Cape May in Vintage Postcards Don Pocher, Pat Pocher, 1998-06 When the twentieth century was young, visitors to Cape May knew exactly how to show the folks back home the attractions, accommodations, and ambiance of the Nation's Oldest Seaside Resort: they sent a penny postcard. Publishers such as local entrepreneur Joseph K. Hand provided a vast choice of views, capturing white sands crowded with colorful tents and wool-suited bathers or beachfront hotels such as the Stockton, Lafayette, and Congress Hall. Popular postcards depicted amusement centers and nearby diversions: the Casino, Red Mill, Corinthian Yacht Club, Fun Factory, Convention Hall, and Cape May Point Lighthouse. Reprinted Victorian views of hotels destroyed by fire served as reminders of the resort's glory days. Real-photo cards chronicled newsworthy events including the creation of the harbor, construction of the huge Hotel Cape May, and the 1907 fire at the Iron Pier.

The Historical Archaeology of Virginia from Initial Settlement to the Present Clarence R. Geier, 2017-02-10 The book includes six chapters that cover Virginia history from initial settlement through the 20th century plus one that deals with the important role of underwater archaeology. Written by prominent archaeologists with research experience in their respective topic areas, the chapters consider important issues of Virginia history and consider how the discipline of historic archaeology has addressed them and needs to address them . Changes in research strategy over time are discussed , and recommendations are made concerning the need to recognize the diverse and often differing roles and impacts that characterized the different regions of Virginia over the course of its historic past. Significant issues in Virginia history needing greater study are identified.

Fort Monroe John V. Quarstein,Dennis P. Mroczkowski,2000 Fort Monroe: The Key to the South is a powerful pictorial portraying the exciting history of the only fort in the Upper South to remain under Union control throughout the Civil War. Strategically located on Old Point Comfort guarding the entrance to Hampton Roads and dominating the lower Chesapeake Bay, Fort Monroe quickly became a Federal bastion within the Confederacy and influenced many of the Civil War's greatest events. Known as Freedom's Fortress following Ben Butler's May 1861 decision to consider slaves escaping into Union lines as contraband of war, Fort Monroe quickly became a symbol of freedom and helped to define the wartime objective to end slavery. Soldiers on Fort Monroe's ramparts witnessed first-hand several new technologies, including the first balloon launching to observe enemy operations and the first battle between ironclad warships. Fort Monroe also played a critical role in the eventual Union victory, serving as a base for amphibious operations against Southern ports as well as staging campaigns against the nearby Confederate capital in Richmond. The drama played along the parapets of Fort Monroe during the Civil War has been brought to life by this comprehensive visual history. Fort Monroe: The Key to the South features over 175 images documenting this massive fort and its role in pivotal events like the 1862 Peninsula Campaign, Monitor-Virginia (Merrimack) engagement, and the Hampton Roads Peace Conference. Whether views of famous men like Robert E. Lee, Abraham Lincoln, and Jefferson Davis or scenes of the many soldiers and civilians serving on Old Point Comfort, this pictorial vividly chronicles Fort Monroe's tremendous Civil War heritage.

London's Urban Landscape Christopher Tilley,2019-05-07 London's Urban Landscape is the first major study of a global city to adopt a materialist perspective and stress the significance of place and the built environment to the urban landscape. Edited by Christopher Tilley, the volume is inspired by phenomenological thinking and presents fine-grained

ethnographies of the practices of everyday life in London. In doing so, it charts a unique perspective on the city that integrates ethnographies of daily life with an analysis of material culture. The first part of the volume considers the residential sphere of urban life, discussing in detailed case studies ordinary residential streets, housing estates, suburbia and London's mobile 'linear village' of houseboats. The second part analyses the public sphere, including ethnographies of markets, a park, the social rhythms of a taxi rank, and graffiti and street art. London's Urban Landscape returns us to the everyday lives of people and the manner in which they understand their lives. The deeply sensuous character of the embodied experience of the city is invoked in the thick descriptions of entangled relationships between people and places, and the paths of movement between them. What stories do door bells and house facades tell us about contemporary life in a Victorian terrace? How do antiques acquire value and significance in a market? How does living in a concrete megastructure relate to the lives of the people who dwell there? These and a host of other questions are addressed in this fascinating book that will appeal widely to all readers interested in London or contemporary urban life.

Estuaries and Coastal Zones Jiayi Pan, Adam Devlin, 2020-03-25 Estuaries and their surrounding wetland regions are among the most productive ecosystems in the world, with more than half of humanity inhabiting their shores. Anthropogenic factors make estuaries highly susceptible to ecosystem degradation. Coastal waters are closely connected with human activity, and their dynamic processes may greatly affect coastal environments. This book provides a compendium of studies on estuarine dynamics, river plumes, and coastal water dynamics, studies that have investigated the changes in estuarine and coastal zones in response to sea-level rise and other environmental factors, and policy and management strategies to ensure the health and economy of coastal zones. This book aims to display novel frontiers in these fields and may help to inspire in-depth studies in the future.
