Harlem Grown Tony Hillery, 2020-08-18 “An inspiring picture book for youngsters with meaningful ties to the environment, sustainability, and community engagement.” —Booklist “Hartland’s gouache illustrations wobble endearingly, colorfully capturing the children’s triumph, and the kinetic energy and colorful vibrancy of the city neighborhood.” —Publishers Weekly Discover the incredible true story of Harlem Grown, a lush garden in New York City that grew out of an abandoned lot and now feeds a neighborhood. Once In a big city called New York In a bustling neighborhood There was an empty lot. Nevaeh called it the haunted garden. Harlem Grown tells the inspiring true story of how one man made a big difference in a neighborhood. After seeing how restless they were and their lack of healthy food options, Tony Hillery invited students from an underfunded school to turn a vacant lot into a beautiful and functional farm. By getting their hands dirty, these kids turned an abandoned space into something beautiful and useful while learning about healthy, sustainable eating and collaboration. Five years later, the kids and their parents, with the support of the Harlem Grown staff, grow thousands of pounds of fruits and vegetables a year. All of it is given to the kids and their families. The incredible story is vividly brought to life with Jessie Hartland’s “charmingly busy art” (Booklist) that readers will pore over in search of new details as they revisit this poignant and uplifting tale over and over again. Harlem Grown is an independent, not-for-profit organization. The author’s share of the proceeds from the sale of this book go directly to Harlem Grown.

Judging Hunters and Equitation WTF (Want the Facts?) Julie Winkel, Tricia Booker, 2021-08 The goal of this book is to demystify the subjective process of judging hunters, hunter breeding and equitation. Horse shows have been in existence in the United States for well more than 150 years, and understanding the judging process begins with knowing how foxhunting and its traditions have translated to our modern show ring hunters as well as the equitation ring. Judging WTF delves into the history of showing and how the rules and regulations evolved based on foxhunting. The authors then explain how and why major and minor faults are scored as they are, the process judges use to mark their cards, score and place horses and riders in their respective classes, and outline how to become a judge. They then identify the ideals judges seek in the hunter and equitation rings, strategies to help you improve your performances in the show ring and an analysis of how major competitions are judged. Interspersed within the chapters is advice from top judges throughout the country who offer their own helpful hints to score higher, mistakes to avoid and the best ways to impress them. In addition, the book includes Field

Notes from the authors' experiences judging, reflections of past competitions and personal stories from the judge's booth. Judging WTF will not only unveil the mystery of judging, but it will also entertain, inspire and help you make the most of your partnership with your horse.

From Farm to Canal Street Valerie Imbruce, 2016-02-22 On the sidewalks of Manhattan's Chinatown, you can find

street vendors and greengrocers selling bright red litchis in the summer and mustard greens and bok choy no matter the season. The neighborhood supplies more than two hundred distinct varieties of fruits and vegetables that find their way onto the tables of immigrants and other New Yorkers from many walks of life. Chinatown may seem to be a unique ethnic enclave, but it is by no means isolated. It has been shaped by free trade and by American immigration policies that characterize global economic integration. In *From Farm to Canal Street*, Valerie Imbruce tells the story of how Chinatown's food network operates amid—and against the grain of—the global trend to consolidate food production and distribution. Manhattan's Chinatown demonstrates how a local market can influence agricultural practices, food distribution, and consumer decisions on a very broad scale. Imbruce recounts the development of Chinatown's food network to include farmers from multimillion-dollar farms near the Everglades Agricultural Area and tropical homegardens south of Miami in Florida and small farms in Honduras. Although hunger and nutrition are key drivers of food politics, so are jobs, culture, neighborhood quality, and the environment. Imbruce focuses on these four dimensions and proposes policy prescriptions for the decentralization of food distribution, the support of ethnic food clusters, the encouragement of crop diversity in agriculture, and the cultivation of equity and diversity among agents in food supply chains. Imbruce features farmers and brokers whose life histories illuminate the desires and practices of people working in a niche of the global marketplace.

Lost Inwood Cole Thompson and Don Rice, 2019 Inwood, the northern most neighborhood of Manhattan, has a rich yet little-known history. For centuries, the region remained practically unchanged--a quaint, country village known to early Dutch settlers as Tubby Hook. The subway's arrival in the early 1900s transformed the area, once scorned as ten miles from a beefsteak, from farm to city virtually overnight. The same construction boom sparked an age of neighborhood self-discovery, when vestiges of the past--in the form of mastodon bones, arrowheads, colonial pottery, Revolutionary War cannonballs, and forgotten cemeteries--emerged from the earth. Waves of German, Irish, and Dominican immigrants subsequently produced a vibrant urban oasis with a big-city/small-town feel. Inwood has also been home to wealthy country estates, pre-integration sports arenas, and a lively waterfront culture. Famous residents have included NBA legend Kareem Abdul-Jabbar, Basketball Diaries author Jim Carroll, and Hamilton creator/star Lin-Manuel Miranda.--Publisher's description

Urban Appetites Cindy R. Lobel, 2014-04-28 Glossy magazines write about them, celebrities give their names to them, and you'd better believe there's an app (or ten) committed to finding you the right one. They are New York City restaurants and food shops. And their journey to international notoriety is a captivating one. The now-booming food capital was once a small seaport city, home to a mere six municipal food markets that were stocked by farmers, fishermen, and hunters who lived in the area. By 1890, however, the city's population had grown to more than one million, and residents could dine in thousands of restaurants with a greater abundance and variety of options than any other place in the United States. Historians, sociologists, and foodies alike will devour the story of the origins of New York City's food industry in *Urban Appetites*. Cindy R. Lobel focuses on the rise of New York as both a metropolis and a food capital, opening a new window onto the intersection of the cultural, social, political, and economic transformations of the nineteenth century. She offers wonderfully detailed accounts of public markets and private food shops; basement restaurants and immigrant diners serving favorites from the old country; cake and coffee shops; and high-end, French-inspired eating houses made for being seen in society as much as for dining. But as the food and the population became increasingly cosmopolitan, corruption, contamination, and undeniably inequitable conditions escalated. *Urban Appetites* serves up a complete picture of the evolution of the city, its politics, and its foodways.
