Birds of New Guinea Bruce M. Beehler, Thane K. Pratt, 2016-03-29 New Guinea, the largest tropical island, supports a spectacular bird fauna characterized by cassowaries, megapodes, pigeons, parrots, kingfishers, and owlet-nightjars, as well as the iconic birds of paradise and bowerbirds. Of the nearly 800 species of birds recorded from New Guinea, more than 350 are found nowhere else on Earth. This comprehensive annotated checklist of distribution, taxonomy, and systematics of the birds of New Guinea is the first formal review of this avifauna since Ernst Mayr's Checklist, published in 1941. This new book brings together all the systematic, taxonomic, and distributional research conducted on the region's bird families over the last 70 years. Bruce Beehler and Thane Pratt provide the scientific foundation for the names, geographic distributions, and systematic arrangement of New Guinea's bird fauna. All technical information is annotated and a geographic gazetteer and bibliography are included. This book is an ideal complement to the Birds of New Guinea field guide also published by Princeton, and is an essential technical reference for all scientific libraries, ornithologists, and those interested in bird classification. The first complete revision of the New Guinea bird fauna since 1941 Accounts for 75 bird species new to the region Includes a geographic gazetteer, bibliography, and explanations of taxonomic and systematic classifications

Web-Age Information Management Lei Chen, Changjie Tang, Jun Yang, Yunjun Gao, 2010-06-30 Lecture Notes in Computer Science The LNCS series reports state-of-the-art results in computer science research, development, and education, at a high level and in both printed and electronic form. Enjoying tight cooperation with the R&D community, with numerous individuals, as well as with prestigious organizations and societies, LNCS has grown into the most comprehensive computer science research forum available. The scope of LNCS, including its subseries LNAI and LNBI, spans the whole range of computer science and information technology including interdisciplinary topics in a variety of application fields. The type of material published traditionally includes proceedings (published in time for the respective conference) post-proceedings (consisting of thoroughly revised final full papers) research monographs (which may be based on outstanding Phi) work, research projects, technical reports, etc.) More recently, several color-cover sublines have been added featuring, beyond a collection of papers, various added-value components; these sublines include tutorials (textbook-like monographs or collections of lectures given at advanced courses) state-of-the-art surveys (offering complete and mediated coverage of a topic) hot topics (introducing emergent topics to the broader community)

The Cursed Shaun Herbert, 2015-03-17 When Jack Edmunds, a reporter for the Daily Tribune visits the quiet backwater village of Ellsworth, North Yorkshire he gets a little more than he bargained for. Witness to the casting of an ancient gypsy curse following allegations of corruption by the authorities- Jack along with Suzie Brown, his accomplice, are drawn into an ever increasing maelstrom of events and strange happenings beyond belief. Cut off from the outside world the village of Ellsworth rapidly descends into a bizarre blood-bath of demonic possession as friend turns against friend in a frenzied of unstoppable carnage. Can the realms of superstition be as tangible as they seem or are they merely a form of self-imposed psycho-babble that preys upon the mind? Either way their journey won't be easy as they confront an ever increasing maelstrom of sinister events, exposing them to the darker side of human nature at its worst.

My Christmas Boyfriend S J Crabb, 2017-06-10 Full of love, sparkle, secrets, log fires, mistletoe, friends and much-loved traditions. An explosion of everything Christmas in a book. After what is going down in history as the worst day of her life, Annie Anderson finds herself on a train heading home for Christmas. Going against all the laws of travelling on British Rail, she strikes up a conversation with the angry man opposite. After downing his supply of brandy (residing in a convenient hip flask) they soon discover they have something in common. He needs a girlfriend, and she needs a boyfriend – for Christmas, anyway. In a haze of brandy fumes, she agrees to be his date to a family wedding. In return, he will accompany her home and play the role of her boyfriend for Christmas. But when the snow melts and the fairy lights dim, they discover they're not pretending anymore? Then reality bites and the dream is over and Annie is facing a bleak year ahead. Will the New Year prove as disastrous as the last one or will her Christmas wish come true? Be prepared for Christmas overload. Lavish parties, candlelit tables surrounded by festive foliage, delicious scents of cinnamon mixing with cider and spice create magical memories.
