Computer Analysis of Images and Patterns Franc Solina, Ales Leonardis, 2003-07-31 This volume presents the articles accepted for the 8th International Conference on Computer Analysis of Images and Patterns (CAIP'99), held in Ljubljana, Slovenia, 1-3 September 1999. The CAIP series of conferences started 14 years ago in Berlin. The series served initially as a forum for meetings between scientists from Western and Eastern-bloc countries. Political circumstances have changed dramatically since the inception of the conference and such contacts are fortunately no longer subject to abstruse. While CAIP conferences are still rooted in Central Europe, they now attract participants from all over the world. We received 120

submissions, which went through a thorough double blind review process by the program committee members who, had the option of - signing additional reviewers. The nal program consists of 47 oral and 27 poster presentations, with authors from 25 di erent countries. The proceedings also include 2 of the 5 invited lectures given at the conference. In the name of the steering committee we would like to thank the program committee members and the additional reviewers for their time and e orts. Our thanks also go to the authors for their cooperation and meeting of all deadlines.

The Dead Girls' Class Trip Anna Seghers, 2021-06-15 A new translation of the best and most provocative short stories by the author of *Transit* and *The Seventh Cross*. Best known for the anti-fascist novel *The Seventh Cross* and the existential thriller *Transit*, Anna Seghers was also a gifted writer of short fiction. The stories she wrote throughout her life reflect her political activism as well as her deep engagement with myth; they are also some of her most formally experimental work. This selection of Seghers's best stories, written between 1925 and 1965, displays the range of her creativity over the years. It includes her most famous short fiction, such as the autobiographical "The Dead Girls' Class Trip," and others, like "Jans Is Going to Die," that have been translated into English here for the first time. There are psychologically penetrating stories about young men corrupted by desperation and women bound by circumstance, as well as enigmatic tales of bewilderment and enchantment based on myths and legends, like "The Best Tales of Woynok, the Thief," "The Three Trees," and "Tales of Artemis." In her stories, Seghers used the German language in especially unconventional and challenging ways, and Margot Bettauer Dembo's sensitive and skilled translation preserves this distinction.
