Henry Hudson Trail Tom Gallo,1999 The Central Railroad of New Jersey's Seashore Branch provided rail and boat services from New York City to points along the New Jersey Shore. It discontinued passenger service in 1966, with the last freight train operating in 1983. Official abandonment proceedings sparked the need to keep the right of way for future mass transit needs. This led to interim use. Today, the area is called the Henry Hudson Trail and is one of over 500 parks referred to nationally as a Rail-Trail. This free, ten-mile-long, hiking, biking, and walking trail is administered by the Monmouth County Parks System, and connects several towns of the Raritan Bay shore area. This rare look will enlighten trail users through images of views gone forever, while pointing out structures still in place. Over 200 images are set in geographical sequence to guide the reader along the trail.

New Jersey Central's Blue Comet Anthony Puzzilla ,2017 The New Jersey Central's Blue Comet passenger train service operated from 1929 to 1941, on a route from the New York metropolitan area to Atlantic City, in the midst of the Great Depression. Despite this backdrop and stiff competition from other railroads, it survived and established an enduring legacy in the annals of New Jersey rails. This book contains memorable images, many from private archival photograph collections, showing the remarkable history of this classic train and of the hardworking and dedicated people who made it all possible. The legendary Blue Comet train no longer streaks through the pines of New Jersey. However, its memory still lives on through timeless images and the sustained efforts of New Jersey historical societies and preservation organizations that maintain its legacy.

Harley Quinn & the Birds of Prey (2020-) #1 Amanda Conner,Jimmy Palmiotti,2020-02-12 The creative team that transformed Harley Quinn forever returns to shake up her world once more-and this time, the gloves are off! Harley Quinn has avoided Gotham City ever since she broke up with The Joker and found a home, and a kind of family, in Coney Island. But

when she gets an offer she can't refuse, she has no choice but to slip back into the city as quietly as she can, hoping to be gone before anyone-especially her ex-learns she's been there. But for Harley, "as quietly as she can" is plenty loud...and before she can say "Holee bounty hunters, Batman," The Joker's sicced every super-villain in the city on her pretty ombré head-and the only team tough enough (or crazy enough) to come to her defense is the Birds of Prey! The foul-mouthed, no-holds-barred sequel to one of DC's raciest runs is here! Get on board early, before we come to our senses! Jim Thorpe (Mauch Chunk) John H. Drury, Joan Gilbert, 2001-08-28 Mauch Chunk, now Jim Thorpe, was established on the Lehigh River as a shipping depot for anthracite coal in 1818 by Josiah White, a Philadelphia Quaker and brilliant engineer, and his trusted business partner, Erskine Hazard. By 1829, White and Hazard had founded the Lehigh Coal & Navigation Company and built an efficient transportation system that moved coal nine miles over the mountains to Mauch Chunk by Switchback Gravity Railroad, and forty-six miles along the Lehigh Canal to Easton. With the arrival of the railroads, the Switchback became a major tourist attraction. As rail excursionists descended on Mauch Chunk to experience a hair-raising ride on America's first roller coaster and enjoy the magnificent scenery, the coal shipping town, billed by the railroads as the Switzerland of America, became a tourist destination second in popularity to Niagara Falls. In a story stranger than fiction, the town exchanged its name for the name of Jim Thorpe when the 1912 Olympic hero was laid to rest there in 1954. Through an extraordinary collection of photographs, Jim Thorpe (Mauch Chunk) tells the story of the athlete and his burial, the Switchback Gravity Railroad, the Lehigh Canal, the social scene, and the town's Victorian legacy.

The Rahway Valley Railroad Donald A. Maxton, 2002 Many residents of Union and Essex Counties in New Jersey fondly recall the whistles of the Rahway Valley Railroad trains that rolled through the picturesque stations of Roselle Park, Kenilworth, Union, Springfield, and Summit. The Rahway's steam and diesel locomotives supported local commerce, provided passenger service, and carried a vast array of goods to and from local businesses. It connected the area with larger railroads, such as the Central Railroad of New Jersey, the Lehigh Valley, and the Delaware, Lackawanna and Western. One of the shortest yet most prosperous of American railroads, the Rahway Valley helped transform a rural region into one of New Jersey's most vital and populous areas. The Rahway Valley Railroad presents the story of this colorful short line with rare,

vintage photographs of locomotives, passengers, stations, and train crews. It recounts how the Rahway Valley evolved from the New York and New Orange Railroad, linking Union County towns with Newark Heights (Maplewood), in adjoining Essex County. Images in this book include passengers riding Rahway Valley trains to picnics, church outings, and Springfield's world-famous Baltusrol Golf Club. Readers will learn how this feisty little line competed successfully for many years against the trucking industry and the interstate highway system during a time when many small railroads were dying out. The Rahway Valley Railroad tells the distinctively American story of a proud short line that competed with forces larger than itself and faithfully served the local merchants and residents who now remember it so fondly.

Southern Pacific & the KM Hydraulics Robert John Zenk, 2023 In 1959 the Southern Pacific Railroad found itself in need of higher horsepower diesel locomotives to move their increasing freight traffic across the Sierras. As American locomotive manufacturers could not meet the SP requirements the company began looking overseas. In Munich Germany they found that Krauss Maffei, a respected locomotive builder, was producing diesel-hydraulic locomotives rated at 4000 horsepower. Southern Pacific and KM Hydraulics is the story of the building of these locomotives in Germany and of operating them in the United States.--Publisher.
