A Blueprint for Coastal Adaptation Carolyn Kousky, Billy Fleming, Alan M. Berger, 2021-05-20 Tens of millions of Americans are at risk from sea level rise, increased tidal flooding, and intensifying storms. A Blueprint for Coastal Adaptation identifies a bold new research and policy agenda and provides implementable options for coastal communities responding to these threats. In this book, coastal adaptation experts present a range of climate adaptation policies that could protect coastal communities against increasing risk, including concrete financing recommendations. Coastal adaptation will not be easy, but it is achievable using varied approaches. A Blueprint for Coastal Adaptation will inspire innovative and cross-disciplinary thinking about coastal policy at the state and local level while providing actionable, realistic policy and planning options for adaptation professionals and policymakers.

Papua New Guinea International Monetary Fund. Asia and Pacific Dept, 2023-12-06 Background. On March 22, 2023, the IMF Executive Board approved 38-month Extended Credit Facility (ECF) and Extended Fund Facility (EFF) arrangements with Papua New Guinea to help address a protracted balance of payments need manifested in foreign exchange shortages and to support the authorities' reforms to address long-standing structural impediments to inclusive growth. While ambitious, the program is focused on macro-critical conditionality, supported by capacity development (CD), and informed by a Country Engagement Strategy, in line with the IMF's Strategy for Fragile and Conflict-Affected States (FCS).

Together Resilient Ma'ikwe Ludwig, 2017 Advocates for citizen-led, community-based action first and foremost, instead of waiting for government to take action on climate change. From small solutions to the full re-invention of the systems we find ourselves in, Ludwig mixes anecdote with data-based research to offer readers a wide range of options that all embody compassion, creativity, and cooperation. --Adapted from publisher description.

Roots and tubers value chain development and food and nutrition security - PNG Wera, B.,2017-02-01 Root and tuber crops (RTC) are important dietary staples and food security crops for the people of Papua New Guinea (PNG) and Pacific Islands. However, the productivity of RTCs remains almost static, reflecting the agro-technological and socio-economic constraints to production, while consumption is challenged by high imports of cheap cereal products. Research and development (R&D) on RTCs receives little attention compared to other established commodity crops like coffee, oil palm, coconut and cocoa.

State Fragility Nematullah Bizhan,2022-09-27 Presenting case studies and comparisons across seven countries, this book addresses key questions as to the nature of state fragility, policies used to mitigate it, assessment of outcomes and prospects. It offers a novel empirical contribution in examining a range of distinct but interdependent dimensions of state fragility, not only focusing on questions of state legitimacy, capacity and authority, but also involving the economy and resilience to political and economic shocks, as well as at vital questions of context and diversity. Examining Afghanistan, Lebanon, Burundi, Pakistan, Sierra Leone, Papua New Guinea and Rwanda within the context of their different local circumstances, and within broader questions of global security, the book identifies unique factors that have played a part in their specific context and explores key drivers and dominant features. This book will be of key interest to scholars and students of state fragility and more broadly to students of politics, public policy, development studies, state-society relations, political economy, state building, peace and conflict studies, international studies, security studies regional studies., as well as NGOs and international organizations.

The Routledge International Handbook of Indigenous Resilience Hilary N. Weaver, 2021-12-30 This handbook provides a comprehensive and cutting-edge strengths-based resource on the subject of Indigenous resilience. Indigenous Peoples demonstrate considerable resilience despite the social, health, economic, and political disparities they experience within surrounding settler societies. This book considers Indigenous resilience in many forms: cultural, spiritual, and governance traditions remain in some communities and are being revitalized in others to reclaim aspects of their cultures that have been outlawed, suppressed, or undermined. It explores how Indigenous people advocate for social justice and work to shape settler societies in ways that create a more just, fair, and equitable world for all human and non-human beings. This book is divided into five sections: From the past to the future Pillars of Indigeneity The power in Indigenous identities The natural world Reframing the narrative: from problem to opportunity Comprised of 25 newly commissioned chapters from Indigenous scholars, professionals, and community members from traditions around the world, this book will be a useful tool for anyone seeking a deeper understanding of manifestations of wellness and resilience. This handbook will be of particular interest to all scholars, students, and practitioners of social work, social care, and human services more broadly, as well as those working in sociology, development studies, and environmental sustainability.

Engendering Transformative Change in International Development Gillian Fletcher, 2018-09-21 The Sustainable Development Goals were launched in 2015 with grand ambitions for ending poverty, protecting the planet, and ensuring prosperity for all, with 'no one left behind'. However, these goals will be impossible to achieve without addressing inequity, inequality, marginalisation, and exclusion related to gender, and to other intersecting social hierarchies linked to deeply emotional, culturally bound norms and judgements of worth. This book asks readers to consider issues of knowledge, power, and effectiveness, emphasising the limits of taking a categorical approach to gender and other social hierarchies, and the importance of process in what is known about generating transformative social change. Engendering Transformative Thinking and Practice in International Development draws on a range of real world examples which demonstrate both the limitations of the frameworks currently in use, and the very real possibilities for change when the intersecting social hierarchies that sustain and create inequity and inequality are challenged. This book brings together theoretical perspectives on social change, gender, intersectionality, and forms of knowledge, concluding with a set of proposals for revitalising a change agenda that recognises and engages with intersectionality and practical wisdom. Perfect for students and scholars of social change, gender, and development, this book will also be useful for practitioners looking for new ideas to help to

generate social change.

Resilience for All Barbara Brown Wilson, 2018-05-24 In the United States, people of color are disproportionately more likely to live in environments with poor air quality, in close proximity to toxic waste, and in locations more vulnerable to climate change and extreme weather events. In many vulnerable neighborhoods, structural racism and classism prevent residents from having a seat at the table when decisions are made about their community. In an effort to overcome power imbalances and ensure local knowledge informs decision-making, a new approach to community engagement is essential. In *Resilience for All*, Barbara Brown Wilson looks at less conventional, but often more effective methods to make communities more resilient. She takes an in-depth look at what equitable, positive change through community-driven design looks like in four communities—East Biloxi, Mississippi; the Lower East Side of Manhattan; the Denby neighborhood in Detroit, Michigan; and the Cully neighborhood in Portland, Oregon. These vulnerable communities have prevailed in spite of serious urban stressors such as climate change, gentrification, and disinvestment. Wilson looks at how the lessons in the case studies and other examples might more broadly inform future practice. She shows how community-driven design projects in underserved neighborhoods can not only change the built world, but also provide opportunities for residents to build their own capacities.

Option B Sheryl Sandberg, Adam Grant, 2017-04-24 #1 New York Times Best Seller Named a Best Book of 2017 by Barnes & Noble and Amazon From Facebook's COO and Wharton's top-rated professor, the #1 New York Times best-selling authors of *Lean In* and *Originals*: a powerful, inspiring, and practical book about building resilience and moving forward after life's inevitable setbacks. After the sudden death of her husband, Sheryl Sandberg felt certain that she and her children would never feel pure joy again. "I was in 'the void,'" she writes, "a vast emptiness that fills your heart and lungs and restricts your ability to think or even breathe." Her friend Adam Grant, a psychologist at Wharton, told her there are concrete steps people can take to recover and rebound from life-shattering experiences. We are not born with a fixed amount of resilience. It is a muscle that everyone can build. Option B combines Sheryl's personal insights with Adam's eye-opening research on finding strength in the face of adversity. Beginning with the gut-wrenching moment when she finds her husband, Dave Goldberg, collapsed on a gym floor, Sheryl opens up her heart—and her journal—to describe the acute grief and isolation she felt in the wake of his death. But Option B goes beyond Sheryl's loss to explore how a broad range of people have overcome hardships including illness, job loss, sexual assault, natural disasters, and the violence of war. Their stories reveal the capacity of the human spirit to persevere . . . and to rediscover joy. Resilience comes from deep within us and from support outside us. Even after the most devastating events, it is possible to grow by finding deeper meaning and gaining greater appreciation in our lives. Option B illuminates how to help others in crisis, develop compassion for ourselves, raise strong children, and create resilient families, communities, and workplaces. Many of these lessons can be applied to everyday struggles, allowing us to brave whatever lies ahead. Two weeks after losing her husband, Sheryl was preparing for a father-child activity. "I want Dave," she cried. Her friend replied, "Option A is not available," and then promised to help her make the most of Option B. We all live some form of Option B. This book will help us all make the most of it.

Partnering for Development Asian Development Bank, 2014-03-01 This publication is targeted at current and prospective official financiers of the Asian Development Bank's grant and loan operations. It explains the wide range of financing options available to partners seeking to expand their commitment to developing the Asia and Pacific region. It also provides case studies showing how donor contributions make service delivery more effective and how they improve the lives of poor people. Finally, this publication outlines where donor funds can best support ADB's core areas of operation under Strategy 2020.

Rethinking Resilience, Adaptation and Transformation in a Time of Change Wanglin Yan, Will Galloway, 2017-03-21 This book contributes to the literature on resilience, hazard planning, risk management, environmental policy and design, presenting articles that focus on building resilience through social and technical means. Bringing together contributions from Japanese authors, the book also offers a rare English-language glimpse into current policy and practice in Japan since the 2011 Tohoku disaster. The growth of resilience as a common point of contact for fields as disparate as economics, architecture and population politics reflects a shared concern about our capacity to cope with and adapt to change. The ability to bounce back from hardship and disaster is essential to all of our futures. Yet, if such ability is to be sustainable, and not rely on a "brute force" response, innovation will need to become a core practice for policymakers and on-the-ground responders alike. The book offers a valuable reference guide for graduate students, researchers and policy analysts who are looking for a holistic but practical approach to resilience planning.

Japanese Perceptions of Papua New Guinea Ryota Nishino, 2022-09-08 *Japanese Perceptions of Papua New Guinea* exposes the interactions between two ostensibly opposing worlds: war and travel. While soldiers deployed to Eastern New Guinea during the Second World War recalled first-hand their experience of war, post-war tourists visited battle-sites, met locals, and drew their own conclusions about the Pacific island from the Japanese media. This book, in bringing travel and war closer together through a comparative analysis of veterans' memoirs and the records of postwar travelers, explores how individuals consume, create, and recreate war histories. As a result, Ryota Nishino reveals the extent to which the memory of defeat - for both soldiers and civilians alike - influenced the Japanese perceptions of Papua New Guinea and shaped future relations between the countries. Translating a diverse range of Japanese primary and archival sources, this book provides the first English-language analysis of the social and political impact of Japanese interpretations of the PNG campaign and its aftermath. As such, *Japanese Perceptions of Papua New Guinea: War, Travel and the Reimagining of History* is an important text for anyone seeking a sophisticated understanding of war, nationalism, and memory culture in Japan and the Pacific Islands.
