Hilma Af Klint David Lomas,Pascal Rousseau,Helmut Zander,Hilma af Klint,2013 Hilma af Klint (1862-1944), an artist whose work is still far too unknown to a wider public, eschewed representational painting as early as 1906. Between 1906 and 1915 she produced nearly two hundred abstract paintings, some of which are in monumental formats. Like Wassily Kandinsky, Piet Mondrian, and Kazimir Malevich, who have previously been regarded as the main protagonists of abstract art, Hilma af Klint was influenced by contemporary spiritual movements, such as spiritism, theosophy, and anthroposophy. Her multifaceted imagery strives to provide insight into the different dimensions of existence, where microcosm and macrocosm reflect one another. Hilma af Klint left more than one thousand paintings, watercolors, and sketches. This publication presents her most important abstract works as well as paintings and works on paper that have never before been seen in public, enhancing our understanding of her oeuvre. Public Value Adam Lindgreen,Nicole Koenig-Lewis,Martin Kitchener,John D Brewer,Mark H. Moore,Timo Meynhardt,2019-05-08 Over the last 10 years, the concept of value has emerged in both business and public life as part of an important process of measuring, benchmarking, and assuring the resources we invest and the outcomes we generate from our activities. In the context of public life, value is an important measure on the contribution to business and social good of activities for which strict financial measures are either inappropriate or fundamentally unsound. A systematic, interdisciplinary examination of public value is necessary to establish an essential definition and up-to-date picture of the field. In reflecting on the 'public value project', this book points to how the field has broadened well beyond its original focus on public sector management; has deepened in terms of the development of the analytical concepts and frameworks that linked the concepts together; and has been applied increasingly in concrete circumstances by academics, consultants, and practitioners. This book covers three main topics; deepening and enriching the theory of creating public value, broadening the theory and practice of creating public value to voluntary and commercial organisations and collaborative networks, and the challenge and opportunity that the concept of public value poses to social science and universities. Collectively, it offers

new ways of looking at public and social assets against a backdrop of increasing financial pressure; new insights into changing social attitudes and perceptions of value; and new models for increasingly complicated collaborative forms of service delivery, involving public, private, and not-for-profit players.

Celia, a Slave Barbara Seyda, 2016-08-23 The winner of the 2015 Yale Drama Series playwriting competition was selected by Nicholas Wright, former Associate Director of London's Royal Court. Barbara Seyda's stunningly theatrical *Celia, a Slave* is a vivid tableau of interviews with the dead that interweaves oral histories with official archival records. Powerful, poetic, and stylistically bold, this work foregrounds twenty-three diverse characters to recall the events that led to the hanging of nineteen-year-old Celia, an African American slave convicted in a Missouri court of murdering her master, the prosperous landowner Robert Newsom, in 1855. Excavating actual trial transcripts and court records, Seyda bears witness to racial and sexual violence in U.S. history, illuminating the brutal realities of female slave life in the pre-Civil War South while exploring the intersection of rape, morality, economics, and gender politics that continue to resonate today.

Everyday Blackness Parvathi Kumar, 2021-02-23 This project celebrates everyday Black women through portraiture and supporting text. I use the power and universality of photography to show Black women in a positive, realistic, and honest light. They defy stereotypes, forge unique paths, and are exemplars of courage, tenacity, and resilience. This work promotes our similarities as human beings and dispels the notion that people of color are to be feared. Instead, it offers joy, insight, and inspiration.

The Ground Between Veena Das, Michael D. Jackson, Arthur Kleinman, Bhrigupati Singh, 2014-04-21 The guiding inspiration of this book is the attraction and distance that mark the relation between anthropology and philosophy. This theme is explored through encounters between individual anthropologists and particular regions of philosophy. Several of the most basic concepts of the discipline—including notions of ethics, politics, temporality, self and other, and the nature of human life—are products of a dialogue, both implicit and explicit, between anthropology and philosophy. These philosophical undercurrents in anthropology also speak to the question of what it is to experience our being in a world marked by radical difference and otherness. In *The Ground Between*, twelve leading anthropologists offer intimate reflections on the influence of particular philosophers on their way of seeing the world, and on what ethnography has taught them about philosophy. Ethnographies of the mundane and the everyday raise fundamental issues that the contributors grapple with in both their lives and their thinking. With directness and honesty, they relate particular philosophers to matters such as how to respond to the suffering of the other, how concepts arise in the give and take of everyday life, and how to be attuned to the world through the senses. Their essays challenge the idea that philosophy is solely the province of professional philosophers, and suggest that certain modalities of being in the world might be construed as ways of doing philosophy. Baton Basics Diane Wittry, 2014-10-01 *Baton Basics* offers a unique approach to teaching conducting based upon the concept of conveying weight, resistance, and energy in order to communicate a better concept of musical sound to the musicians. Featuring many detailed drawings and access to over 60 video examples on the companion website, *Baton Basics* guides conductors away from simply marking beat patterns, and towards a nuanced and phrased musicality that can be communicated to a group of musicians. *Baton Basics* is a key foundational text for the student and experienced conductor alike, and is a must read for anyone interested in improving and expanding their vocabulary of conducting gestures.

The Power of Denial Bernard Faure, 2009-01-10 Innumerable studies have appeared in recent decades about practically every aspect of women's lives in Western societies. The few such works on Buddhism have been quite limited in scope. In *The Power of Denial*, Bernard Faure takes an important step toward redressing this situation by boldly asking: does Buddhism offer women liberation or limitation? Continuing the innovative exploration of sexuality in Buddhism he began in *The Red Thread*, here he moves from his earlier focus on male monastic sexuality to Buddhist conceptions of women and constructions of gender. Faure argues that Buddhism is neither as sexist nor as egalitarian as is usually thought. Above all, he asserts, the study of Buddhism through the gender lens leads us to question what we uncritically call Buddhism, in the singular. Faure challenges the conventional view that the history of women in Buddhism is a linear narrative of progress from oppression to liberation. Examining Buddhist discourse on gender in traditions such as that of Japan, he shows that patriarchy--indeed, misogyny--has long been central to Buddhism. But women were not always silent, passive victims. Faure points to the central role not only of nuns and mothers (and wives) of monks but of female mediums and courtesans, whose colorful relations with Buddhist monks he considers in particular. Ultimately, Faure concludes that while Buddhism is, in practice, relentlessly misogynist, as far as misogynist discourses go it is one of the most flexible and open to contradiction. And, he suggests, unyielding in-depth examination can help revitalize Buddhism's deeper, more ancient egalitarianism and thus subvert its existing gender hierarchy. This groundbreaking book offers a fresh, comprehensive understanding of what Buddhism has to say about gender, and of what this really says about Buddhism, singular or plural.

A Geopolitics of Academic Writing A. Suresh Canagarajah, 2002 This work acts as a critique of current scholarly publishing practices, exposing the inequalities in the way academic knowledge is constructed and legitimized. It examines three broad conventions governing academic writing: textual concerns, social customs, and publishing practices.

The Art of the Sister Chapel Dr Andrew D Hottle, 2014-07-28 The Sister Chapel (1974-78) was an important collaborative installation that materialized at the height of the women's art movement. It consisted of an eighteen-foot ceiling that hung above eleven canvases - each depicting the figure of a heroic woman - portrayed by distinguished New York painters. Based on previously-unpublished archival material, this study details the fascinating history of The Sister Chapel, its constituent paintings, and its ambitious creators.

Alice In Leatherland Iolanda Zanfardino, 2021-11-09 "This romantic comedy, written by Iolanda Zanfardino and Elisa Romboli, who are a couple, is most assuredly for adults: The story depicts — sometimes with little left to the imagination — the ups and downs of casual sex." (-The New York Times) Alice, a young writer of children's story books, is hurtled out of her fairytale-like life when she discovers her girlfriend has been cheating on her! Charmingly defiant, she leaves her small forest town and leaps into a new adventure to seek love (and find herself) in the fast life of San Francisco. There, her concept of pure, magical love will be completely overturned—but her biggest challenge won't be reckoning with other people's sexual drive, it'll be getting a grip on her own! From your new favorite writer and artist team of Iolanda Zanfardino and Elisa Romboli, *Alice In Leatherland* is a comedy about sex and so, inevitably, about every other aspect of life, too. As Iolanda and Elisa describe the book: "Sex is recounted as a way to investigate our relationship with ourselves and others, with our bodies and our place in the world; sexual pleasure as self-affirmation and growth. There is room for Love, too, and bravery. And for many good laughs, that never hurts."

Cultural Economy Paul du Gay, Michael Pryke, 2002-01-31 Phrases such as 'corporate culture', 'market culture' and the 'knowledge economy', have now become familiar clarion calls in the world of work. They are calls that have echoed through organizations and markets. Clearly something is happening to the ways markets and organizations are being represented and intervened in and this signals a need to reassess their very constitution. In particular, the once clean divide that placed the economy, dealt with mainly by economists, on one side, and culture, addressed chiefly by those in anthropology, sociology and the other 'cultural sciences', on the other, can no longer hold. This volume presents the work of an international group of academics from a range of disciplines including sociology, media and cultural studies, social anthropology and geography, all of whom are involved not only in thinking 'culture' into the economy but thinking culture and economy together.

Handbook of Principles of Organizational Behavior Edwin Locke, 2011-07-15 There is a strong movement today in management to encourage management practices based on research evidence. In the first volume of this handbook, I asked experts in 39 areas of management to identify a central principle that summarized and integrated the core findings from

their specialty area and then to explain this principle and give real business examples of the principle in action. I asked them to write in non-technical terms, e.g., without a lot of statistics, and almost all did so. The previous handbook proved to be quite popular, so I was asked to edit a second edition. This new edition has been expanded to 33 topics, and there are some new authors for the previously included topics. The new edition also includes: updated case examples, updated references and practical exercises at the end of each chapter. It also includes a preface on evidence-based management. The principles for the first edition were intended to be relatively timeless, so it is no surprise that most of the principles are the same (though some chapter titles include more than one principle). This book could serve as a textbook in advanced undergraduate and in MBA courses. It could also be of use to practicing managers and not just those in Human Resource departments. Every practicing manager may not want to read the whole book, but I am willing to guarantee that every one will find at least one or more chapters that will be practically useful. In this time of economic crisis, the need for effective management practices is more acute than ever.

Addiction and Art Patricia B. Santora, Margaret L. Dowell, Jack E. Henningfield, 2010-06-01 Highly Commended in Psychiatry, 2011 BMA Medical Book Awards. British Medical Association Addiction to alcohol, tobacco, and other drugs is one of the major public health issues of our time. It accounts for one of every five deaths in the United States and costs approximately one-half trillion dollars per year in health care expenditures and lost productivity. Its human costs are untold and perhaps uncountable. Addiction and Art puts a human face on addiction through the creative work of individuals who have been touched by it. The art included here presents unique stories about addiction. Many pieces are stark representations of life on the edge. Others are disturbing contemplations of life, meaning, and death. Some even reflect the allure of addiction and a fondness for substance abuse. A panel of addiction scientists, artists, and professionals from the art world selected the 61 pieces included here from more than 1,000 submissions. Accompanied by a written statement from the artist, each creation is emblematic of the destructive power of addiction and the regenerative power of recovery. Stunning and occasionally unsettling, this unique portfolio reveals addiction art as a powerful complement to addiction science.
