The Line Art Challenge Eric Ng, 2016 Creativity has no boundaries, geographic or otherwise, which is what the 15 international artists of The Line Art Challenge, set out to prove when they embarked on an artistic feat to each produce 100 sketches in 100 days. Based in 11 different countries, the artists used modern communication methods to share their work and motivate and inspire each other across continents to reach their collective goal of 1,000 traditional sketches. While the final drawing tally was 850, the resulting artwork from this challenge is remarkable in its diversity and complexity: fantastic warriors, menacing space beasts, Gigeresque villains, and whimsical everyday heroes are among the characters you'll meet in this unique collection.

He encouraged the fledgling painters, musicians, writers, and dreamers to break rules and think outside the box. Most of all, he encouraged them to make good art. Material Nick Kary, 2020-09-24 An important book, brimming with insight.—Nicholas Evans, author of *The Horse Whisperer* A master craftsperson explores the ways in which working with our hands reveals the essence of both our humanity and our relationship with the natural, material world In our present age of computer-assisted design, mass production and machine precision, the traditional skills of the maker or craftsperson are hard to find. Yet the desire for well-made and beautiful objects from the hands (and mind) of a skilled artisan is just as present today as it ever has been. Whether the medium they work with is wood, metal, clay or something else, traditional makers are living links to the rich

vein of knowledge and skills that defines our common human heritage. More than this, though, many of us harbor a deep and secret yearning to produce something – to build or shape, to imagine and create our own objects that are imbued not only with beauty and functionality, but with a story and, in essence, a spirit drawn from us. Nick Kary understands this yearning. For nearly four decades he has worked on commission to make fine, distinctive furniture and cabinets from wood, most of it sourced near his home, in the counties of South West England. During this time, he has been both a teacher and a student; one who is fascinated with the philosophy and practice of craft work of all kinds. In *Material*, Kary takes readers along with him to visit some of the places where modern artisans are preserving, and in some cases passing on, the old craft skills. His vivid descriptions and eye for detail make this book a rich and delightful read, and the natural and cultural history he imparts along the way provides an important context for understanding our own past and the roots of our industrial society. Personal, engaging, and filled with memorable people, landscapes and scenes, *Material* is a rich celebration of what it means to imagine and create, which in the end is the essence of being human, and native to a place. As Kary puts it, “Wood and words, trees and people, material and ethereal – it is here I love increasingly to dwell.” Perfect for fans of *The Hidden Life of Trees* or *Norwegian Wood*, *Material* is a rich, inspiring read for woodworkers, potters, craftspeople, bibliophiles and anyone who enjoys working with their hands.

Histories of Violence Brad Evans, Terrell Carver, 2017-01-15 While there is a tacit appreciation that freedom from violence will lead to more prosperous relations among peoples, violence continues to be deployed for various political and social ends. Yet the problem of violence still defies neat description, subject to many competing interpretations. *Histories of Violence* offers an accessible yet compelling examination of the problem of violence as it appears in the corpus of canonical figures – from Hannah Arendt to Frantz Fanon, Michel Foucault to Slavoj Žižek – who continue to influence and inform contemporary political, philosophical, sociological, cultural, and anthropological study. Written by a team of internationally renowned experts, this is an essential interrogation of post-war critical thought as it relates to violence.

Sketching Stuff Charlie O'Shields, 2018-11-22 Charlie O'Shields is the creator of Doodlewash®, founder of World Watercolor Month in July, and host of the *Sketching Stuff* podcast. Every single day, for over three years, he created a watercolor illustration and wrote a short essay about whatever came to mind that day and posted it on his blog. These are some of the collected favorites along with some brand new musings. With over 180 illustrations, this book is part personal

memoir and sometimes just a randomly fun romp through the sillier bits of this crazy world we all inhabit. Written to take on the impossible task of inspiring creativity, unleashing your inner child, and instilling hope, it will, at the very least, make you smile and touch your heart.

Make the World a Better Place Robert Kozma, 2023-04-05 “This book is a must read for all with an interest in the future of design.” —Jim Spohrer, PhD, Retired Industry executive, International Society of Service Innovation Professionals “The world is in need of better design, and Kozma’s book shows us how to get there.” —Mark Guzdia, Director, Program in Computing for the Arts and Sciences, College of Literature, Science, and the Arts, Professor of Electrical Engineering and Computer Science, College of Engineering, University of Michigan Design services, products, experiences, and places that transform the world for the better Make the World a Better Place: Design with Passion, Purpose, and Values presents an insightful and hands-on discussion of design as a profoundly human activity and challenges us all to use design to transform the world for the better. The book explains how and why the design industry lost its way, and how to re-ignite the idealism that once made it a force for good. Make the World a Better Place describes a set of moral principles, based on our shared humanity, that can be used to create “good” designs: designs that reduce harm, increase well-being, advance knowledge, promote equality, address injustice, and build supportive, compassionate relationships and communities. Dr. Kozma applies philosophy, psychology, sociology, and history to the world of design, including: Examples and case studies of designs—both good and bad Seven principles of good design, based on the impact designs have on people An approach to design as a “moral dialog among co-creators,” in which the seven principles can be applied to intentionally improve the world Comprehensive explorations of a person-resource-activity model that explains how technology shapes designs Detailed analyses of the strengths and pitfalls of five design traditions, which include the scientific, technical-analytic, human-centered, aesthetic, and social movement traditions

Robert Rauschenberg Sara Sinclair, Peter Bearman, Mary Marshall Clark, 2019-08-06 Robert Rauschenberg (1925–2008)

was a breaker of boundaries and a consummate collaborator. He used silk-screen prints to reflect on American promise and failure, melded sculpture and painting in works called combines, and collaborated with engineers and scientists to challenge our thinking about art. Through collaborations with John Cage, Merce Cunningham, and others, Rauschenberg bridged the music, dance, and visual-art worlds, inventing a new art for the last half of the twentieth century. Robert Rauschenberg is a work of collaborative oral biography that tells the story of one of the twentieth century's great artists through a series of interviews with key figures in his life—family, friends, former lovers, professional associates, studio assistants, and collaborators. The oral historian Sara Sinclair artfully puts the narrators' reminiscences in conversation, with a focus on the relationship between Rauschenberg's intense social life and his art. The book opens with a prologue by Rauschenberg's sister and then shifts to New York City's 1950s and '60s art scene, populated by the luminaries of abstract expressionism. It follows Rauschenberg's eventual move to Florida's Captiva Island and his trips across the globe, illuminating his inner life and its effect on his and others' art. The narrators share their views on Rauschenberg's work, explore the curatorial thinking behind exhibitions of his art, and reflect on the impact of the influx of money into the contemporary art market. Included are artists famous in their own right, such as Laurie Anderson and Brice Marden, as well as art-world insiders and lesser-known figures who were part of Rauschenberg's inner circle. Beyond considering Rauschenberg as an artist, this book reveals him as a man embedded in a series of art worlds over the course of a long and rich life, demonstrating the complex interaction of business and personal, public and private in the creation of great art.

Off the Walls ,2020-09-22 When life (in a global pandemic) imitates art . . . Van Gogh's *Starry Night* made out of spaghetti? Cat with a Pearl Earring? Frida Kahlo self-portraits with pets and toilet paper? While the world reeled from the rapid spread of the novel coronavirus (COVID-19), thousands of people around the globe, inspired by challenges from Getty and other museums, raided toy chests, repurposed pantry items, and enlisted family, roommates, and animals to re-create famous works of art at home. Astonishing in their creativity, wit, and ingenuity, these creations remind us of the power of art to unite us and bring joy during troubled times. *Off the Walls: Inspired Re-Creations of Iconic Artworks* celebrates these imaginative re-creations, bringing highlights from this challenge together in one whimsical, irresistible volume. Getty Publications will donate all profits from the sales of this book to a charity supporting art and artists.

Drawing Ideas Mark Baskinger, William Bardel, 2013-11-19 A primer for design professionals across all disciplines that helps them create compelling and original concept designs by hand--as opposed to on the computer--in order to foster collaboration and win clients. In today's design world, technology for expressing ideas is pervasive; CAD models and renderings created with computer software provide an easy option for creating highly rendered pieces. However, the accessibility of this technology means that fewer designers know how to draw by hand, express their ideas spontaneously, and brainstorm effectively. In a unique board binding that mimics a sketchbook, *Drawing Ideas* provides a complete

foundation in the techniques and methods for effectively communicating to an audience through clear and persuasive drawings.
