Gravity Jason Chin, 2014-04-29 What keeps objects from floating out of your hand? What if your feet drifted away from the ground? What stops everything from floating into space? Gravity. As in his previous books, *Redwoods*, *Coral Reefs*, and *Island*, Jason Chin has taken a complex subject and made it brilliantly accessible to young readers in this unusual, innovative, and very beautiful book. Chin's approach makes this book a must-have common core tool for teachers and librarians introducing scientific principals to young students. A Neal Porter Book

Martina's Kitchen Mix Martina McBride, 2018-10-30 To country music icon Martina McBride, cooking and singing aren't all that different. When she makes something delicious, she wants to share it, which is a lot like sharing her music with an audience. When she's not on stage or in the studio, Martina is most likely experimenting in the kitchen and cooking with family and friends. Growing up on a farm in Kansas, Martina began helping her mother in the kitchen at an early age, preparing fresh-from-the-field ingredients. Meals and stories were shared daily around the table. It's a tradition she continues with her own family as often as she can because real life is what's worth celebrating. In this gorgeously photographed cookbook, readers will find more than 100 simple and satisfying recipes filled with fresh, seasonal ingredients and downhome flavor. Martina encourages cooking outside the lines and shows you how to make cooking fun with creative ad-lib tips for recipe riffs you might consider. Mix things up in the kitchen and create your own delicious memories with her inspired recipes to feed a handful or a houseful. Whip up Martina's family favorites like her mother-in-law Flavia's Deviled Eggs, husband John's Bacon-Wrapped Olives, or her go-to Grilled Shrimp Tacos with Chipotle Sauce and Slaw. Plan a weekend brunch menu, serving Baked French Toast with Pecan Crumble and Blackberry-Maple Syrup and Hashbrown Breakfast Casserole with Tomato Gravy. Toast friends at happy hour with her Blackberry-Lemon Gin & Tonic while enjoying Grilled Sweet Peppers with Goat Cheese and Herbs. And when it's time to celebrate with family and indulge in dessert, try Martina's Fresh Apple Cake with Homemade Caramel Sauce or No-Bake Peanut Butter-Chocolate Cookies.

A Change of Appetite Diana Henry, 2016-10-20 What happened when one of today's best-loved food writers had a change of appetite? Here are the dishes that Diana Henry created when she started to crave a different kind of diet - less meat and heavy food, more vegetable-, fish-, and grain-based dishes - often inspired by the food of the Middle East and Far East, but also drawing on cuisines from Georgia to Scandinavia. In her year of good eating, Diana lost weight, but this was about much

more than weight loss - lead by taste, it was about discovering a healthier, fresher way of eating. From a Cambodian salad of shrimps, grapefruit, toasted coconut, and mint or North African mackerel with cumin to blood orange and cardamom sorbet, the magical dishes in this book are bursting with flavor, with goodness and with color. Peppering the recipes is Diana's inimitable writing on everything from the miracle of broth to the great carbohydrate debate. Above all, this is about opening up our palates to new possibilities. There is no austerity here, simply fabulous food that nourishes body and soul.

Pie Is for Sharing Stephanie Parsley Ledyard, 2018-05-15 You're invited to a glorious Fourth of July picnic where you'll learn all about sharing, the good things along with the bad--

Undeniable Bill Nye, 2014-11-04 Revealing the mechanics of evolutionary theory, the scientist, engineer and inventor presents a compelling argument for the scientific unviability of creationism and insists that creationism's place in the science classroom is harmful not only to our children, but to the future of the greater world as well.

Maybe... Chris Haughton, 2021-11-30 A trio of misbehaving, mango-loving monkeys have a close call as the creator of Don't Worry, Little Crab gives readers a taste of vicarious mischief. Three little monkeys and their big monkey are sitting high on a branch in the forest canopy. "OK, monkeys! I'm off, says the big monkey. "Remember . . . Whatever you do, do NOT go down to the mango tree. There are tigers down there." Mmm . . . mangoes! think the little monkeys. They LOVE mangoes. Hmm . . . Maybe . . . maybe they could just look at the mangoes. That would be OK, right? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton is back with a deliciously suspenseful cautionary tale about pushing boundaries—and indulging your more impish side (when nobody is looking).

Goodnight Everyone Chris Haughton, 2021-07-06 From the creator of Shh! We Have a Plan comes a mesmerizing bedtime tale of a forest settling into slumber and one little bear trying to stay awake. The sun is setting, and everyone in the forest is getting sleepy. The mice, rabbits, and deer all give great big yawns as they snuggle up with their families for the night. But someone isn't sleepy just yet. Little Bear thinks he can stay awake a bit longer. Can he do it? Chris Haughton's bold and vibrant illustrations will captivate little ones eager to stay up just a teeny bit longer, while sweet depictions of animals cozing up in their beds for the night will soon have them yawning off to a dreamland of their own.

Don't Worry, Little Crab Chris Haughton, 2020-04-07 From the award-winning creator of *Shh! We Have a Plan* comes a vibrantly colorful story about mustering the courage to try something new. Little Crab and Very Big Crab live in a tiny rock pool near the sea. Today they're going for a dip in the big ocean. "This is going to be so great," says Little Crab, splish-splashing and squelch-squelching along, all the way to the very edge. Then comes a first glance down at the waves. WHOOSH! Maybe it's better if they don't go in? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton shows that sometimes a gentle "don't worry, I'm here" can keep tentative little crabs sidestepping ahead — and help them discover the brilliant worlds that await when they take the plunge.

Jean Dubuffet Eleanor Nairne, 2021-05-04 Featuring newly commissioned essays and photography of rarely exhibited works, this book highlights the radicalism of Jean Dubuffet, who was one of the most provocative voices of the postwar avant-garde. In 1940s occupied Paris, Jean Dubuffet began to champion a progressive vision for art; one that rejected classical notions of beauty in favor of a more visceral aesthetic. Taking a pioneering approach to materiality and technique, the artist variously blended paint with sand, glass, tar, coal dust, and string. At the same time, he began to assemble a collection of Art Brut-work that was made outside the academic tradition of fine art—even visiting psychiatric wards from 1945 to collect work by patients. This book features texts from leading scholars and is accompanied by images that illuminate Dubuffet's attempts to move beyond the artistic expectations of his time. The works are grouped into six thematic sections that focus on specific series, from his graffiti-inspired Walls and his notorious portrait series, *People are Much More Beautiful Than They Think to the Corps de dames*, a controversial series of female landscapes, and his anthropomorphic sculptures, *Little Statues of Precarious Life*. Exquisitely produced, this celebration of Dubuffet's work embraces his world view that art is for everyone, not just the elite.

Mah Jongg: The Art of the Game Ann Israel, Gregg Swain, 2014-11-18 I thoroughly enjoyed this book. Whether used as a reference or a beautiful keepsake, it's a very worthy addition to the world of Mah Jongg. —Ruth Unger, President, National Mah Jongg League This is the first book to fully capture the story of the exotic and exciting game of Mahjong or Mah Jongg, offering an intimate look at the history of the game as well as the visual beauty of the tiles. When authors Ann Israel and Gregg Swain began playing Mahjong, they were unaware of the vintage collections that existed not only in the United States but also across the globe. Slowly, they started to collect their own sets of Mahjong and as their collections grew, so did their appreciation of the history of, and interest in, the game. Finding few references, Israel and Swain set out to create a book that chronicles the early beginnings of the game and documents Mahjong sets from the most basic, made simply of paper, to the most precious materials such as ivory and mother-of-pearl. Recognized and respected scholars and game experts have

collaborated with Israel and Swain, contributing important chapters on the game's history and its pieces as well as technical information on the tiles. Lastly, great collectors from around the globe have shared their incredible sets and memories for the first time in one book for everyone to enjoy. With hundreds of beautiful new images by renowned photographer Michel Arnaud, and including historical documentation and ephemera, *Mah Jongg: The Art of the Game* fills the void between the past's and today's game, providing vision, inspiration and resources. Anyone who has ever been intrigued by a Mahjong tile will find in these pages visually stunning photographs that will entice them into becoming an enthusiast of the timeless game of Mahjong.

Purposeful Play Kristine Mraz, Alison Porcelli, Cheryl Tyler, 2016 Play is serious business. Whether it's reenacting a favorite book (comprehension and close reading), negotiating the rules for a game (speaking and listening), or collaborating over building blocks (college and career readiness and STEM), Kristi Mraz, Alison Porcelli, and Cheryl Tyler see every day how play helps students reach standards and goals in ways that in-their-seat instruction alone can't do. And not just during playtimes. We believe there is play in work and work in play, they write. It helps to have practical ways to carry that mindset into all aspects of the curriculum. In *Purposeful Play*, they share ways to: optimize and balance different types of play to deepen regular classroom learning teach into play to foster social-emotional skills and a growth mindset bring the impact of play into all your lessons across the day. We believe that play is one type of environment where children can be rigorous in their learning, Kristi, Alison, and Cheryl write. So they provide a host of lessons, suggestions for classroom setups, helpful tools and charts, curriculum connections, teaching points, and teaching language to help you foster mature play that makes every moment in your classroom instructional. Play doesn't only happen when work is over. Children show us time and time again that play is the way they work. In *Purposeful Play*, you'll find research-driven methods for making play an engine for rigorous learning in your classroom.

My New New York Diary Julie Doucet, Michel Gondry, 2010 In 2008, the famed director Michel Gondry wrote to legendary

cartoonist Julie Doucet - author of *My New York Diary* - to propose that they make a film together. Little did Gondry and Doucet know that the process itself would be the film and that they'd soon be starring in a 'reality' comic and film of their own devising. They settled on a process that involved inserting the real Julie into a landscape of her own drawings to create a magical, touching film. This archive collects all of Doucet's drawings as well as a DVD of the film, in a deluxe, hardcover volume.

Zoe Leonard Douglas Crimp, 2018 Accompanying a major museum survey of the work of Zoe Leonard, this gorgeous book offers an in-depth look at one of the most influential artists of her generation.
