Elizabeth Klehfoth

All These Beautiful Strangers Elizabeth Klehfoth, 2018-07-10 This is going to be big. -Entertainment Weekly “Juicy, clever, and beguiling. -Cecily von Ziegsar, author of the Gossip Girl novels A young woman haunted by a family tragedy is caught up in a dangerous web of lies and deception involving a secret society in this highly charged, addictive psychological thriller that combines the dishy gamesmanship of Gossip Girl with the murky atmosphere of The Secret History. One summer day, Grace Fairchild, the beautiful young wife of real estate mogul Alistair Calloway, vanished from the family’s lake house without a trace, leaving behind her seven-year old daughter, Charlie, and a slew of unanswered questions. Years later, seventeen-year-old Charlie still struggles with the dark legacy of her family name and the mystery surrounding her mother. Determined to finally let go of the past, she throws herself into life at Knollwood, the prestigious New England school she attends. Charlie quickly becomes friends with Knollwood’s it crowd. Charlie has also been tapped by the A’s—the school’s elite secret society well known for terrorizing the faculty, administration, and their enemies. To become a member of the A’s, Charlie must play The Game, a semester-long, diabolical high-stakes scavenger hunt that will jeopardize her friendships, her reputation, even her place at Knollwood. As the dark events of past and present converge, Charlie begins to fear that she may not survive the terrible truth about her family, her school, and her own life.

Radical Sex Between Men Dave Holmes, Stuart J. Murray, Thomas Foth, 2017-08-29 Bringing together theory and public health practice, this interdisciplinary collection analyses three forms of nonconventional or radical sexualities: bareback sex, BDSM practices, and public sex. Drawing together the latest empirical research from Brazil, Canada, Spain, and the USA, it mobilizes queer theory and poststructuralism, engaging the work of theorists such as Bataille, Butler, Deleuze and Guattari, and Foucault, among others. While the collection contributes to current research in gender and sexuality studies, it does so distinctly in the context of empirical investigations and discourses on critical public health. **Radical Sex Between Men: Assembling Desiring-Machines** will be of interest to advanced undergraduate students, postgraduate students, and researchers in gender and sexuality studies, sexology, social work, anthropology, and sociology, as well as practitioners in nursing, medicine, allied health professions, and psychology.

Social and Sustainability Marketing Jishnu Bhattacharyya, Manoj Kumar Dash, Chandana Hewege, M.S. Balaji, Weng Marc Lim, 2021-09-26 ... an important intervention in the conversation around social and ecological sustainability that draws

on both micromarketing and macromarketing scholarship to help the reader understand the challenges with illustrations from insightful cases both from emerging and developed economies. This compilation should be essential reading for the discerning student of sustainable consumption and production. -- Professor Pierre McDonagh, Associate Editor, Journal of Macromarketing (USA); Professor of Critical Marketing & Society, University of Bath, UK Experts in the field of economics, management science, and particularly in the marketing domain have always been interested in and acknowledged the importance of sustaining profitable businesses while incorporating societal and environmental concerns; however, the level of existing literature and availability of teaching cases reflect a dearth of real case studies, especially those focused on marketing for social good. This book of actual case studies will address that need. In addition, this book is important and timely in providing a case book for instructors (those in both industry and academia) to help them in teaching and training the next generation of leaders through corporate training and universities. Currently, marketing for social good is increasingly becoming a part of most curriculums under the umbrella of different titles, such as social marketing, green marketing, and sustainability marketing. The relevance of these studies is increasing across the globe. This book is composed of long and short real cases with varying complexity in different sectors. This case book will also cover some review articles for an overview of the recent developments in the study area. With these case studies, collections of questions, teaching materials, and real-life marketing scenarios, this book offers a unique source of knowledge to marketing professionals, students, and educators across the world. The main objective of this case book is to understand the applicability of marketing science (marketing for social good context, such as social marketing and sustainability marketing) in internet marketing related to e-buying behavior and e-WOM. In addition, it illustrates the various types of existing marketing practices that are relevant from both theoretical and practical points of view in this electronic era, as well as discussing other non-electronic marketing practices and focusing on consumer buying behavior. As a result, marketing managers can treat their customers according to their desired value. This book particularly explores the possibilities and advantages created by social marketing and sustainability marketing through the presentation of thorough review articles and case studies. This case book helps corporate training centers and universities with compact teaching reference materials in their relevant courses.

Burns and Grove's The Practice of Nursing Research - E-Book Jennifer R. Gray, Susan K. Grove, Suzanne Sutherland, 2016-08-10 Awarded first place in the 2017 AJN Book of the Year Awards in the Nursing Research category. Master the research methods used as a foundation for evidence-based practice! Burns and Grove's The Practice of Nursing Research, 8th Edition provides a solid foundation in the appraisal, synthesis, and generation of research evidence for clinical nursing practice. Not only will you learn how to properly evaluate and use existing research evidence, but you'll also learn how to participate in research and quality improvement projects. Updated to reflect today's focus on online research and evidence-based practice, this edition includes clear, step-by-step guidelines to research procedures as well as many examples

from current and classic literature. From an expert author team led by Jennifer Gray, this book helps you perform scholarly research for evidence-based practice. Emphasis on evidence-based practice helps you learn to generate research evidence and to appraise and synthesize existing research for application to clinical practice. Emphasis on qualitative research includes phenomenological research, grounded theory research, ethnographic research, exploratory-descriptive research, and historical research. Coverage of quantitative, qualitative, and other research methodologies gives you a solid foundation to conduct, appraise, and apply research evidence to the realities of today's clinical practice. Rich examples from the nursing literature bring research principles to life. Information on collecting digital data guides you through the use of online research. Clear, comprehensive coverage is organized into five units: 1) Introduction to Nursing Research, 2) The Research Process, 3) Putting It All Together for Evidence-Based Health Care, 4) Analyzing Data, Determining Outcomes, and Disseminating Research, and 5) Proposing and Seeking Funding for Research. NEW Mixed Methods Research chapter and emphasis covers this increasingly popular approach to research. NEW! Expanded emphasis on qualitative research provides more balanced coverage of qualitative and quantitative methods, addressing the qualitative research methodologies that are often the starting point of research projects, particularly in magnet hospitals and DNP programs. ENHANCED emphasis on evidence-based practice addresses this key graduate-level QSEN competency. UPDATED emphasis on the most currently used research methodologies focuses on the methods used in both quantitative research and qualitative research, as well as outcomes research and mixed methods research. NEW! Quick-reference summaries are located inside the book's covers, including a table of research methods on the inside front cover and a list of types of research syntheses (with definitions) inside the back cover. NEW student resources on the Evolve companion website include 400 interactive review questions along with a library of 10 Elsevier research articles. NEW! Colorful design highlights key information such as tables and research examples

Chagas Disease Veeranoote Nissapatorn, Helieh S. Oz, 2018

Ultrasound Imaging in Reproductive Medicine Laurel A. Stadtmauer, Ilan Tur-Kaspa, 2019-07-19 Now in an updated edition, this is the most comprehensive book on modern ultrasound imaging in assisted reproductive technology (ART) and reproductive medicine. Fully revised and expanded, it covers emerging technologies possible with the improvement in ultrasound equipment. 3-D monitoring of ovarian follicles, bidirectional vibrant color and Doppler, and improved 3-D and 4-D imaging of reproductive structures are discussed. MRI-guided ultrasound procedures are covered, and comparisons of 3-D imaging with MRI imaging for uterine anomalies is reviewed with an emphasis on the advantages of 3-D performed in the gynecologist's office, and as a less expensive modality. The overall approach of the original edition is maintained, starting with ultrasound safety and technique and diagnosis of the ovary, uterus and fallopian tubes (both normal and pathologic), followed by both male and female infertility and ART treatments and procedures. Ultrasound monitoring of follicular

development, the endometrium, and as an aid in embryo transfer to maximize IVF success rates are reviewed. Topics new to this edition include updated information on the diagnosis of benign and malignant adnexal masses, 3-D follicle monitoring, and the diagnosis of adenomyosis and endometriosis, including deep inseminated endometriosis. Additionally, the evaluation of endometrial receptivity, the use of contrasts for fallopian tube patency, controversies regarding septate uterus versus arcuate uterus with the use of 3-D ultrasound, and 3-D ultrasound with saline infusion sonogram and early pregnancy ultrasound are all discussed. An excellent resource for reproductive medicine and ART specialists, gynecologists and ultrasonographers alike, *Ultrasound Imaging in Reproductive Medicine, Second Edition* covers all that clinicians need to know about the role of ultrasound, from the first time a woman comes into the clinic for treatment, including ART, to early pregnancy monitoring. See better, do ART better.

The Bridge Iain Banks, 2013-07-09 The man who wakes up in the extraordinary world of a bridge has amnesia, and his doctor doesn't seem to want to cure him. Does it matter? Exploring the bridge occupies most of his days. But at night there are his dreams. Dreams in which desperate men drive sealed carriages across barren mountains to a bizarre rendezvous; an illiterate barbarian storms an enchanted tower under a stream of verbal abuse; and broken men walk forever over bridges without end, taunted by visions of a doomed sexuality. Lying in bed unconscious after an accident wouldn't be much fun, you'd think. Oh yes? It depends who and what you've left behind. Which is the stranger reality, day or night? Frequently hilarious and consistently disturbing, *THE BRIDGE* is a novel of outrageous contrasts, constructed chaos and elegant absurdities.

Seeing Cities Through Big Data Piyushimita (Vonu) Thakuriah, Nebiyu Tilahun, Moira Zellner, 2016-10-07 This book introduces the latest thinking on the use of Big Data in the context of urban systems, including research and insights on human behavior, urban dynamics, resource use, sustainability and spatial disparities, where it promises improved planning, management and governance in the urban sectors (e.g., transportation, energy, smart cities, crime, housing, urban and regional economies, public health, public engagement, urban governance and political systems), as well as Big Data's utility in decision-making, and development of indicators to monitor economic and social activity, and for urban sustainability, transparency, livability, social inclusion, place-making, accessibility and resilience.

Expert Clouds and Applications I. Jeena Jacob, Francisco M. Gonzalez-Longatt, Selvanayagi Kolandapalayam Shanmugam, Ivan Izonin, 2021-07-15 This book features original papers from International Conference on Expert Clouds and Applications (ICOECA 2021), organized by GITAM School of Technology, Bangalore, India during February 18-19, 2021. It covers new research insights on artificial intelligence, big data, cloud computing, sustainability, and knowledge-based expert systems. The book discusses innovative research from all aspects including theoretical, practical, and experimental domains that pertain to the expert systems, sustainable clouds, and artificial intelligence technologies.

Participatory Sensing. Opinions and Collective Awareness Vittorio Loreto, Muki Haklay, Andreas Hotho, Vito D.P.

Servedio, Gerd Stumme, Jan Theunis, Francesca Tria, 2016-05-13 This book introduces and reviews recent advances in the field in a comprehensive and non-technical way by focusing on the potential of emerging citizen-science and social-computation frameworks, coupled with the latest theoretical and modeling tools developed by physicists, mathematicians, computer and social scientists to analyse, interpret and visualize complex data sets. There is overwhelming evidence that the current organisation of our economies and societies is seriously damaging biological ecosystems and human living conditions in the short term, with potentially catastrophic effects in the long term. The need to re-organise the daily activities with the greatest impact – energy consumption, transport, housing – towards a more efficient and sustainable development model has recently been raised in the public debate on several global, environmental issues. Above all, this requires the mismatch between global, societal and individual needs to be addressed. Recent advances in Information and Communication Technologies (ICT) can trigger important transitions at the individual and collective level to achieve this aim. Based on the findings of the collaborative research network EveryAware the following developments among the emerging ICT technologies are discussed in depth in this volume: • Participatory sensing – where ICT development is pushed to the level where it can support informed action at the hyperlocal scale, providing capabilities for environmental monitoring, data aggregation and mining, as well as information presentation and sharing. • Web gaming, social computing and internet-mediated collaboration – where the Web will continue to acquire the status of an infrastructure for social computing, allowing users' cognitive abilities to be coordinated in online communities, and steering the collective action towards predefined goals. • Collective awareness and decision-making – where the access to both personal and community data, collected by users, processed with suitable analysis tools, and re-presented in an appropriate format by usable communication interfaces leads to a bottom-up development of collective social strategies.

Advances in Cable-Supported Bridges Khaled Mahmoud, 2006-08-10 Cable-supported bridges are known for their visual elegance, aesthetic appeal and ability to link long spans. The extent of issues of concern associated with these structures is commensurate with their size and vast scale. Significant advances in the technology of assessment, design, construction and maintenance of cable-supported bridges have been achieved in the past few years, due to increasing awareness, collaboration and information exchange. This book contains selected papers on cable-supported bridges as presented at the 5th International Cable-Supported Bridge Operators' Conference, held in New York City on August 28-29, 2006. It includes papers by leading international bridge engineers. Presenting state-of-the-art material, the book is an authoritative account on the developments in the field, this volume forms essential reading to anyone working on cable-supported bridges. *Advances in Cable-Supported Bridges* .

21st Century Skills Development Through Inquiry-Based Learning Samuel Kai Wah Chu, Rebecca B.

Reynolds, Nicole J. Tavares, Michele Notari, Celina Wing Yi Lee, 2018-04-30 This book presents innovative instructional interventions designed to support inquiry project-based learning as an approach to equip students with 21st century skills. Instructional techniques include collaborative team-based teaching, social constructivist game design and game play, and productive uses of social media such as wikis and other online communication affordances. The book will be of interest to researchers seeking a summary of recent empirical studies in the inquiry project-based learning domain that employ new technologies as constructive media for student synthesis and creation. The book also bridges the gap between empirical works and a range of national- and international-level educational standards frameworks such as the P21, the OECD framework, AASL Standards for the 21st Century Learner, and the Common Core State Standards in the US. Of particular interest to education practitioners, the book offers detailed descriptions of inquiry project-based learning interventions that can be directly reproduced in today's schools. Further, the book provides research-driven guidelines for the evaluation of student inquiry project-based learning. Lastly, it offers education policymakers insight into establishing anchors and spaces for applying inquiry project-based learning opportunities for youth today in the context of existing and current education reform efforts. The aim of this book is to support education leaders', practitioners' and researchers' efforts in advancing inspiring and motivating student learning through transformative social constructivist inquiry-based knowledge-building with information technologies. We propose that preparing students with inquiry mindsets and dispositions can promote greater agency, critical thinking and resourcefulness, qualities needed for addressing the complex societal challenges they may face.

Advances in Biology and Ecology of Nitrogen Fixation Takuji Ohyama, 2014-01-29 Biological nitrogen fixation has essential role in N cycle in global ecosystem. Several types of nitrogen fixing bacteria are recognized: the free-living bacteria in soil or water; symbiotic bacteria making root nodules in legumes or non-legumes; associative nitrogen fixing bacteria that resides outside the plant roots and provides fixed nitrogen to the plants; endophytic nitrogen fixing bacteria living in the roots, stems and leaves of plants. In this book there are 11 chapters related to biological nitrogen fixation, regulation of legume-rhizobium symbiosis, and agriculture and ecology of biological nitrogen fixation, including new models for autoregulation of nodulation in legumes, endophytic nitrogen fixation in sugarcane or forest trees, etc. Hopefully, this book will contribute to biological, ecological, and agricultural sciences.

Printing the Middle Ages Sian Echard, 2013-09-25 In *Printing the Middle Ages* Siân Echard looks to the postmedieval, postmanuscript lives of medieval texts, seeking to understand the lasting impact on both the popular and the scholarly imaginations of the physical objects that transmitted the Middle Ages to the English-speaking world. Beneath and behind the foundational works of recovery that established the canon of medieval literature, she argues, was a vast terrain of books, scholarly or popular, grubby or beautiful, widely disseminated or privately printed. By turning to these, we are able to chart the differing reception histories of the literary texts of the British Middle Ages. For Echard, any reading of a medieval text,

whether past or present, amateur or academic, floats on the surface of a complex sea of expectations and desires made up of the books that mediate those readings. Each chapter of *Printing the Middle Ages* focuses on a central textual object and tells its story in order to reveal the history of its reception and transmission. Moving from the first age of print into the early twenty-first century, Echard examines the special fonts created in the Elizabethan period to reproduce Old English, the hand-drawn facsimiles of the nineteenth century, and today's experiments with the digital reproduction of medieval objects; she explores the illustrations in eighteenth-century versions of *Guy of Warwick* and *Bevis of Hampton*; she discusses nineteenth-century children's versions of the *Canterbury Tales* and the aristocratic transmission history of John Gower's *Confessio Amantis*; and she touches on fine press printings of Dante, Froissart, and Langland.

Lifecycles of Pathogenic Protists in Humans Wanderley de Souza, 2022-01-31 This volume covers the most important parasitic protists that are known to infect humans. The pathogens discussed cause diseases like toxoplasmosis, malaria, cryptosporidiosis, leishmaniasis, amoebiasis, trichomoniasis, and giardiasis. Readers from microbiology will appreciate the special focus on protist cell biology. As demonstrated in several of the chapters, these parasites are characterized by peculiar structures and organelles that cannot be found in mammalian cells – even though both are eukaryotic. The book employs light and electron microscopy to display the changing morphology in various stages of parasitic development. In turn, the results are supplemented by transcriptome and proteome profiles that help to describe how these changes take place on a molecular level. Both researchers and clinicians from tropical medicine will find essential and practically applicable background information on these increasingly important pathogens.

Methods in Paleoecology Darin A. Croft, Denise F. Su, Scott W. Simpson, 2018-10-27 This volume focuses on the reconstruction of past ecosystems and provides a comprehensive review of current techniques and their application in exemplar studies. The 18 chapters address a wide variety of topics that span vertebrate paleobiology and paleoecology (body mass, postcranial functional morphology, evolutionary dental morphology, microwear and mesowear, ecomorphology, mammal community structure analysis), contextual paleoenvironmental studies (paleosols and sedimentology, ichnofossils, pollen, phytoliths, plant macrofossils), and special techniques (bone microstructure, biomineral isotopes, inorganic isotopes, 3-D morphometrics, and ecometric modeling). A final chapter discusses how to integrate results of these studies with taphonomic data in order to more accurately characterize an ancient ecosystem. Current investigators, advanced undergraduates, and graduate students interested in the field of paleoecology will find this book immensely useful. The length and structure of the volume also makes it suitable for teaching a college-level course on reconstructing Cenozoic ecosystems.

Exercise Physiology Laboratory Manual William C Beam, Gene M Adams, 2019-01-04 *Exercise Physiology Laboratory Manual* is a comprehensive resource for instructors and students interested in practical laboratory experiences related to the

field of exercise physiology. This program can be used as both a standalone lab manual or as a complement to any exercise physiology textbook. Students will come away with thorough instruction on the measurement and evaluation of muscular strength, anaerobic and aerobic fitness, cardiovascular function, respiratory function, flexibility, and body composition.

Molecular Mechanisms in Spermatogenesis C.Yan Cheng,Fei Sun,2022-08-30 This new edition provides an update on the molecular mechanisms that regulate spermatogenesis. In addition to the rodent as a study model, chapters also include research on studies in humans. It includes the latest approaches of studying spermatogenesis, such as the use of bioinformatics, molecular modeling and others which are not commonly found in published materials. It also reviews the latest developments in the field, such as studies on the role of regulatory RNAs on spermatogenesis. Due to the declining fertility rate among men, a brand new chapter highlights the impact of environmental toxicants on spermatogenesis.
