Crossing the Stream Elizabeth-Irene Baitie,2021-06-08 A powerful coming-of-age story of self-discovery and overcoming fear.”—Kirkus Reviews, starred review Ato hasn’t visited his grandmother’s house since he was seven. He’s heard the rumors that she’s a witch, and his mother has told him he must never sit on the old couch on her porch. Now here he is, on that exact couch, with a strange-looking drink his grandmother has given him, wondering if the rumors are true. What’s more, there’s a freshly dug hole in her yard that Ato suspects may be a grave meant for him. Meanwhile at school, Ato and his friends have entered a competition to win entry to Nnoma, the island bird sanctuary that Ato’s father helped created. But something is poisoning the community garden where their project is housed, and Ato sets out to track down the culprit. In doing so, he brings his estranged mother and grandmother back together, and begins healing the wounds left on the family by his father’s death years before. And that hole in the yard? It is a grave, but not for the purpose Ato feared, and its use brings a tender, celebratory ending to this deeply felt and universal story of healing and love from one of Ghana’s most admired children’s book authors.

Cognitive Evolution David B. Boles,2022-07-18 Cognitive Evolution provides an in-depth exploration of the natural history of cognition, from the beginning of life on Earth to present-day humans. Drawing together evolutionary, comparative, and neuroscience research, the book brings a unique cognitive perspective to evolutionary psychology. The second edition features the latest research and illustrations on emerging topics, making it a true update of the field. After introducing evolution, Boles adopts an information processing perspective – from inputs to outputs, with all the mental processes in between to provide a systematic overview of the evolution of cognition, including its sensory, motoric, perceptual, and cognitive components. The combination of evolutionary, comparative, and neuroscience perspectives provides an insight on topics like vision, handedness, tools and planning, spatial perception, pattern recognition, memory, language, and consciousness. Cognitive Evolution is a comprehensive, essential read for advanced undergraduate and postgraduate students of cognitive and evolutionary psychology. Researchers will find it a useful and insightful synthesis of the field, yet even the curious public will find in it much that is surprising and enlightening.

Bold Robin Hood and His Outlaw Band, Their Famous Exploits in Sherwood Forest Louis Rhead,2008-10
PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the

objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we don't deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Anthropogeomorphology of Bhagirathi-Hooghly River System in India Balai Chandra Das, Sandipan Ghosh, Aznarul Islam, Suvendu Roy, 2020-10-27 The Bhagirathi-Hooghly Basin in India is one of the most densely populated regions in the world and is undergoing rapid transformation of its natural landscape induced by human interventions, such as mushrooming of dams and barrages, deforestation, and urbanization. Human activities and interventions on basin landforms and the processes that shape those landforms have accelerated at an alarming rate. This book uses spatio-temporal analysis to understand the major anthropogenic signatures on land use and land cover changes and the impact these activities have on the landforms and processes of the Bhagirathi-Hooghly River and its sub-basins. It answers the what, where, why, and how of the anthropogenic signatures involved. Recent case studies on the impact of anthropogenic signatures on fluvial forms and processes make this book a useful resource for students and researchers in the earth sciences, local governments, urban planners, and all concerned with rural developments. Features: Explores for the first time the new concept of anthropogeomorphology for the river basin—an emerging field Analyses the impact of anthropogenic activities, especially the construction of dams and reservoirs, and urbanization on major fluvial landscapes using advanced geospatial modelling techniques Investigates human interference in river systems, their effects on the dynamics of the river, and the livelihoods of the people residing along the river Addresses issues related to geology, geomorphology, geography, planning, land use, and land management areas Fills the need for data-driven governance and policy decisions for the future of urban-industrial growth in India.

Across the River Kent Babb, 2021-08-10 On the west bank of the Mississippi lies the New Orleans neighborhood of Algiers. Short on hope but big on dreams, its mostly poor and marginalized residents find joy on Friday nights when the Cougars of Edna Karr High School take the field. For years, this football program has brought glory to Algiers, winning three consecutive state championships and sending dozens of young men to college on football scholarships. Although he is preparing for a fourth title, head coach Brice Brown is focused on something else: keeping his players alive. An epidemic of gun violence plagues New Orleans and its surrounding communities and has claimed many innocent lives, including Brown's former star quarterback, Tollette "Tonka" George, shot near a local gas station. In *Across the River*, award-winning sports journalist Kent Babb follows the Karr football team through its 2019 season as Brown and his team—perhaps the scrappiest

and most rebellious group in the program's history—vie to again succeed on and off the field. What is sure to be a classic work of sports journalism, *Across the River* is a necessary investigation into the serious realities of young athletes in struggling neighborhoods: gentrification, eviction, mental health issues, the drug trade, and gun violence. It offers a rich and unflinching portrait of a coach, his players, and the West Bank, a community where it's difficult—but not impossible—to rise above the chaos, discover purpose, and find a way out.

Butcher's Crossing John Williams, 2011-03-30 Now a major motion picture starring Nicolas Cage and directed by Gabe Polsky. In his National Book Award-winning novel *Augustus*, John Williams uncovered the secrets of ancient Rome. With *Butcher's Crossing*, his fiercely intelligent, beautifully written western, Williams dismantles the myths of modern America. It is the 1870s, and Will Andrews, fired up by Emerson to seek "an original relation to nature," drops out of Harvard and heads west. He washes up in *Butcher's Crossing*, a small Kansas town on the outskirts of nowhere. *Butcher's Crossing* is full of restless men looking for ways to make money and ways to waste it. Before long Andrews strikes up a friendship with one of them, a man who regales Andrews with tales of immense herds of buffalo, ready for the taking, hidden away in a beautiful valley deep in the Colorado Rockies. He convinces Andrews to join in an expedition to track the animals down. The journey out is grueling, but at the end is a place of paradisaal richness. Once there, however, the three men abandon themselves to an orgy of slaughter, so caught up in killing buffalo that they lose all sense of time. Winter soon overtakes them: they are snowed in. Next spring, half-insane with cabin fever, cold, and hunger, they stagger back to *Butcher's Crossing* to find a world as irremediably changed as they have been.
