Weight Science Applied Research Press, 2015-07-24 Current guidelines recommend that overweight and obese individuals lose weight through engaging in lifestyle modification involving diet, exercise and other behavior change. This approach reliably induces short term weight loss, but the majority of individuals are unable to maintain weight loss over the long term and do not achieve the putative benefits of improved morbidity and mortality. Concern has arisen that this weight focus is not only ineffective at producing thinner, healthier bodies, but may also have unintended consequences, contributing to food and body preoccupation, repeated cycles of weight loss and regain, distraction from other personal health goals and wider health determinants, reduced self-esteem, eating disorders, other health decrement, and weight stigmatization and discrimination. This concern has drawn increased attention to the ethical implications of recommending treatment that may be ineffective or damaging. A growing trans-disciplinary movement called Health at Every Size (HAES) challenges the value of promoting weight loss and dieting behavior and argues for a shift in focus to weight-neutral outcomes. Randomized controlled clinical trials indicate that a HAES approach is associated with statistically and clinically relevant improvements in physiological measures (e.g., blood pressure, blood lipids), health behaviors (e.g., eating and activity habits, dietary quality), and psychosocial outcomes (such as self-esteem and body image), and that HAES achieves these health outcomes more successfully than weight loss treatment and without the contraindications associated with a weight focus. This paper evaluates the evidence and rationale that justifies shifting the health care paradigm from a conventional weight focus to HAES. Proceeds from the sale of this book go to support an elderly disabled person.

The Message of Islam Abdurrahman Al-Sheha, The Complete and Final Message to Man is a brief presentation of Islam defining its terms and teachings, followed by an advice to the Muslims and non-Muslims on following the path of the Righteous Predecessors.

Media Violence and its Effect on Aggression Jonathan L. Freedman, 2002-01-01 Freedman argues that scientific evidence does not support the notion that TV and film violence causes aggression in children or in anyone else. A provocative challenge to the accepted norms in media studies and psychology.

Television and Its Viewers James Shanahan, Michael Morgan, 1999-09-09 Television and its Viewers reviews 'cultivation' research, which investigates the relationship between exposure to television and beliefs about the world. James Shanahan and Michael Morgan, both distinguished researchers in this field, scrutinize cultivation through detailed theoretical and historical explication, critical assessments of methodology, and a comprehensive 'meta-analysis' of twenty years of empirical results. They present a sweeping historical view of television as a technology and as an institution. Shanahan and Morgan's study looks forward as well as back, to the development of cultivation research in a new media environment. They argue that cultivation theory offers a unique and valuable perspective on the role of television in twentieth-century social life. Television and its Viewers, the first book-length study of its type, will be of interest to students and scholars in communication, sociology, political science and psychology and contains an introduction by the seminal figure in this field, George Gerbner.

The Removal of Blame from the Great Imams: توقييد بن تيمية في إزالة التهمة عن الأئمة Taqiuddin Ibn Taymiyyah, 2023-04 Ibn Taymiyyah is often seen through a simplistic anti-rationalist prism, that is, as someone with strict and literal inclinations towards hadith which he over emphasized and preferred to acceptance of broader legal theories and principles. The present text would suffice to undermine the view. Raf al Malaam an AlAimmat al A'lam is a short text in which the reader observes Ibn Taymiyyah as a jurist Par excellence. In this treatise, which has a balanced tone and is couched in erudite language, he proceeds to argue as to why a mujtahid might depart from directly acting upon a hadith text and follow instead his methodological principles (Usul). This forms the basis of his delineating the reasons underlying the disagreements found among Muslim jurists in general and their holding differing legal opinions and proffering divergent arguments in support of those opinions.

Fiqh Us Seerah Muhammad Al Ghazali,2018-02-06 Many books have been written about the life of the Prophet Muhammad (SAW). In writing this book, the author had a specific objective. He used the life of the Prophet (SAW) to go onto depth about the Prophet (SAW) many historians only touched on the various aspects of his life. This book goes into detail and provides reasons and explanations for whatever took place. It is a blend of modern analysis and ancient detail. Its objective is to nurture faith, purify characters and fan the struggle to embrace the truth and be faithful to it.Indeed, the life of the Prophet (SAW) has been documented as a message for practical implementation, not intellectual entertainment'You may think that you have studied the life of Muhammad by following his history from birth to death but this is a grave mistake. You will never really understand the Sirah unless you study the noble Qur'an and the purified Sunnah. The amount that you derive from these will tell the strength of your connection with the prophet of Islam, sallallahu `alaihi wa sallam' From the EpilogueAn important work of the Egyptian scholar Sheikh Muhammad al-Ghazali. Drawing upon his profound classical Islamic learning and an extensive knowledge of modern science, Sheikh al-Ghazali has broken new ground in the study of Seerah, bringing to bear a fresh but wholly authentic approach. This is a work which all serious students should have, to complement the Seerah of the Prophet Muhammad (SAW)
