The Improbability of Love Hannah Rothschild,2016-09-06 Finalist for the Baileys Women's Prize Annie McDee, thirty-one, lives in a shabby London flat, works as a chef, and is struggling to get by. Reeling from a sudden breakup, she's taken on an unsuitable new lover and finds herself rummaging through a secondhand shop to buy him a birthday gift. A dusty, anonymous old painting catches her eye. After spending her meager savings on the artwork, Annie prepares an exquisite birthday dinner for two—only to be stood up. The painting becomes hers, and Annie begins to suspect that it may be more valuable than she'd thought. Soon she finds herself pursued by parties who would do anything to possess her picture: an exiled Russian oligarch, an avaricious sheikha, an unscrupulous art dealer. In her search for the painting's identity, Annie will unwittingly discover some of the darkest secrets of European history—and the possibility of falling in love again.

Centered Leadership Joanna Barsh,Johanne Lavoie,2014-03-18 What enables some talented people to rise to the top and live their full ambitions at work and in life, while others stop short? In 2007, Joanna Barsh led a team at McKinsey & Company to answer that very question. In the process, they uncovered what distinguishes leaders who are successful from those who achieve true greatness, developing an approach called Centered Leadership. They drew on research from across the academic fields of leadership, organization behavior, neuroscience, evolutionary psychology and positive psychology. In addition, Barsh interviewed over 160 leaders from many fields - including business, government and the arts - and from many countries. With quantitative research, the team learned that these leaders have mastered practices to find their balance in the midst of chaos and lead from their most resourceful selves, unleashing the potential of others. In 2009, Johanne Lavoie joined to lead development of programs that help executives build these capabilities. Their research and development work continues as more and more leaders experience Centered Leadership. In the business bestseller, *How Remarkable Women Lead*, Barsh described Centered Leadership's five capabilities and the research that underpins it. Here,

with colleague Johanne Lavoie, Barsh provides a practical, actionable field guide for implementation. In Centered Leadership, Barsh and Lavoie will guide you through the Centered Leadership program. You'll find the interactive tools, exercises, and practices that have helped the men and women participants in Centered Leadership programs gain the skills, courage and confidence to lead. And, along the way, you'll read inspiring stories of remarkable men and women leaders who demonstrate the power of these skills in action. Those early in their careers will learn how to use these skills to explore their passions and accelerate their professional development. Those forming families will be able to use them to reconcile manage work and life to get the most out of both. And those who have already achieved success will be able use these practices to reach their next leadership horizon. No matter what stage you are currently at in your career, or what level of leadership you aspire to, this book will equip you with the tools to unlock your own Centered Leader and achieve more positive impact at work and outside it.

Starting a Nonprofit at Your Church Joy Skjegstad, 2002-06-01 A large and growing number of congregations are setting up church-based nonprofit organizations in order to operate community development or educational programs. Once formed, the nonprofit structure allows for new opportunities for accessing additional funding and drawing new collaborative partners and volunteers into the ministry. Joy Skjegstad outlines the step-by-step procedures for setting up a 501(c)3 nonprofit organization connected to a congregation using simple, easy-to-understand terminology and plenty of examples from churches that have already taken on this task. Whether a congregation is setting up new program or has an established nonprofit that needs to be restructured or redefined, congregations will find helpful guidance in this practical, experience-based book.

The Princess and the Captain Anne-Laure Bondoux, 2011-05-04 Malva is the princess of Galnicia, destined to marry the Prince of Andemark. Or so her parents think. On the eve of her wedding, she escapes at dead of night from under her parents' noses, little realising that she is letting herself in for a life of peril and adventure, including being shipwrecked in a huge storm and captured as part of a harem. Hugely visual, the book tells of the wonder of frozen steppes and oriental

palaces, of sailing ships and treasure islands. This is a book of drama, magic and excitement, where challenges have to be overcome, friendships cemented and hearts broken.

Beyond the Kale Kristin Reynolds, Nevin Cohen, 2016 Urban agriculture is increasingly considered an important part of creating just and sustainable cities. Yet the benefits that many people attribute to urban agriculture-fresh food, green space, educational opportunities-can mask structural inequities, thereby making political transformation harder to achieve. *Beyond the Kale* argues that urban agricultural projects focused explicitly on dismantling oppressive systems have the greatest potential to achieve substantive social change. Through in-depth interviews and public forums with prominent urban agriculture activists and supporters-primarily people of color and women, whose strategies have often been underrepresented in the literature Kristin Reynolds and Nevin Cohen illustrate how urban farmers and gardeners not only grow food for their communities but also use their activities and spaces to disrupt the dynamics of power and privilege that perpetuate inequity. *Beyond the Kale* provides recommendations for these in philanthropy, government, nonprofit organizations, and academia to support such initiatives. Book jacket.

El Narco Ioan Grillo, 2012-01-16 'War' is no exaggeration in discussing the bloodshed that has terrorized Mexico in the past decades. As rival cartels battle for control of a billion-dollar drug trade, the body count - 23,000 dead in five years - and sheer horror beggar the imagination of journalistic witnesses. Cartel gunmen have attacked schools and rehabilitation centers, and murdered the entire families of those who defy them. Reformers and law enforcement officials have been gunned down within hours of taking office. Headless corpses are dumped on streets to intimidate rivals, and severed heads are rolled onto dancefloors as messages to would-be opponents. And the war is creeping northward, towards the United States. *El Narco* is the story of the ultraviolent criminal organizations that have turned huge areas of Mexico into a combat zone. It is a piercing portrait of a drug trade that turns ordinary men into mass murderers, as well as a diagnosis of what drives the cartels and what gives them such power. Veteran Mexico correspondent Ioan Grillo traces the gangs from their origins as smugglers to their present status as criminal empires. The narco cartels are a threat to the Mexican government - and their violence has now reached as far as North Carolina. *El Narco* is required reading for anyone concerned about one of the most important news stories of the decade.

One Soul, One Love, One Heart John E. Welshons, 2010-10-04 How do we heal our difficult relationships and nurture our healthy ones? What is their significance in our spiritual life? In this deeply moving, groundbreaking book, John E. Welshons answers these questions and many more. He shows why the path to real and lasting happiness lies in recognizing that we are all One, and in living in that awareness. He shows us how to heal our most difficult relationships by transforming them into our greatest spiritual lessons and how to love, forgive, and care for our fellow human beings — even those we find most difficult to love and forgive. With compassion and wisdom, Welshons invites us into a revolutionary new understanding of ourselves, our spiritual life, our world, and all our relationships.

Women and Philanthropy Sondra Shaw-Hardy, Martha A. Taylor, Buffy Beaudoin-Schwartz, 2010-08-13 Women & Philanthropy Women's philanthropy has led the way in virtually reinventing the world of fundraising and ways of giving. When women make a gift, are in a leadership position, or volunteer their time to a nonprofit or charitable organization, they tend to base their efforts on solid principles such as compassion, values, vision, and responsibility. Women are increasingly engaged in giving circles, global giving, transformative gifts, entrepreneurial giving, faith-based giving, family and couple giving, and social change gifts. Based on extensive interviews and the authors' combined half century of experience, Women and Philanthropy shares new ways to better engage women in giving, as well as insights into developing women leaders in the nonprofit arena, and advises women seeking to develop as philanthropic leaders and shape the future for the better. Women and Philanthropy explores women's philanthropic endeavors, offering a wealth of information on key topics such as how and why women give, what it takes to develop a gender-sensitive fundraising program, how to develop a strategic plan to involve women as leaders and donors, and suggestions for working with women of wealth.

How Remarkable Women Lead Joanna Barsh, Susie Cranston, Geoffrey Lewis, 2011-12-27 The Remarkable discoveries about what drives and sustains successful women leaders. Based on five years of proprietary research, How Remarkable Women Lead speaks to you as no other book has, with its hopeful outlook and unique ideas about success. It's the new right stuff of leadership, raising provocative issues such as whether feminine leadership traits (for women and men) are better suited for our fast-changing, hyper-competitive, and increasingly complex world. The authors, McKinsey & Company consultants Joanna Barsh and Susie Cranston, establish the links between joy, happiness, and distinctive performance with the groundbreaking model of Centered Leadership. The book's personal stories and related insights show you the magic that happens when you put the five elements of Centered Leadership—meaning, framing, connecting, engaging, and energizing—to work. They include: • How Alondra de la Parra built on her strengths and passions to infuse her life with meaning and make her way in the male-dominated world of orchestra conducting • How Andrea Jung, the CEO of Avon, avoided a downward

spiral when the company turned down by firing herself on Friday and re-emerging on Monday as the new turnaround CEO • How Ruth Porat's sponsors at Morgan Stanley not only helped her grow but were also her ballast for coping with difficult personal and professional times • How Eileen Naughton recovered after losing her dream job, landing on her feet at Google and open to a new leadership opportunity • How Julie Coates of Woolworth's Australia makes energy key to her professional success, with reserves for her second shift as wife and mother How Remarkable Women Lead is both profoundly moving and actionable. Woman or man, you'll find yourself in its pages and emerge with a practical plan for breaking through at both work and in life.

Cartel: The Coming Invasion of Mexico's Drug Wars Sylvia Longmire, 2011-10-18 Having followed Mexico's cartels for years, border security expert Sylvia Longmire takes us deep into the heart of their world to witness a dangerous underground that will do whatever it takes to deliver drugs to a willing audience of American consumers. The cartels have grown increasingly bold in recent years, building submarines to move up the coast of Central America and digging elaborate tunnels that both move drugs north and carry cash and U.S. high-powered assault weapons back to fuel the drug war. Channeling her long experience working on border issues, Longmire brings to life the very real threat of Mexican cartels operating not just along the southwest border, but deep inside every corner of the United States. She also offers real solutions to the critical problems facing Mexico and the United States, including programs to deter youth in Mexico from joining the cartels and changing drug laws on both sides of the border.

Freedom Farmers Monica M. White, 2018-11-06 In May 1967, internationally renowned activist Fannie Lou Hamer purchased forty acres of land in the Mississippi Delta, launching the Freedom Farms Cooperative (FFC). A community-based rural and economic development project, FFC would grow to over 600 acres, offering a means for local sharecroppers, tenant farmers, and domestic workers to pursue community wellness, self-reliance, and political resistance. Life on the cooperative farm presented an alternative to the second wave of northern migration by African Americans--an opportunity to stay in the South, live off the land, and create a healthy community based upon building an alternative food system as a cooperative and collective effort. *Freedom Farmers* expands the historical narrative of the black freedom struggle to embrace the work, roles, and contributions of southern Black farmers and the organizations they formed. Whereas existing scholarship generally views agriculture as a site of oppression and exploitation of black people, this book reveals agriculture as a site of resistance and provides a historical foundation that adds meaning and context to current conversations around the resurgence of food justice/sovereignty movements in urban spaces like Detroit, Chicago, Milwaukee, New York City, and New Orleans.

Big Hunger Andrew Fisher, 2018-04-13 How to focus anti-hunger efforts not on charity but on the root causes of food insecurity, improving public health, and reducing income inequality. Food banks and food pantries have proliferated in response to an economic emergency. The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity. This was meant to be a stopgap measure, but the jobs never came back, and the “emergency food system” became an industry. In *Big Hunger*, Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti-hunger movement. From one perspective, anti-hunger leaders have been extraordinarily effective. Food charity is embedded in American civil society, and federal food programs have remained intact while other anti-poverty programs have been eliminated or slashed. But anti-hunger advocates are missing an essential element of the problem: economic inequality driven by low wages. Reliant on corporate donations of food and money, anti-hunger organizations have failed to hold business accountable for offshoring jobs, cutting benefits, exploiting workers and rural communities, and resisting wage increases. They have become part of a “hunger industrial complex” that seems as self-perpetuating as the more famous military-industrial complex. Fisher lays out a vision that encompasses a broader definition of hunger characterized by a focus on public health, economic justice, and economic democracy. He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti-hunger sector. It is only through approaches like these that we can hope to end hunger, not just manage it.
