ONE EVERYONE Ann Hamilton, 2020-03-21 Ohio State students, faculty and staff were photographed by artist and professor Ann Hamilton through a semi-transparent membrane that registers in focus only what immediately touches its surface while rendering more softly the gesture or outline of the body. In these images, touch-something we feel more than we see-is visible. In them, we feel the glance of cloth's fall, the weight of a hand, the press of a cheek, the possibility of recognition in portraits haunted by contact. Standing behind the semi-opaque film, one can hear but can not see, hidden until stepping toward the surface, guided by my voice. Each press of the object, the face, a hand, or cloth touching the membrane is revealed in focus, the shallow depth of field a consequence of the membrane's optical qualities. The images made in this exchange-between a subject that offers self or object and a voice that stands in for the visually absent camera-record an interiority that is perhaps more private, more vulnerable than the self we offer up in the world of a constantly present camera. Following and trusting the voice while having a sense of being hidden makes a space for this vulnerability. Each image is a tactile register of an exchange.

A Chorus Line Edward Kleban, James Kirkwood, Michael Bennett, Nicholas Dante, Marvin Hamlisch, Frank Rich, Samuel G. Freedman, James Kirkwood, Michael Bennett, Nicholas Dante, Edward Kleban, 2000-05-01 (Applause Books). It is hard to believe that over 25 years have passed since A Chorus Line first electrified a New York audience. The memories of the show's birth in 1975, not to mention those of its 15-year-life and poignant death, remain incandescent and not just because nothing so exciting has happened to the American musical since. For a generation of theater people and theatergoers, A Chorus Line was and is the touchstone that defines the glittering promise, more often realized in legend than in reality, of the Broadway way. This impressive book contains the complete book and lyrics of one of the longest running shows in Broadway history with a preface by Samuel Freedman, an introduction by Frank Rich and lots of photos from the stage production.

Scale and the Incas Andrew James Hamilton, 2018-06-05 A groundbreaking work on how the topic of scale provides an entirely new understanding of Inca material culture. Although questions of form and style are fundamental to art history, the issue of scale has been surprisingly neglected. Yet, scale and scaled relationships are essential to the visual cultures of many societies from around the world, especially in the Andes. In *Scale and the Incas*, Andrew Hamilton presents a groundbreaking theoretical framework for analyzing scale, and then applies this approach to Inca art, architecture, and belief systems. The

Incas were one of humanity's great civilizations, but their lack of a written language has prevented widespread appreciation of their sophisticated intellectual tradition. Expansive in scope, this book examines many famous works of Inca art including Machu Picchu and the Dumbarton Oaks tunic, more enigmatic artifacts like the Sayhuite Stone and Capacocha offerings, and a range of relatively unknown objects in diverse media including fiber, wood, feathers, stone, and metalwork. Ultimately, Hamilton demonstrates how the Incas used scale as an effective mode of expression in their vast multilingual and multiethnic empire. Lavishly illustrated with stunning color plates created by the author, the book's pages depict artifacts alongside scale markers and silhouettes of hands and bodies, allowing readers to gauge scale in multiple ways. The pioneering visual and theoretical arguments of *Scale and the Incas* not only rewrite understandings of Inca art, but also provide a benchmark for future studies of scale in art from other cultures.

The Decisive Network Nadya Bair, 2020 Since its founding in 1947, the legendary Magnum Photos agency has been telling its own story: Its photographers were concerned witnesses to history and artists on the hunt for decisive moments; their pictures were humanist documents of the postwar world. Based in unprecedented archival research, *The Decisive Network* peels back layers of the Magnum mythology to offer a new history of what it meant to shoot, edit, and sell news images after World War II. Between the 1940s and 1960s, Magnum expanded the human-interest story - about the everyday life of ordinary people - to global dimensions while bringing the aesthetic of news pictures into new markets. Its best-known work started as humanitarian aid promotion, travel campaigns, corporate publicity, and advertising. Working with this range of clients, Magnum made photojournalism integral to visual culture. Yet Magnum's photographers could not have done this alone. This book unpacks the collaborative nature of photojournalism as it transpired on a daily basis, focusing on how picture editors, sales agents, spouses, and publishers helped Magnum photographers succeed in their assignments and achieve fame. *The Decisive Network* concludes in the late 1960s and early 1970s, when, amidst the decline of magazine publishing and the rise of an art market for photography, Magnum turned to photo books and exhibitions to manage its growing picture archives and consolidate its brand. In that moment, Magnum's photojournalists became artists and their assignments turned into oeuvres. Such ideas were necessary publicity, and they also managed to shape discussions about photography for decades. Bridging art history, media studies, cultural history, and the history of communication, this book transforms our understanding of the photographic profession and the global circulation of images in the pre-digital world--

Great North Road Peter F. Hamilton, 2013-01-01 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY New York Times bestselling author Peter F. Hamilton's riveting new thriller combines the nail-biting suspense of a serial-killer investigation with clear-eyed scientific and social extrapolation to create a future that seems not merely plausible but inevitable. A century from now, thanks to a technology allowing instantaneous travel across light-years, humanity has solved its energy shortages, cleaned up the environment, and created far-flung colony worlds. The keys to this empire belong

to the powerful North family—composed of successive generations of clones. Yet these clones are not identical. For one thing, genetic errors have crept in with each generation. For another, the original three clone “brothers” have gone their separate ways, and the branches of the family are now friendly rivals more than allies. Or maybe not so friendly. At least that’s what the murder of a North clone in the English city of Newcastle suggests to Detective Sidney Hurst. Sid is a solid investigator who’d like nothing better than to hand off this hot potato of a case. The way he figures it, whether he solves the crime or not, he’ll make enough enemies to ruin his career. Yet Sid’s case is about to take an unexpected turn: because the circumstances of the murder bear an uncanny resemblance to a killing that took place years ago on the planet St. Libra, where a North clone and his entire household were slaughtered in cold blood. The convicted slayer, Angela Tramel, has always claimed her innocence. And now it seems she may have been right. Because only the St. Libra killer could have committed the Newcastle crime. Problem is, Angela also claims that the murderer was an alien monster. Now Sid must navigate through a Byzantine minefield of competing interests within the police department and the world’s political and economic elite . . . all the while hunting down a brutal killer poised to strike again. And on St. Libra, Angela, newly released from prison, joins a mission to hunt down the elusive alien, only to learn that the line between hunter and hunted is a thin one. **BONUS:** This edition includes an excerpt from Peter F. Hamilton’s *The Abyss Beyond Dreams*. Praise for *Great North Road* “A mesmerizing page-turner.”—Publishers Weekly (starred review) “A gripping saga that blends wilderness survival, police procedural, political and social intrigue, and dynastic sf into a mammoth tale featuring believable characters and exceptionally skilled storytelling.”—Library Journal (starred review) “A perfect introduction to [Hamilton’s] gifts for character design, dialogue, and sheer, big-idea-driven storytelling.”—Booklist (starred review) “Compelling and original . . . an awesome novel [with] plenty of action.”—SFRevu “One very compelling and entertaining science fiction novel.”—SF Site “Simply brilliant . . . an astonishing achievement.”—Tor.com

The Last Entry Jim Hamilton, 2021-03-05 Tucker Trivette is in a bind. He joined the Navy straight out of high school. Without many options, it seemed like the right thing to do. Now he's heading home. To what, he's not sure, but he's hoping things are better. They're not. Set upon by hard times and a nemesis from his youth, Tucker seeks redemption and reward hidden deep in the forest, to reclaim a legacy hinted at within his grandfather's cryptic journal. Tucker understands the value of friendship and family--and paying his debts. Determined to play the hand he's been dealt to start over and succeed, he'll have to bend the rules to get there. *The Last Entry* is painted in the woodland tones of western North Carolina's rural mountains--a cultural crossroads of post-modern Appalachia where old time traditions clash with a rapidly changing world. Jim Hamilton weaves his expertise in natural history and the underground world of ginseng into a story and characters that reflect the region's struggles with poverty and a black market-economy still tied to its land and forests. The novel was nominated in 2020 for the Thomas Wolfe Memorial Literary Award.

The Lock Artist Steve Hamilton, 2010-01-05 I was the Miracle Boy, once upon a time. Later on, the Milford Mute. The Golden Boy. The Young Ghost. The Kid. The Boxman. The Lock Artist. That was all me. But you can call me Mike. Marked by tragedy, traumatized at the age of eight, Michael, now eighteen, is no ordinary young man. Besides not uttering a single word in ten years, he discovers the one thing he can somehow do better than anyone else. Whether it's a locked door without a key, a padlock with no combination, or even an eight-hundred pound safe ... he can open them all. It's an unforgivable talent. A talent that will make young Michael a hot commodity with the wrong people and, whether he likes it or not, push him ever close to a life of crime. Until he finally sees his chance to escape, and with one desperate gamble risks everything to come back home to the only person he ever loved, and to unlock the secret that has kept him silent for so long. Steve Hamilton steps away from his Edgar Award-winning Alex McKnight series to introduce a unique new character, unlike anyone you've ever seen in the world of crime fiction. The Lock Artist is the winner of the 2011 Edgar Award for Best Novel.

Architecture is Elementary, Revised Nathan Winters, 2005-09-02 Awarded for its unique ink illustrations, this newly revised edition of Architecture is Elementary is a self-instruction book that concisely and coherently discusses the principles of architectural design. Stimulating lessons challenge the lay person and trigger creative responses. New features include a fresh design and layout, 50 new illustrations of recent and planned buildings, and new lessons that update the book for the world of twenty-first-century architecture. Author Nathan Winters explains the rationale for developers choosing to build higher and taller with modern high-rises, and explores the engineering challenges for such giant structures. He also addresses the dangers of such adventurous design in this century, including becoming tempting targets for terrorists. Architecture is Elementary also explores issues surrounding modern landscape architecture, as Winters looks at the impact of green design and cities that seek to reclaim useless spaces (such as inactive railroad lines), converting them into parks for urban use. He also explores the financial and economic benefits of beautified landscape. The new layout, new lesson materials, and current examples of future thinking in the world of architecture make this a must-have for every serious teacher, student, and practitioner of architecture.

The book *Make Good Art*, designed by renowned graphic artist Chip Kidd, contains the full text of Gaiman's inspiring speech.

The Apocryphal Codex of Resolutions Jo Cook, Michael McCormack, Florentine Perro, 2008

The Peregrine's Odyssey Michael Kleinfall, 2019-04-28 Christiani esse non licit. "It is not lawful to be a Christian!"

From the time of Nero in the mid-first century, these four words hung over the heads of every Christian for the first three centuries of the nascent Church of the Christos, the God-man. To be a Christian was to be subject to execution. So it was... In 116 AD during the reign of the Emperor Trajan, Ignatius, bishop of Syrian Antioch, heard those four words sentencing him to death in the Roman Colosseum. His condemnation and martyrdom were witnessed by Gaius Segusiavus, the "Peregrine," a wealthy Gallo-Roman merchant and Ignatius' lifelong and closest friend. Against the backdrop of Trajan's Roman Empire, Gaius is inexorably drawn into the Christian world as "The Way" spreads throughout the Empire and into Gaius' own family. We encounter the Christians of Rome, those in Asia and Bithynia; the emperor Trajan, successful in war, reshaping the face of Rome with his monumental building projects; the decorated centurion Maximus who befriends Gaius; the eloquent Roman senator, Pliny the Younger, through whose letters we live the lives of noble Romans; and a vengeful, banished son who will haunt the last days of the "Peregrine." Over the course of twenty years the lives of Gaius and Ignatius are increasingly intertwined: Ignatius the martyr who becomes one of the most famous and iconic of the early Church Fathers; Gaius who seeks understanding of his closest friend's faith, while fearing the possibility of hearing those deadly four words. History and fiction meet in a story of the love of two "brothers" and the Love that conquers all.

A Blue Idyll Brenton Hamilton, 2020-04-30 For over two decades visual artist and historian Brenton Hamilton has created a sustained body of work, mostly concentrated within the historic processes employing nineteenth century photography techniques, no longer commercially available. Hamilton has produced a unique body of work using methodologies like gum bichromated forms, platinum, and collodion ambrotypes on black glass, French variants of paper calotypy and of course the embellished cyanotype. Influenced by the Surrealist motifs; coaxing dream like, chance collisions of fragments from art history, Hamilton shapes a new landscape in his photographs. The present symbolism of the dark night sky and the freedom to look outside himself towards unfettered ideas and musings, learning to make a new place with paper and metal salts and light allowing him to rest and wonder. He combines human anatomy, astronomy and botanical imagery to create intriguing and provocative arrangements. His work references to ancient Greece and Rome, as well as 15th and 16th century Dutch and Italian paintings. Hamilton uses symbols and visual elements from the history of art to create a thoroughly contemporary vision.

Ann Hamilton: Sense Ann Hamilton, 2023-02-14 Ann Hamilton believes that projects can be considered, not as artifacts or something to be documented, but as their own material object? in this case, a book. While 'Sense' contains images that Hamilton has accumulated over many years, of people and of objects that conflate touch, light, and surface, the book also becomes an object in hand, a thing felt, an artwork in itself. Mallarmé begins 'The Book: Spiritual Instrument' with,

?Everything in the world exists to end up as a book.? While working on the building-wide project, the common SENSE with Sylvia Wolf, this idea inspired Hamilton: ??..maybe the form of the project is not the installation or the exhibition or all the weeks of time and programming?..maybe the actual form of the project is a book?..and the installation is the work and the process for generating the book?s questions and materials.?

Daniel Libeskind Daniel Libeskind, 2000 For more than twenty years Daniel Libeskind has been regarded as one of the world's leading architectural theoreticians and educators. Since 1973, he has taught at more than forty institutions, maintaining such distinguished positions as head of the Cranbrook Academy of Art's School of Architecture in Bloomfield, Michigan, founder and director of Architecture Intermundium in Milan, Italy, the Sir Bannister Fletcher Architecture Professor at the University of London in London, England, professor at the University of California, Los Angeles' School of Architecture and Urban Planning in Los Angeles, California, and the First Louis Kahn Professorship at Yale University. Throughout Libeskind's career, his approach to the profession of architecture and the development of the world's built environment has defied convention. He is one of the last heroes of the architecture world's avant-garde. And while he is the recipient of numerous awards and citations for his designs, Libeskind's architectural output has largely consisted of models, drawings, poetry, and ephemera. For years, Studio Libeskind sustained itself as a laboratory for the testing of his boundary-breaking ideas. In 1989 Libeskind competed for the commission to design what would become the Jewish Museum Berlin. He won. Since then, he relocated his office from Milan to Berlin, was nominated for the Pritzker prize for Architecture, and was commissioned to design the Felix Nussbaum Haus, a museum for the city of Osnabruck, Germany, which opened to critical acclaim in 1998. In 1999, he was awarded the Deutsche Architektur Preis (German Architecture Prize) for his Jewish Museum Berlin, a structure that received over 250,000 visitors before it contained even a single work of art. Now, because he has been commissioned to design the extension to the Victoria and Albert Museum in London, England, the Imperial War Museum in Manchester, England, the Jewish Museum in San Francisco, California, the JVC University in Guadalajara, Mexico, and, most recently, the extension to the Denver Art Museum in Denver, Colorado, the world is encountering in built form the riveting design concepts of Daniel Libeskind. The first book to get inside Libeskind's extraordinary world, *The Space of Encounter* eschews the traditional monograph format as it tracks the architect's life's work, pulling the reader back to the 1980s and guiding him through an often mesmerizing array of ideas and projects extending into the year 2005. By revealing for the first time in book form his project proposal texts, excerpts from lauded speeches and lectures, interviews conducted with international newspapers and periodicals, in addition to his poems and correspondence, this book captures Libeskind at a major turning point in his career. Here, we learn of Libeskind's experience of being a radical educator to becoming a high profile, convincing and inspiring architect. Complementing his brilliantly insightful textual material are his forceful drawings and full-color images of his project models, finished projects, and projects in progress.

Breaking Ground Daniel Libeskind, 2005 Daniel Libeskind's iconic buildings around the world -- from the Jewish Museum in Berlin to the Imperial War Museum North in Manchester, the V&A 'Spiral' to the most symbolic rebuilding project ever: the World Trade Center -- have sparked vigorous debate, not only for the way they look but for the ideas they contain. These are ideas that are important for all of us, and this is the story of those ideas -- a memoir of Libeskind's own life experiences, and of the events of history that have informed them. It is a book about the adventure life can offer each of us if we seize it, and about how we can all harness positively the powerful forces of tragedy, memory and hope.
