## Gordon Parks

*A Blind Date With the World* William D. Chalmers, 2000-08

Letter in a Woodpile Ed Cullen, 2006-05 From NPR commentator (All Things Considered) Ed Cullen comes this collection of humorous commentaries on life in southern Louisiana, including Mardi Gras, science fairs, and how the denizens of Guatemala North (Baton Rouge) stay cool.

*On the Origin of the Species Homo Touristicus* William D. Chalmers, 2011-02-23 A stunningly well-researched book, offering readers an authentically fresh and at times wickedly off -the-beaten path irreverent look at travel history and the evolution of homo touristicus. This insightful book takes you on a Grand Tour full of fun and interesting nuggets about travel the past, the present, and soon to be future, that is sure to make you laugh, make you think, and keep you reading. Just perusing the Table of Contents whets your appetite for more. This multi-disciplinary look at the travel and tourism industry and we travelers who make it all happen includes: the age of discovery, world wonders, tourist novelties, the paths of pilgrims, travel safety and security, travel literature, geography and mapmaking, Grand Hotels, the technology of travel, travel industry porn and public relations campaigns, mysterious liaisons, and affairs to remember, along with great travel quotes and culturally relevant tourism-related anecdotes. This factual, enlightening, and oh so opinionated book is designed for real travelers, casual tourists, and armchair travelers alike; with this first edition disproving myths, unveiling new legends and bursting a few overly righteous historical bubbles along the way. Indeed, this book includes something for all members of homo touristicus who have been there, done that, and keenly want to know what is next!

A Choice of Weapons Gordon Parks, 2010 Gordon Parks's spectacular rise from poverty, personal hardships, and outright racism is astounding and inspiring. --from the foreword by Wing Young Huie

**The Illustrator 7 Wow! Book** Sharon Steuer, 1998 A Macintosh CD-ROM is included with this step-by-step book, which features techniques, tips, and tricks from 80 leading illustrator artists. **Forging a Convention for Crimes against Humanity** Leila Nadya Sadat, 2013-11-21 Crimes against humanity were one of the three categories of crimes elaborated in the Nuremberg Charter. However, unlike genocide and war crimes, they

were never set out in a comprehensive international convention. This book represents an effort to complete the Nuremberg legacy by filling this gap. It contains a complete text of a proposed convention on crimes against humanity in English and in French, a comprehensive history of the proposed convention, and fifteen original papers written by leading experts on international criminal law. The papers contain reflections on various aspects of crimes against humanity, including gender crimes, universal jurisdiction, the history of codification efforts, the responsibility to protect, ethnic cleansing, peace and justice dilemmas, amnesties and immunities, the jurisprudence of the ad hoc tribunals, the definition of the crime in customary international law, the ICC definition, the architecture of international criminal justice, modes of criminal participation, crimes against humanity and terrorism, and the inter-state enforcement regime.

**Strangers in Strange Lands**, 1902

The Andy Griffith Show Book Ken Beck, Jim Clark, 2000-06-14 Contains a complete fan guide to the popular television series that ran from 1960 to 1968, and profiles all of the major and minor characters that appeared on the show over its history.

**Television Comedy Series** Joel Eisner, David Krinsky, 1984 Guide to the syndicated sitcoms

**Controversies on Campus** Joy Blanchard, 2018-01-12 Providing a comprehensive review of pressing issues roiling American college campuses today, this book is a valuable resource for students and scholars alike. People often refer to America's colleges and universities as Ivory Towers, a term that implies that campuses are innocent places of study largely insulated from wider societal concerns. In actuality, our nation's universities are hotbeds of controversy. Some of these sources of heated debate relate directly to access to the college experience, such as the rising cost of tuition and admission policies related to student diversity. Others reflect wider societal schisms, such as divisions over sexual assault (both causes and responses) and political correctness. *Controversies on Campus: Debating the Issues Confronting American Universities in the 21st Century* examines the myriad controversies regarding today's college campuses and student bodies, such as tuition costs, campus rape, academic freedom/free speech, gun policies, binge drinking, hook-up culture, corporatization of academic research, poverty-level wages of adjunct faculty, and student-athletes in the era of big-money amateur sports. The book objectively examines these issues and others, taking care to not only present up-to-date quantifiable data to help readers understand the controversy but also to provide a fair and impartial summary of perspectives on the issue in question. It is a one-stop resource for learning about a wide range of issues and controversies confronting American colleges and universities and the people—students, professors, and administrators—who comprise those communities.

**Strangers in Strange Lands** Anonymous, 2023-07-18 This moving memoir chronicles the experiences of refugees and displaced persons in the aftermath of World War II. The author, herself a refugee, writes with compassion and insight about the struggles faced by those who must rebuild their lives in a new country. *Strangers in Strange Lands* is a powerful

reminder of the importance of compassion and understanding in times of crisis. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. **The Expanding Vista** Mary Ann Watson, 1994 As American politics and television became more closely intertwined in the early 1960s, each underwent enormous and long-lasting changes. In *The Expanding Vista*, originally published in 1990 (Oxford University Press), Mary Ann Watson looks at how television was woven into the events and policies of John Kennedy's presidency, not only in his unprecedented use of the medium in campaigning and image projection, but in the vigorous efforts of his administration to regulate and improve the content of network programs. Examining the legacy of the New Frontier and its relationship to the new medium, she traces the Kennedy influence across a spectrum of programming that includes news, documentary, drama, situation comedy, advertising, children's shows, and educational TV. Through extensive archival research and oral histories Watson reconstructs key moments of an extraordinary time in the television age. The *Expanding Vista's* analysis and interpretation of that era continue to enlighten our understanding of culture and communication as the themes sounded in the 1960s resonate in today's complex media marketplace.

**Tube of Plenty** Erik Barnouw, 1990-05-31 Based on the classic *History of Broadcasting in the United States*, *Tube of Plenty* represents the fruit of several decades' labor. When Erik Barnouw--premier chronicler of American broadcasting and a participant in the industry for fifty years--first undertook the project of recording its history, many viewed it as a light-weight literary task concerned mainly with entertainment trivia. Indeed, trivia such as that found in quiz programs do appear in the book, but Barnouw views them as part of a complex social tapestry that increasingly defines our era. To understand our century, we must fully comprehend the evolution of television and its newest extraordinary offshoots. With this fact in mind, Barnouw's new edition of *Tube of Plenty* explores the development and impact of the latest dramatic phases of the communications revolution. Since the first publication of this invaluable history of television and how it has shaped, and been shaped by, American culture and society, many significant changes have occurred. Assessing the importance of these developments in a new chapter, Barnouw specifically covers the decline of the three major networks, the expansion of cable and satellite television and film channels such as HBO (Home Box Office), the success of channels catering to special audiences such as ESPN (Entertainment and Sports Programming Network) and MTV (Music Television), and the arrival of VCRs in America's living rooms. He also includes an appendix entitled questions for a new millennium, which will challenge readers not only to examine the shape of television today, but also to envision its future.

**Demographic Vistas** David Marc, 2010-11-24 In *Demographic Vistas*, David Marc shows how we can take television seriously within the humanist tradition while enjoying it on its own terms. To deal with the barrage of messages from television's chaotic history, Marc adapts tools of theatrical and literary criticism to focus on key personalities and genres in ways that reward serious students and casual viewers alike. This updated edition includes a new foreword by Horace Newcomb and a new introduction by the author that discusses the ways in which the nature of television criticism has changed since the book's original publication in 1984. A new final chapter explores the paradox of the diminishing importance of over-the-air broadcasting during the period of television's greatest expansion, which has been brought about by complex technologies such as cable, videocassette recorders, and online services.

**Self-images** André Rival, Klaus Honnef, 1995 André Rival, at home in both Paris and Berlin, has created a fascinating project out of a relatively simple idea: 100 women taking photographs of themselves. The outcome is both startling and impressive. It is an expression of contemporary female identity - self-aware, distinctive and thoroughly positive, in a series of nude photographs that inexorably capture and hold our attention, revealing at the same time the artist's highly creative approach to the medium of photography and to the individual selves of the women portrayed. The author describes his project in this way: We are inundated with pictures of women in the media. Ordinarily, the pictures we see seek to achieve a kind of 'sameness' based on unwritten ideals of beauty; physical perfection, total fitness become the determining factors. These images of women, provoked as they are by the media industry, awakened in me the urge to confront both that industry and myself with something else. I chose to set aside my own ways of thinking and do a series of 100 women in which it was not I who would put together the photographs, but the women themselves. For this purpose, I gave them each a shutter-switch and left the room. That represented the beginning of the attempt to enable the women to become photographic subjects rather than objects; they were left to decide on their own which personal image of themselves they wanted to convey. The conditions were the same for all of the women: the same lighting, the same white background and the same unchanged camera position. It was essential to fix the location of the camera, so that the women did not perceive themselves as being pursued by an 'observer'; instead, they were able to establish distance and camera angle themselves with the aid of a video screen that showed them each camera exposure as a still photo.
