has a unique perspective on Chinese culture and education. He explains in vivid detail how China turns out the world's highest-achieving students in reading, math, and science—yet by all accounts Chinese educators, parents, and political leaders hate the system and long to send their kids to western schools. Filled with fascinating stories and compelling data, *Who's Afraid of the Big Bad Dragon?* offers a nuanced and sobering tour of education in China. Learn how China is able to turn out the world's highest achieving students in math, science, and reading Discover why, despite these amazing test scores, Chinese parents, teachers, and political leaders are desperate to leave behind their educational system Discover how current reforms in the U.S. parallel the classic Chinese system, and how this could help (or hurt) our students' prospects

Palm Beach Aerin Lauder, 2019-09-01 Early in the 1900s, one-time oil baron Henry Morrison Flagler took interest in the Southern coast of Florida and began developing an exclusive resort community. As the century continued, Palm Beach established itself as a luxury hideaway synonymous with old-world glamour and new-world sophistication. In this splendid volume, longtime resident and Palm Beach social fixture Aerin Lauder takes us through her Palm Beach. St. Tropez Soleil Simon Liberati, 2020-03-01 The legend of St. Tropez starts with a dog, a rooster, and a martyr; and it leads to movie stars, world-renowned artists and distinguished writers. Located on the sparkling French Riviera, St. Tropez has enjoyed the spotlight for more than half a century, for better or worse, with celebrities flocking to this idyllic locale for its beaches and a dose of Mediterranean sun. A picturesque oasis, St. Tropez has served as inspiration for a who's who of notable writers from Françoise Sagan to Colette; as well as renowned artists Paul Signac and Henri Matisse; and even filmmakers. However, St. Tropez would not be the same without then belle du jour Brigitte Bardot, her films and lovers and many other famous couples including Annabel and Bernard Buffet and Bianca and Mick Jagger.

Ritual and Economy in Metropolitan China Carsten Herrmann-Pillath, Guo Man, Feng Xingyuan, 2020-10-26 This book focuses on Shenzhen, one of China's most globalized metropolises, a leading centre of high-tech industries and, as a melting pot of migrants from all over China, a place of vibrant cultural creativity. While in the early stages of Shenzhen's development this vibrant cultural creativity was associated with the resilience of traditional social structures in Shenzhen's migrant 'urban villages', today these structures undergird dynamic entrepreneurship and urban self-organization throughout Shenzhen, and have gradually merged with the formal structures of urban governance and politics. This book examines these developments, showing how important traditional social structures and traditional Chinese culture have been for China's economic modernization. The book goes on to draw out the implications of this for the future of Chinese culture and Chinese economic engagement in a globalized world.
