Documents on the Holocaust Y. Arad,Y. Gutman,A. Margaliot,2014-06-28 This volume presents a comprehensive collection of essential documents for students and laymen interested in the history of the Holocaust. The collection reflects both the major trends in Nazi ideology and policy towards the Jews and the behaviour and reaction of the Jews to the Nazi challenge. The book is divided into three geographical-political sections: Germany and Austria; Poland; and the Baltic countries and areas of the Soviet Union occupied by Nazi Germany during the Second World War. Each section is preceded by a short introduction setting the documents against the background of events and developments in these areas.

Internet and Smartphone Use-Related Addiction Health Problems Olatz Lopez-Fernandez,2021-08-31 This Special Issue presents some of the main emerging research on technological topics of health and education approaches to Internet use-related problems, before and during the beginning of coronavirus disease 2019 (COVID-19). The objective is to provide an overview to facilitate a comprehensive and practical approach to these new trends to promote research, interventions, education, and prevention. It contains 40 papers, four reviews and thirty-five empirical papers and an editorial introducing everything in a rapid review format. Overall, the empirical ones are of a relational type, associating specific behavioral addictive problems with individual factors, and a few with contextual factors, generally in adult populations. Many have adapted scales to measure these problems, and a few cover experiments and mixed methods studies. The reviews tend to be about the concepts and measures of these problems, intervention options, and prevention. In summary, it seems that these are a global culture trend impacting health and educational domains. Internet use-related addiction problems have emerged in almost all societies, and strategies to cope with them are under development to offer solutions to these contemporary challenges, especially during the pandemic situation that has highlighted the global health problems that we have, and how to holistically tackle them.

Jews in China Irene Eber, 2019-10-21 Irene Eber was one of the foremost authorities on Jews in China during the twentieth and twenty-first centuries—a field that, in contrast to the study of the Jewish diaspora in Europe and the Americas, has been critically neglected. This volume gathers fourteen of Eber's most salient articles and essays on the exchanges between Jewish and Chinese cultures, making available to students, scholars, and general readers a representative sample of the range and depth of her important work in the field of Jews in China. *Jews in China* delineates the centuries-long, reciprocal dialogue between Jews, Jewish culture, and China, all under the overarching theme of cultural translation. The first section of the book sets forth a sweeping overview of the history of Jews in China, beginning in the twelfth century and concluding with a detailed assessment of the two crucial years leading up to the Second World War. The second section examines the translation of Chinese classics into Hebrew and the translation of the Hebrew Bible into Chinese. The third and final section turns to modern literature, bringing together eight essays that underscore the cultural reciprocity that takes place through acts of translation. The centuries-long relationship between Judaism and China is often overlooked in the light of the extensive discourse surrounding European and American Judaism. With this volume, Eber reminds us that we have

much to learn from the intersections between Jewish identity and Chinese culture.

The Jewish King Lear Jacob Gordin, Sophie Glazer, 2007-01-01 The Jewish King Lear, written by the Russian-Jewish writer Jacob Gordin, was first performed on the New York stage in 1892, during the height of a massive emigration of Jews from eastern Europe to America. This book presents the original play to the English-speaking reader for the first time in its history, along with substantive essays on the play's literary and social context, Gordin's life and influence on Yiddish theater, and the anomalous position of Yiddish culture vis-à-vis the treasures of the Western literary tradition. Gordin's play was not a literal translation of Shakespeare's play, but a modern evocation in which a Jewish merchant, rather than a king, plans to divide his fortune among his three daughters. Created to resonate with an audience of Jews making their way in America, Gordin's King Lear reflects his confidence in rational secularism and ends on a note of joyful celebration.

Cancer Vaccines Natalia Savelyeva,Christian Ottensmeier,2018-07-28 This volume focuses on the laboratory and clinical experience with targeting viral onco-antigens, while also reviewing the approaches to targeting self-cancer antigens in cancers of non-viral origin, where self-tolerance has been a challenge. In addition, the volume discusses the advances made with genetic vaccines, including recent advances with DNA vaccines and the rapid transition of mRNA vaccines from the laboratory to bedside.
