An Anthology of Asemic Handwriting Tim Gaze, Michael Jacobson, 2013 An Anthology of Asemic Handwriting is the first book-length publication to collect the work of a community of writers on the edges of illegibility. Asemic writing is a galaxy-sized style of writing, which is everywhere yet remains largely unknown. For human observers, asemic writing may appear as lightning from a storm, a crack in the sidewalk, or the tail of a comet. But despite these observations, asemic writing is not everything: it is just an essential component, a newborn supernova dropped from a calligrapher's hand. Asemic writing is simultaneously communicating with the past and the future of writing, from the earliest undeciphered writing systems to the xenolinguistics of the stars; it follows a peregrination from the preliterate, beyond the verbal, finally ending in a postliterate condition in which visual language has superseded words. An Anthology of Asemic Handwriting is compiled and edited by Tim Gaze from Asemic magazine and Michael Jacobson from The New Post-Literate blog. Contributors include: Reed Altemus, mIEKAL aND, Rosaire Appel, Francesco Aprile, Roy Arenella, Derek Beaulieu, Pat Bell, John M. Manhunters Steve Murphy, Javier F. Peña, 2019-11-12 For the first time, legendary DEA operatives Steve Murphy and Javier F. Peña tell the true story of how they helped put an end to one of the world's most infamous narco-terrorists in Manhunters: How We Took Down Pablo Escobar—the subject of the hit Netflix series, Narcos. Colombian drug lord Pablo Escobar's brutal Medellín Cartel was responsible for trafficking tons of cocaine to North America and Europe in the 1980s and '90s. The nation became a warzone as his sicarios mercilessly murdered thousands of people—competitors, police, and civilians—to ensure he remained Colombia's reigning kingpin. With billions in personal income, Pablo Escobar bought off politicians and lawmen, and became a hero to poorer communities by building houses and sports centers. He was nearly untouchable despite the efforts of the Colombian National Police to bring him to justice. But Escobar was also one of America's most wanted, and the Drug Enforcement Administration was determined to see him pay for his crimes. Agents Steve Murphy and Javier F. Peña were assigned to the Bloque de Búsqueda, the joint Colombian-U.S. taskforce created to end Escobar's reign of terror. For eighteen months, between July 1992 and December 1993, Steve and Javier lived and worked beside Colombian authorities, finding themselves in the crosshairs of sicarios targeting them for the \$300,000 bounty Escobar placed on each of their heads. Undeterred, they risked the dangers, relentlessly and ruthlessly separating the drug lord from his resources and allies, and tearing apart his empire, leaving him underground and on the run from enemies on both sides of the law. Manhunters presents Steve and Javier's history in law enforcement from their rigorous physical

training and their early DEA assignments in Miami and Austin to the Escobar mission in Medellin, Colombia—living far from home and serving as frontline soldiers in the never ending war on drugs that continues to devastate America.

Inside the Cell Erin E. Murphy, 2015-10-06 a version less likely to play out on dramatic television shows. In Inside the Cell, Erin Murphy shows how DNA typing can be subject to misuse, mistake, and error, and lead to a police state run amok. Murphy shows the perils of a society in which stop-and-frisk becomes stop-and-spit, or in which police pose undercover to get a DNA sample from your discarded lunch. Already, police can collect DNA when making an arrest, sometimes before charging a person with a crime. The government is building a massive DNA database, stockpiling samples from as much as a third of the male population, and the laws regulating what they can and cannot do with them are weak. Murphy shows how this invites the riskiest kind of genetic surveillance imaginable. Just because DNA testing is good science does not mean that it is foolproof. Faulty forensic science is the number two factor leading to wrongful conviction, and yet we have done little to improve the use of science in criminal justice.

Tree of Codes Jonathan Safran Foer, 2010 A masterful work of storytelling, a unique sculptural object created through a collaborative process between Visual Editions and author. A curiosity with the die-cut technique was combined with the pages' physical relationship to one another and how this could somehow be developed to work with a meaningful narrative. This led to Jonathan deciding to use an existing piece of text and cut a new story out of it - his favourite book, *The Street of Crocodiles* by Bruno Schulz. Writing, cutting and proto-typing has created a new story cut from the words of an old favourite.

About Black Girl Magic CaShawn Thompson, a proud third-generation native of Washington, DC, came up with the concept “Black Girls Are Magic” when she was a little girl growing up with her mother, grandmother, and aunts. It sprang forth fully formed from the mind of a poor little Black girl who didn’t yet have the words to describe the brilliance she saw in the women in her family, but had heard countless tales of fairies, witches, and magicians. It was just magic to her. And it still is. Black Girls Are Magic became wildly popular in 2013 after CaShawn began using the phrase online (it was later shortened to the hashtag #BlackGirlMagic) to uplift and praise the accomplishments, beauty, and other amazing qualities of Black women.

Negotiate Like YOU M.A.T.T.E.R. Esq. Rebecca Zung, 2019-09-14 Worth its weight in gold! --Robert Shapiro, Esq. Renowned Trial Lawyer, Co-Founder of Legal Zoom What if you knew you could get what you want in negotiation? What if you knew you could feel powerful, confident and in control of the entire process? Top 1% attorney, author and media personality Rebecca Zung shares her proven method for successfully negotiating anything in her latest book, Negotiate Like You MATTER: The Sure Fire Method to Step Up and Win provides powerful and easy steps you can take to level up your business and your life! Every single person wants to feel seen, heard, understood and know they MATTER. This is true in any human interaction, but in negotiations the stakes are higher. The outcome of a negotiation becomes an outward measurement of our value, and if you haven't done your internal growth work, then at the deepest, darkest level, a loss in negotiations feels like YOU are less, not just that you RECEIVED less. That risk of vulnerability is often not worth the potential gain. Using her years of experience in litigating divorces for the world's most powerful people, attorney Rebecca Zung shares, through easy to understand language and humorous stories, the exact steps to the secret of how to get what you want. A totally innovative approach to negotiation, she blends the worlds of self-help, quantum physics, and body

language with all the more traditional negotiation skills, strategies, tactics and techniques. 80% of winning a negotiation happens before you even walk into the room. To properly prepare, you must move from your inside out. This means that you must start from dealing with your own internal dialogue and knowing you have value. Next, you move to the external preparations. This means doing the research, preparing the arguments, creating leverage, discovering pain points, determining the best and worst case scenarios, doing risk analysis, deciding where the negotiations should be, what to wear, and what your first offer will be. The final step is the actual negotiation itself. Here you must prepare for how to command the entire process by determining how to walk into the room, how to greet the other person, how to use powerful body language (and read the other side's), how to present your offer, how to use embedded commands and mirroring, and much more. The methodology in this book works no matter what field you are in, and regardless of how powerful the other side is. Throughout the book, you'll be given easy to remember mnemonics, catchy phrases, tools, resources and exercises, all to remember exactly what to do to win every negotiation, in any situation, every time - and have the other side be happy about it. Get ready to feel empowered, inspired and actually look forward to negotiating!

The Book Amaranth Borsuk, 2018-05-04 The book as object, as content, as idea, as interface. What is the book in a digital age? Is it a physical object containing pages encased in covers? Is it a portable device that gives us access to entire libraries? The codex, the book as bound paper sheets, emerged around 150 CE. It was preceded by clay tablets and papyrus scrolls. Are those books? In this volume in the MIT Press Essential Knowledge series, Amaranth Borsuk considers the history of the book, the future of the book, and the idea of the book. Tracing the interrelationship of form and content in the book's development, she bridges book history, book arts, and electronic literature to expand our definition of an object we thought we knew intimately. Contrary to the many reports of its death (which has been blamed at various times on newspapers, television, and e-readers), the book is alive. Despite nostalgic paeans to the codex and its printed pages, Borsuk reminds us, the term "book" commonly refers to both medium and content. And the medium has proved to be malleable. Rather than pinning our notion of the book to a single form, Borsuk argues, we should remember its long history of transformation. Considering the book as object, content, idea, and interface, she shows that the physical form of the book has always been the site of experimentation and play. Rather than creating a false dichotomy between print and digital media, we should appreciate their continuities.

Are You Borg Now? Said Shaiye, 2021-05-22 You gotta find reflections of yourself however you can to survive this country, writes Said Shaiye in this innovative AF (Afrofuturist) memoir. *Are You Borg Now* cyphers with trauma through a poetics of refusal via hard and beautiful language. Finding vigor in Islam and mirrors in Star Trek: Voyager, Shaiye shifts achingly between memory and improvisation. This is a serious debut. -Douglas Kearney, Author of *Sho Are You Borg now?* heralds the arrival of a bold and important voice. Shaiye's deeply personal self-interrogation blurs genre and form to examine how intersections between culture, race, class, gender and nationality shape one's identity. Vulnerable, affecting, humorous and haunting, so often I clutched my chest and nodded in agreement to Shaiye's keen observations. The reflections collected in these pages will benefit all who read this book. -Donald Quist, Author of *Harbors & For Other Ghosts* Why should one write? This is the question that pervades Said Shaiye's experimental approach to memoir in *Are You Borg Now?* This book offers many different kinds of answers to such a question, answers that involve facing the effects of trauma and violence with courage, honesty, and a willingness to risk vulnerability. One reason to write is to call forth a voice in solidarity with others who suffer. Shaiye is a writer who transforms the pain of alienation into beautifully lyric writing and from that writing springs a profound faith that one is never really alone. -Kathryn Nuernberger, author of *The Witch of Eye* This book cut me as it wowed me. Shaiye can't help it. He invites you in. But he doesn't want you there. He doesn't want to be there himself, but needs to be. On every page, I found a reflection of an America that sickens and alienates with its easy fast food and easy pop culture. But then, Shaiye recognizes quality, too. And you recognize yourself in it even as you gain Shaiye's very particular viewpoint. Every page you find Shaiye struggling to be okay, to be good, to both honor his culture and struggle to move it forward towards health. This is an honorable project. This is a courageous project. This is the Portrait of an Artist as a Young Man. -Geoff Herbach, Award Winning Author of *Hooper & Stupid Fast*
